

NJEFA

2013 Annual Report

**Building Futures
for New Jersey and its
Higher Education Community**

Our mission is to support world-class higher education in New Jersey. As a public fiduciary, our business is to help our college and university clients obtain low-cost financing for the development of their facilities.

We are helping our clients invest in the treasures that are our colleges and universities, so they can provide the opportunities for all our citizens that will build the future of New Jersey.

To the Governor and Members of the New Jersey Legislature:

Roger B. Jacobs, Esq.
Chairman

Derek S. Hansel
Executive Director

We are pleased to present the 2013 Annual Report of the New Jersey Educational Facilities Authority (NJEFA). This Report highlights our activity throughout the year on behalf of the State's colleges and universities. It also demonstrates NJEFA's critical role in helping our institutions to thrive and our continued commitment to excellence in service to our clients and the people of New Jersey.

The year 2013 began an era of unprecedented capital investment by the State in its higher education institutions through the implementation of the Building Our Future Bond Act and four state-supported capital grant programs administered by the NJEFA. Collectively, these five programs are helping to fulfill Governor Christie's historic commitment to invest more than \$1.3 billion in capital improvements at our colleges and universities. These infrastructure dollars will help our system of higher education to serve more students. They will bring state-of-the-art facilities, equipment and technology infrastructure to provide world-class academic opportunity and position New Jersey to meet its workforce needs in the 21st century.

Staff at NJEFA was instrumental throughout the year in providing assistance to the Office of the Secretary of Higher Education on the implementation of these programs. From early assistance on the development of regulations and a unified grant application process, to administering the requisition process for grant funds, NJEFA was focused on doing its part to ensure significant progress was made.

We continued as well to support individual college and university financing needs. The Authority completed \$120 million in stand-alone bond financings during 2013 to support new capital construction projects and refundings for savings at one public and three private institutions.

The year also brought significant changes to NJEFA's Board. We congratulated two members, Roger Jacobs and Ridgeley Hutchinson, on their reappointments by Governor Christie. We also welcomed two new public members, Louis Rodriguez and Katherine Munson Ungar, both of whom were appointed by the Governor in November. Mr. Rodriguez brings a wealth of experience to the Board as a registered Professional Engineer and Financial Advisor. Ms. Ungar brings additional diversity of experience with a distinguished insurance background and in her current position as Manager of Business Relations for the Executive Health Program at Atlantic Health System.

NJEFA's role as a partner with our colleges and universities continues to evolve at a time when higher education is more important than ever to the aspirations of our students and to New Jersey's economic security. We are proud of our contributions to improve and expand higher education in the State and remain committed to looking at every opportunity to support our institutions and the students they serve.

Our sincere thanks to the NJEFA's Members and staff for their continuing commitment, dedication and leadership, particularly in a year when the Authority shouldered an increased work load generated by the historic grant programs.

We extend our gratitude as well to Governor Christie and the Members of the Legislature for their continued support of the Authority's mission and our work to fulfill the promise of the State's five landmark programs to advance higher education in New Jersey.

47

years

of service to New Jersey's colleges and universities

A CATALYST FOR BUILDING FUTURES

In 2013, the New Jersey Educational Facilities Authority completed its 47th year of partnering with the State's public and private colleges and universities to advance higher education in the State. Throughout the year, NJEFA continued to fulfill its mission by assisting institutions in obtaining low-cost financing for the development of their campus facilities and infrastructure.

Since our creation by the New Jersey Legislature in 1966, we have completed 470 transactions representing approximately \$13.4 billion in financing value. These financings have provided critical investments in New Jersey's higher education infrastructure and have saved the State's colleges and universities hundreds of millions of dollars through refunding transactions, state grant programs and stand-alone financings secured by our clients' own credit. The latter, in particular, has proved over time to be a crucial tool in providing new capital to maintain, preserve and expand the physical plants of our institutions.

