10	Please share brief information on your subdivisions overarching goals and values to provide context for this year's spending decisions	Our overarching goals have been the same for a couple of years, in that community engagement for prevention of substance abuse/overdoses. Disseminating information, medical rescue intervention tools and resources, and providing a place for people to go, easily, should they need help (and without stigma or consequence). This year we have been focused on our digital engagement site, but also providing the tools and equipment to our officers to be able to deploy medical equipment and naloxone from their person and from their vehicles safely, quickly and effectively. We've purchased narcan pouches for officers to wear on their person, medical deploy kids to be mounted to all vehicle headrests, containing naloxone and rescue aids to respond quickly to overdose calls. We've also added to our 24/7 Straight to Treatment Program by creating something similar to a "Sobriety Coin" in the form of a challenge coin that advertises our STT program, a phone number, and the fact that they can reach us for substance treatment without any stigma associated. We continue to run a Project Medicine Drop Program that allows safe disposal of opioids and other unused medications, 24/7, by way of a large metal repository in our front foyer. This keeps those dangerous medications our of the hands of those that should not have them. We also provide Deterra pouches for residents to dispose of medication tablets safely, and discarding at home rather than having to come in.

11	How did you decide the best way to use the opioid abatement funds your subdivision received this reporting year? For example, did you rely on evidence-based or evidence-informed practices or strategies, the list of Opioid Remediation uses, a needs assessment, a strategic plan, or an epidemiological analysis? If yes, please explain.	Our spending has been solely based on the needs that our officers respond to on a regular basis, in terms of overdoses and live saving/rescue interventions by use of nasal naloxone, and also by way of the naloxone leave behind program. Our officers have, at times, responded to multiple opioid overdoses in one day, sometimes the same person on the same day, so our spending represents the everyday needs for our community, and of our officers that need the tools and resources to react to opioid overdoses and prevention of same.
12	In this reporting year (7/1/2023 - 6/30/2024), did your subdivision engage the public (e.g., town hall meeting, online survey, convened stakeholders) prior to deciding how to use the opioid abatement funds you received?	No
13	Please describe your public engagement/input efforts?	The EGPD advertises our resources for treatment and safe medicine disposal efforts via social media accounts and via our new community engagement department webpage, where citizens can ask questions and submit tips to our officers. We also host Straight to Treatment program events with the Prosecutors Office here in the Township, and during public community events, we use our EGPD tent to set up a resources and information area where community members can physical talk and interact with the officers and the items association with our programs.
14	Does your county/subdivision have a strategic plan?	No
15	Have you completed a Risk Assessment profile for demographic or geographic impact?	No
16	Did your subdivision fund any programs using opioid abatement funds in this reporting year?	Yes

12	What is the anticipated number of unduplicated clients this program will reach annually?	100

13	Please state this program's statement of impact.	To further engagement with our community and programs such as the Straight to Treatment and safe medicine drop programs, we've created a challenge coin to act similarly to that of a "Sobriety Coin". This is something that can be given to our struggling residents, families, friends and other residents in a way that promotes rehabilitation by way of engagement with the EGPD and local law enforcement officers. Handing out the coin spurs positive conversations, and those conversations develop into knowledge base of resources that we offer.
14	What key performance indicators are you tracking to ensure success of the program (for example, # of services provided, # of people served, # of naloxone kits distributed)?	
	Increased community awareness (please describe):	During events, personal interaction, or even when an officer responds to an opioid overdose scene, we can leave individuals with a coin as a reminder of our program and the number by which they can reach us and instantly receive resources for substance abuse assistance.
15	How frequently are you measuring the tracked key performance indicators?	As coins are issued, we will continue to replenish, and continue communications with our community members on the impact of such a token to remind residents of the Straight to Treatment program offered in East Greenwich.
16	What outcomes or impact does the program aim to achieve? How do you plan to measure or track that impact?	Awareness and engagement of our programs for substance abuse.

9	How often are you disbursing funds to this program?	One time only
10	Program Launch Date	04/01/2024
11	Please choose the length of time of this program's duration:	Less than 1 year
12	What is the anticipated number of unduplicated clients this program will reach annually?	50
13	Please state this program's statement of impact.	Officers respond to medical emergencies everyday, many of which are related to medications, prescription drugs, and illicit drug use; or, for persons suffering from on-going side effects to recovery from substance abuse/relapse. Every EGPD officer has life saving intervening medical equipment and naloxone strapped to their uniform, and in the headrest of every department vehicle, so that at no time, under any circumstance, will a victim of an overdose find themselves without the necessary life saving tools on scene (for themselves, family, or friends).
14	What key performance indicators are you tracking to ensure success of the program (for example, # of services provided, # of people served, # of naloxone kits distributed)?	
	Other:	The quick deployment and readiness on any and every call for service provides a knowing that lives have and will most likely be saved by being prepared to respond to any and all substance overdoses/medical emergencies quickly and efficiently-Without delay.

15	How frequently are you measuring the tracked key performance indicators?	As incidents come in, or we respond to such needs.

20	Please explain how this program will address opioid use disorder and any co-occurring substance use disorders or mental health conditions through evidence-based or evidence-informed practices or strategies.	During an overdose, time is of the essence, and research shows that if nasal narcan can be deployed immediately, the chance of survival is drastically improved. Officers that have immediate access to this life saving equipment will absolutely save lives without delay, thus our reason and research into having this equipment.
21	Please identify the procurement method utilized for this program, describe the procurement process, and explain why the procurement method identified was used for this program.	Basic research into overdose prevention, and the effects on humans during an overdose led us to researching equipment/pouches/gear that would better serve our response and care for those (time-sensitive) experiencing opiate related incidents/overdoses. Specific gear (Outer Carrier vest pouch/headrest mount med kits) were found from a specific vendor, with best pricing.
