To the Person or Persons Responsible for all **TWA** Submissions to PVSC:

As a professional courtesy I am sending this letter to all Engineering and/or Architectural firms which have recently submitted to PVSC for projects requiring Treatment Works Application/Approval (TWA) submissions to the NJDEP.

PVSC's Connections Unit will soon be implementing a 3-tier Administration Fee system for TWA files. Some Treatment Works Application files are complex, requiring many hours to review, and some are more straightforward and less time-consuming.

As such, **beginning on July 1<sup>st</sup>, 2025**, PVSC's new Connections Unit 3-tier Administration Fee structure will be as listed below:

- A) The Administrative Review Fee for projects discharging less than 8,000 gallons per day (GPD) to the PVSC facility, as well as for non-volumetric Treatment Works Approvals (TWAs) and updated TWA reviews, **will remain at \$250.00 per application.**  
These include but are not limited to:
- Sewer Extensions
  - Lift / Pump Stations
  - Wet signature on TWA 2, time-extension forms
- B) The Administrative Review Fee for projects adding between 8,000 GPD and 15,000 GPD to PVSC will be raised to **\$500.00 per application.**
- C) The Administrative Review Fee for projects adding over 15,000 GPD to PVSC will be raised to **\$750.00 per application.**

It is important to note that our new tiered fees remain considerably less than those of comparable agencies. **Any files submitted prior to July 1<sup>st</sup> of this year will be calculated at the previous Administration Fee rate.**

It is my pleasure to continue working with your firm on TWA submissions to PVSC. If you have any questions or concerns, please feel free to contact me via email at [FGRANT@PVSC.COM](mailto:FGRANT@PVSC.COM), or at 973-344-4218.

Respectfully,

Frank M. Grant – Supervisor, Connections Unit, Inspection & Compliance Bureau
