GENERAL DESCRIPTION

The New Jersey Immunization Information System (NJIS) is a free, confidential, population-based online system that collects and consolidates vaccination data for New Jersey's children and adults. The NJIS is the state's official immunization registry per the Statewide Immunization Registry Act - NJAC 8:57, subchapter 3, pursuant to N.J.S.A. 26:4-131 et seq. (P.L. 2004, c. 138). The NJIS maintains immunization data on New Jersey residents and consolidates immunization information reported from multiple providers into individual patient records to help ensure providers have accurate information for clinical decision support. The NJIS holds over 4 million patient records and tracks over 60 million doses of vaccines administered. It generates the official State immunization record and has over 11,500 medical providers registered in the system. Oversight and management of the 4 Administrative Analysts 2 positions that are responsible for the development, implementation, and support of electronic data submission between NJIS and our stakeholders. The purpose of this position is to develop a COVID-19 vaccine module and assist providers through the NJIS onboarding process and improved data quality within the registry for providers who are interested in receiving and administering the COVID-19 Vaccine. This position is responsible for evaluating the quality of the data being sent through electronic data exchange to ensure immunization records are accurate and complete. Other anticipated duties include: Provide technical and program support to IIS partners that are onboarding to unidirectional and bi-directional web-based immunization information exchange. Analyzes application issues and troubleshoots problems. Will also assist in the development of the COVID-19 provider enrollment module within NJIS. Promote and support efforts to implement interfaces with NJIS using HL7 bi-directional messaging to reduce barriers in collecting COVID-19 vaccine administration data. Ensure quality assurance process for data collection via interface is in accordance with HL7 specifications. Prepare reports and presentations pertaining to COVID-19 data information and handles sensitive and complex program issues. Other duties related to NJIS as assigned.

REQUIREMENTS (EDUCATION / EXPERIENCE / LICENSES)

EDUCATION: Graduation from an accredited college or university with a Bachelor's degree.

EXPERIENCE: Three (3) years of experience in a health or social service-related program which shall have included responsibility for interviewing, investigating, and/or conducting public health care surveys or patient care services.

NOTE: Applicants who do not possess the required education may substitute additional experience as indicated on a year-for-year basis with thirty (30) semester hour credits being equal to one (1) year of experience.

LICENSE: Appointees will be required to possess a driver's license valid in New Jersey only if the operation of a vehicle, rather than employee mobility, is necessary to perform essential duties of the position.
