The 42D RSG celebrates Black History Month by highlighting our Soldier: SPC Sabria Hunter

For Hunter, #BlackHistoryMonth is a time where we should honor those who came before us and fought for us to be as free and able as we are today.

Hunter joined the military to distinguish her self from other members of society when trying to do anything in life. By being a veteran/service member she knew it would look good in jobs, schools and on paper.

In her civilian job she is an entrepreneur who distributes supplements to assist in weight management and immune boosting supplements. She is proud of how much she has changed her direction in life since she joined the military.
