MEMORANDUM TO: Members of the State Planning Commission
FROM: Donna Rendeiro
RE: Proposed Riverside Endorsement
DATE: July 28, 2022

The Township of Riverside received Town Center designation in April 1999. In October 2021, the Burlington County Board County Commissioners, on behalf of the Township, submitted their Municipal Self-Assessment to the Office, beginning their process to renew their endorsement and their Center boundaries. The report was written for the U.S. Route 130/Delaware River Corridor Regional Plan Endorsement and includes the Township of Florence, the City of Burlington, the Township of Burlington, the City of Beverly, the Township of Edgewater Park, the Township of Delanco, the Township of Willingboro, the Township of Cinnaminson, the Township of Delran, the Borough of Palmyra, the Borough of Riverton, and the Township of Riverside. The Governing Body of Riverside places a high value on public information and transparency. The details are provided in the attached recommendation report written by Meghan Wren.

Over the last 20 years, Burlington County, the municipalities, and State agencies have worked together to implement sound planning principles and the common goals set forth in the State Plan and Route 130/Delaware River Corridor Strategic Plan. The vision set forth in the 1999 Plan remains relevant and the goals are still valid. Riverside has invested in the success of the Plan and has implemented, many, if not most of the recommendations and strategies. The regional approach undertaken in the Strategic Plan is unique as compared to other Endorsed Plans.

Given the Township's vision is in line with the State Plan's goals, I fully support the recommendation to grant the Township of Riverside's Plan Endorsement.

Plan Endorsement Recommendation Report

Township of Riverside

**New Jersey Department of State
Office of Planning Advocacy
Meghan Wren, AICP, CFM, Area Planner
July 18, 2022**

This document is a recommendation report prepared by the Office for Planning Advocacy (OPA) as staff to the State Planning Commission (SPC or Commission), based on input of our partner agencies, Township of Riverside, Burlington County Bridge Commission and members of the public. OPA will post this report and other material related to the Township of Riverside Plan Endorsement petition on our website. You can contact our office by email regarding petitions for Plan Endorsement by providing contact information, including name, organization, address, and e-mail address to osgmail@sos.state.nj.us.

Documents submitted by the Township of Riverside for Plan Endorsement can be found here: <https://nj.gov/state/planning/plan-endorsement.shtml> and include the Township's Master Plan, Amendments, Redevelopment Plans, etc.

INTRODUCTION

The Township of Riverside (hereafter Riverside or Township) first had its centers designated April 28th of 1999 as part of the regional Burlington County Route 130/Delaware River Corridor Strategic Plan, developed under the leadership of the Burlington County Bridge Commission, prior to when the formal Plan Endorsement process was in place. It received various extensions over the ensuing years that are scheduled to expire on March 31, 2023.

The Township's interest in pursuing formal Plan Endorsement was discussed on March 10, 2020 at a series of 3 back-to-back joint prepetition meetings with representatives from all twelve Corridor Strategic Plan towns, (Palmyra, Riverton, Cinnaminson, Delran, Riverside, Delanco, Beverly, Edgewater Park, Willingboro, Burlington Township, Burlington City and Florence), the state agencies and the Burlington County Bridge Commission. (BCBC had, once again, shepherded the communities to this point.) Riverside's primary objective in seeking Plan Endorsement was to plan and grow in a manner consistent with the State Plan; to update the map with resiliency and equity considerations; and to gain assistance from the State as the community strives to redevelop sustainably, revitalize the local economy, increase pedestrian safety, improve circulation, stormwater management and quality of life.

The local goals, objectives and vision for the Township remain consistent with the State Plan, though some of the Center, Node and Planning Area boundaries are being amended to reflect current habitat data and resiliency considerations. The Township completed a Master Plan Reexamination in 2022, has made great strides in its redevelopment efforts and is diligent at implementing its vision for future quality of life, economic viability, and land use stewardship.

BACKGROUND/ CHRONOLOGY

The Burlington County Bridge Commission forwarded the Township of Riverside's petition for continuation of its Plan Endorsement in October 2019 along with the eleven other Route 130/Delaware River Corridor municipalities. Early in the process, OPA decided to split the twelve municipalities into two groups, North of the Rancocas and South of the Rancocas to make it more manageable for OPA, the agencies and the SPC to manage the review. For mapping and visioning purposes, OPA further split the twelve communities into four groups of three, the first three southernmost communities, Cinnaminson, Palmyra and Riverton, often referred to as the Triboro region, were the first Endorsement presentations. Next, we are working with the two municipalities immediately above them, Riverside and Delran. Since the Regional Plan Endorsement process requires that each municipality must individually meet all the requirements for Plan Endorsement, we still need to demonstrate individual consistency and meet the intent and standards of the process for each municipality at each PE Step.

In March, 2020, Prepetition meetings were held for all twelve municipalities; Riverside authorized a Plan Endorsement Advisory Committee in August, 2021 and authorized submittal of the regional MSA on their behalf on September 27, 2021. BCBC submitted the regional Municipal Self-Assessment Report in October, 2021 – with a municipal questionnaire from Riverside. They participated in an in-person regional mapping meeting on March 25th, 2022, and received their opportunities and constraints report on July 18th 2022.

