

Community-Based Palliative Care (CBPC)

Provider Training Session #2

Housekeeping and meeting logistics

- Feel free to **ask questions via the Q&A feature**; depending on time, we will either answer these live or respond to them offline after the call
- Session will be recorded; **recording and meeting materials will be circulated after the call**

**Welcome! Today
is our second in a
three-part training
series**

COMPLETE - Jan 20 – review recording [here](#)

- CBPC benefit overview
- Covered populations
- Provider requirements
- Key dates and resources

TODAY - Jan 27

- Brief recap of benefit
- Overview of Enrollment
- Overview of Contracting & Credentialing
- Frequently asked questions

UPCOMING - Feb 26 | 2–3 PM

- Care model and care Manager interaction
- Billing and claims processes, service authorization
- Provider tools and service authorization

Register for Training 3 at tiny.cc/CBPCtraining3

Additional provider information sessions (e.g., office hours) will be scheduled prior to and following go-live.

Agenda

- Quick recap of benefit and provider qualifications
- Process to become a CBPC provider
- NJMMIS CBPC Enrollment
- CBPC Credentialing Add-On
- Next steps for providers
- Frequently asked questions

Community-Based Palliative Care (CBPC) is designed to improve quality of life for Medicaid members with serious disease

The community-based palliative care benefit will provide team-based support for persons with serious disease:

- Help members with serious illness manage symptoms and navigate the care system by providing them an interdisciplinary care management team
- Unlike hospice, members do not need a terminal prognosis or to forgo curative treatment
- Available for both adult and pediatric members, MCO and FFS

Goals of the benefit:

- Improve quality of life
- Reduce acute care use

Launch: April 1, 2026

- Medicaid enrollment is targeted to open to providers on February 2
- On April 1, providers who have completed enrollment and credentialing may start to bill MCOs and begin delivering services to members

Recall | Interdisciplinary teams (IDTs) deliver a broad set of services to improve quality of life for people living with serious illness

Member eligibility

Both Managed Care Organization (MCO) and Fee for Service (FFS) members qualify for the benefit if they:

- Have a **serious disease**
- Show evidence of **reduced quality of life**:
 - In functional decline (e.g., significant difficulty with one (1) or more activities of daily living), OR
 - 2+ emergency department visits in past 6 mo., OR
 - 1+ acute hospitalization in past year
- A terminal diagnosis is not required
- NOTE: members may not simultaneously be in hospice and palliative care

Services & settings

CBPC is delivered in any **outpatient or community-based setting** by an **interdisciplinary team (IDT)** of providers

Example services include, but are not limited to:

- Comprehensive care planning and coordination
- Advance care planning discussions
- Symptom assessment and management
- Medication review: adjustments, titration, and prescribing
- Home-based or clinic-based visits by licensed IDT practitioners
- Psychosocial counseling and caregiver support
- Spiritual and emotional care
- Referral coordination to Medicaid-covered services
- Access to a 24/7 telephone line

See DMAHS Benefit Guidance for full detail on member eligibility and eligible services

Provider qualifications | In order to qualify for and participate in the CBPC benefit, providers must meet several criteria

Be a **licensed hospice agency, home health agency, physician group, or independent clinic**

- Hospitals and SNFs are not eligible to enroll
- FQHCs are excluded from year 1 of the program

IDT practitioner requirements—Be able to **deploy all required IDT practitioners**

Palliative care proficiency: Meet all requirements to **demonstrate sufficient proficiency in palliative care by following one of these two paths**

- **Entity-level:** Hold entity-level **certification from a nationally recognized body** specializing in palliative care (The Joint Commission, Community Health Accreditation Partner, Accreditation Commission for Health Care)¹ **OR**
- **Practitioner-level:** Submit proof of each required IDT practitioner's **individual certification** in palliative care **OR completed 12 Continuing Education Units (CEUs)** in palliative care²

Offer a **24/7 telephone line** to triage member issues

= detailed in dedicated subsequent sections

1. By a provider's re-validation after 3 years in the benefit, they must hold entity-level certification; individual practitioner proficiency will no longer be accepted at that point. 2. To count toward the 12 CEU requirement, training must have been completed in the last 12 months prior to application and must cover topic(s) from the DMAHS-approved list detailed in program guidance. Not all topics must be covered for a practitioner's training to be considered sufficient. Note: SNF = Skilled nursing facility, IDT = Interdisciplinary team

IDT practitioners | Providers must be able to deploy all required IDT roles

Medical Director

Lead Clinician

Registered Nurse

Mental Health Professional

Chaplain¹

Only required if serving pediatric patients

Child Life Specialist

Role	Serves as resource to team, including medical direction and facility oversight	Serves as team lead; responsible for directly rendering care and prescribing	Manages day-to-day care for member based on care plan	Provides mental health counseling for member based on care plan	Provides spiritual and emotional support to member and their families/caregivers	Supports children and adolescent, as patients or as family of a patient receiving CBPC
License / certificates	<ul style="list-style-type: none"> MD or DO license 	<ul style="list-style-type: none"> MD, DO, PA, or NP/APRN license Hospice / palliative care certification² DEA & CDS 	<ul style="list-style-type: none"> RN license 	<ul style="list-style-type: none"> LCSW, LPC, or LMFT license 	<ul style="list-style-type: none"> Board certification, Clinical Pastoral Education, or entity certified in palliative care / hospice³ 	<ul style="list-style-type: none"> Certified Child Life Specialist (CCLS) credential
Can be contracted?	Yes	No, must be employed	Yes	Yes	Yes	Yes
Required to enroll?	Yes – may be fulfilled by the same practitioner if appropriately qualified	No	Yes	No	No	No

1. Chaplains may be excused from a member's IDT at member request.

2. Lead IDT clinicians must hold one of four accepted hospice/palliative medicine certification types: MD/DOs (HPM, HMDC); NPs (ACHPN); PAs (CAQ).

