Notice of Availability of Grant Program Funds

Take Notice that, in compliance with N.J.S.A. 52:14-34.4 et seq., the Department of Labor and Workforce Development (hereinafter “the Department” or “LWD”) regularly publishes on its website at <http://lwd.dol.state.nj.us/labor> all notices of fund availability pertaining to Federal or State grant funds which may be awarded by the Department. The notices of fund availability may be found on the Department’s website under the heading “Public Notices” and the subheading “Notice of Grant Opportunity”.

A. Name of Grant Program

The Youth Transitions to Work (YTTW) program is a competitive grant offered by the Department of Labor and Workforce Development (LWD).

B. Purpose of the Grant

Grant funds will be awarded to successful applicants responding to this competitive Notice of Grant Opportunity (NGO). The purpose of the YTTW program is to provide greater opportunities and incentives for high school juniors and seniors and to facilitate effective transitions by high school seniors to high-skill, high-wage employment in labor demand, apprenticeable occupations.

Mission, Goals and Objectives

The mission of the YTTW program is to recruit, screen and facilitate effective transitions of high school juniors and seniors to high-skill, high-wage employment in labor demand occupations, with long-term career potential and opportunities for occupationally relevant lifelong learning, thereby motivating youth to greater success in secondary and post-secondary education.

This competitive NGO is being made available to accomplish any of the following primary goals:

- Establish YTTW programs to link secondary education and higher education institutions to existing apprenticeship programs registered with the United States Department of Labor (USDOL);
- Establish YTTW programs in new apprenticeship programs in occupations or industries in New Jersey (NJ) which are not currently registered with the USDOL;
- Establish YTTW programs in newly activated apprenticeship programs which are registered with the USDOL but are not currently being implemented in NJ; or,
- Increase the number of high school graduates entering apprenticeship programs in NJ.

The LWD has established the following objectives for the YTTW program:

- Provide outreach sessions at local high schools to expose targeted high school juniors and seniors to the apprenticeship training model and apprenticeship occupations;
- Interview and screen potential juniors and seniors interested in enrolling in the YTTW program;
- Develop an applied and integrated curriculum with the local high schools working in partnership with business, industry and labor;

- Conduct workforce readiness and occupation-specific classroom training to high school juniors and seniors accepted into the YTTW program;
- Make available field trips to provide job-shadowing experiences at training centers and employer worksites;
- Place graduating high school seniors into existing, newly created, and/or newly activated apprenticeship programs with employer and union partners; and
- Provide training that leads to certifications, licenses and/or college credits.

Expected Long Term Goals

- A highly-skilled workforce with increased availability of qualified entry-level, youth workers;
- Effective transitions for youth into apprentice programs, by helping students establish a clear connection between learning and work through work readiness, employment experience, career exploration, and mentoring;
- Increased employment opportunities for youth in existing or new apprenticeable industries; and
- Recognition of registered apprenticeship as a key component of New Jersey's Workforce Readiness System.

C. Available Funding

The YTTW program is a two-year cycle. The amount of funding available for FY2019 is approximately \$1,500,000 and will be funded by a combination of state and/or federal funds and is contingent upon their availability. YTTW programs will be considered for a year two continuance of up to an additional year, contingent upon successful performance of the program/grantees and upon the availability of funds. Actual award amounts will be determined by LWD.

Grants will be funded based upon the applicant's ability to serve youth in their program at a maximum cost of \$8,500 per participant formally accepted into the training program. The contract timeframes are as follows:

Year One: September 1, 2018 to August 31, 2019

Year Two: September 1, 2019 to August 31, 2020

D. Eligible Entities/Applicants

This competitive grant opportunity is open to the following lead agencies:

- Any employer;
- Any labor organization which represents workers in the occupation for which the apprentices will be trained;
- Public high schools within New Jersey;
- Public vocational schools within New Jersey;
- Two- and four-year institutions of higher education;
- Public or private non-profit agencies;

- Business or trade organizations representing a particular trade, group of trades, contractors or employers;

E. Qualifications of Applicants

Applications must be submitted by the lead agency on behalf of a consortium. The lead agency is responsible for overseeing the implementation of all aspects of the grant, including, but not limited to, project and spending plan; grant project monitoring and reporting; outreach and recruitment; workforce readiness and vocational training; and fiscal management. It is essential that the applicant carefully construct result-oriented goals and objectives that support the program's stated goals and objectives, together with the program description and budget, providing a comprehensive plan for the successful accomplishment of the program.

All applicants, regardless of whether they may have participated in the past, are considered new applicants for this funding cycle, and will be evaluated on the basis of quality, comprehensiveness, completeness, accuracy and appropriateness of response to the NGO.

Amounts reported on the summary must be fully supported by information provided in the narrative. The narrative must have a demonstrated cost basis. The cost basis shows how you arrived at the estimate you have provided. In most cases, the cost basis includes a calculation such as 50 notebooks @ \$1.00 = \$50.00.
