

Driving Growth and Good: NJ Tax Credits for Tech Innovation and Food Desert Relief

Co-hosted by the New Jersey Economic Development Authority (NJEDA) and NJ-India Commission (NJIC), this webinar, "Driving Growth & Good: NJ Tax Credits for Tech Innovation and Food Desert Relief," will highlight three NJEDA tax incentive programs:

The Next New Jersey Program - AI offers substantial tax credits for companies investing \$100M+ in CapEx and creating 100+ high-paying AI jobs in New Jersey, aiming to position the state as an AI leader.

The Corporate Tax Credit Auction allows businesses to purchase state corporate business tax credits at a discount, with proceeds funding the New Jersey Innovation Evergreen Fund (NJIEF) to support early-stage, high-growth businesses.

Food Desert Relief Tax Credit Auction will sell up to \$10M in tax credits to fund programs increasing access to nutritious food in the state's Food Desert Communities, fostering both innovation and social good.
