

**Additional free benefits
if your doctor
accepts assignment:**

Alcohol Misuse Screening and Counseling

One alcohol misuse screening annually and up to four brief face-to-face counseling sessions per year with your doctor for those who could benefit from the sessions based on the results of the initial screening

Obesity Screening and Counseling

If your body mass index (BMI) is 30 or more, you can get face-to-face behavioral therapy visits with your doctor for up to 12 months to help you lose weight

STI Screening and Counseling

Testing for sexually transmitted infections for those at increased risk for an STI or those who are pregnant. Medicare also covers up to two individual counseling sessions with your doctor per year for those meeting certain criteria

Diabetes Prevention Program

Medicare covers counseling for those who have BMI of at least 25 or blood test showing pre-diabetes

Vaccines

Medicare Part B covers the full cost for vaccines for Covid-19 and Medicare Part D covers the full cost for vaccines for shingles, TDAP (tetanus, diphtheria whooping cough and pertussis), and MMR (measles, mumps and rubella)