3. Chaplains may qualify by either (a) holding an approved individual credential--Level II Clinical Pastoral Education (from an ACPE-accredited program) or healthcare chaplaincy certification (ACCC: BCC; NAVAC: BCC; SCA: BCC/Advanced Practice BCC; CASC: Certified Spiritual Care Practitioner; NAJC: BCC; APC: BCC; NACC: BCC), or (b) the entity holds hospice/palliative certification

Note: IDT = Interdisciplinary team; LCSW = Licensed Clinical Social Worker; LPC = Licensed Professional Counselor; LMFT = Licensed Marriage and Family Therapist

Palliative care proficiency | Certification and training requirements for required IDT practitioners

1

Does the provider entity hold palliative care certification from one of three nationally recognized bodies specializing in palliative care?:

- The Joint Commission (TJC)
- Accreditation Commission for Health Care (ACHC)
- Community Health Accreditation Partner (CHAP)

YES: no further verification of practitioner training or palliative care certification, **except for Lead IDT Clinician¹**

NO: proceed to verify practitioner palliative care certifications and/or training completion

2

Entities without palliative care certification will need to demonstrate for each member of the required IDT:

Individual certifications in hospice & palliative medicine

OR

Completion of 12 CEUs of palliative care-specific training within 12 months prior to application, among a DMAHS-provided list of approved topics²

Exact certifications accepted vary by individual practitioner

1. Regardless of an entity's palliative care certification, the Lead IDT Clinician must always hold practitioner certifications in hospice & palliative medicine. 2. To count toward the 12 CEU requirement, training must have been completed in the last 12 months prior to application and must cover topic(s) from the DMAHS-approved list detailed in program guidance. Not all topics must be covered for a practitioner's training to be considered sufficient.

Optional IDT practitioners| Providers may supplement the core IDT with optional practitioners based on the individual needs of members

Palliative care certification and/or 12 CEUs of training are **NOT** required for optional practitioners

If deployed, optional practitioners:

- Must be **appropriately credentialed and licensed** in New Jersey
- May be **employed, contracted, or subcontracted¹**, unless explicitly stated

Optional practitioners include:

- **Physician Assistant** (non-rendering)
 - *May not be subcontracted*
- **Nurse Practitioner** (non-rendering)
 - *May not be subcontracted*
- **Pharmacist**
- **Home Health Aide**
- **Certified Nursing Aide or Assistant**
- **Licensed Practical Nurse**
- **Community Health Worker**
 - *Must complete Colette Lamothe-Galette training; email interest to CLGI@doh.nj.gov*

1. Employed or contracted by an outside entity that the CBPC provider contracts

Agenda

- Quick recap of benefit and provider qualifications
- Process to become a CBPC provider
 - NJMMIS CBPC Enrollment
 - CBPC Credentialing Add-On
 - Next steps for providers
 - Frequently asked questions

NJ FamilyCare/NJ Medicaid has two delivery models

NJ FamilyCare is the name of the Medicaid Program in New Jersey, and includes core Medicaid, the Children's Health Insurance Program (CHIP), and Medicaid expansion populations. Medicaid services are provided through **two delivery models**:

Fee for Service (FFS)

- **Providers bill state** Medicaid directly for services
- In addition to certain services, used for **members not enrolled in a managed care organization (MCO)** and members with **presumptive eligibility**

~5% of NJFamilyCare members covered under FFS only

Managed Care Organizations (MCOs)

- Services managed by one of **5 MCOs**: Aetna, Fidelis, Horizon, United, WellPoint
- **Providers bill MCOs** for services; MCOs receive funding from state to **coordinate member care** and **offer special services** in addition to regular NJ FamilyCare benefits
- **MCOs responsible** for provider network management, care coordination and care management, utilization management, quality assurance, etc.

~95% of NJFamilyCare members enrolled in an MCO

To administer CBPC, providers must complete Fee for Service Enrollment, and are encouraged to Contract & Credential with MCOs

Enrollment: Process to join Fee For Service (FFS)

Enrollment: Process by which healthcare providers apply and become approved to deliver services to Medicaid beneficiaries

Enrollment in Medicaid and as a CBPC provider is **required** to offer CBPC to both FFS and MCO members

Contracting & Credentialing: Processes to join Managed Care Organizations (MCOs)

Contracting: Establishes a formal agreement between the healthcare provider and the MCO, defining the terms and conditions under which the provider will deliver healthcare services to the MCO's members

Credentialing: Process by which MCOs verify and assess qualifications, experience, and professional background of providers who wish to join their network

FFS enrollment is required **before contracting & credentialing** with MCOs
Providers are **encouraged** to participate with all five MCOs to promote access

Timeline | Providers invited to apply to enroll with NJ FamilyCare to become a FFS CBPC provider and join MCO networks starting early February

Clean applications can take ~45-60 days to process, so we recommend starting early to be in-network by April 1!