As the Authority continued throughout 2013 to support individual college and university financing needs, the year's activity was also defined by a concerted focus on the implementation of a newly authorized state general obligation grant program — the Building Our Future Bond Act — and four higher education state-backed grant programs administered through the Authority — the Higher Education Capital Improvement Fund, the Higher Education Facilities Trust Fund, the Higher Education Equipment Leasing Fund and the Higher Education Technology Infrastructure Fund.

NJEFA supports higher education institutions to ensure the lowest possible capital cost to finance campus improvements and expansion.

470 transactions

\$13.4 billion
total financed by NJEFA since 1966

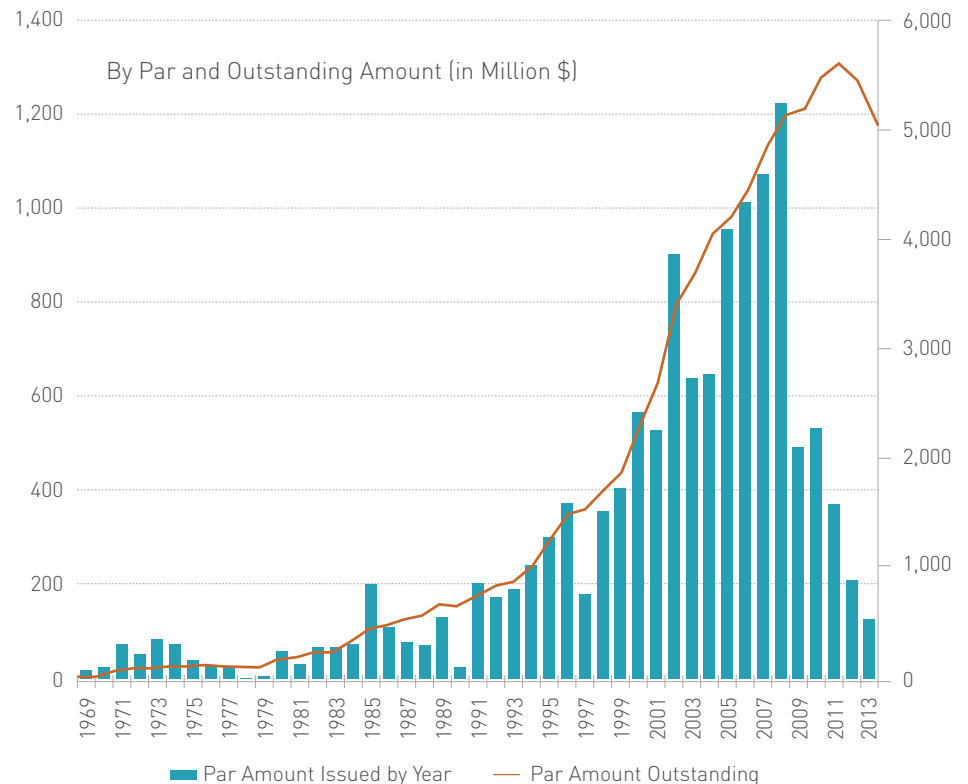

Seton Hall University

Implementation of these grant programs is fulfilling Governor Chris Christie's historic commitment to invest more than \$1.3 billion in New Jersey's higher education infrastructure. Today, that investment is enabling our colleges and universities to expand and modernize campus facilities in order to provide state-of-the-art academic space for teaching, learning, and research.

It is helping to provide quality education and the necessary equipment for generations of our students to become the nation's future leaders. It is also a down payment on New Jersey's ability to grow its highly educated and skilled workforce, a necessity in order to compete in the global economy.

NJEFA ISSUANCE OVERVIEW

2013 NJEFA Highlights

\$120 million

NJEFA bonds issued in 2013

2013 NJEFA HIGHLIGHTS

During 2013, NJEFA stand-alone financing activity totaled approximately \$120 million in four transactions, of which nearly \$90 million financed important new projects at Bloomfield College, Caldwell University, Seton Hall University and The College of New Jersey.

