Key Points and Issues For May 2009

Director's Note

The market for so-called “risky assets” continued to be strong in May, as the market seems to be pricing in the successful reflation of the global economy by policymakers through extraordinary fiscal and monetary policies. The two strongest markets in May were emerging markets equities and commodities, which were up 15.9% and 13.0% respectively. These two markets normally respond most aggressively to improving prospects for global growth, although we wonder whether concerns over potential weakness in the U.S. dollar are also at work.

Common stocks posted another month of positive returns, with U.S. equities up 5.2% and international stocks up 11.8%. Within the fixed income markets, there were significant differences between the returns on U.S. Treasuries and corporate credits. The overall return on the Barclays Long Government/Credit Index was 1.06%, but the returns of the two major components of that index varied significantly: the Long U.S. Treasury Index was down 2.7%, while the Long U.S. Corporate Bond Index was up 5.2%. The best-performing sector of the bond market was high yield debt, which was up 6.7% for the month.

As discussed below, we have taken major steps in our public equity and fixed income portfolios to increase our exposure to sectors and asset classes that will benefit from an improved economic outlook. The major activity was in the Japanese equity market, where we had net purchases of nearly \$1 billion in May. We often joke that Japan is the world’s largest emerging market, and the valuation of many stocks in the cyclical sectors of that market had reached historically low levels before this recent rally. In the domestic equity portfolio, we are slowly adding back to our financial services holdings through secondary share offerings and purchases in the primary open market. Finally, within the fixed income portfolio, we had net purchases of high yield and investment grade debt, and corresponding sales of U.S. Treasury securities.

Total Pension Fund

- For the month of May, the fund was up 5.25% versus 5.48% for the benchmark. (Note: The benchmark starting in January 2009 is based on the new asset allocation plan adopted by the State Investment Council in December 2008.) Estimated performance for the pension funds for the fiscal year-to-date period through May 31, 2009 is -14.77% versus -17.51% for the Council benchmark. Our slight underperformance in May is attributable to our overweight position in commodities, which were up roughly 13% for the month. Our outperformance for the fiscal year is attributable to (1) our overweight position in domestic and international fixed income relative to public equities, (2) our underweight position in commodities relative to the benchmark (which, despite May’s positive

performance, are down 46% for the fiscal year), (3) our underweight position in financial services stocks in both our domestic and international equity portfolios, and (4) our large shift into corporate bonds late in 2008. Total pension fund assets as of May 31, 2009 were \$62.9 billion, up from \$60.5 billion as of April 30, 2009.

- The major activity in May was again in the international equity developed markets portfolio, where we were net buyers of \$187.8 million. Within this net amount, we were net buyers of \$979.8 million of Japanese equities, consisting of both the iShares MSCI Japan Index Fund (an exchange-traded fund that invests in a basket of stocks that comprise the MSCI Japan Index) and a broad basket of individual securities. These purchases were partially offset by significant sales of European utility and telecommunications stocks. We were net buyers in May of \$31.2 million in U.S. equities in Common Pension Fund A, consisting primarily of stocks in the financial services sector. In addition, we sold \$64.5 million of investment grade corporate bonds that were purchased in our equity portfolio late in 2008. Within our domestic fixed income portfolio, we were net sellers of \$254.9 million of U.S. Treasuries and \$108.9 million of TIPS; we were net buyers of \$79.0 million of investment grade corporate bonds and \$210.9 million of high yield debt securities. Finally, we funded an additional \$84.9 million in commitments to various alternative investments in May.
- We transferred \$400 million out of Common Pension Fund B (domestic fixed income) in May. Of this amount, \$300 million was transferred into Common Pension Fund D (international) and \$100 million was transferred into Common Pension Fund E (alternatives).

Domestic Equity

- Performance for Common Pension Fund A for May was 6.11% versus 5.22% for the S&P 1500 Index, the benchmark for the domestic equity portfolio. For the fiscal year-to-date period, Common Pension Fund A returned -23.04% versus -26.47% for the benchmark.
- As stated above, net purchases of equities in the portfolio in May were \$31.2 million. Net purchases were concentrated in the financial services sector (\$123.0 million of net purchases), with the major purchases being \$60.1 million of Wells Fargo, \$24.2 million of Regions Financial and \$19.0 million of Bank of America. We were also net buyers of \$37.4 million in technology stocks, with the major purchases being \$31.4 million of Intel and \$26.3 million of Hewlett-Packard. Sales were concentrated in the health care sector with sales of Johnson & Johnson, Medtronic, St. Jude Medical and United Health. Finally, there was a “swap” in the telecommunications sector – we moved approximately \$35 million out of AT&T into Verizon.

- We continued to sell investment grade corporate bonds (\$64.6 million in May) that were purchased as part of the equity portfolio in late 2008 at yields of 8% or higher.

Domestic Fixed Income

- Performance for Common Pension Fund B for May was up 2.09%. Excluding our TIPS and high-yield portfolios contained within Common Pension Fund B, performance was +1.53%. This compares to 2.29% for our new custom benchmark for domestic fixed income, the Barclay's Long Government/Credit Index (which also excludes TIPS and high yield) with a 50% weight for U.S. Government securities. For the fiscal year-to-date period, Common Pension Fund B (excluding TIPS and high yield) returned 3.26% versus 3.82% for the council benchmark (which prior to January 2009 was the unadjusted Barclay's Long Government/Credit Index). The duration of Common Pension Fund B (excluding TIPS) was 10.24 years as of May 31, 2009, versus 11.36 years for the adjusted Barclays Long U.S. Government/Credit Index.
- Our high yield portfolio, which now includes the long-only bank loan funds that were transferred from Common Pension Fund E, was up 8.15% for May versus 6.71% for the Barclays High Yield Index. The high yield portfolio is up 29.98% for calendar year 2009. The TIPS portfolio was up 3.12% as concerns over potential increases in inflation drove strong returns relative to nominal U.S. Treasury securities.
- We had net sales of approximately \$254.9 million of U.S. Treasury securities in May, which were motivated by concerns over the potential for higher long-term interest rates. We also sold \$108.9 million of TIPS in mid-May after a strong period of returns relative to nominal U.S. Treasuries. We were net buyers of \$79.0 million in investment grade corporate bonds. Major names that were purchased include Microsoft, Coke, Hydro-Quebec and AT&T. Finally, we were net buyers of \$210.9 million in high yield debt securities.

