

Supply Chain Showcase

J. Fletcher Creamer & Son, Inc. is a nationally recognized infrastructure services company that has been delivering high-quality infrastructure solutions since its inception in 1923. Founded in Hackensack, New Jersey, the company has grown significantly over the past century, establishing various locations across the United States to better serve its clients. With a dedicated workforce of over 1,000 team members, J. Fletcher Creamer & Son continues to lead the industry with its commitment to safety, innovation, and excellence in construction services.

One of the most exciting ventures for J. Fletcher Creamer & Son is its involvement in the offshore wind sector. Creamer's extensive experience in onshore underground transmission matches up well with the onshore needs of the offshore wind industry, making them a natural partner for developers. The company has undertaken several high-profile projects, showcasing its expertise in renewable energy infrastructure, including leading the Early Works portion of Atlantic Shores Project 1 via its joint Venture, Creamer Jingoli, LLC.

"Working in the offshore wind sector has allowed us to apply our existing expertise, to a new market. This has not only broadened our operational scope but also positioned us at the forefront of the renewable energy industry," says a representative at J. Fletcher Creamer & Son. The impact of our offshore wind projects extends beyond the company, fostering industry-wide advancements and contributing to a more sustainable future for all. We are proud to be part of this transformative journey."
