

Combating Gun Violence in New Jersey

NJGUNStat Report (1st quarter of 2021)

Top Source States for Crime Guns

In the first three months of 2021, 82% of identified* crime guns recovered in New Jersey were originally purchased out of state.

*NOTE: Alaska accounted for two traces and Hawaii accounted for one trace. The source state was identified in 708 traces.

The information on this map is based upon data from the ATF. It is preliminary and subject to further analysis. Not all recovered crime guns traces are complete at this time.