Interest rates last year, although still relatively low by historic standards, saw more volatility, particularly as rates began to rise mid-year. Despite the volatility, the Authority was able to bring its clients' financings to the market at times and with structures that produced attractive results. For example, we completed a \$41.9 million fixed-rate bond transaction for Seton Hall University in July that had a final maturity of July 1, 2043 and carried an all-in true interest cost of 4.48%. With the same maturity, we completed a \$24.9 million fixed-rate financing in December on behalf of The College of New Jersey, which carried an all-in true interest cost of just over 4.6%.

Nationally last year, according to the Bond Buyer's 2013 in *Statistics – Annual Review*, total long-term municipal bond volume across all sectors dropped 12.5% to \$334.6 billion compared to issuance volume of \$382.4 billion in 2012. Financings for colleges and universities defied the downward trend in the municipal market, according to Thomson Reuters, with \$14.2 billion of debt — up 14.3% from 2012.

Bloomfield College Franklin Street Residence Hall

WORKING PARTNERSHIPS

Bloomfield College

Par amount
\$32,267,000

Closing date
5/13/2013

2013 Series A

The Authority completed a fixed-rate, direct purchase bond financing in the amount of \$32,267,000 on behalf of Bloomfield College. The bonds carried an initial interest rate of 3.76%, which resets every 10 years, and a final maturity of May 13, 2043. The transaction helped the College to finance the development of the Franklin Street Residence Hall — the largest building in the College’s history with more than 80,300 square feet.

The building will feature apartment-style living on the upper three stories to accommodate more than 234 students and provide important amenities for the College’s resident student population, including space for study rooms, a fitness center, social event space, a movie theater, and recreational space. The ground level will provide space for retail use, including 5,000 square feet for a new Barnes and Noble bookstore and space for a café, convenience shop and parking, all of which will be open to the general public and the College community.

Located at the corner of Franklin and Broad Streets, the Franklin Street Residence Hall will significantly expand the on-campus residential capability of Bloomfield College. The number of students living on campus has grown steadily over the last ten years. This factor has increased the vibrancy of campus life and is important to student success as the College finds that students living on campus are more focused on their studies.

The project is also an important component of the revitalization of Bloomfield’s downtown. The new facility will bring more traffic to the adjacent streets that will be able to utilize and enjoy the new bookstore and retail food establishment at street level. A market rate housing project across the street from the new residence hall (currently in the design phase) will bring additional life to Broad Street. Combined, these new projects will provide incentives for adjacent property owners to upgrade their buildings and contribute to the revitalization of the area.

Caldwell University Student Center

WORKING PARTNERSHIPS

Caldwell University
2013 Series E

Par amount
\$20,000,000

Closing date
6/18/2013

The Authority completed a direct purchase bond financing on behalf of Caldwell University in the amount of \$20,000,000 with an initial 10-year fixed interest rate of 4.61% and a final maturity of July 1, 2038. The University used proceeds of the financing to current refund all of the Authority's outstanding 2006 Series F bonds, to terminate an associated interest rate swap obligation, and to finance campus renovation and improvement projects in the University's Mother Joseph Residence Hall and Student Center.

Improvement projects within Mother Joseph Residence Hall included new bathrooms for the 1st, 2nd, and 3rd floor East Wing with ADA compliant showers and restroom facilities, as well as increased ventilation, fixtures, overhead lighting, and new floor drains. The Residence Hall also received electrical infrastructure upgrades, which included new electric in the east wing dorm rooms, including overhead lighting for 39 dorm rooms and new electric and increased overhead lighting in certain east wing hallways. Dorm room plumbing and vanity upgrades were also completed with new sinks and vanities for each of the east wing dorm rooms.

Student Center improvements included the removal and replacement of the Dining Hall Roof, which is approx. 20,000 sf of roof surface.

The improvement projects were done in an effort to address deferred maintenance, as well as to increase the student and campus population's quality of life and useful life cycle expectancy of the campus facilities and mechanical infrastructure.

