

Intermediate Emergency Operations Center Functions

G2300

Location: Burlington Co Emergency Services Training Center
53 Academy Dr.,
Westampton, NJ 08060

Dates: September 25th & 26th, 2024 (3 Days)

Time: 8:00 AM to 4:00 PM

Course Length:

Three days, 24 hours. A student must attend all days to receive credit for the G2300- Intermediate Emergency Operations Center Functions.

Course Description:

The G 2300 Intermediate Emergency Operations Center Functions is a three-day course with the goal of assisting individuals and jurisdictions who desire to develop or improve their Emergency Operation Centers (EOC). By the end of the course, students will be able to demonstrate, through activities and a Final Exam, the managerial and operational roles of the modern-day EOC as a NIMS Command and Coordination functional group operating within a Multi-agency Coordination System (MACS).

Primary Audience/Selection Criteria:

The intended audience(s) are federal, state, tribal, territorial, local level, business, and nongovernmental emergency management personnel who may be designated to support an Emergency Operations Center (EOC) within their jurisdiction or organization. The materials were developed with the assumption that audience members may have little or no actual experience as a member of an EOC Staff.

The audience may include students from a variety of agencies, organizations, and functional disciplines, including fire service, law enforcement, emergency management, public works departments, as well as public health organizations, medical emergency teams, and hospitals, businesses and non-governmental organizations.

National Incident Management System (NIMS) Emergency Operations Center training should be completed by personnel who are regularly assigned to positions within an EOC or by those persons who desire to seek qualification and certification in an EOC position or function.

Applicants will be selected based on properly completed applications, completed prerequisites, and whole community representation. Class size is limited to 30 students.

Course Objectives:

- Explain the EOC's critical link to the other NIMS Command and Coordination Structures.
- Identify EOC staffing solutions by aligning EOC Skillsets to common EOC structures.
- Explain the planning, operational and resourcing functions of the EOC.
- Using a scenario, identify the essential elements of information (EEI) that support EOC decision making and information sharing.
- Using a scenario identify changes in EOC activation level, staffing, resources, and information requirements for an expanding incident.
- Identify the role of an EOC during the transition to recovery.
- Explain the location, design, equipment, and technology considerations for the EOC:

Prerequisites:

The following courses are mandatory prerequisites to this course and must be included with your application. You will NOT be registered without proper required documents.

- IS-100: An Introduction to the Incident Command System, ICS 100
- IS-2200: Basic Emergency Operations Center Functions
- IS-700: An Introduction to the National Incident Management System
- IS-800: National Response Framework, An Introduction

Recommended, but not required courses:

- G-191: Emergency Operations Center/Incident Command System Interface
- ICS-200: Basic Incident Command System for Initial Response
