

Recovery Network

for the Deaf, Hard of Hearing,
and Hearing Loss.

Substance use treatment
and support program

Recovery Network for the Deaf, Hard of Hearing, and Hearing Loss program educates the deaf community about the influences of addiction and offers treatment and support to individuals experiencing problems with drugs and alcohol.

Recovery Network provides:

- Assessment & placement to recovery services
- Integrated substance use and mental health care
- Individual and group counseling
- Relapse prevention planning
- Family Support
- 12-step meetings in ASL

For over 20 years, Recovery Network for the Deaf, Hard of Hearing, and Hearing Loss has offered recovery services throughout New Jersey. All services are provided by staff who are fluent in American Sign Language (ASL) and culturally sensitive to the Deaf community.

Counselors offer individual and group assessment, as well as support and advocacy for people transitioning into and out of treatment.
