PRELIMINARY STATEMENT

Plaintiffs commenced this Action on May 23, 2014, alleging that Defendant, a third party energy supplier ("TPS"), violated the Electric Discount and Energy Competition Act, N.J.S.A. 48:3-49 et seq. ("EDECA"), the Regulations Governing Energy Licensing and Registration, N.J.A.C. 14:4-5.1 et seq. ("Energy Licensing and Registration Regulations"), Regulations Governing Retail Choice Consumer Protection, N.J.A.C. 14:4-7.1 et seq. ("Retail Choice Consumer Protection Regulations"), the Regulations Governing Energy Anti-Slamming, N.J.A.C. 14:4-2.1 et seq. ("Energy Anti-Slamming Regulations"), the New Jersey Consumer Fraud Act, N.J.S.A. 56:8-1 et seq. ("CFA"), the Regulations Governing General Advertising, N.J.A.C. 13:45A-9.1 et seq. ("Advertising Regulations"), as well as the Plain Language Act, N.J.S.A. 56:12-1 et seq. ("PLA") arising from its Advertisement and Sale, through telephone and door-to-door solicitations, of Electric Generation Service and/or Gas Supply Service. Specifically, Plaintiffs alleged, among other things, that Defendant guaranteed Consumers monthly savings of up to 10% for the first six months on their monthly electric and gas bills, then failed to deliver such savings, signed up Consumers without the proper authorization, and failed to respond to Consumer complaints, inquiries and cancellation requests. Defendant has denied the allegations.

- e. resolve the Consumer's complaint in a fair and expeditious manner.

5.92 If the Consumer's complaint is received within six (6) months of the alleged enrollment and the investigation determines that any improper sales practice occurred, Defendant shall reimburse the Consumer an amount equal to the difference between what the Consumer paid Defendant and what the Consumer would have paid his/her LDC under that utility's rates during the same period.

5.93 If a Consumer's complaint concerning improper sales practices is substantiated, Defendant shall further investigate whether additional Consumers enrolled by the same Sales Representative were subjected to improper sales practices. At a minimum, such investigation shall include examination of Consumer enrollment records, sales call notes, and in the case of telephone solicitations, listening to a random selection of phone solicitations made by the relevant Sales Representative.

5.94 At least every seven (7) business days, Defendant shall randomly select no less than fifteen (15) recordings of telephone solicitations that resulted in a successful enrollment and review them for compliance with this Consent Judgment.

5.95 At least every thirty (30) days, Defendant shall randomly select no less than fifteen (15) Consumers who were signed up for HIKO services during a door-to-door solicitation and call the Consumers to inquire about the sales practices during such solicitation.

5.96 Such auditing of telephone solicitations and door-to-door solicitations shall also be triggered by a Consumer complaint, inquiry by a governmental agency or other entity such as the Better Business Bureau.

5.97 Defendant shall make sales commissions earned by Sales Representatives subject to forfeiture whenever Defendant determines that a Consumer was subjected to deceptive or misleading sales practices. In addition, Defendant shall also take prompt and remedial and/or disciplinary action including, but not limited to, termination of the Sales Representative. In the event that the Sales Representative is employed by a third party vendor, Defendant shall ensure that the Sales Representative no longer participates in sales solicitations on behalf of HIKO.

5.98 Defendant shall employ a Compliance Officer on a full-time basis and his/or her duties shall include at a minimum:

- a. developing and implementing policies and procedures to ensure that Sales Representatives and customer service representatives comply with the terms of this Consent Judgment, as well as all applicable laws and regulations;
- b. developing and implementing training materials and training programs as required by Section 5.83;
- c. ensuring that all required personnel receive the training referenced in Section 5.83;
- d. overseeing the random audits of telephone solicitations and door-to-door solicitations; and
- e. overseeing the investigation of all Consumer complaints of improper sales tactics and taking appropriate remedial action.

5.99 Within forty-five (45) days of the Effective Date, Defendant's IT Department shall implement safeguards that will detect enrollment errors, such as identifying instances in which the names on enrollment documents do not match for a particular Consumer.

