10	Please share brief information on your subdivisions overarching goals and values to provide context for this year's spending decisions	<p>The Borough of Carteret's overarching goals for spending of these Opioid Abatement funds are education and awareness, community engagement, and providing support and resources. These efforts will focus on educating residents about opioid use, its effects, and the risks associated with abuse. The Borough will equip students with the skills needed to manage peer pressure and make informed decisions, even in challenging situations. Community engagement will be fostered through interactive events that involve both parents and students, emphasizing the importance of collaboration between schools, local government, law enforcement, and various organizations. By leveraging several avenues of community engagement, it helps to foster community involvement and strengthens opioid abatement. The Borough will also provide essential resources, including skill development programs to help students manage stress in healthy ways, and access to professional guidance and counseling services to support their mental and emotional well-being. These initiatives are guided by the core values of prevention, safety, empowerment, collaboration, and community support, ensuring that resources are allocated effectively to promote a safe and informed community. By building a supportive environment where both students and parents feel engaged and informed about important health and safety issues, these goals and values guide the spending decisions for this year's initiatives ensuring that resources are allocated to activities and programs that align with the overall mission of promoting health, safety, and well-being within the community.</p>
11	How did you decide the best way to use the opioid abatement funds your subdivision received this reporting year? For example, did you rely on evidence-based or evidence-informed practices or strategies, the list of Opioid Remediation uses, a needs assessment, a strategic plan, or an epidemiological analysis? If yes, please explain.	<p>By combining evidence-based practices with evidence-informed practices and incorporating the insights of individuals who directly interact with those affected, we were able to ensure that the programs were both scientifically sound and practically relevant. Involving frontline workers who have firsthand experience with those impacted by opioid use</p>

		helps ensure that our programs are responsive to real-world challenges and needs. This approach not only enhances the relevance of our interventions but also increases their likelihood of success by addressing practical issues and barriers identified by those closest to the problem.
12	In this reporting year (7/1/2023 - 6/30/2024), did your subdivision engage the public (e.g., town hall meeting, online survey, convened stakeholders) prior to deciding how to use the opioid abatement funds you received?	Yes, for one year funding
13	Please describe your public engagement/input efforts?	The Borough of Carteret will prioritize public engagement and input by implementing a variety of strategies designed to involve the community in meaningful ways. To ensure that residents have a voice in shaping initiatives, the Borough will host town hall meetings, open forums, and community workshops, providing platforms for residents to share their ideas, concerns, and feedback. These gatherings will be scheduled at convenient times and held at accessible locations to encourage maximum participation.
14	Does your county/subdivision have a strategic plan?	No, but we plan to in the future
15	Have you completed a Risk Assessment profile for demographic or geographic impact?	No, but we plan to in the future

13	Please state this program's statement of impact.	We are attending back to school events, community events etc.. and tabling, providing materials, engaging residents in conversation in an effort to educate.
14	What key performance indicators are you tracking to ensure success of the program (for example, # of services provided, # of people served, # of naloxone kits distributed)?	

	Increased community awareness (please describe):	We are attending events all over the community to speak to the public and provide materials.
15	How frequently are you measuring the tracked key performance indicators?	When we attend events we are hoping to both reach people that we haven't reached before as well as seeing those that we have reached.
16	What outcomes or impact does the program aim to achieve? How do you plan to measure or track that impact?	The more people we engage with, the more events we get, the more exposure we provide to our community members.
17	Primary Category:	Primary Prevention, Education, and Training
18	The following are other categories that may apply (include all categories with the exception of the Primary category you chose above).	Harm Reduction and Overdose Prevention
19	Please select the Schedule B strategy(ies) that fits the primary focus of this program:	Prevent Misuse of Opioids, Prevent Overdose Deaths and Other Harms (Harm Reduction)
20	Please explain how this program will address opioid use disorder and any co-occurring substance use disorders or mental health conditions through evidence-based or evidence-informed practices or strategies.	Again, we are looking to educate. At many of these events, people do come to us looking for assistance in being connected to care programs.
21	Please identify the procurement method utilized for this program, describe the procurement process, and explain why the procurement method identified was used for this program.	We have been meeting with professional in the field of drug prevention and treatment. as well as community members and we have been reviewing materials that we think would be beneficial.

2	Please tell us the total amount of interest accrued on opioid abatement funds your subdivision has received since the distribution commenced in 2022:	\$0.00
3	Please tell us the total amount of opioid abatement funds your subdivision has received since the distribution commenced in 2022.	\$151,833.43
4	As an eligible subdivision receiving abatement funds, which of the following applies to your current status regarding those funds:	We are a municipality and did not transfer our funds
5	What amount of your opioid abatement funds did you transfer to the county?	
6	Please tell us the amount of opioid abatement funds you have expended in this reporting period (7/1/2023 - 6/30/2024) :	\$1,390.91
7	Please tell us the amount of opioid abatement funds you have appropriated/encumbered but not yet spent in this reporting period (7/1/2023 - 6/30/2024).	\$0.00
8	Please tell us the amount of opioid abatement funds that was spent on program administrative expenses in this reporting period (7/1/2023 - 6/30/2024) :	\$0.00