International Equity/Fixed Income

- The equity portion of Common Pension Fund D returned 12.68% in May versus a return of 11.76% for the MSCI EAFE Index ex-Prohibited, the benchmark for the international portfolio, which is calculated by the Division and excludes those names deemed ineligible for investment under the State's Sudan and Iran Divestment Laws. For the fiscal year, the portfolio was down -30.2% versus -31.0% for the benchmark. Our portfolio of international sovereign bonds returned 7.06% for the month and 20.7% for the fiscal year-to-date period.
- We were net buyers of \$187.8 million in international developed markets equities in May, with the major purchases being in the Japanese equity market. Total purchases in Japan were \$979.8 million for the month, consisting of a

combination of the iShares MSCI Japan Index Fund (an exchange-traded fund that invests in a basket of stocks that comprise the MSCI Japan Index) and a basket of individual securities. We continue to hedge the currency exposure on a significant portion of these purchases of Japanese equities, with the total hedge now equaling \$1.3 billion. Including these purchases, the portfolio is still underweight Japan by approximately 7.8% of the overall portfolio (17.5% of the portfolio versus 25.3% of the benchmark). Besides these Japanese stocks, the other major purchases were in the European financial services sector. Names that were added include \$66.2 million of Barclays and \$48.5 million of Axa. These purchases were partially offset by sales in so-called “defensive” sectors of the market – namely health care, telecommunications and utilities. Names that were sold include AstraZeneca and Sanofi-Aventis in health care, KPN and France Telecom in telecommunications, and E.on, Vestas Wind Systems and GDF Suez in the utilities sector.

- The following companies, while not incorporated in countries included in the MSCI Equity Index Series for developed markets, will be classified as developed market companies based upon our review of the various factors as set forth in the State Investment Council Regulations. These companies are Golden Agri-Resources Limited, Noble Group Limited, Hutchinson Telecommunications International Limited, Cheung Kong Infrastructure Holdings Limited, Arcelor Mittal, Metro International, Espirito Santo Financial, Orient Overseas International Limited, Li & Fung Limited, ASM Pacific Technology Limited, Hong Kong Land Holdings Limited, Jardine Matheson Holdings Limited and Hutchinson Telecommunications Hong Kong Holdings Limited.

Alternatives

- During May we funded \$84.9 million of commitments to private equity, and real estate. Major private equity investments include \$14.1 million to JLL Partners, \$9.0 million to the Neuberger Berman NJ Fund, and \$7.3 million to WLR Recovery Fund IV. The only significant real estate investment was \$11.0 million to Five Mile Capital Partners.

Cash Management Fund

- Total assets in the Cash Management Fund were \$14.4 billion as of May 29, 2009. The current yield is 0.67% for state participants (down from 0.72% as of April 30), and 0.57% for “non-State” participants (down from 0.62% as of April 30).

Note:

*Net Yet Funded as of May 31, 2009

(1) Represents investments made to the underlying funds plus capitalized expenses paid, less recallable returns of capital. A portion of the funded amount may not reduce New Jersey Portfolio's remaining commitment to the underlying funds by subtracting total capital contributions for investments and inside expenses from total commitment and adding back recallable returns of capital. A portion of the funded amount may not reduce New Jersey Portfolio's remaining commitment to the underlying funds (and therefore the commitment fees the funded amount may not equal the remaining commitment). (2) Represents remaining commitment to the underlying funds, excluding recallable returns of capital. (4) Commitment increased by \$25M on 3/15/07 (7) Corresponds to €40.0 million (8) Corresponds to €10.0 million (10) Increase from £17.5 to £25 million on 5/20/08 (11) Corresponds to €40.0 million (12) Commitment increased by \$100M on 1/22/07 (13) Corresponds to €106.25 million (14) Commitment increased from \$0 to 75 millions. (15) Contribution excess commitment due to dividends reinvested

(a) Commitment increased to \$150M from \$85M on 9/21/06 (c) Commitment increased to \$150M from \$50M on 9/21/06 (d) Commitment increased to \$50M on 9/21/06 (e) Commitment total \$260M b/w RC Woodley Park & Rock Creek Partners Fund I Feb 06 SIC presentation on 9/21/06 (f) Commitment increased to \$150M from \$100M on 9/20/07 (g) Reduced from \$125M to \$113M at closing then increase to 149.5K on 9/31/08 (h) Fund has been fully redeemed \$39,500,000 Return of Capital and \$2,088,761 Realized Gain (i) All original \$450 million worth of notes have matured (j) Represents 64,792,018 Euro Commitment (k) Commitment increased by 49.5K on 10/31/08 (l) Contribution represents the current market value of the public Exchange Traded Index as of 10/31/08. (l) The fund is currently being fully redeemed (m) Commitments reduced by \$272M, \$25M and \$40M respectively. (n) These funds are being redeemed and distribution represent the current redemptions.