5.100 In the event that Defendant files for bankruptcy, it will provide written notification to Plaintiffs within fifteen (15) days of such filing, including a copy of the filing and assigned docket number.

BY THE BOARD:

Since 1999, through the Electric Discount and Energy Competition Act ("EDECA"), New Jersey deregulated the State's energy industry for residential, as well as commercial and industrial, customers. EDECA allows all New Jersey energy consumers to shop and chose the energy provider that best suits their budgets and service requirements. The New Jersey Board of Public Utilities ("Board") developed energy competition rules at N.J.A.C. 14:4 et seq., to ensure that consumer protection safeguards, inherent to traditional public utility regulation, were maintained, without unduly impeding competitive markets.

This past winter saw historic cold snaps in the North Eastern United States. These cold snaps resulted in price spikes in wholesale natural gas and electricity prices. Many New Jersey energy consumers who had exercised their right to shop for gas and/or electric supply through third party suppliers ("TPSs") and selected variable rate contracts, have asserted that they found themselves with utility bills that went up far beyond their expectations. According to

information that has been provided to the Board, in some cases, this may have been due to complicated contract terms, terms that were not sufficiently brought to customers' attention at the time they signed up with the TPSs, or lack of understanding regarding the impact that volatility in the energy market could have on their utility bills.

The Board is now reviewing its rules at N.J.A.C. 14:4 et seq. to ensure that sufficient consumer safeguards are in place for customers who shop for their energy supplier(s). As part of this process, the Board held stakeholder meetings on July 17, 2014 and September 4, 2014 to obtain input from the public, the utilities and the TPSs. Several possible modifications to the current rules were presented, commented on, and in some cases critiqued, by the stakeholders. However, there was a general consensus that it would be helpful for shopping customers to receive a standardized TPS contract summary in addition to the actual TPS contract when they sign up with a TPS for gas or electric supply.

Based upon Staff's review and the aforementioned stakeholder process, Staff recommends the Board require the TPS to provide the attached TPS Contract Summary to all TPS residential customers along with the TPS contract upon initiation or renewal of service. As a rulemaking process could not be completed by this upcoming winter, Staff recommends that the Board require the TPS to begin providing the TPS Contract Summary to customers now, rather than waiting for the completion of the rulemaking process.

DISCUSSION

The Board has reviewed this matter and, based on the information provided to the Board to date FINDS that a TPS Contract Summary should assist customers in understanding the terms of their TPS contracts and serve to highlight and summarize the most relevant contract terms, which could otherwise be overlooked in the fine print of a long contract. Therefore, the Board DIRECTS Staff to initiate a rulemaking proceeding to review the current consumer protections for customers who shop for their energy supply and, as part of that rulemaking process, to require TPSs to include a TPS Contract Summary to all residential shopping customers.

As the rulemaking process will not be completed by this winter and the Board believes it is beneficial for switching customers to begin receiving the TPS Contract Summary as soon as possible, the Board HEREBY ORDERS all TPSs to complete the attached TPS Contract Summary for each residential customer that they sign up or renew for service on or after November 15, 2014. The TPSs SHALL conspicuously display the completed TPS Contract Summary at the front of the proposed residential customer's contract, and provide it to the customer when the customer signs up for service or contracts for a renewal of service, using the delivery method selected by the customer.

Accordingly, the Board HEREBY DIRECTS that each TPS serving residential customers SHALL fill out the attached TPS Contract Summary as follows:

1. The TPS shall fill out the Contract Summary using plain language.
2. The TPS shall fill out the Contract Summary with a font size no smaller than 12 point.
3. The TPS shall fill out the sheet in a manner that it will fit on a single 8.5" x 11" page.
4. The TPS shall list the customer's name, address, and local distribution company account number at the top of the Contract Summary as shown.
5. The TPS shall utilize all of the exact headings shown in the boxes on the left side of the Contract Summary, except that the first box shall use the word "electric" or "gas" as appropriate instead of "electric/gas."

6. The TPS shall put the appropriate information in all of the boxes on the right side of the Contract Summary based upon the instructions shown in the boxes on the right side of the Contract Summary.
7. The TPS shall use gas or electric terminology as appropriate when filling out the sheet.

This Order shall be effective October 10, 2014.