Seton Hall University Aquinas Hall

WORKING PARTNERSHIPS

Seton Hall University
2013 Series D

Par amount
\$41,910,000

Closing date
7/10/2013

The Authority completed a negotiated, fixed rate revenue bond sale in the amount of \$41,910,000 on behalf of Seton Hall University. The 2013 Series D bonds carried an all-in true interest cost 4.48% and a final maturity of July 1, 2043.

Bond proceeds were used by the University to currently refund \$7.6 million of the Authority's 2009 Series C Revenue Bonds and to terminate an associated interest rate swap. The remainder of bond proceeds will finance various capital improvement projects throughout campus, including expansion and renovation of Aquinas Residence Hall; demolition and replacement of Stafford Hall; acquisition and renovation of 519 South Orange Avenue; and parking deck expansion.

The Aquinas Residence Hall addition and renovation project is estimated for completion in August 2014 and will help the University to address two strategic objectives: increasing student housing and enhancing ADA access. A new fourth floor on Aquinas Hall will feature 166 beds, including 66 double occupancy student rooms, 15 double occupancy ADA-accessible rooms and two priest suites. In addition, a new entry lobby will contain two elevators providing ADA access to all levels of the building.

The Stafford Hall demolition and replacement project will allow the University to replace an antiquated and inefficient academic building with a state-of-the-art facility for learning. Scheduled for completion in August 2014, the new Stafford Hall will include 12 classrooms to accommodate varying class sizes from 25 to 75 students. It will be completely ADA accessible and internal connections to the adjoining Marshall Hall will bring that building into ADA compliance as well.

The 519 South Orange Avenue project entails the purchase and renovation of a 7,400 sf building that will be converted into a new home for the Department of Public Relations and Marketing. Scheduled for completion in June 2014, moving the department to this building will ease overcrowding for the entire University advancement division.

Finally, the parking deck expansion project will add 569 new spaces to the University's existing 5-level parking deck. Scheduled for completion in August 2014, this project will greatly ease the parking shortage experienced by the University community.

The College of New Jersey Science Complex

WORKING PARTNERSHIPS

**The College of New Jersey
2013 Series A**

Par amount	Closing date
\$24,950,000	12/18/2013

The Authority completed a negotiated, fixed-rate revenue bond financing in the amount of \$24,950,000 on behalf of TCNJ. The Series 2013 A bonds carried an all-in true interest cost of 4.62% and a final maturity of July 1, 2043.

The College used bond proceeds, combined with grant funds awarded under various Higher Education Capital Grant Programs, to finance several key projects related to the development and upgrading of its STEM Complex. Among projects financed through this transaction are the renovation of Forcina Hall; demolition of Holman Hall; construction of a new STEM academic building; construction of a new Chemistry building addition; enhancements to Nursing, Health and Exercise Science; and Chiller expansion.

Completion of renovations to Forcina Hall enabled the College to relocate its Computer Science Department and its Student Wellness Services out of Holman Hall and into Forcina Hall. This allowed for demolition of Holman Hall, along with related site and utility work in preparation for the construction of a new STEM building on the site. The STEM building project entails the construction, equipping and furnishing of a new three-story, approximately 76,000 sf academic facility and all related site work.

Once complete, the STEM building will provide modern, innovative laboratory and classroom spaces necessary to address areas that have experienced significant programmatic growth at the College over the last five years and enhance the Institution's capacity to prepare undergraduates who are part of the health sciences pipeline. Additionally, it will house faculty-student collaborative research space, learning common space, interdisciplinary collaborative space that will enable it to have a broad impact on the learning experiences of TCNJ's students offering them new and rich opportunities for exploration, knowledge and skill development, and research.

Partnering with the Office of the Secretary of Higher Education on New Jersey's Higher Education Capital Grant Programs

176 projects

\$1.27 billion
in grants approved in 2013
from Higher Education Capital
Grant Programs

“Today, we begin a new era of opportunity for New Jersey’s colleges and universities. To keep more of our best students in the State and to make our colleges more attractive research partners for industries looking to bring good paying jobs and businesses here, we need modern facilities to remain competitive.”