Riverside has been steadily building on its planning foundation, with efforts toward sustainability and smart growth as follows:

Event(s)	Date	Notes
Master Plan (Elements include: Land Use, Community Facilities & Conservation, Circulation, Historical & Environmental Assessment Statements)	1997 (1978)	
Transit Village Designation	1999	NJDOT
Centers Designated	April 1999	With the Strategic Corridor Plan
Clean and Plentiful Water: A Management Plan for the Rancocas Creek Watershed	2003	Burlington County Department of Resource Conservation
Riverside Redevelopment Plan	2004	
Housing Plan	2005	
Taubels Mill Redevelopment Plan	2005	
Golden Triangle Redevelopment Plan	200X	
CBD Revitalization Plan	2007	DVRPC/TCDI

Housing Plan	2015	
Land Development Ordinance & Zoning Map	2016	
Burlington County Wastewater Management Plan	2017	With Build out analysis
Flood Damage Prevention Ordinance	2017 (1977, 1995)	
Submitted PE Petition	September 27, 2019	
Community Planning Study	2018	Multiple public engagement activities
Burlington Co Hazard Mitigation Plan	2019	
Stormwater Pollution Prevention Plan	2021 (2006)	Recently updated
Prepetition Meeting	March, 2020	
Appointed PE Advisory Committee	August 2021	
Submitted MSA	September 2021	
Visioning Sessions (Local + Regional)	February & June 2022	With BCBC & OPA support
Master Plan Reexamination (discussed amendments to these elements: Historic, Housing, Economic, Circulation, Municipal Services, Recreation, Land Use)	2022 (1996, 2003, 2005, 2010)	BCBC
PIC Recommendation (Scheduled)	July 20, 2022	
SPC ADOPTION (Scheduled)	August 3, 2022	

PUBLIC PARTICIPATION and VISIONING

As part of the Plan Endorsement process the Township appointed a PE Advisory Committee in April, 2021 and, with BCBC's lead hosted a local visioning session (via Zoom) on February 22, 2022, conducted an online survey of residents in the spring of 2022 and participated in a regional visioning session with BCBC and OPA on June 27, 2022. A vision statement and goals were developed while preparing the Master Plan Reexam and these visioning sessions as there was not one in previous Master Plans:

"The Township of Riverside strives to promote and improve quality of life through enhancing a sense of community and preserving the integrity of our small-town identity and heritage. Future progress will rely upon a balance of preservation and revitalization as residents, businesses and organizations make Riverside their home."

Goal: To bring about a fiscally beneficial mix of commercial, office, industrial, lodging, civic and residential land uses to enhance and sustain Riverside's unique historic, small-town community character while achieving economic strength and stability in the municipal tax base.

LOCATION & REGIONAL CONTEXT

The Township of Riverside is in the north-west portion of Burlington County along the Delaware River. The Township is bordered by the Rancocas River and Delanco to the east and Delran to the west and south. To the north across the Delaware River, Riverside Township is bordered by Philadelphia. According to the 2020 Census, the community's population was 8,003. The township has a total area of 1.614 square miles, including 1.489 square miles of land and 0.125 square miles of water.

Riverside shares a SDRP Center with Delran northeast of the Palmyra-Riverton-East Riverton Town Center. The Riverside-Delran Town Center shares common physical links with its southwestern neighboring town center, including CR 543, the railroad and the Delaware River. It is an existing Town Center comprised of almost the entire municipality of Riverside Township and the Cambridge section of Delran Township. The Riverside portion of the Town Center is almost entirely developed. It is situated at the confluence of the Delaware River and Rancocas Creek. Riverside has a downtown business district concentrated along Scott Street and portions of Pavilion Avenue and Bridgeboro Street. Many of the Industrial uses concentrated along CR 543 and the railroad are gone. High density single and multi-family housing surround the downtown business district.

For the most part, Riverside developed using a grid system, with grids perpendicular to major roads and not always perpendicular to each other. Riverside's development patterns are reflective of the periods during which the community evolved and expanded. The central portion of the township developed during the mid- and late nineteenth century. Development continued throughout the early and mid-twentieth century, adding residential neighborhoods to the community. The latest developments occurred during the 1970's in the southern portion of Riverside. The Riverside-Delran Town Center has the highest population density of all the Town Centers in the Corridor. As Riverside redevelops the Watchcase Tower, the Taubel's Mill site and the Zurbrugg Hospital site, new

employment opportunities may emerge, which will increase the number of jobs within the Town Center.

Riverside Township has excellent access to public transportation, which includes the NJ TRANIST 419 bus route and the Riverside RiverLine Station. The downtown section of Riverside, which includes Scott Street, Bridgeboro Street and Pavilion Avenue, is very walkable and easily accessible to the RiverLine passengers and the future residents of the various planned housing developments.

LAND USE, DEMOGRAPHICS AND RIVERSIDE’S FUTURE*

In 1900, the newly formed Riverside Township was home to 2,581 residents. As industry and trade flourished along the Camden and Amboy Railroad, the population increased to 7,061 in 1930. It continued to rise each decade until it reached a peak of 8,591 in 1970 (see Table 5). Between 1970 and 1980, the population decreased 7.6%, likely due to a downturn in manufacturing jobs and a nationwide shift from urban centers to suburban-style neighborhoods. Since 1980, Riverside’s population has remained relatively stable hovering around 8,000 residents. As housing preferences begin to trend back to urban areas with more accessibility, amenities and housing options, Riverside’s population is projected to increase. The Delaware Valley Planning Commission (DVRPC) 2050 Municipal-Level Population Forecasts predict Riverside’s population to rise to 8,439 in 2050 based on planned and approved housing projects.

Year	Population	Density	Percent Change
2020	8,003	5,407	-0.9%
2010	8,079	5,459	2.1%
2000	7,911	5,345	-0.8%
1990	7,974	5,388	0.4%
1980	7,941	5,366	-7.6%
1970	8,591	5,805	1.4%
1960	8,474	5,726	17.7%
1950	7,199	4,864	1.8%
1940	7,072	4,778	0.2%
1930	7,061	4,771	

Source: New Jersey State Data Center - New Jersey Resident Population by Municipality, U.S. Census Bureau, 2020 Decennial Census Redistricting Data

Riverside is a diverse community with a mix of ethnicities, races and age groups. The Township has become more diverse over the last ten years as the percentage of residents, which identify their race as “White Alone” dropped from 75.2% in 2010 to 60.7% in 2020 (see Table 6). The Township’s “White Alone” population is lower than Burlington County’s but similar to that of the State of New Jersey. The percentage of residents identifying as “Black or African American Alone” increased from 6.0% to 7.1% and the percentage of “Hispanic or Latino (any race)” residents rose from 11.3% from 17.6% between 2010 and 2020. “Other” race, which includes Asian, Pacific Islander, American Indian and Alaskan Native and residents identifying with two or more races also increased from 7.5% to 14.6% during that timeframe. Riverside has a substantive foreign-born population (born outside the United States), which comprised over 14.5% of the total population in 2019, mostly from Latin

