13:69F-20.13 Progressive payout wager

(a) If a three card poker table is properly equipped to offer an optional progressive payout wager pursuant to N.J.A.C. 13:69E-1.10A, a casino licensee may give each player at that three card poker table the option to make an additional wager on whether the player will be dealt a hand type as set forth in N.J.A.C. 13:69F-20.11(a)4. The progressive payout wager shall, in the discretion of the casino licensee, be either a \$1.00 or \$5.00 wager.

(b) Prior to the first card being dealt, each player may make a progressive payout wager by placing a gaming chip into the appropriate progressive wager acceptor device at his or her betting position or by redeeming a progressive payout wager coupon in accordance with the provisions of N.J.A.C. 13:69D-1.18, provided that the player has also

placed an ante wager or pair plus wager pursuant to N.J.A.C. 13:69F-20.6. Once the progressive payout wager has been placed, a light shall illuminate at each betting position at which a progressive payout wager has been made. The dealer shall ensure that only one progressive wager has been made for each light that is illuminated and shall verify that the number of gaming chips wagered for the progressive payout wager equals the number of lights illuminated. Each player shall be responsible for verifying that the acceptor light for his or her betting position has been properly illuminated upon placement of the progressive payout wager. The dealer shall then announce "No more bets" and register the progressive payout wagers on the progressive meter and reset meter, if applicable. The dealer shall then deal to all players in accordance with either N.J.A.C. 13:69F-20.7, 20.8 or 20.9.

(c) A winning progressive payout wager shall be paid in accordance with the payout table in N.J.A.C. 13:69F-20.11 and the procedures approved pursuant to N.J.A.C. 13:69D-1.52. A winning player shall receive the payout for only the highest ranking hand formed from his or her three card poker hand. A winning progressive payout wager shall be paid irrespective of the outcome of the player's ante wager or pair plus wager and shall have no bearing on any other wagers made by the player.

(d) Prior to making a payout for a progressive payout wager, the dealer shall:

1. Verify that the player has received a winning hand;
2. Verify that the light on the correct acceptor

device has been illuminated; and

3. Have a casino supervisor validate any payouts to be deducted from the progressive meter pursuant to (f) below and the casino licensee's approved internal controls.

(e) All winning progressing payout wagers shall be paid after the player's other three card poker wagers are settled pursuant to N.J.A.C. 13:69F-20.10. If a player has won a progressive payout that is a percentage of the jackpot amount on the progressive meter under N.J.A.C. 13:69F-20.11(a)4, such progressive payout shall not be paid from the table inventory container and the cards of that player shall not be collected until the necessary documentation has been completed pursuant to N.J.A.C. 13:69D-1.52. All other winning progressive payout wagers shall be paid from the table inventory container.

(f) The rate of progression for the progressive meter or, if applicable, the reset meter and progressive meter combined, shall be no less than 14 percent for pay table A and 20 percent for pay table B in N.J.A.C. 13:69F-20.11(a)4. The initial and reset amounts for the progressive meter shall be established by each casino licensee and approved pursuant to N.J.A.C. 13:69D-1.39B. In no instance shall the initial amount on the progressive meter or the reset meter that is funded by the casino licensee be less than \$1,000.

(g) Any payout determined by the amount on the progressive meter shall be based upon the amount that is on the meter at the time the player's progressive payout wager is paid, irrespective of the amount

on the meter when the player placed the wager or when the dealer dealt the player's cards.