– Governor Christie
News release statement (04/29/13)

PARTNERING WITH THE OFFICE OF THE SECRETARY OF HIGHER EDUCATION

Tremendous progress was made during 2013 on the administration of five State of New Jersey higher education capital grant programs; the Building Our Futures Bond Act (GO Bond Act), and four separate state-supported grant programs administered through NJEFA; the Capital Improvement Fund (CIF), the Higher Education Facilities Trust Fund (HEFT), the Higher Education Equipment Leasing Fund (ELF), and the Higher Education Technology Infrastructure Fund (HETI).

Implementation of these programs has been made possible through two landmark bills signed by Governor Chris Christie in 2012; the Building Our Future Bond Act and P.L. 2012, c.42. With bi-partisan support in the Legislature, Governor Christie’s approval of these bills signaled his historic commitment to invest more than \$1.3 billion in grants for capital improvements to advance New Jersey higher education. In doing so, the Governor ended a long period of inadequate State capital investment in New Jersey’s colleges and universities and developed a capital investment program that strategically reinvests in the campus facilities of New Jersey’s institutions so that the needs of the State, its industries and its residents are met.

BUILDING OUR FUTURE BOND ACT

The “Building Our Future Bond Act,” authorizes \$750 million in general obligation bond issuance by the State to provide grants for higher education capital projects; the first such bonds dedicated for higher education since 1988. In November 2012, as required by New Jersey’s constitution for bond issuance under this program, New Jersey voters approved a \$750 million public referendum by more than 63% of the vote, which authorized the State to issue bonds and direct bond proceeds for capital improvements to the State’s various higher education sectors.

P.L. 2012, C.42

P.L. 2012, c.42 authorized the Secretary of Higher Education to promulgate rules and approve grants to make use of four State-supported bond programs administered by the New Jersey Educational Facilities Authority. These State-supported bond programs include:

- Higher Education Capital Improvement Fund;
- Higher Education Facilities Trust Fund;
- Higher Education Technology Infrastructure Fund; and
- Higher Education Equipment Leasing Fund.

16,083 master's

3,122 doctoral

GRANT PROGRAM IMPLEMENTATION

Implementation of the grant programs during 2013 was achieved through a multi-agency partnership established by the Secretary of Higher Education and a close working relationship between the NJEFA and the Office of the Secretary.

As the year began, NJEFA provided assistance to the Office of the Secretary of Higher Education in development of regulations and a single grant application and solicitation process across all five capital grant programs. Program administration was guided by a concerted effort to align use of grant proceeds with the State's priorities in such areas as expansion of educational opportunity in the Science, Technology, Engineering and Math (STEM) disciplines and targeted areas for workforce development.

The Secretary published regulations at the end of January for all five programs in the NJ Register and shortly thereafter hosted a technical assistance session at The College of New Jersey. Attended by nearly 200 people representing 47 different institutions, the session helped colleges and universities to understand and prepare for the application process and meet a condensed timetable for submission and review of grant applications.

The demand for program funds was overwhelming and far exceeded available funding as colleges and universities across the State submitted 254 grant applications for nearly

Drew University Mead Hall

\$2.1 billion in grant requests. On April 29th, the Secretary of Higher Education sent a certified list of 176 approved projects at 46 institutions to the Legislature representing over \$1.27 billion in grant approvals.

Of these grant approvals, 68 projects at 37 different institutions are supported with Building Our Future Bond Act funds. Across all five programs, 55 projects for 29 separate institutions are considered major construction projects; that is new construction, addition or renovation projects receiving grant awards of \$4 million or greater — and 26 of these projects are entirely new facilities.

MAJOR CONSTRUCTION PROJECTS

“Our team looked for innovative projects that were in line with the missions of the colleges and New Jersey’s needs. I’m proud that higher education institutions in every region of our state will benefit. We had 46 institutions submit applications for \$2.1 billion in funding, and I want to commend the higher education community for the impressive quality of the applications.”

GRANT PROGRAM IMPLEMENTATION CONT.