America. Almost a quarter of the residents in Riverside speak a language other than English at home. Diversity in the composition of the Township's population is likely to continue to increase in the future due to shifts in migration nationwide

Riverside Census Data 2020:

Housing

Riverside is one of eight municipalities in Burlington County that is eligible to participate in New Jersey Department of Community Affairs (DCA) Small Cities Community Development Block Group (CDBG) housing rehabilitation program. With this funding, Riverside has rehabilitated homes occupied by low- and moderate-income households. To continue to address its affordable housing needs, the Township should update its 2015 housing plan element and continue with its rehabilitation program. The entire Township of Riverside meets the criteria set forth in the Local Redevelopment and Housing Law (N.J.S.A. 40A-12A-1 et seq) and has been designated an Area in Need of Rehabilitation.

Third Round Fair Share Housing Obligations

The Township was deemed a 'participating party' and filed to receive a declaratory judgment but withdrew with Fair Share's understanding when their major affordable project fell through. Since then they have worked on rehabilitation points and are very close to completing negotiations for a very large senior/affordable project that would exceed the numbers discussed as their obligations. The PIA recommends renewed discussions and a revised housing element.

INFRASTRUCTURE

Riverside is fully served by public water and sewer. There is adequate capacity in the Township.

Water - The Township is served by New Jersey American Water Company, Western Division. The underlying aquifer is the Potomac-Raritan-Magothy (PRM) aquifer. It is one of the most important water resources in the State and it is also in danger of becoming contaminated by saltwater intrusions because so many communities draw from it. In 1993 New Jersey Department of Environmental Protection identified the PRM as a Water Supply Critical Area and mandated water resource reductions in an effort to stabilize the aquifer's compromised state. As critical as the aquifer is, it is not the supply source for Riverside's drinking water. In response to the State's concern over the PRM, a pipeline was built to collect, treat and deliver Delaware River water as potable water. Riverside gets its drinking water from this Delaware River intake. Riverside is dependent on the prudent policies of upstream communities whose stormwater runoff feeds the Delaware River.

Sewer Service Area - Riverside has its own wastewater treatment plant run by the Riverside Sewerage Authority but Burlington County is responsible for its wastewater management planning. Burlington County's countywide Wastewater Management Plan (WMP) was approved in 2013.

Future Sewer Service Map On July 11, 2012 by Resolution No. 2012-00369, the Burlington County Board of Chosen Freeholders approved a Future Wastewater Service Area map as the first phase of development of the county-wide wastewater management. Following public review and comment, DEP adopted the Future Wastewater Service Area map as an amendment to the Tri-County Water Quality Management Plan on May 7, 2013.

County Wastewater Management Plan On May 24, 2017 by Resolution No. 2017-00240, the Freeholders authorized submission of the Burlington County Wastewater Management Plan to DEP

for adoption into the Tri-County Water Quality Management Plan. The build -out analysis prepared by Burlington County in 2017 as part of their Wastewater Management Plan is below:

