

2006 Homestead Rebate Average Check Amount for Nonsenior/Nondisabled Homeowners

View the average rebate by income level in each municipality for all homeowners who are under age 65 and not disabled. **Note:** The amount of income used to calculate an individual homeowner's rebate is their New Jersey gross income before personal exemptions and other deductions are subtracted (not Federal adjusted gross income).

Your rebate check may be larger or smaller than the average amount shown for your municipality and income level depending on the actual amount of your property taxes. If you owned your principal residence with someone other than your spouse, your rebate is based on the amount of property taxes that represents your percentage of ownership (e.g., 25%) in the property. If the property contains more than one unit, your rebate is calculated using the amount of property taxes that represents the percentage of the property you occupy as your principal residence (e.g., you own a duplex and occupy one unit).