NJEFA continued to work throughout the year with the Secretary's Office, the Department of Treasury, the Attorney General's Office, Bond Counsels and others on the development of grant and lease agreements, requisite due diligence and tax questionnaires, and other documents necessary to fully administer the programs and to sell bonds to finance grants to institutions.

In December, NJEFA Members adopted supplemental resolutions authorizing issuance of bonds under the HETI and ELF programs and approved the execution of a Memorandum of Understanding (MOU) with the Secretary. The MOU laid the foundation for additional NJEFA assistance in administering the Building Our Future Bond Program, including requisitioning and post-issuance compliance procedures.

To date, the State has issued the first \$100 million tranche of bonds to fund grants under the Building Our Future Bond Act. In addition, NJEFA and the State have issued bonds to fund all projects approved by the Secretary under three of the four state-backed programs, the CIF, ELF and HETI programs. Grant agreements have been executed for same; institutions have begun to submit requisitions for grant funds to reimburse their project costs; and the NJEFA has begun to disburse grant funds to the institutions.

PROJECTS UNDER CONSTRUCTION

Today, many of the impressive and massive construction projects approved for grant funding are underway on campuses across the State. They are bringing transformational change not just to the institutions themselves and their students, but also to the State and communities in which they are located.

For example, the New Jersey Institute of Technology (NJIT) was approved for approximately \$86 million in grant funds across all five programs for a project to transform its 210,000 sf Central King Building (CKB) in Newark into a hub for STEM education and research. Once complete, the CKB will feature among other things, a Center for Innovation and Discovery, a Biological Sciences Education and Research Complex and a new Math Engagement Center.

According to NJIT, it is projected that the State will need to fill nearly 270,000 STEM-related jobs by 2018. Historically, NJIT has provided more than a quarter of New Jersey's engineers. The CKB project will help support increased enrollment demand and provide facilities that will enhance education and academic support, which in turn will help meet the future workforce needs of the State. The project will also be a critical anchor for community redevelopment in Newark by transforming the building into a visual landmark and an educational destination.

July 2013

NJEFA Members adopt reimbursement resolutions related to grant programs to protect institutions' ability to reimburse themselves for project expenditures pursuant to tax law

October 2013

Due diligence and tax questionnaires are sent to all institutions

NJEFA, the Attorney General's Office and Bond Counsels host web conference on mechanics of completing due diligence and tax questionnaires; 47 individuals and 27 institutions participate

Another project underway is Thomas Edison State College's (TESC) new Nursing Education Center located in downtown Trenton. A \$12.7 million grant from Building Our Future Bond funds will help TESC construct a new 34,702 sf Nursing Education Center to respond to increasing instructional and academic support needs for its W. Cary Edwards School of Nursing. The new facility will serve all of the College's School of Nursing students and house academic staff, a patient simulation laboratory, an auditorium, and lecture halls.

According to TESC, its School of Nursing is now the largest nursing program in New Jersey and one of the largest online programs of its kind in the nation, with enrollment increasing from 584 in FY 2010 to 3,369 in 2013. The State's Department of Labor and Workforce Development projects that between 2010 and 2020, the number of job openings for registered nurses will grow by 11.1%, from 81,600 to 90,600, to create 9,000 jobs statewide.

December 2013

NJEFA Members adopt supplemental resolutions authorizing issuance of bonds under HETI and ELF programs

NJEFA Members approve execution of Memorandum of Understanding with the Secretary, providing for Authority assistance in administering Building Our Future Bond Program, including requisitioning and post-issuance compliance procedures

January 2014

NJEFA issues bonds to fund grants under HETI and ELF programs and grant agreements are executed for same

Thomas Edison State College Nursing Education Center rendering

These projects will pay dividends for generations to come as they help students fulfill their academic and professional aspirations

TESC's new Nursing Education Center will expand student capacity that in turn will help address future workforce needs of the region. Its development will also bring important urban renewal and economic development benefits to the State's capital city. It will build on other redevelopment initiatives going on in Trenton where job creation and retention is a pressing need and will help transform a blighted site in the downtown area into a key gateway to the State House Historic District and to Thomas Edison State College's campus.