Municipal Boundaries

Sewer Service Areas

TRANSPORTATION/CIRCULATION

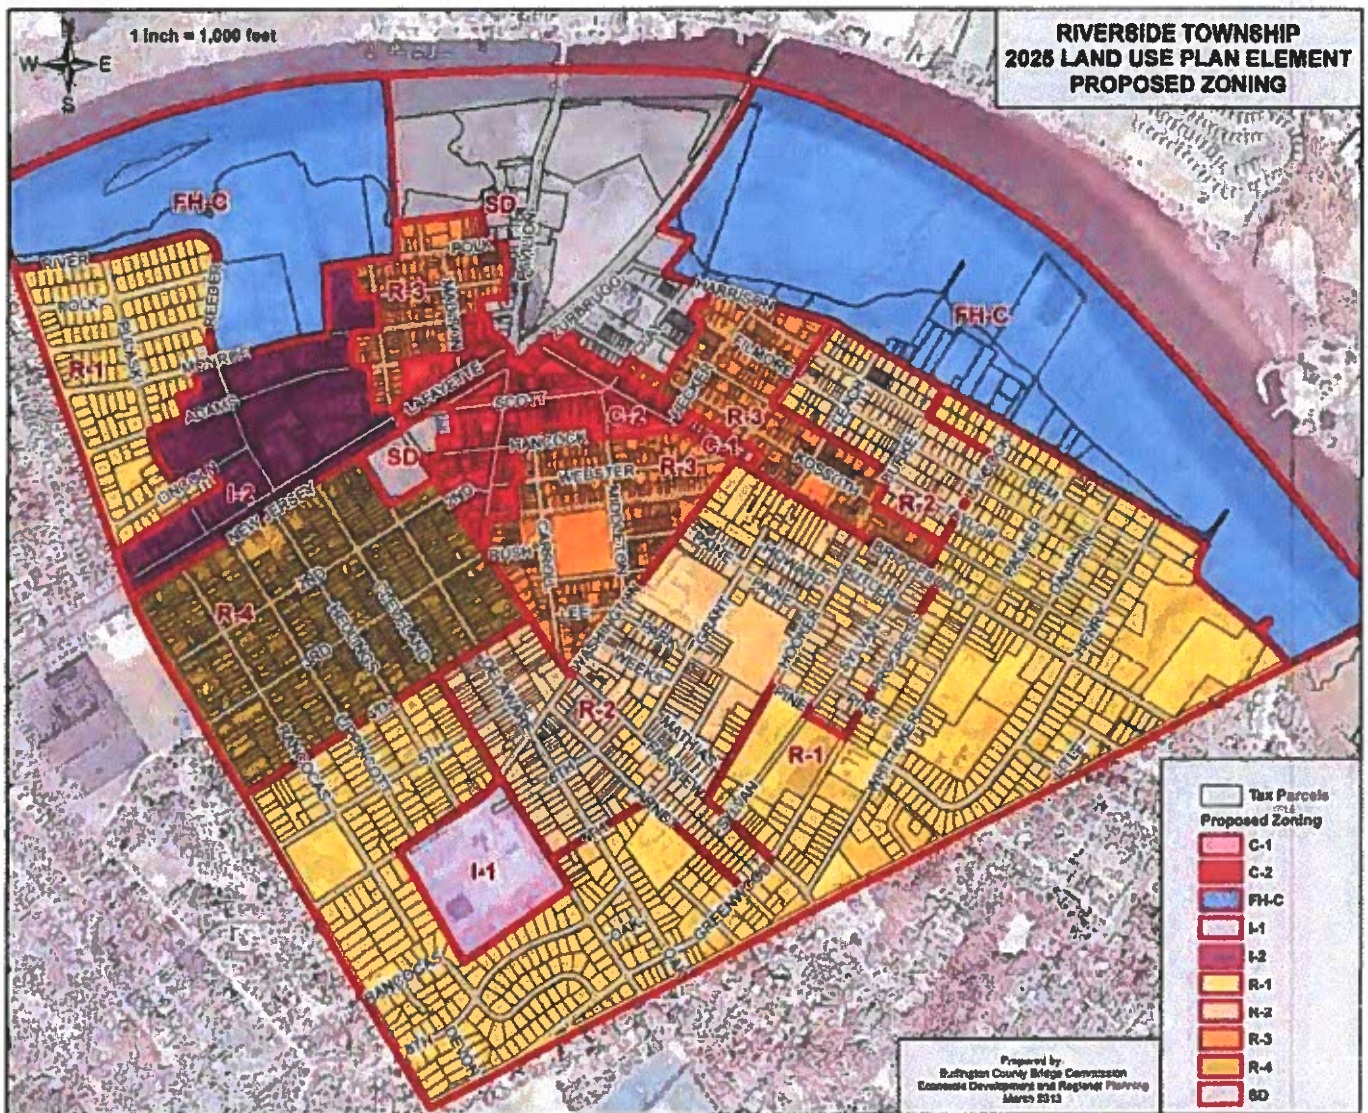

The Circulation Element is recommended to be updated with emergent issues as a PIA action item. Future transportation/transit planning initiatives and projects may need partnerships with NJTA, NJDOT, DVRPC and BCBC to achieve key objectives.

In 2004, the light rail system the RiverLine opened with a stop in Riverside. In 1999, in anticipation of the RiverLine station, Riverside was designed by DOT as a Transit Oriented Village. Since then, the municipality has adapted its zoning, development, redevelopment, economic development activities and planning around this access to mass transit.

FUTURE LAND USE /ZONING MAP (Below)

Redevelopment & Rehabilitation

Riverside Zoning

As a result of recommendations included in the 1997 Land Use Plan, the Township designated two areas in the downtown district as areas in need of redevelopment: 1) The Golden Triangle Redevelopment Area, and 2) the former William F. Taubel Knitting Mill Redevelopment Areas. Redevelopment plans for these areas were prepared and adopted in the early 2000s with the intention of generating economic growth through the reuse of vacant and underutilized properties and the rehabilitation of abandoned buildings. After years of inactivity, redevelopment has commenced. The approved projects provide a mix of housing options that are conveniently located near the light rail station, retail and recreational opportunities.

New residential projects, which include the Mill at Riverside, the Watchcase apartments and the Camelot project will add to the Township’s housing stock, which will in turn support future commercial growth. Outside of the downtown area, developers have shown interest in some of the few remaining vacant developable parcels that are able to accommodate large scale residential. At the site of the former Riverdel Swim Club, the Township received a concept plan submitted by a developer to construct nineteen single-family housing units. Another project that included 65 townhomes along Whittaker Street between Riverside and Delran was proposed but has not received approvals.

Table 1 – Redevelopment Projects as of 2022

Project	Location	Use	Proposed Units
Watchcase	Golden Triangle Redevelopment Area	Residential	64
Camelot	Golden Triangle Redevelopment Area	Residential	170
Root Property	Golden Triangle Redevelopment Area	Passive Recreation	0
Zurbrugg	Golden Triangle Redevelopment Area	Mixed Use/ Commercial	TBD
The Mill at Riverside	Taubel’s Mill Redevelopment Area	Residential	190

PROPOSED MAP AMENDMENTS

Riverside has reached consensus on their map's Planning Areas and Center/Node boundaries as shown below:

Existing Planning Areas show as all PA1, Metropolitan with a Center that encompasses most of the municipality. Centers have a dashed yellow boundary while Nodes have a yellow boundary with yellow hatching.

Proposed Planning Areas, Centers and Nodes with CESs over Flood Hazard Areas and critical habitat in light gray hatching.

Summary of Riverside Map Amendments

Riverside Acreage	Existing	Proposed	Change
PA1 Metro	958.26	758.93	-199.33
PA5 Environmentally Sensitive	0	143.28	143.29
Open Space/ROSI	0	60.14	60.14
CES (Habitat & Flooding)	0	94.78	94.78
Center	856.75	766.38	-90.37

STATE PLAN GOALS REVIEW

Goal #1 Revitalize the State's Cities and Towns

Riverside, once called "Progress," certainly strives to live up to its original name. Over the past several years, Riverside has begun to revitalize and reinvent itself, focused on molding its Downtown and surrounding redevelopment areas into a vibrant hub of shopping, dining, living and leisure.

Riverside Township is a historic development center and is one of the densest municipalities in the Corridor. Redeveloping underutilized or vacant properties into mixed-use developments that provide a variety of housing options is the goal. To spur economic development, A portion of Riverside was designated as one of only five opportunities zones within Burlington County. Opportunity Zones are meant to drive long-term capital investments into low-income rural and urban communities.

Riverside is actively coordinating with multiple State agencies and the Burlington County Economic and Regional Planning Department to find and attract investments and focus development efforts in areas designated for redevelopment.

