The agency proposal follows:

Summary

The proposed amendments to *N.J.A.C. 12:235-1.6* would establish the 2018 maximum workers' compensation benefit rates for temporary disability, permanent total disability, permanent partial disability, and dependency under the Workers' Compensation Law.

Because a 60-day comment period has been provided in this notice of proposal, this notice is excepted from the rulemaking calendar requirement pursuant to *N.J.A.C. 1:30-3.3(a)5*.

Social Impact

The proposed amendments will ensure that payments to workers' compensation recipients entitled to maximum benefits will increase in line with the upward trend of wages in the State's economy, thus, preserving the real purchasing power of their benefits.

Economic Impact

The proposed amendments will increase from \$ 896.00 to \$ 903.00, the weekly benefit rate received by individuals eligible for the maximum weekly benefit rate for temporary disability, permanent total disability, permanent partial disability, and dependency under the Workers' Compensation Law. The 2018 maximum benefit rate represents a 0.8 percent increase in the current maximum benefit rate.

Federal Standards Statement

The proposed amendments do not contain any standards or requirements that exceed standards or requirements imposed by Federal law. The amendments increase benefit rates to individuals. As a result, an explanation or analysis of the proposed amendments pursuant to Executive Order No. 27 (1994) is not required.

Jobs Impact

The proposed amendments will have no impact on jobs in New Jersey. The Department does not anticipate an increase or decrease in jobs as a result of these amendments.

Agriculture Industry Impact

The proposed amendments will have no impact on the agriculture industry.

Regulatory Flexibility Statement

The proposed amendments do not impose any reporting, recordkeeping, or compliance requirements on small businesses as that term is defined in the Regulatory Flexibility Act, *N.J.S.A. 52:14B-16* et seq. The proposed amendments increase benefit rates to individuals. Thus, a regulatory flexibility analysis is not required.

Housing Affordability Impact Analysis

The proposed amendments will not evoke a change in the average costs associated with housing, nor will they have any effect on the affordability of housing. The basis for this finding is that the proposed amendments pertain to the statutorily mandated annual adjustment to the maximum workers' compensation benefit rates and do not pertain to housing.

Smart Growth Development Impact Analysis

The proposed amendments will not evoke a change in housing production within Planning Areas 1 or 2, or within designated centers, under the State Development and Redevelopment Plan. The basis for this finding is that the pro-

posed amendments pertain to the statutorily mandated annual adjustment to the maximum workers' compensation benefit rates and do not pertain to housing production, either within Planning Areas 1 or 2, or within designated centers.