Agenda

Quick recap of benefit and provider qualifications

Process to become a CBPC provider

➤ NJMMIS CBPC Enrollment

CBPC Credentialing Add-On

Next steps for providers

Frequently asked questions

To become a provider for Community-Based Palliative Care, providers must enroll in NJMMIS FFS systems

Enrollment in FFS systems is required to serve both FFS and MCO members

- **Enrollment must come first** before credentialing with MCOs

Community-Based Palliative Care is **a specialty (code 999) that will be added to existing eligible types of providers** (i.e., hospice, home health, physician group, independent clinic)

CBPC-specific slip sheet will cover provider requirements outlined in these materials (e.g., entity-level information, IDT, palliative care qualifications, 24/7 hotline, optional practitioners)

Only **select practitioners must be enrolled individually** in addition to the provider entity:

- Medical Director (MD or DO)
- Lead IDT Clinician (MD, DO, NP, or PA)
- Licensed Mental Health Professional (LCSW, LPC, or LMFT)

Relevant information and documents for CBPC enrollment

High-level, non-exhaustive summary of key documentation requirements is below, but providers are encouraged to review the application

Entity	<ul style="list-style-type: none"> <input type="checkbox"/> (If applicable) Copy of entity license <input type="checkbox"/> (If held) Copy of entity certification in palliative care from ACHC, CHAP, or TJC <input type="checkbox"/> Attestation of 24/7 member telephone line 	
Practitioner	Documentation requirements	
Required practitioners	Medical Director	<ul style="list-style-type: none"> <input type="checkbox"/> Copy of licensure (i.e., MD, DO) <input type="checkbox"/> Copy of licensure (i.e., MD, DO, PA, NP) <input type="checkbox"/> Copy of palliative care certification (<i>always required regardless of entity certification</i>) <input type="checkbox"/> DEA & CDS registration
	Lead IDT Clinician	<ul style="list-style-type: none"> <input type="checkbox"/> Copy of licensure (RN)
	Registered Nurse	<ul style="list-style-type: none"> <input type="checkbox"/> Copy of licensure (i.e., LCWS, LMFT, LPC)
	Licensed Mental Health Practitioner	<ul style="list-style-type: none"> <input type="checkbox"/> Copy of Healthcare chaplaincy certification or Level II Clinical Pastoral Education (<i>only required if entity does not hold palliative care or Medicare-hospice certification</i>)
	Chaplain	<ul style="list-style-type: none"> <input type="checkbox"/> Copy of Certified Child Life Specialist (CCLS) credential
	Child Life Specialist (<i>required only for pediatric members</i>)	<ul style="list-style-type: none"> <input type="checkbox"/> (If employed/contracted) Copy of licensure
Optional to IDT	Nurse Practitioner (NP) ¹	<ul style="list-style-type: none"> <input type="checkbox"/> (If employed/contracted) Copy of certificate
	Physician Assistant (PA) ¹	<ul style="list-style-type: none"> <input type="checkbox"/> (If employed/contracted) Certificate of Completion from the Colette Lamothe-Galette CHW Institute and ≥6 months experience in community clinics, federally qualified health centers, and / or the Medicaid program
	Pharmacist	<ul style="list-style-type: none"> <input type="checkbox"/> (If employed/contracted) Copy of licensure
	Home Health Aide (HHA)	<ul style="list-style-type: none"> <input type="checkbox"/> (If employed/contracted) Copy of licensure
Optional to IDT	Licensed Practical Nurse (LPN)	<ul style="list-style-type: none"> <input type="checkbox"/> (If employed/contracted) Copy of certificate
	Certified Nursing Aide (CNA)	<ul style="list-style-type: none"> <input type="checkbox"/> (If employed/contracted) Certificate of Completion from the Colette Lamothe-Galette CHW Institute and ≥6 months experience in community clinics, federally qualified health centers, and / or the Medicaid program
	Community Health Worker (CHW)	<ul style="list-style-type: none"> <input type="checkbox"/> (If employed/contracted) Copy of licensure
		<ul style="list-style-type: none"> <input type="checkbox"/> (If employed/contracted) Copy of certificate

1. Non-rendering, may not be subcontracted

Submit application to Gainwell to complete process

Compile your enrollment application

Application

Required documents

For questions related to FFS provider enrollment, contact the Gainwell Technologies Provider Enrollment Unit

njmmisproviderenrollment@gainwelltechnologies.com

(609) 588-6036

Estimated processing time for clean applications = 15 business days

Check enrollment status: Visit the [**Provider Enrollment Application Status**](#) page on the NJMMIS website and enter your **EIN/SSN** and the **reference number** received upon application submission

Agenda

- Quick recap of benefit and provider qualifications
- Process to become a CBPC provider
- NJMMIS CBPC Enrollment
- CBPC Credentialing Add-On
- Next steps for providers
- Frequently asked questions

**To join MCO networks,
providers must
complete the CBPC
credentialing add-on
and execute
contracting**

To drive consistency and reduce burden for providers, **all MCOs will be using the same CBPC credentialing add-on form**

- The form is an add-on, meaning it is CBPC-specific, and supplements typical information MCOs collect in base credentialing applications

In-network providers already participating as one of the four accepted provider types need **only complete the CBPC add-on form** and provide required palliative care documentation to the MCO

In addition to credentialing, **providers must execute contracts** (new or addendum) with each MCO outlining payment, authorization, and care coordination

Today we will be doing a deep dive on the Credentialing Add-On

Credentialing add-on has four major components for MCO validation

Entity or clinician	Provider entity	Required IDT practitioners	Optional IDT practitioners	Subcontracted practitioners (optional ²)
Relevant form sections	1A – 1C	2A – 2B	2C	2D
Summary of what will MCOs will collect & validate	<ul style="list-style-type: none"> Identifying information <i>If applicable:</i> Entity certification in palliative care <i>If no entity certification:</i> confirmation of required IDT practitioner certification <u>and/or</u> training completion¹ Attestation of 24/7 hotline 	<ul style="list-style-type: none"> Identifying information License Palliative care certification <u>and/or</u> training completion¹ Employment type (employed or contracted) 	<ul style="list-style-type: none"> Identifying information License <u>and/or</u> certification Employment, contracted, or subcontracted 	<ul style="list-style-type: none"> If applicable, details of subcontracted organization and roles subcontracted

1. Recall, Lead IDT clinician always required to demonstrate individual certification in hospice and palliative medicine; if entity does not hold entity-level certification, then required IDT practitioners must demonstrate individual certification or completion of 12 CEUs of training in palliative topics within past 12 months. 2. Subcontracting only available as an option for optional IDT practitioners

Live review of CBPC Credentialing Add-On

NJFAMILYCARE

Provider Credentialing: Palliative Care Add-On Form

NJ FamilyCare Community Based Palliative Care

Palliative care is extra support for people with serious illnesses. It helps manage symptoms, reduce stress, and works with other treatments. An interdisciplinary care management team listens to what matters to the member and supports their choices—so they can focus on quality of life.