For decades to come, NJIT's CKB project, TESC's new Nursing Education Center and many more funded through the State's higher education capital grant programs, will be a catalyst for academic excellence and economic growth across the state. New Jersey's investment in these projects today is putting thousands of people to work as construction gets underway and is helping our institutions to meet current and growing demand for enrollment while providing world-class educational opportunity.

These projects will pay dividends for generations to come as they help students fulfill their academic and professional aspirations and enable New Jersey to meet its workforce needs to keep our economy moving forward in the 21st century.

As we look forward to the next phase of implementation, NJEFA is grateful to Governor Christie and the Secretary of Higher Education for the opportunity to participate in a supportive way in the administration of these important higher education grant programs.

February 2014

OUR MISSION is to support world-class higher education in New Jersey. As a public fiduciary, our business is to help our college and university clients obtain low-cost financing for the development of their facilities. We are helping our clients invest in the treasures that are our colleges and universities, so they can provide the opportunities for our citizens that will build the future of all New Jersey.

WHO WE ARE

Oversight and direction of NJEFA is entrusted to the seven-member board composed of five public, unsalaried members appointed to five-year terms by the Governor with confirmation by the New Jersey Senate. The State Treasurer and Secretary of Higher Education serve as ex-officio Members. By statute, the Governor has veto authority over all actions of our Members.

Our Executive Director, who is also the Chief Executive Officer, leads a skilled and experienced staff in managing the day-to-day operations of the Authority.

New 2013 Appointees:

During the year, Governor Christie appointed two new Members to the Authority's Board, Katherine Munson Ungar and Louis Rodriguez. The Governor also reappointed Members Roger Jacobs and Ridgeley Hutchinson. All four appointments were confirmed by the New Jersey Senate on November 18th. Ms. Ungar and Mr. Rodriguez will serve until the expiration of their terms, April 30, 2018 and April 30, 2016, respectively, and Mr. Jacobs and Mr. Hutchinson will serve until April 30, 2017 and April 30, 2015, respectively.

"It is an honor to serve the State of New Jersey and its higher education community. As we work to support academic opportunity for our students, NJEFA is committed to bringing expertise and exceptional service to every financing we undertake for our colleges and universities."

— Roger B. Jacobs, Esq., Chairman

A Catalyst for Building Futures

WHAT WE DO

The NJEFA offers a number of financial services in support of the State's public and private colleges and universities. The NJEFA's mandate is to issue tax-exempt and taxable debt on behalf of qualified institutions. We also offer other financial debt instruments to facilitate institutions' capital finance and development needs. The Authority's bonds and other financial instruments are special and limited obligations, secured and repaid by the institution receiving the financing.

The Authority's bonds and other obligations generally have no guarantee of repayment by the State. Exceptions occur only when specifically authorized by statute. In such cases, the State assumes a repayment obligation and identifies a repayment source under special legislatively authorized programs, which are typically referred to as state-backed grant programs.

NJEFA financing can be utilized by institutions for a variety of projects including renovation and expansion of buildings, as well as for the acquisition of land and capital equipment such as high technology and research equipment. Projects can include:

- Classroom facilities, laboratories, libraries and research facilities.
- Auxiliary service facilities including dining halls, utility plants, dormitories, athletic and parking facilities, student unions, administration buildings and campus health facilities.
- High technology and research equipment

NJEFA supports higher education institutions to ensure the lowest possible capital cost to finance campus improvements and expansion. We use our in-house expertise in the financial markets and in tax and securities law to support our institutions at every step in their project financings; prior to capital market access, during the financing process, after close of a transaction and through final maturity of the financing.

We also work in cooperation with other agencies that support higher education; The Office of the Secretary of Higher Education, the New Jersey Economic Development Authority and the Higher Education Student Assistance Authority.

