

Asian Population: 1990-2000

New Jersey Municipalities

This table shows at the municipal level the **difference** between the "Asian" population in 1990 and the "Asian *alone*" population in 2000. Because individuals could report only one race in 1990 and could report more than one race in 2000, the race data for 1990 and 2000 are not directly comparable. The difference in population by race between 1990 and 2000 thus is due both to this change in definition and to real change.

Because individuals could report only one race in 1990 and could report more than one race in 2000, the race data for 1990 and 2000 are not directly comparable. The difference in population by race between 1990 and 2000 thus is due both to this change in definition and to real change.

Asian Population: 1990-2000

New Jersey Municipalities

This table shows at the municipal level the **difference** between the "Asian" population in 1990 and the "Asian *alone*" population in 2000. Because individuals could report only one race in 1990 and could report more than one race in 2000, the race data for 1990 and 2000 are not directly comparable. The difference in population by race between 1990 and 2000 thus is due both to this change in definition and to real change.

NOTE: For information on confidentiality protection, sampling error, nonsampling error, and definitions, see www.census.gov/explanation.html.
