

Housing Supports Level of Need Assessment Tool

INTRODUCTION

The Housing Supports Level of Need Assessment Tool was developed to address the critical need for a standardized, evidence-based method of assessing housing instability risks among Medicaid members in New Jersey.

This tool is also used to:

- Document eligibility for Pre-Tenancy and Tenancy Sustaining Services.
- Request MCO authorization and reauthorization for continued Pre-tenancy and Tenancy Sustaining Services.
- Classify individuals into two risk categories (Lower Level of Need and Higher Level of Need) to inform service provision and reimbursement under the state's 1115 Medicaid waiver program.

Instructions:

- Level of Need Assessment should be used to request continued authorization for services.
 - The assessment should be submitted within the first 30 days of service for authorization for the next 150 days.
 - The assessment should also be submitted for any reauthorization of services (i.e., due to continued need for services, after a change in provider, or after a meaningful change in member condition) lasting for 180 days.
 - Assessment should be filled out by a case manager employed by a Housing Supports program Pre-Tenancy or Tenancy Sustaining Provider who is authorized to deliver services to member.
- Case manager should answer questions based on an individual member.
 - Member should have previously been authorized for services; this assessment is used to continue authorized services.
 - Even if member is part of a household, please answer questions for the individual authorized for services. Providers may only bill for 1 member per household.
- For each answer, assign the points indicated in parentheses.
- Some questions may be answered based on observation (as noted).
- Once the assessment is completed, please tally all the points across all questions. Align this total with the scoring rubric in the appendix to designate whether the member is higher or lower need.

Note: To qualify for Housing Supports services, the member needs to demonstrate eligibility and must have completed the initial request for services. Eligibility for Housing Supports requests demonstrating:

- Medicaid and MCO enrollment.
- At least one social risk criteria (Section B).
- At least one clinical risk criteria (Section C).
