PVSC Recognizes A Record Number Of Permittees With Perfect Compliance Records
The Annual Honors Have Now Taken Place For 30 Consecutive Years

Newark, NJ – For the 30th consecutive year, the Passaic Valley Sewerage Commission (PVSC) has recognized companies that operated in the previous calendar year without having incurred a single effluent (wastewater discharge) or reporting violation. A record 122 businesses were honored for the 2024 calendar year.

PVSC issues Significant Industrial Users that discharge into its Newark treatment works a Sewer Use Permit or Liquid Waste Acceptance Permit (for hauled wastes). These permits include limits for the quality of effluent the companies may discharge into the sewer system. These companies must also monitor and report on their discharges to PVSC every month. Compliance violations typically occur in instances when a company exceeds its permitted discharge limits, neglects to take requisite samples, or fails to file its monthly reports on time.

Each facility that goes a full calendar year without a single violation earns a PVSC Permit Compliance Award. Sika Corporation of Lyndhurst has garnered the honor 28 consecutive years. Also included among the 2024 honorees is Anheuser-Busch of Newark (19 consecutive years), Royal Wine Corporation of Bayonne (17 years), A&B Famous Gefilte Fish of Paterson and WY Industries of North Bergen (13 years), and Brown Chemical of Paterson and Monmouth County Reclamation Center in Tinton Falls (11 years).

“Congratulations to the PVSC Permit Compliance Award winners,” said PVSC Chairman Thomas Tucci, Jr. “These honors appropriately spotlight their exceptional dedication to adhering to strict discharge limits and their commitment to operating in an environmentally responsible way. We applaud their accomplishment and are proud to honor them in this way.”

A complete list of honorees follows on the next several pages.