The Community Based Palliative Care (CBPC) benefit will provide team-based support for persons with serious disease. It will help members manage symptoms and navigate the care system.

Purpose of the Palliative Care Credentialing Add-On

This document outlines the CBPC-specific fields that MCOs will need to verify through credentialing. These fields are meant to supplement the typical information and documents that MCOs collect in credentialing hospices, home health agencies, etc. MCOs may choose to perform additional verification during the contracting process.

Agenda

- Quick recap of benefit and provider qualifications
- Process to become a CBPC provider
- NJMMIS CBPC Enrollment
- CBPC Credentialing Add-On
- Next steps for providers
- Frequently asked questions

Provider checklist | What should providers do now to prepare for entry into the CBPC benefit?

- Register for next DMAHS training:**
 - **Feb 26 | 2–3 PM** — topics include Care Manager interaction, billing and claims processes, service authorization, and provider tools → Register at tiny.cc/CBPCtraining3
- Review previous DMAHS trainings**
 - **Jan 20** — covered CBPC benefit overview, covered populations, provider requirements, and key dates and resources → View recording at [CBPC Training 1 Recording](#)
 - **Jan 27 (Today)** — covered NJMMIS enrollment, MCO credentialing forms, and application documentation requirements → Recording will be made available after today's session
- Review Interdisciplinary Team (IDT) requirements and begin hiring if needed** (e.g., RN, chaplain, licensed mental health professional)
- If entity is not certified in palliative care** - ensure all required IDT members have completed **necessary CEUs of training** (*can take ~1 month to complete*) **or hold palliative care certification**
- Review DMAHS guidance and other resources** (see next slide) **for details of the benefit**
- Begin preparing supporting documentation for enrollment and credentialing applications** – targeted to start **February 2** (clean applications can take ~45–60 days to process, so we recommend starting early to be in-network by April 1)

Review DMAHS- shared resources

CBPC Infosheet

A brief, three-page overview of the CBPC benefit outlining covered services and populations, provider requirements, and next steps

Comprehensive Program Guidance

Comprehensive overview of the benefit, including covered populations and services, member journey, payment and billing, provider enrollment and credentialing, quality and reporting, and MCO care management

FAQs

Concise answers to common provider questions about CBPC eligibility, services, billing, documentation, and operational requirements

Training Resources

A non-exhaustive list of training organizations offering CEUs for practitioner education on approved palliative care topics

Credentialing Add-on

A standardized, CBPC-specific credentialing form used by all MCOs to collect and validate required provider entity and interdisciplinary team licensure and certification

Agenda

- Quick recap of benefit and provider qualifications
- Process to become a CBPC provider
- NJMMIS CBPC Enrollment
- CBPC Credentialing Add-On
- Next steps for providers
- Frequently asked questions

FAQs | Which services must be in-person vs. telehealth?

- The **initial assessment and all reassessments** must be conducted **in-person** by any MD, DO, APN, PA, or LCSW
- Once a member is receiving the benefit, the **Lead IDT Clinician must meet in person** with the member for the **first interaction**
 - If the Lead IDT Clinician conducted the initial assessment, this may count as the first in-person interaction
- **After the first in-person interaction**, the monthly IDT-member interactions may be completed in person or via telehealth, **if telehealth is deemed acceptable by both the member and provider**

CBPC providers should ensure telehealth is accessible for all members planning to use this method

Backup | Assessments must be completed in-person; telehealth is allowable at the member's discretion for regular interactions

Required activity	Details	In-person vs. telehealth	Documentation	Frequency
Initial assessment & re-assessment	<ul style="list-style-type: none"> Initial assessment, done via the Comprehensive Medical Assessment Tool, determines a member's eligibility for CBPC Assessment captures diagnosis and severity, recent utilization or decline, key needs, and care goals Can be completed by any MD, DO, APN, PA, or LCSW 	In-person	Submission of Comprehensive Medical Assessment Tool to MCO	Once; reassessment is required at least every six months for benefit reauthorization
Care plan	<ul style="list-style-type: none"> Individualized plan created by the IDT using the standard Care Planning Tool across symptom domains and addresses social factors and resource needs Documents interventions, referrals, resources provided, upcoming IDT meetings, and patient follow-up dates Lead IDT clinician must meet with the member and sign off on the care plan Care plan should be shared with MCO CM for signoff 	In-person (for Lead IDT-member interaction)	EHR chart note and fields in care plan document maintained by provider entity	At least every 6 months; must be done within 1 month of member enrollment and re-assessment
IDT-member interaction	<ul style="list-style-type: none"> Monthly meetings between the member and practitioner(s) from the IDT 	In-person or telehealth, if deemed acceptable by both the member and provider	EHR chart note	Monthly – required for PMPM claim to be accepted
IDT Meeting	<ul style="list-style-type: none"> Internal IDT meetings with the MCO CM to discuss care planning 	May be virtual	EHR chart note; updates sent to other providers and MCO	Monthly – required for PMPM claim to be accepted

