

Division of Mental Health and Addiction Services
Maternal Wraparound Program
Date of Final Award – July 7, 2017

Name of Program: Maternal Wraparound Program

Purpose: This Request for Proposals (RFP) sought to develop intensive case management and recovery support services for opioid dependent pregnant and postpartum women. Opioid dependent pregnant women will be eligible for services through the Maternal Wraparound Program (M-WRAP) during pregnancy and up to one year after birth event. This program combines intensive case management, wraparound services and recovery supports for opioid dependent pregnant/postpartum women. Intensive case management will focus on developing a single, coordinated care plan for pregnant/postpartum women, their infants and families. Intensive Case Managers will work as liaisons to all relevant entities involved with each woman. Recovery Support Specialists will provide non-clinical assistance and recovery supports while maintaining follow-up with the women and their infants.

The Division of Mental Health and Addiction Services (DMHAS) and the Department of Children and Families (DCF) will provide annualized funding of \$246,350. A contract was awarded in the Southern region of the State. The awardee will serve the following target counties in the Southern region: Atlantic, Burlington and Camden Counties. The counties were selected based on a high incidence of Neonatal Abstinence Syndrome (NAS) from 2014 data provided by the Division of Medical Assistance and Health Services and the number of unduplicated pregnant women seeking substance use disorder treatment in those counties during 2015 according to data from the New Jersey Substance Abuse Monitoring System.
