The 42D RSG celebrates Black History Month by highlighting our Chaplain: MAJ Jameson Abidoye

For Abidoye, [#BlackHistoryMonth](#) reminds him of the true history of black people and, in particular, their accomplishments and how much they have contributed to the overall building and the greatness of this nation. We should remember and celebrate black history so that we don't forget the history of how African Americans came to this country, and how arduous and sacrificial their journey has been in getting to where they are right now.

Chaplain Abidoye joined the military to serve its Service Members and thereby contribute his share to the forward movement of the Nation.

He is an Associate Pastor of a local assembly in North Miami Beach, Florida. He is proud that he has been able to continuously contribute his assistance to the growth and greatness of this nation via his service to the military.