Frequently asked questions for enrollment & credentialing

Questions	Answers
If I'm already enrolled in NJMMIS , do I have to enroll again to offer CBPC?	All provider entities must enroll in CBPC to administer the benefit and earn the CBPC specialty code
If I'm already in-network with MCOs , do I need to re-credential?	Already in-network providers must add the CBPC specialty using the DMAHS-designated credentialing add-on form In-network providers need only the CBPC add-on and required palliative care documentation
What comes first – enrollment or credentialing?	Enrollment in NJMMIS FFS systems must come first , before credentialing with MCOs
How do I check my enrollment status?	Visit the Provider Enrollment Application Status page on the NJMMIS website and enter your EIN/SSN and the reference number received upon application submission

Frequently asked questions for certification and training

Questions	Answers
<p>When is entity-level certification in palliative care required for CBPC?</p>	<p>While entity-level certification for palliative care is not required at initial enrollment, it is required upon re-validation within 3-years</p>
<p>Our palliative care program operates under the same tax ID as our Hospice but bills under a different group NPI number. Would the TJC/ACHC/CHAP entity certification need to be affiliated with the tax ID or group NPI?</p>	<p>Correction from prior training; the entity-level certification should be for the group NPI of the entity that is credentialing and billing, not TIN</p>
<p>Does the Lead IDT clinician always need to be certified in palliative care?</p>	<p>Yes; regardless of whether the entity holds a certification in palliative care (e.g., TJC, ACHC, CHAP), the lead IDT clinician must hold one of the following certifications:</p> <ul style="list-style-type: none"> • MD/DOs: HPM, HMDC • NPs: ACHPN • PAs: CAQ
<p>How recently do practitioners need to complete the 12 CEUs of training?</p>	<p>Within the last 12 months prior to application</p>

Appendix: Incremental materials from CBPC Training #1

Covered populations | Members can qualify for the benefit if they have serious disease and show evidence of reduced quality of life

1 Have a serious disease diagnosis (non-exhaustive list)

Adults: Alzheimer's or dementias, Cancer (stage III or IV), COPD, Congestive Heart Failure, Cirrhosis or liver disease, Diabetes, ESRD or chronic kidney disease, stroke, AIDS, degenerative neurological condition

Children: Pulmonary Disease, Cardiac Disease, Neonatal, End-stage Liver Disease, Genetic Disorders, Renal Disease, Metabolic/Inclusion Disease, Infectious Disease, Cancer, Orthopedic Disorders, Gastrointestinal Disease, Neurological Disorder

2 Show evidence of reduced quality of life

Demonstrated by one or more of the following:

- Evidence of **functional decline** (e.g., difficulty with at least one activity of daily living)
- **Hospitalization** within past year
- **Two or more ED visits** in past 6 months

Providers will use the **Comprehensive Medical Assessment tool** (discussed further in Training 3) to make an eligibility determination for CBPC. Providers and MCOs can also **make individual determinations of medical necessity** based on the member's condition, even if the above criteria (and those in the Medical Assessment tool) are not met¹

1. MCOs can enroll members both if the member has an uncovered disease (e.g., for rare diseases) or if they do not meet the functional decline / acute care use criteria but the MCO believes that care would be beneficial

Covered services | CBPC covers a broad set of services delivered by an interdisciplinary team (IDT) in non-inpatient settings