Goal #2 Conserve the State's Natural Resources and Systems

The Burlington County Department of Resource Conservation prepared the Parks and Open Space Master Plan in 2002. Riverside is prominently located within two designated project areas, where the County seeks to concentrate resources – the Rancocas Creek Greenway and the Delaware River Greenway. The plan is based upon four primary goals: 1) create a County system that expands public access to diverse, passive recreational facilities; 2) aggressively protect significant natural resources; 3) preserve and advance the County's culture and heritage; and 4) coordinate park development and open space preservation with compatible growth, preservation and recreation initiatives. These four goals, along with their corresponding objectives are complementary to the Township's commitment to the development of recreational facilities and open space preservation. The County is planning to update this Plan in late 2022.

Goal #3 Promote Beneficial Economic Growth, Development and Renewal for all Residents of New Jersey

Riverside's redevelopment has been, and will continue to be, focused in four main areas, which consist of the Downtown Central Business District, the Golden Triangle Watchcase Site, the Golden Triangle Zurbrugg Hospital Site, and the Taubels Mill Site. The Downtown Central Business District is a true, walkable downtown with a mix of apartments over first floor commercial establishments. Several properties are undergoing renovation, bringing both new life and new blood to this already spectacular Downtown. The three remaining sites will see predominantly residential development with design concept and preliminary site plans underway from each of the respective developers.

Recently vacant storefronts can be found along Scott Street, Bridgeboro Street, South Pavilion Avenue and Lafayette Street. To combat the downturn in economic activity caused by COVID-19, Riverside is exploring new ways to encourage economic activity within the downtown area. For example, the Township is compiling an inventory of both occupied and vacant commercial structures. Riverside is also considering an ordinance to permit daytime and early evening outdoor dining on private property and sidewalks adjacent to local restaurants for the enjoyment of restaurant patrons. Additionally, the Township is planning to implement a full streetscape design for the downtown within the next two years, which will improve parking, enhance pedestrian safety and add amenities to improve the visitor's experience. Riverside continues to encourage economic activity and support businesses in the downtown district by sponsoring events such as Christmas In Riverside, Haunted Police Station, Trunk or Treat, Riverside Community Day and National Night Out.

Goal #4 Protect the Environment, Prevent, and Clean Up Pollution

Riverside's existing and proposed land uses, growth areas, and nodes are prepared with the intent of protecting the environmentally sensitive regions of the Township. With the proposed growth in the Township anticipated to occur in the redevelopment and infill areas, the Township can be proactive in forming public private partnerships with redevelopers and give the Township more leverage to require new buildings and developments to be more environmentally sustainable, as well as the opportunity to assist in any environmental clean-up if any of the former commercial properties are found to have any contamination.

Goal #5 Provide Adequate Public Facilities and Services at a Reasonable Cost

Riverside is committed to efficiency in its operations while ensuring that basic needs as well as quality of life issues are addressed and continually improved.

Goal #6 Provide Adequate Housing at a Reasonable Cost

The Township's Housing Plan Element and Fair Share Plan was last revised in 2015. It was endorsed by the Township Committee by Resolution 2015-#116. The Plan was filed with the Superior Court but it was ultimately withdrawn. In preparation of the next round of affordable housing obligations, Riverside should review and update its Housing Plan Element in the next 1-3 years.

Goal #7 Preserve and Enhance Areas with Historic, Cultural, Scenic, Open Space, and Recreational Value

Riverside's Land Use Element recommends policies and design strategies that protect the character of the City's historic neighborhoods while the goals of the Master Plan maximize and enhance the use of existing parks and open space as well as expand recreational and park facilities, focusing on creating waterfront walkways.

Goal #8 Ensure Sound and Integrated Planning and Implementation Statewide

Through this Plan Endorsement process, the Township is seeking integrated planning with state agencies. The proposed center and the proposed PA-1 and PA-5 areas are consistent with the goals of the State Development and Redevelopment Plan. The proposed lands to be preserved are also consistent with the SDRP. Proposed development growth areas within Riverside are centrally located, and should have minimal impacts on surrounding communities, reducing regional conflicts, and increasing development capacity in appropriate areas of existing infrastructure. With the Township's anticipated growth in population, there will need to be a coordinated effort to meet the demand for new housing and jobs in the region. The Township's planning documents are built around meeting this demand while preserving sensitive areas and directing growth to transit areas.

RESILIENCY

The Township has undertaken several efforts to support a more sustainable and resilient municipality and is preparing to undertake more:

- The Township is working to update and amend its Flood Hazard Ordinance.
- Riverside passed a resolution authorizing participation in the Sustainable Jersey Program and may use a Green Team to help the municipality work on sustainability and resiliency issues.
- The 2019 Burlington County All Hazard Mitigation Plan, including the Riverside Annex, takes the first step in identifying vulnerable assets and actions to mitigate defined vulnerabilities.
- Riverside is aware of the Climate Change Related Vulnerability Assessment requirement of the Plan Endorsement process and of NJ Adapt suite of tools as well as NJDEP potential for technical assistance.

STAFF RECOMMENDATION:

From Riverside's regional MSA, "Over the last 20 years, Burlington County, the municipalities, and State agencies have worked together to implement sound planning principles and the common goals set forth in the State Development and Redevelopment Plan and Route 130/Delaware River Corridor Strategic Plan. The vision set forth in the 1999 Plan remains relevant and the goals are still

valid. The municipalities have invested in the success of the Plan and have implemented many of the recommendations and strategies. To continue this successful partnership, the County, on behalf of the 12 municipalities is again seeking plan endorsement, to further advance the transportation, economic and land use goals of the Corridor and extend the existing Town Center designations for another ten years.”

Riverside has followed and implemented much of the Endorsed 1998 Route 130/Delaware River Corridor Strategic Plan as the regional and local manifestation of the State Plan. They have completed many of the activities under Land Use, Housing, Economic Development, Transportation, Recreation and Open Space, Historic Preservation, Public Facilities and Services and Intergovernmental Coordination. This plan was the approximation of a Plan Implementation Agreement (PIA) for Riverside since the municipality was endorsed before PIAs existed.

