NJMVC Adds Vehicle Service Appointments at 4 Agencies

Vehicle Service Appointments Now Offered at Freehold, Oakland, Paterson, and Rahway

TRENTON — Today, the New Jersey Motor Vehicle Commission (NJMVC) announced that it has added vehicle service appointments at four agency locations in Freehold, Oakland, Paterson, and Rahway.

The four locations, which previously operated exclusively as Licensing Centers, will now function as hybrid agencies offering both licensing and vehicle services.

“New Jerseyans deserve a government that works for them and makes services easy to access,” **said Governor Sherrill**. “Expanding vehicle services at these four MVC locations is another step toward making state government more responsive to the needs of residents in every community.”

“Simply put, we’re expanding access,” **said Acting NJMVC Chief Administrator Rosalie Johnson**. “Four more vehicle service locations will reduce travel distances and wait times for our customers. This is part of our ongoing commitment to make NJMVC services more convenient and accessible for all New Jersey residents.”

All four agencies now offer appointments for the following services:

- New title or registration
- E-bike registration
- Replacement title or registration
- Registration renewal

To schedule an appointment or learn more about motor vehicle services in New Jersey, visit NJMVC.gov.