Comprehensive care planning and coordination

Advance care planning discussions

Symptom assessment and management

Medication review: adjustments, titration, and prescribing

Home-based or clinic-based visits by licensed practitioners

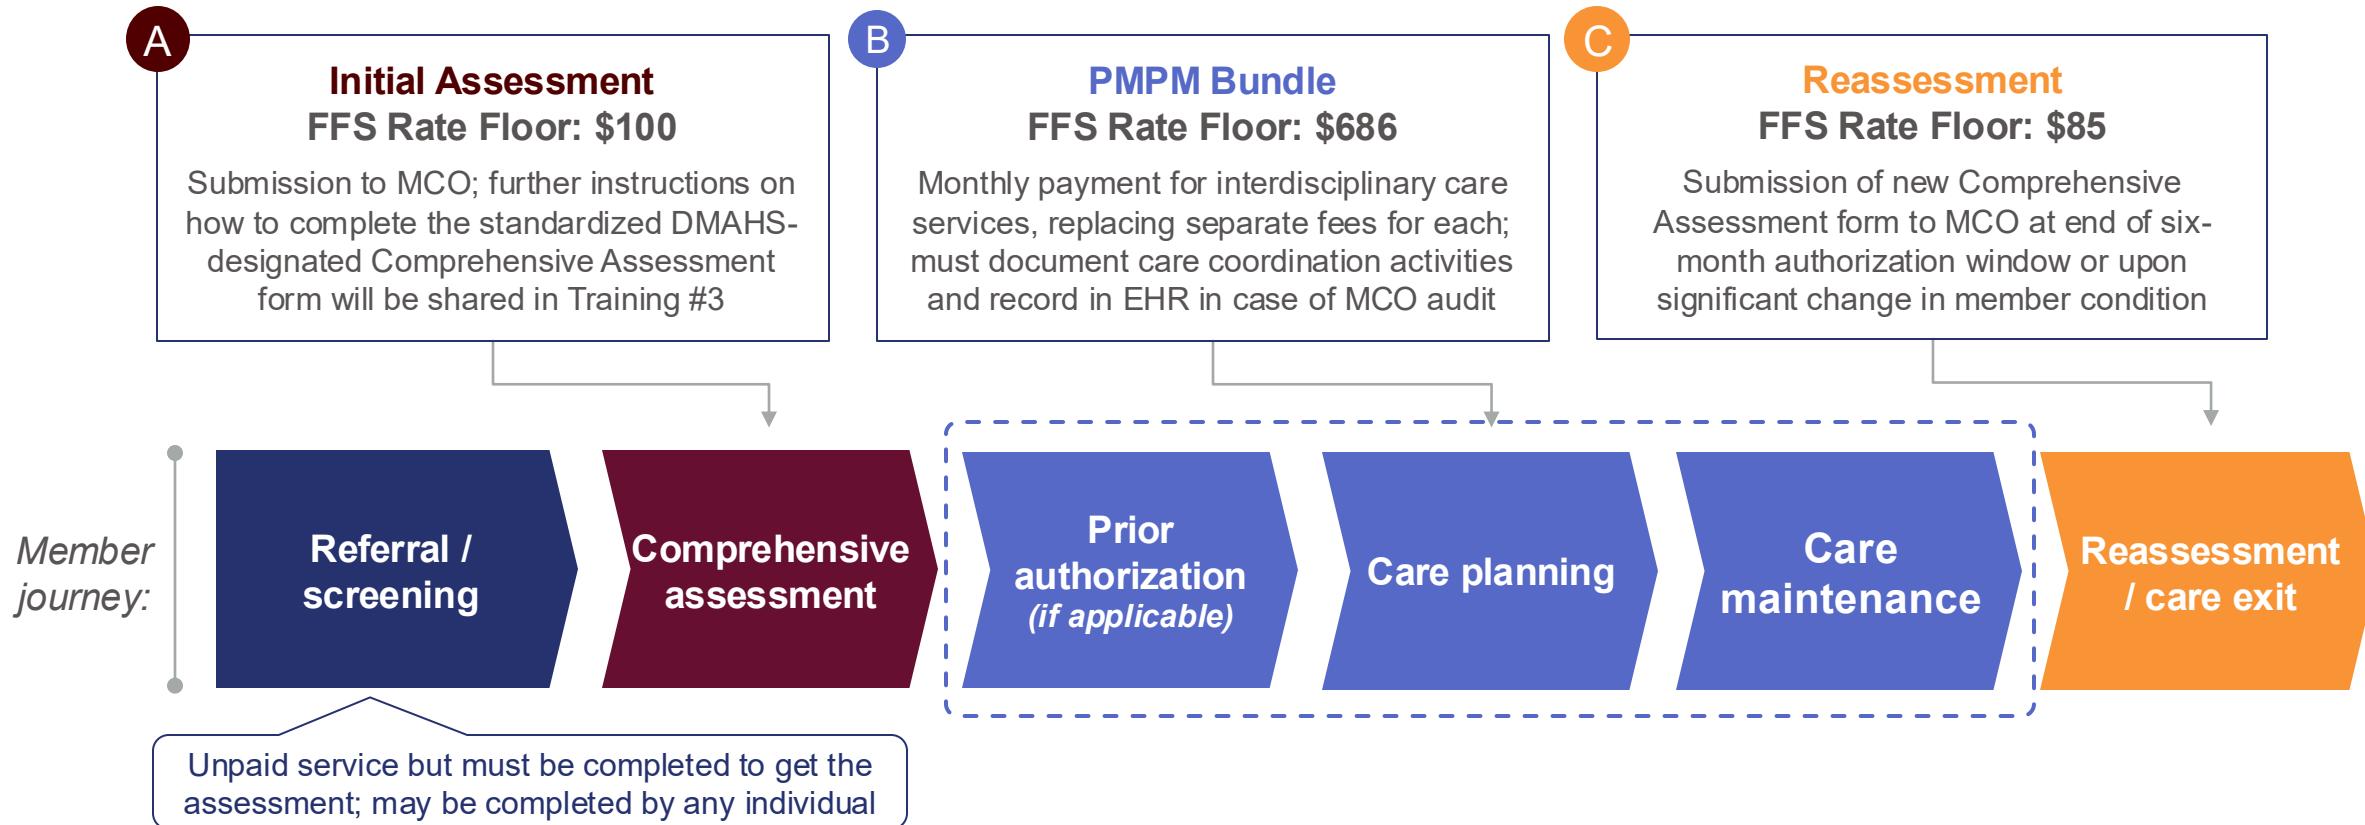

Psychosocial counseling and **family/caregiver support**

Spiritual and emotional care

Referral coordination to Medicaid-covered services

Access to **24/7 telephone line**

Billing | Providers bill for the initial assessment, ongoing Per Member Per Month (PMPM) bundled services, and periodic reassessments

Training #3 will provide a more detailed view of the required activities to receive payment and billing processes, including how to bill concurrent services (e.g., MLTSS)

1. Initial assessment is capped at one per member-provider combination per quarter, and MCOs may use a 90-day window for authorization; prior authorization of the assessment is not permitted
 2. Reassessment is capped at one per member-provider combination per month, and MCOs may use a 30-day window
 3. Of the 5 MCOs, 4 will require prior authorization for the PMPM bundle

IDT practitioners | Providers must be able to deploy all required IDT roles

Medical Director

Lead Clinician

Registered Nurse

Mental Health Professional

Chaplain¹

Only required if serving pediatric patients

Child Life Specialist

Role	Serves as resource to team, including medical direction and facility oversight	Serves as team lead; responsible for directly rendering care and prescribing	Manages day-to-day care for member based on care plan	Provides mental health counseling for member based on care plan	Provides spiritual and emotional support to member and their families/caregivers	Supports children and adolescent, as patients or as family of a patient receiving CBPC

★ = deep dive to follow

1. Chaplains may be excused from a member's IDT at member request

Note: IDT = Interdisciplinary team; LCSW = Licensed Clinical Social Worker; LPC = Licensed Professional Counselor; LMFT = Licensed Marriage and Family Therapist

Deep dive | Lead IDT Clinicians must hold one of four accepted hospice / palliative medicine certification types – depending on their license

Certification for MD/DOs

1 Board Certification in Hospice and Palliative Medicine (HPM)

- Any American Board of Medical Specialties (AMBS) member board HPM subspecialty certificate