Meeting capital financing needs of New Jersey's colleges and universities

HOW WE DO IT

NJEFA partners with New Jersey's higher education institutions to help ensure that their financing needs and the capital requirements of their projects are met.

Eligible institutions, including accredited two- and four- year colleges and universities, identify their capital and construction requirements and then work with NJEFA to access financing. Working with an institution and a team of finance professionals, NJEFA will take its transactions to the financial markets, capitalizing on the lower interest rates the Authority can obtain as a public fiduciary.

The Authority manages its clients' financings from inception to the close of the transaction. Authority staff members begin by helping prepare rating agency presentations and legal documents, conducting due diligence, and negotiating the sale of the bonds or managing the competitive bidding process.

After the close of a transaction, the NJEFA team:

- Reviews and processes all bond fund requisitions
- Invests bond proceeds
- Retains rebate service providers
- Retains monitoring services for interest rate derivatives
- Assists borrowers with tax and security law issues
- Monitors the capital markets for refinancing opportunities

We also monitor our clients' compliance with continuing disclosure requirements and help colleges and universities with rating agency surveillance.

NJEFA Historical Financings

NJEFA HISTORICAL FINANCINGS

(As of December 31, 2013)

Atlantic Cape Community College

- ▶ Series 1999 B: **\$3,045,000**; renovations, expansions, improvements

Beth Medrash Govoha

- ▶ 2000 Series G: **\$8,505,000**; new dining hall, dormitory and administration building renovations

Bloomfield College

- ▶ 1998 Tax-Exempt Lease: **\$315,000**; equipment acquisition
- ▶ 2000 Series A: **\$6,270,000**; new library, library and college center renovations, equipment purchase
- ▶ 2013 Series A: **\$32,267,000**; refunding of a bank loan and new residence hall

Caldwell University

- ▶ Bond Anticipation Note Issue M (1990): **\$3,000,000**; library addition and renovation
- ▶ 1995 Series A: **\$4,800,000**; academic building
- ▶ 2000 Series B: **\$9,235,000**; student recreation center, parking lot and roadway improvements
- ▶ 2006 Series F: **\$21,400,000**; refunding of 1995 Series A and 2000 Series B bonds, student residence hall
- ▶ 2013 Series A: **\$20,000,000**; refunding of 2006 Series F, residence hall renovations/upgrades and student center improvements

Centenary College

- ▶ 1998 Tax-Exempt Lease: **\$640,000**; computer and equipment acquisition
- ▶ 2000 Series F: **\$6,130,000**; Equestrian Center
- ▶ 2003 Series A: **\$14,775,000**; student residence hall, computer acquisition, refunding of 2000 Series F bonds
- ▶ 2006 Series J: **\$9,154,113**; refinancing of a bank loan
- ▶ 2007 Series B: **\$4,784,617**; refinancing of a bank loan and various capital improvements
- ▶ 2010 Series D: **\$13,974,000**; refinancing of the Performing Arts Center and Recreation Center, waste management facility

College of Saint Elizabeth

- ▶ 2000 Series C: **\$12,000,000**; facility conversion and renovations to administration building, parking facility expansion

Other

- ▶ Floating Rate Weekly Demand Equipment & Capital Improvement Revenue Bonds, 1985 Series A: **\$50,000,000**

Financial Statements and Supplemental Financial Information

(As of December 31, 2013)

NJEFA is pleased to include and incorporate its audited 2013 Financial Statements and Supplemental Financial Information in this 2013 Annual Report on CD-Rom. This format represents our continued commitment to cost-efficient and environmentally responsible business practices.

The New Jersey Educational Facilities Authority's 2013 Annual Report serves as the comprehensive annual report of the Authority's operations and finances in accordance with Executive Order No. 37.

Pursuant to Executive Order No. 37, I, Derek S. Hansel, certify that during 2013, the Authority has, to the best of my knowledge, followed all of the Authority's standards, procedures and internal controls.

Derek S. Hansel

Executive Director

July 15, 2014

This annual report and the Authority's financial statements are available on our website, www.njefa.com
