

## American Indian and Alaskan Native Population: 1990-2000

### New Jersey Municipalities

This table shows at the municipal level the **difference** between the "American Indian and Alaskan Native" population in 1990 and the "American Indian and Alaskan Native *alone*" population in 2000. Because individuals could report only one race in 1990 and could report more than one race in 2000, the race data for 1990 and 2000 are not directly comparable. The difference in population by race between 1990 and 2000 thus is due both to this change in definition and to real change.

## American Indian and Alaskan Native Population: 1990-2000

### New Jersey Municipalities

This table shows at the municipal level the **difference** between the "American Indian and Alaskan Native" population in 1990 and the "American Indian and Alaskan Native *alone*" population in 2000. Because individuals could report only one race in 1990 and could report more than one race in 2000, the race data for 1990 and 2000 are not directly comparable. The difference in population by race between 1990 and 2000 thus is due both to this change in definition and to real change.

## American Indian and Alaskan Native Population: 1990-2000

### New Jersey Municipalities

This table shows at the municipal level the **difference** between the "American Indian and Alaskan Native" population in 1990 and the "American Indian and Alaskan Native *alone*" population in 2000. Because individuals could report only one race in 1990 and could report more than one race in 2000, the race data for 1990 and 2000 are not directly comparable. The difference in population by race between 1990 and 2000 thus is due both to this change in definition and to real change.

## American Indian and Alaskan Native Population: 1990-2000

### New Jersey Municipalities

This table shows at the municipal level the **difference** between the "American Indian and Alaskan Native" population in 1990 and the "American Indian and Alaskan Native *alone*" population in 2000. Because individuals could report only one race in 1990 and could report more than one race in 2000, the race data for 1990 and 2000 are not directly comparable. The difference in population by race between 1990 and 2000 thus is due both to this change in definition and to real change.