2 Hospice Medical Director Certified (HMDC)

- Issued by Hospice Medical Director Certification Board

Certification for NPs

3 Advanced Certification in Hospice and Palliative Nursing (AChPN)

- Certification issued by the Hospice & Palliative Credentialing Center

Certification for PAs

4 Certificate of Added Qualifications (CAQ) in Palliative Medicine & Hospice Care

- Issued by the National Commission on Certification of Physician Assistants (NCCPA) as a specialty certification

Recall: In addition to the hospice / palliative medicine certification, a Lead IDT clinician must hold an **MD, DO, PA, or NP/APRN license** and **active DEA and CDS registration**

Deep dive | Chaplains may qualify by holding one of the approved individual credentials or by the entity holding hospice or palliative certification

Individual credentials options

OR

Entity-level certification options

1 Level II Clinical Pastoral Education

- Must be from a program accredited by the Association for Clinical Pastoral Education

2 Healthcare chaplaincy certification

- ACCC: BCC, Board Endorsed Clinical Chaplain
- NAVAC: BCC, Certified Clinical Chaplain
- SCA: BCC, Advanced Practice BCC
- CASC: Certified Spiritual Care Practitioner
- NAJC: BCC
- APC: BCC
- NACC: BCC

3 Medicare hospice certification

- Issued by the Center for Medicare and Medicaid Services

4 Palliative Care Certification

- The Joint Commission: Palliative Care Certification
- Community Health Accreditation Partner: Palliative Care Certification
- Accreditation Commission for Health Care: Palliative Care Distinction or Accreditation

**Optional IDT practitioners|
Providers may supplement the core IDT with optional practitioners based on the individual needs of members**

If deployed, optional practitioners:

