Disaster Case Managers are available to help you:

- Develop a recovery plan.
- Find resources.
- Obtain referrals.
- And they provide one-on-one advice to help find solutions to resolve your unmet needs caused by the disaster.

Regardless of the amount of funds or assistance you may have already received from your insurance policy or local, state and federal programs, a Disaster Case Manager is available to speak with you.

*You may apply for federal disaster assistance. Register with FEMA one of the following ways.*
