Subject: Share Your Feedback – NJ Food Security Strategic Plan Overview

Food security is a public health and economic mobility issue.

Since beginning its work in 2022, the New Jersey Office of the Food Security Advocate has strengthened collaborative efforts to address New Jerseyans' every day and long-term food needs. They are tasked by legislative mandate to develop a strategic plan that addresses identified resource and service gaps in areas that are underserved by current food security programs.

As a partner and stakeholder in this work, the New Jersey higher education community is invited to [preview the Strategic Plan overview](#) and [provide feedback](#). The State seeks your input on the key focus areas and strategies included, what may be missing, and how implementation should take shape in our communities and counties to strengthen food security across the state.