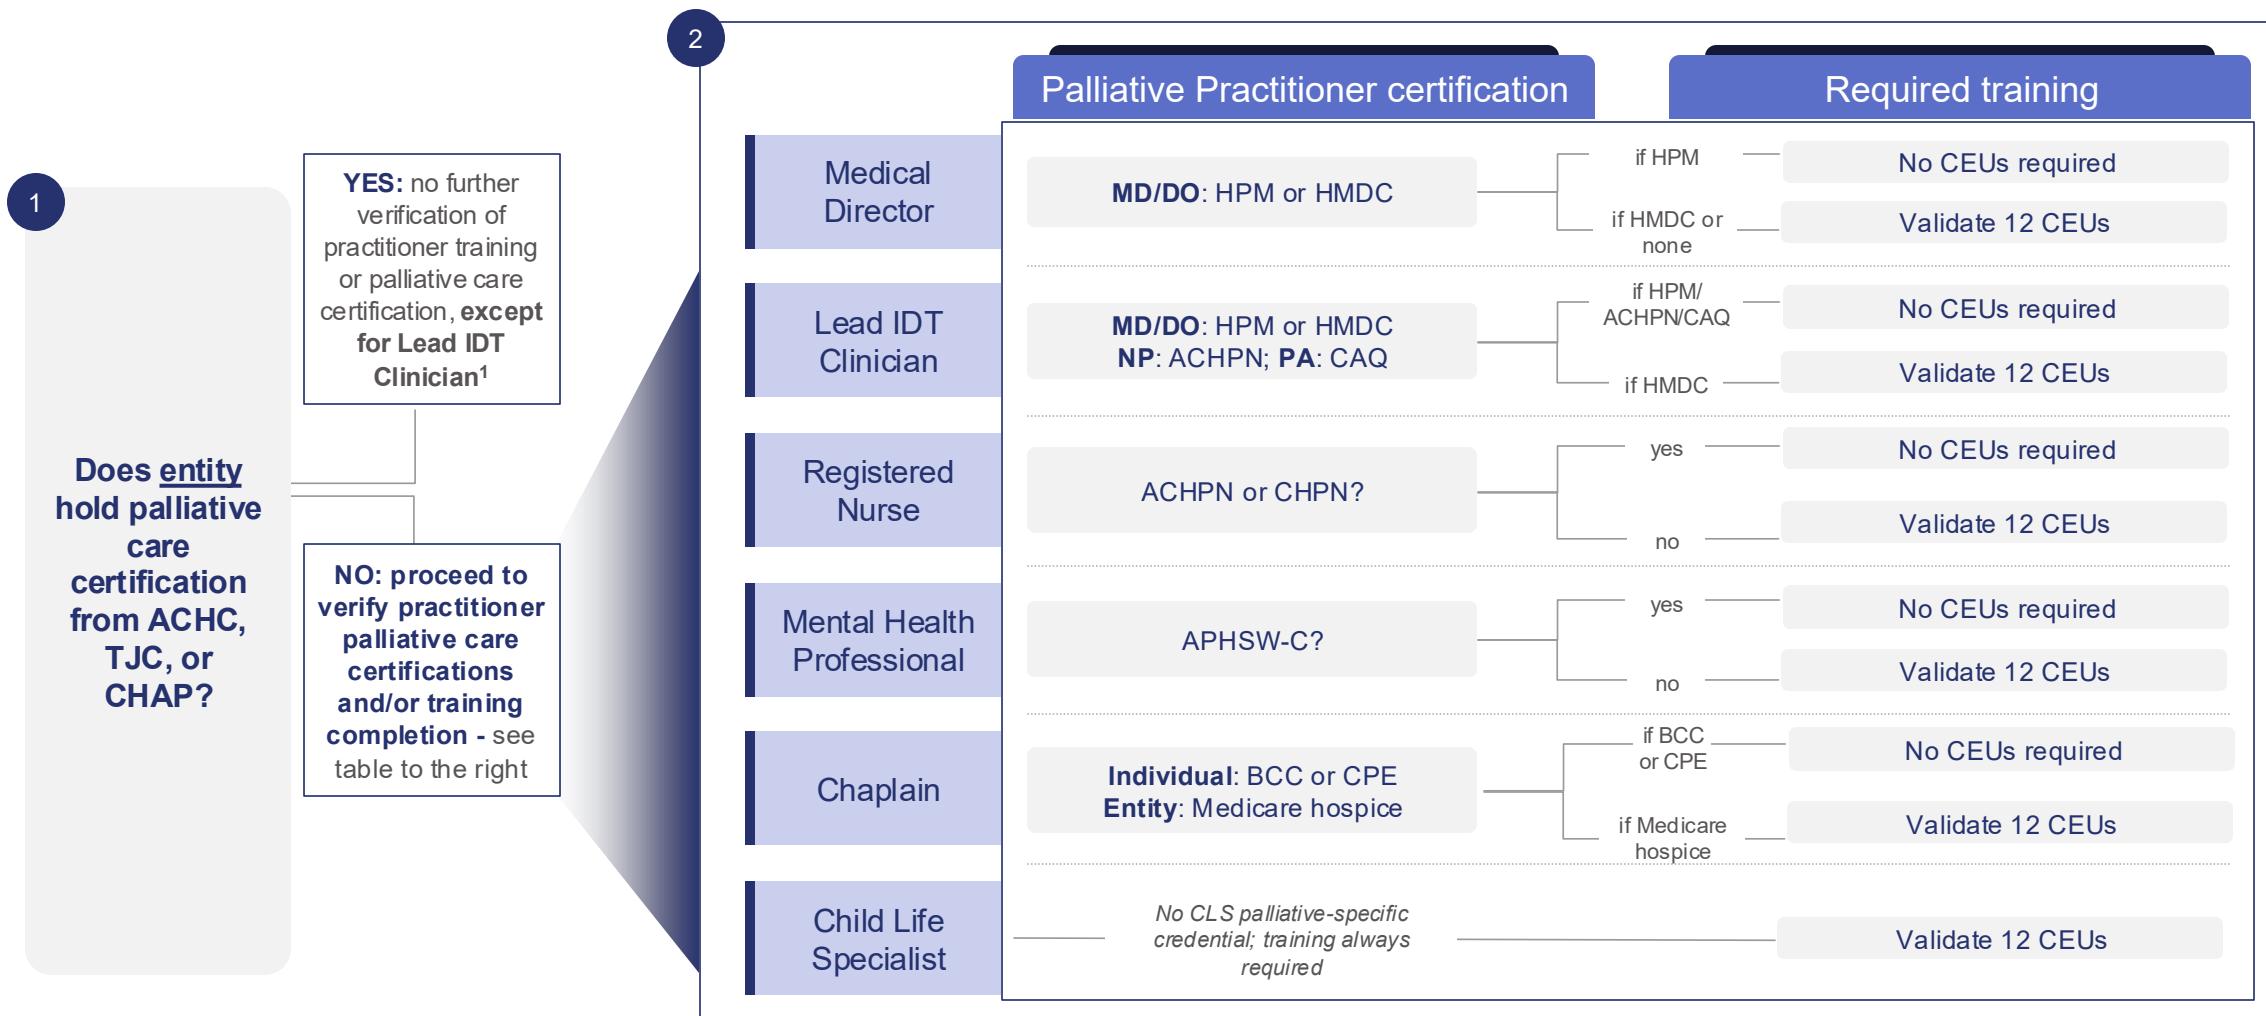

- Must be **appropriately credentialed and licensed** in New Jersey
- May be **employed, contracted, or subcontracted¹**, unless explicitly stated

Optional practitioners include:

- **Physician Assistant** (non-rendering)
 - *May not be subcontracted*
- **Nurse Practitioner** (non-rendering)
 - *May not be subcontracted*
- **Pharmacist**
- **Home Health Aide**
- **Certified Nursing Aide or Assistant**
- **Licensed Practical Nurse**
- **Community Health Worker**
 - *Must complete Colette Lamothe-Galette training; email interest to CLGI@doh.nj.gov*

1. Employed or contracted by an outside entity that the CBPC provider contracts

Detail | Certification and training requirements for required IDT practitioners

1. Regardless of an entity's palliative care certification, the Lead IDT Clinician must always have one of the practitioner certifications listed above

Note: **ACHC** = Accreditation Commission for Health Care; **TJC** = The Joint Commission; **CHAP** = Community Health Accreditation Partner;

HPM = Board Certification in Hospice & Palliative Medicine; **CHMD** = Certified Hospice Medical Director; **ACHPN** = Advanced Certified Hospice and Palliative Nurse;

CAQ = Certificate of Added Qualifications in Palliative Medicine & Hospice Care; **CHPN** = Certified Hospice & Palliative Nurse; **APHSW-C** = Advanced Palliative Hospice Social Worker – Certified;

BCC = Board Certified Chaplain; **CPE** = Clinical Pastoral Education (Level II); **CLS** = Child Life Specialist; **CEU** = Continuing Education Unit

Training | Practitioners subject to training requirements must have completed 12 CEUs on approved topics within 12 months prior to application

All courses that count towards the 12 CEU requirement must cover topics from this list; however, not all topics must be covered for a practitioner's training to be considered sufficient

- Pain & symptom management
- Opioid safety
- Psychosocial support
- Spiritual care
- Cultural humility
- Serious illness communication
- Grief & bereavement

- Ethics & legal issues
- Advance care planning
- Crisis intervention
- Interdisciplinary teamwork
- Documentation standards
- Infection control
- Staff wellness

Training Resources Document: Following the webinar, DMAHS will share a **non-exhaustive list of palliative care training organizations**; providers may use **any organization offering CEUs** and training covering the above topics