8a.	Please provide details about any administrative expenses.	A group of local high school students organized by the Township planned and implemented a community health fair to distribute information and raise awareness about opioid addiction prevention, senior mental health, and youth mental health. The students (with assistance from municipal staff and employees from Middlesex County Division of Addiction & Mental Health Planning) created awareness tables for resident attendees to gather information and hear about resources surrounding the above mentioned topics. CPR instruction and blood screening were provided (at no cost) at the time of the fair to draw in resident attendees. Resident attendees were provided with small give-a-way items (wrist bands, pens, candy) to encourage an audience to listen to information about the above referenced topics. The administrative costs for the health fair included administrative costs for: art supplies and presentation supplies, t-shirts for participants, give-a-ways for resident attendees, and coffee and bagels for resident attendees. The total administrative cost for the event was \$1,390.91. The event took place on Saturday, May 11, 2024
9	Please state the amount of unspent and/or uncommitted opioid abatement funds from any reporting year that your subdivision has on hand.	\$150,442.52
10	Please share brief information on your subdivisions overarching goals and values to provide context for this year's spending decisions	The Township's overarching goal was to recruit an engaged group of local high school students and allow them to plan and implement an educational event or experience around the topic of opioid addiction, it's root causes, and prevention. The students and staff determined the best method was an educational health fair for resident attendees to learn information and resources about opioid addiction prevention, senior mental health and youth mental health.

11	How did you decide the best way to use the opioid abatement funds your subdivision received this reporting year? For example, did you rely on evidence-based or evidence-informed practices or strategies, the list of Opioid Remediation uses, a needs assessment, a strategic plan, or an epidemiological analysis? If yes, please explain.	We evaluated the permitted Opioid Remediation uses, and developed an event that we felt was best suited to our Township residents, to provide information and resources around the topic of opioid addiction prevention, senior mental health and youth mental health
12	In this reporting year (7/1/2023 - 6/30/2024), did your subdivision engage the public (e.g., town hall meeting, online survey, convened stakeholders) prior to deciding how to use the opioid abatement funds you received?	Yes, for multiple year funding
12a	Please select years range:	1 - 2 years
13	Please describe your public engagement/input efforts?	We engaged with a select group of high school students to plan and implement an education event around the topic of opioid addiction prevention, senior mental health, and youth mental health. We coordinated with the Monroe Township Health Advisory Council, The Monroe Township Emergency Medical Services Department, and the Middlesex County Division of Addiction & Mental Health Planning for their thoughts and ideas and resources to implement an effective health fair around these topics.
14	Does your county/subdivision have a strategic plan?	No
15	Have you completed a Risk Assessment profile for demographic or geographic impact?	No
16	Did your subdivision fund any programs using opioid abatement funds in this reporting year?	Yes

9	How often are you disbursing funds to this program?	One time only
10	Program Launch Date	05/11/2024
11	Please choose the length of time of this program's duration:	One time only
12	What is the anticipated number of unduplicated clients this program will reach annually?	100
13	Please state this program's statement of impact.	The youth organizers spent 3-4 months planning this event, which took place on 5/11/2024. They gathered literature from partners at Middlesex County Health Services to distribute to participants. They arranged a guest speaker to discuss mental health impact on opioid addiction and other addiction. They drew residents into the event with free blood pressure testing and glucose screening.
14	What key performance indicators are you tracking to ensure success of the program (for example, # of services provided, # of people served, # of naloxone kits distributed)?	
	Number of participants served:	100
	Number of training/education sessions:	1

	Increased community awareness (please describe):	The youth organizers spent 3-4 months planning this event, which took place on 5/11/2024. They gathered literature from partners at Middlesex County Health Services to distribute to participants. They arranged a guest speaker to discuss mental health impact on opioid addiction and other addiction. They drew residents into the event with free blood pressure testing and glucose screening.
15	How frequently are you measuring the tracked key performance indicators?	This was an initial event. We still have to determine if we will have a similar event next year, and if so we will measure annually
16	What outcomes or impact does the program aim to achieve? How do you plan to measure or track that impact?	The group's aim was to highlight local resources for residents struggling with mental health impacts and resources for opioid addiction services, and how the two are linked.
17	Primary Category:	Primary Prevention, Education, and Training
18	The following are other categories that may apply (include all categories with the exception of the Primary category you chose above).	Harm Reduction and Overdose Prevention, Recovery Supports
19	Please select the Schedule B strategy(ies) that fits the primary focus of this program:	Prevent Misuse of Opioids, Prevent Overdose Deaths and Other Harms (Harm Reduction), Leadership, Planning and Coordination
20	Please explain how this program will address opioid use disorder and any co-occurring substance use disorders or mental health conditions through evidence-based or evidence-informed practices or strategies.	This program gave residents who attended information about how mental health struggles lead to addiction, and what to be aware of in their own lives and their families to recognize that pattern, and where to go for help and resources to prevent mental illness from turning into opioid addiction.
21	Please identify the procurement method utilized for this program, describe the procurement process, and explain why the procurement method identified was used for this program.	This event had limited costs, including supplies, give-aways to fair participants, and breakfast for participants. The Township used its standard procurement procedures, following New Jersey laws and regulations, including established vendors. There were no high dollar amounts purchases that required more extensive procurement procedures
