

Bill Kibler

Bill Kibler is an accomplished and respected leader in environmental policy, advocacy, and conservation. With more than 25 years of experience, Bill began his career with the United States Army Corps of Engineers where, among other notable accomplishments, he provided planning, engineering, and other critical support to the clean-up of the *Exxon Valdez* disaster in Alaska. Bill is currently Executive Director of the Great Swamp Watershed Association and prior roles include Director of Policy & Science at the Raritan Headwaters Association and Executive Director of the South Branch Watershed Association. His many areas of expertise include environmental law, watershed management, land preservation and stewardship, environmental education and outreach, and land use planning. Bill holds a B.S. in Environmental Science from the United States Military Academy at West Point and a J.D. from Syracuse University College of Law.
