## GENERAL DESCRIPTION

The New Jersey Immunization Information System (NJIS) is a free, confidential, population-based online system that collects and consolidates vaccination data for New Jersey's children and adults. The NJIS is the state's official immunization registry per the Statewide Immunization Registry Act - NJAC 8:57, subchapter 3, pursuant to N.J.S.A. 26: 4-131 et seq. (P.L. 2004, c. 138). The NJIS maintains immunization data on New Jersey residents and consolidates immunization information reported from multiple providers into individual patient records to help ensure providers have accurate information for clinical decision support. The NJIS holds over 4 million patient records and tracks over 60 million doses of vaccines administered. It generates the official State immunization record and has over 11,500 medical providers registered in the system. Responsible for the development, implementation, and support of electronic data submission between NJIS and our stakeholders. The Centers for Disease Control and Prevention (CDC) has issued guidance indicating that COVID-19 vaccine distribution and accountability should be conducted through the state registry. New Jersey providers that are interested in receiving and administering COVID-19 vaccine will be required to register and report doses administered within NJIS. The purpose of this position is to assist providers through the NJIS onboarding process and improved data quality within the registry. This position is responsible for evaluating the quality of the data being sent through electronic data exchange to ensure immunization records are accurate and complete. The Administrative Analyst 2 will perform comprehensive quality review of NJIS interface submissions to ensure data quality (completeness, accuracy, and timeliness). Other anticipated duties include: Provide technical and program support to IIS partners that are onboarding to unit directional and bi-directional web-based immunization information exchange. Analyzes application issues and troubleshoots problems. Assist in the development of the COVID-19 provider enrollment module within NJIS. Promote and support efforts to implement interfaces with NJIS using HL7 bi-directional messaging to reduce barriers in collecting COVID-19 vaccine administration data, as directed. Plans, conducts, and develops analytical studies of existing operations/routines to determine feasibility for data processing and makes recommendations. Provides system support to users. Ensure data collection via interface is in accordance with HL7 specifications. Other duties related to NJIS as assigned.

## REQUIREMENTS (EDUCATION / EXPERIENCE / LICENSES)

**EDUCATION:** Graduation from an accredited college or university with Bachelor's degree.

**EXPERIENCE:** Two (2) years of experience involving the review, analysis, and evaluation of budget, organization, administrative practices, operational methods, management operations, or data processing applications, or any combination thereof, which shall have included responsibility for recommendation, planning, and/or implementation of improvements in a business or government agency.

**NOTE:** Applicants who do not possess the required education may substitute additional experience as indicated on a year-for-year basis with thirty (30) semester hour credits being equal to one (1) year of experience.

**NOTE:** A Master's degree in Public Administration, Business Administration, Economics, Finance, or Accounting may be substituted for one (1) year of indicated experience.

**LICENSE:** Appointees will be required to possess a driver's license valid in New Jersey only if the operation of a vehicle, rather than employee mobility, is necessary to perform essential duties of the position.

## IMPORTANT FILING INSTRUCTIONS
