### **Implicit Bias**

### **WEBINAR**

#### *Program Summary*

Research has established that, unwittingly, all of us have attitudes or buy into stereotypes that influence our impressions about and interactions with other people. The term “implicit bias” has been coined to reflect those unconscious influences, whether they are positive or negative. Implicit bias impacts our professional lives as attorneys, whether in our workplace relationships with supervisors, peers or subordinates at work, or in how we relate to adversaries, judicial personnel, jurors or others. Fortunately, research has also shown that these unconscious biases can be interrupted, enabling us to be more mindful and intentional in how we lead, work with and respond to the people around us. This interactive program will review the research and science in this area, overview the tools for assessing implicit bias and its common forms, and provide practical techniques for interrupting and mitigating implicit bias in the workplace.
