### **Relevant Information**

### **Care Coordination**

- Coordination of Care for mental health and substance use disorder services for all members continues as currently required in Article 4.4, Article 9 (MLTSS) and Article 10 (FIDE SNP) of the MCO contract regardless of MCO benefit coverage.
- Within the Care coordination Workgroup, the MCOs are meeting with the Interim Managing Entity (IME) and Children's System of Care (CSOC) to develop procedures to coordinate care of members.

20

### **IMD Clarification for Psychiatric Inpatient Services**

- Coverage of the psychiatric inpatient services in an IMD (free standing psychiatric hospital) is allowable with the CMS Medicaid and CHIP Managed Care Final Rule through "In Lieu of Services" (ILOS).
- The MCOs will cover the inpatient psychiatric care in an IMD and the State will determine the appropriateness of receiving financial federal participation (FFP) for the capitation paid while the recipient is in an IMD.
  Capitation may be claimed for any stay 15 days or less in a calendar month.

### **Substance Use Disorder Waiver**

- While changes to the SUD Waiver are significant, changes to the SUD benefit in the MCOs for MLTSS, FIDE-SNP and DDD support the State's efforts to align the benefit packages for these special populations.
- In the future, Long Term Residential Services (ASAM 3.5) may be added to the SUD continuum of MCO covered services for these populations.
- The State will be working with the MCOs to collect performance measures relevant to the SUD Waiver for the covered services and populations.

### **Prior Authorization/Utilization Review**

- For members admitted as an emergency admission, prior authorization is not required but may be requested to ensure benefit coverage
- Hospital providers must contact MCO within 24 hours to notify them of the admission and to allow utilization review
- Emergency or psychiatric screening center staff do not need to obtain a prior authorization for admission

### **Prior Authorization/Utilization Review**

- Psychiatric Commitment or legal status is required to be covered by the MCOs for a Medicaid member.
- MCO staff are required to coordinate aftercare with the treatment team and discharge planning staff.
- Coverage of the PES service remains in FFS unless the PES is in the same hospital as the admission. Then the PES costs is rolled into the cost of the admissions.

## **Continuity of Care**

**Definition:** The plan of care for an enrollee that should assure progress without unreasonable interruption

The Contractor shall ensure continuity of care and full access to primary, behavioral, specialty, MLTSS and ancillary care as required under this contract and access to the full administrative programs and support services offered by the Contractor for all its lines of business and/or otherwise required in their this contract.

Source: Article 2.B of the July 2017 NJ FamilyCare Managed Care contract

## **Clinical Criteria**

- For Medicaid individuals seeking Substance Use Disorder (SUD) Services, the American Society of Addiction Medicine (ASAM) and LOCI-3 level care criteria is required to be used by the MCOs and SUD providers.
- Medical Necessity Criteria for all others admissions is used by the MCOs as described in the definition in Article 1 of the Medicaid Managed Care Contract.

26

### **Claims Payment**

- Rates for services are coordinated through contracts with the MCOs.
- There are no changes related to Third Party Liability for reimbursement.
- If a provider is not in network but member is receiving services that are now covered through the MCO, the MCO and provider can pursue a Single Case Agreement at rates negotiated by the MCO and provider until an innetwork contract can be completed.

### **Hospital Services**

- **Observation** In the FFS program, NJ FamilyCare makes observation payments for up to 48 hours. The payments are based on individual hospitals cost to charge. MCOs and hospital providers will determine contract terms and negotiate a rate for reimbursement of this service.
- Intermediate Inpatient Unit (IIU) In the event that a child is discharged from an acute care hospital to an I.I.U., the MCO will be responsible for the admission in the acute care hospital, and NJ FamilyCare FFS will pay the cost of the admission to the I.I.U.

### **Hospital Services**

- Non-Acute/Administrative Any stay longer than the average length of stay for the DRG is paid at the administrative per diem rate. Currently NJ FamilyCare makes administrative payments in the FFS program. MCOs and hospital providers will determine contract terms and negotiate a rate for reimbursement of this service.
  - At least one acute inpatient hospital day (24 hours) must immediately precede an administrative day (exception with DCP&P involved children). No direct admissions into administrative level of care.
  - Administrative days are for uncontrollable delays in discharge and are not approved for the convenience of the patient, their family or the hospital and their staff.

### Non-Acute/Administrative Hospital Services

Discharge Scenario	Payment Option
Appropriate for discharge but awaiting placement with appropriate supports	Administrative rate- dependent on care provided and reason for delays
Awaiting placement in Long Term Psych (State or County psychiatric facility)	Acute rate
Court ordered but not meeting criteria	Acute rate
Child with DCP&P placement issues	SNF rate shall be paid after the determination is made that the individual no longer meets an acute level of care but is awaiting placement through DCP&P. This payment does not require an initial clinically acute day.