The Township of Riverside has planned and implemented measures to ensure that their centers, and environs remain sustainable and grow using smart-growth principles and are willing to work on areas where there are gaps. Based on this work, they have demonstrated that their actions and plans, including with the items identified in the PIA, are aligned with the State Plan. It is staff’s recommendation that the State Plan Commission consider accepting Riverside’s petition for Plan Endorsement with their commitment to implement their PIA. Please see the attached PIA for details of their implementation agenda.

#	Topic	Req (*)	Activity	Local Effort	Assistance	Time Frame	Comments
A1	Administrative	*	After SPC adopts resolution granting PE: OPA sends certified resolution to NJ State Register, updates GIS layer, sends fully signed documents to petitioner and posts signed and certified documents on OPA website.		OPA	ASAP Upon completion of all resolutions	
A2	Administrative	*	One year from endorsement and biennially thereafter, report to the SPC about the status of planning efforts, ordinance adoption and other accomplishments from the PIA.	Planning Board and governing body	OPA	1st Due July 6, 2023; then July 6th, 2024, 2026, 2028, 2030, 2032	First year = Annual Report then Biennial Reports for the next 8 years on PIA action status..
A3	Administrative	*	After adoption, Riverside shall submit to OPA any new or modified land use ordinance and/or planning document.	Planning Board and governing body	Technical assistance	Include in Biennial Report.	Include in reports planning, land use or relevant items beyond the PIA actions.
B1	Public Info & Community Engagement		Begin participating in the Sustainable Jersey program by engaging a Green Team and recruiting capable volunteer residents and others to support actions committed to by the municipality.		Governing body, Green Team	ongoing	Riverside currently is registered but not certified with Sustainable Jersey. Many PE actions could be undertaken by a Green Team and gain significant points for Bronze or even Silver certification and maybe even a Gold Star.
B2	Public Info & Community Engagement		Many of the following actions would benefit from public engagement including education about issues, resident assistance with actions, participation in decision making and support for a path to resiliency and sustainability. An early action should be a public forum(s) designed to recruit short and long-term public engagement, sharing information/goals, highlighting opportunities for participation, volunteerism and meaningful involvement in community planning and decision making.	Governing body, Planning Board, Green Team, chamber (s), churches, schools, other local and regional organizations as partners/invitees.	OPA, DEP, local groups & regional NGOs/universities	Year 1 and periodically thereafter to update/engage residents on progress on key issues.	Forum(s) should be designed with a well developed outreach element to ensure equitable inclusion and meaningful turn out and facilitated to maximize results.

#	Topic	Req (*)	Activity	Local Effort	Assistance	Time Frame	Comments
C1	Climate Resilience Planning	*	Develop, adopt, and implement a climate change-related hazard vulnerability assessment (CCRHVA) that meets the requirements of the MLUL per P.L.2021, c.6.	All municipal hands should be engaged.	DEP/SJ, NJ Adapt, OPA. There are many opportunities for technical assistance, funding and support for this activity.	1-3 years	Riverside should review existing data, maps, and HMP Annex and compile an assessment and strategy to satisfy the requirements for the CCRHVA in the MLUL per NJDEP. Include climate impacts for temperature, precipitation, flooding, heat island, wildfire protection and vulnerability of public and private potable wells, pump stations and wastewater treatment; identify utility sites, facilities, equipment, conveyance piping, overhead utility lines, etc. that may be vulnerable to climate impacts or other environmental hazards. Confirm the condition and capacity of these utility sites, facilities, equipment, etc. DEP strongly advises against new utility development in areas identified as vulnerable to natural hazards in current and projected condition. Findings from the CCRHVA should guide strategies and actions to increase resilience and reduce risk moving forward.
C2	Climate Resilience Planning	*	Review and update the Flood Damage Protection Ordinance with the current NJ Riverine Model Ordinance (revised 2020) at https://www.nj.gov/dep/floodcontrol/modelord.htm in order to stay compliant with NFIP.	Planning Board and governing Body	DEP	11/30/22	Riverside's Flood Loss Ordinance is from 2017 (Chapter 225 Ecode360) and needs revision. NJDEP updated the model ordinance in December 2020 to be compliant with NFIP.
C3	Climate Resilience Planning		Review the Blue Acres Program and see if it might be an option for any Non-mitigated repetitive loss properties in the community.	Governing body	DEP, OEM, FEMA		Riverside has 5 repetitive loss properties, 64 NFIP policies with 49 losses per the 2019 HMP Annex.
C4	Climate Resilience Planning		Consider participating in the CRS program and potentially address Repetitive Loss (RL) and Severe Repetitive Loss (SRL) properties	Governing body	DEP, OEM, FEMA		
D1	Land Use	*	Review plans and ordinances and remove impediments to, and encourage, green design throughout the community. Make necessary modifications to ensure that innovative and sustainable construction alternatives and materials (such as green roofs) are permitted. Riverside may also consider approving incentives for using innovative roofing alternatives and materials.	Planning Board, governing body & Green Team	OPA, NJDEP technical assistance	1-3 years	Sustainable Jersey points and support. (Riverside registered with Sustainable Jersey in 2018 but is not certified yet. has a Green Team that has not been certified as yet but could be the catalyst for many of the actions herein.)

#	Topic	Req (*)	Activity	Local Effort	Assistance	Time Frame	Comments
D2	Land Use	*	Review and update Master Plan and all associated elements to consider climate resiliency and socially vulnerable populations.	Planning Board, governing body & Green Team	DEP, Sustainable NJ	3-6 yrs (1-3 years after CCRHVA)	Sustainable Jersey points and support. Address MLUL requirements.
D3	Land Use	*	The municipality shall enhance its zoning regulations and building codes to encourage building outside of the flood zone and to minimize construction in flood prone areas to reconstruct existing buildings. Flood zone area new construction or redevelopment of existing buildings should avoid high density concentration and areas of severe flooding. Placement of critical facilities and utilities in flood zones should be avoided whenever possible. Affordable housing should be sited to avoid flood zone and hazardous areas.	Planning Board	DEP (Bureau of Climate Resilience Planning)	1-3 years After CCRHVA	Flood damage prevention ordinance was passed in 2017 and needs revision (see C3). NJDEP Updated the model ordinance in 2020 to be compliant with NFIP. Riverside needs to follow all regulations set forth by the NJDEP with regards to flood hazard area regulation, wetlands, etc...
D4	Land Use		Consider adopting an Accessory Dwelling Unit (ADU) Ordinance in residential zones.	Planning Board			
D5	Land Use		Create an Open Space & Recreation Plan/Element (OSRP) with an emphasis on identifying a strategy for preserving the Rancocas Creek corridor for habitat preservation, flood control, water quality and public access (if feasible). Once the OSRP is up to date, Green Acres could be approached for funding support for the plan, especially acquisition of riparian properties/easements along the Creek.	Work with County, Rancocas Creek Watershed Association, Riverside Environmental Commission, DVRPC, DEP, NGOs and OPA for planning/ support.	DVRPC, County and Green Acres Funding as applicable.	3-6 years	Be sure to incorporate climate change considerations when developing the plan. Petitioner will work closely with Green Acres, local advisory committee, County, and property owners to negotiate the purchase of properties to be permanent open space. (ROS) Be sure to maintain consistency with the county OSRP.
D7	Land Use	*	Add appropriate Overlay Zone(s) to Zoning Ordinance/Map.			Within 1 year of PE	The municipality's zoning ordinance shall be amended to include an overlay (or 2 overlays) that follow(s) the agreed upon CES (Critical Environmental Sites) layer. In 1% flood areas (based on FEMA's flood layers), vulnerable uses will be excluded and all relevant floodplain building restrictions must be followed. In areas designated CES due to habitat (based on DEP's Environmentally Sensitive Areas of 25 contiguous acres - ESA25), the municipality shall require a Habitat Suitability Study that finds no adverse impact on key species in order to consider a site plan for approval.

#	Topic	Req (*)	Activity	Local Effort	Assistance	Time Frame	Comments
D8	Land Use		Develop a Vacant Land Inventory and identify any unoccupied structures that would lend themselves to affordable housing.	Planning Board, governing body & Green Team			
D9	Land Use	*	Update the 2015 Housing Element	Governing body/Planning Board		1-3 years	
D10	Land Use	*	The Township Committee should adopt the recently developed Vision Statement and include it in the next Master Pan update.	Governing body/Planning Board		1-2 years	
E1	Sustainability		Develop green building and sustainable design guidelines for new development - consider requiring "green buildings" (LEED, Green Globes) in redevelopment areas, to the extent practicable.	Planning Board, governing body & Green Team	SJ		Sustainable Jersey points and support
E2	Sustainability	*	Modify zoning code and permit forms/process to streamline to encourage solar, wind and geothermal.	Planning Board, governing body & Green Team	DEP, BPU, SJ	1-2 year	Sustainable Jersey points and support. Address MLUL requirements.
E3	Sustainability		MLUL encourages municipalities to include a Green Building & Sustainability Element in their master plan to help establish policies and initiatives for achieving sustainability goals. Components include: • Define what sustainability and resilience mean to your community • Statutory basis for a sustainability element and how it relates to other elements of the plan • Document public engagement activities • Summarize existing conditions and trends, including any environmental justice (EJ) concerns and any available baseline assessment like greenhouse gas • Document community's existing sustainability policies and programs and accomplishments inventories, energy use assessments, or public health inventories • Establish a vision for local sustainability and resilience, expressed in a succinct statement • Establish sustainability and resilience goals and objectives • Develop strategies and actions for achieving sustainability objectives, typically organized by topic area, such as land use, transportation, energy, water, waste, etc. • Establish performance measures and metrics for tracking progress toward objectives • Assign responsible parties for implementation actions • This could be expanded to be a Climate Action Plan if so desired.	MLUL encourages municipalities to include a Green Building & Sustainability Element in their master plan to help establish policies and initiatives for achieving sustainability goals. Components include: • Define what sustainability and resilience mean to your community • Statutory basis for a sustainability element and how it relates to other elements of the plan • Document public engagement activities • Summarize existing conditions and trends, including any environmental justice (EJ) concerns and any available baseline assessment like greenhouse gas • Document community's existing sustainability policies and programs and accomplishments inventories, energy use assessments, or public health inventories • Establish a vision for local sustainability and resilience, expressed in a succinct statement • Establish sustainability and resilience goals and objectives • Develop strategies and actions for achieving sustainability objectives, typically organized by topic area, such as land use, transportation, energy, water, waste, etc. • Establish performance measures and metrics for tracking progress toward objectives • Assign responsible parties for implementation actions • This could be expanded to be a Climate Action Plan if so desired.	DEP, Sustainable Jersey, DVRPC, OPA	Report on progress in biennial review	Sustainable Jersey points.
E4	Sustainability	*	Review recycling code to ensure consistency.				Riverside has an extensive recycling code and detailed recycling content on website.

#	Topic	Req (*)	Activity	Local Effort	Assistance	Time Frame	Comments
F1	Conservation		Consider expanding the Shade Tree Commission beyond the governing body and the administrator in order to harness additional expertise and volunteer capacity. Establish or maintain NUJCG accreditation, a Tree Protection Ordinance and/or Tree Risk Assessment Plan.	Planning Board, governing body & Green Team	DEP - Bureau of Sustainability; NJDEP Parks and Forestry; NJ Forest Fire Service; Sustainable Jersey	2-3 years	Riverside lacks a Tree Protection Ordinance, a Community Forestry plan, and a Tree Risk Assessment Plan and is not NJUCF accredited. See Woolwich's (https://ecode360.com/14140851) or Haddonfield (https://ecode360.com/10200060). Also, NJDEP Urban and Community Forestry guidelines are here: https://www.state.nj.us/dep/parksandforests/forest/community/information_for_municipalities.html
F2	Conservation	*	Adopt a wellhead protection ordinance in addition to the Environmentally Critical Area protection with specifics to protect water quality and public health.	Governing body & Green Team	DEP	3-4 years	sample provided
F3	Conservation	*	Adopt a Water Conservation Ordinance that is mutually agreeable to the municipality and DEP.	Governing body & Green Team	DEP, OPA, SJ	3-4 years	Sample ordinance provided.
F4	Conservation	*	Review existing Historical & Environmental Assessment Statement and other plans and develop a Conservation/Habitat Conservation section in the OSRP Plan (see Action #D5, above). Coordinate with county and surrounding municipalities to expand corridors of open space and natural features to support habitat connectivity.	Governing body & Open Space Preservation Committee, Planning Board, Green Team	DEP technical assistance and funding	3-5 years	NJDEP Connecting Habitats Across NJ (CHANJ) mapping can be of assistance to identify potential corridors https://www.njfishandwildlife.com/ensp/chanj.htm Be sure to incorporate climate change considerations and identify the CESs in relevant maps.
F5	Conservation	*	Compile an Environmental Resource Inventory ERI, including climate change observations and concerns. DEP can assist with identifying what to include.	Planning board, Governing body & Green Team	DEP, ANJEC, SJ, Geoweb, NJ Adapt	3-6 years	ERI should include climate impact considerations, findings from the CCRHVA, and CES overlays as appropriate.
F6	Conservation	*	Review and update as necessary the inventory of contaminated sites in Riverside and identify if any of these Known Contaminated Sites (KCS) within the proposed center also meet the DEP definition of a brownfield site.	Planning Board, governing body & Green Team	Data miner	1-3 years After CCRHVA	Review and update with climate impact considerations, findings from the CCRHVA, and CES overlays as appropriate. Riverside should follow the mapping and inventory provided by the NJDEP.
G1	Transportation & Circulation	*	Adopt a Complete & Green Streets Policy and Implementation Plan into the Circulation Element of the Master Plan.	Planning Board, governing body & Green Team	NJDOT, SJ	3-6 years	Model ordinances to be provided. Minor edits are acceptable.

#	Topic	Req (*)	Activity	Local Effort	Assistance	Time Frame	Comments
G2	Transportation & Circulation	*	Update the Circulation Element of Master Plan to address opportunities for shared parking, goods movement, and improvements to transit and circulation with continued growth in the community. In particular, reduce congestion and ensure that non-vehicular transportation is encouraged.	Planning Board	NJDOT, SITPO	3-6 years	Riverside agrees to work on the Circulation Element.
I1	Energy	*	Develop a community GHG Reduction Action Plan, including GHG reduction targets. GHG reduction actions should be incorporated into land use element of master plan. 1) Conduct Local Government Energy Audit (LGEA) of municipal facilities and operations, at a minimum, and community-wide audits, if feasible, and 2) using the results of these audits, develop action plans for reducing municipal energy consumption and GHG emissions - use NJ's 2020 GHG emissions reduction target as a goal	Planning Board, governing body & Green Team	BPU Clean Energy Program provides funding for municipal energy audits: (http://www.njcleanenergy.com/commercial-industrial/programs/local-government-energy-audit/local-government-energy-audit)	Timeline as provided PE guidelines (2 years with phasing)	The regional MPO prepared a greenhouse gas (GHG) inventory. https://www.dvrpc.org/Products/18018/ This inventory provides county and municipal-level GHG emissions information for various major community sectors/activities (e.g., residential, transportation, waste generation). Riverside can acquire its local inventory data and use it as a baseline Sustainable Jersey points and support
I2	Energy	*	Energy Tracking & Management - establish energy use baselines, tracking, mgt & reporting systems	Planning Board, governing body & Green Team		1-2 years	https://www.sustainablejersey.com/actions/#open/action/482
I3	Energy	*	Implement energy efficiency Measure for facilities	Planning Board, governing body & Green Team		2 years and phased	Sustainable Jersey points and support
I4	Energy	*	Greening the municipal fleet: • Fleet inventory and target for green fleet	Governing body & Green Team	Sustainable Jersey points	Within 3 years	Sustainable Jersey points and support
I5	Energy	*	Greening the municipal fleet: • purchase electric vehicles to achieve 20% reduction in fuel use w/in 4 years .	Governing body & Green Team	BPU, DEP, SJ possible \$\$	must initiate by yr. 5 (can be multi-year)	Sustainable Jersey points and support
I6	Energy		Greening the municipal fleet: * Trip optimization software * Proper vehicle maintenance * Driver training *purchase electric	Governing body & Green Team	BPU, DEP, SJ possible \$\$	recommended	Sustainable Jersey points and support
I7	Energy	*	Renewable Energy Generation: *Onsite Solar or *Geothermal system or *buy electric from a renewable source or *community solar project or *Renewable Energy Aggregation	Governing body & Green Team	BPU, DEP, SJ possible \$\$	must do 3 within 6 years	Sustainable Jersey points and support
I8	Energy	*	Public EV charging infrastructure feasibility and supporting ordinances	Governing body & Green Team	BPU, DEP, SJ possible \$\$	1-2 years	Riverside still needs to adopt the required EV ordinance. Sustainable Jersey points and support.

#	Topic	Req (*)	Activity	Local Effort	Assistance	Time Frame	Comments
I9	Energy		<p>Make your town EV Friendly (choose 3)</p> <ul style="list-style-type: none"> *update zoning ordinances to require pre-wiring for EV chargers as part of a redevelopment plan or for a specific zone(1-2 yrs); * Adopt a PEV ordinance to include regulation/design standards for EVSE, EV parking spaces and design guidelines for installation of EVSE (1-2 yrs); * Training for local officials and require local first responders to participate in PE and EVSE education (1-2 yrs); *Incentivize EV ready by reducing or waiving permit fees and providing recognition for businesses/entities that do it (2-3 yrs); *Commitment from 3 or more places for workplace or multi-family chargers (2-5 yrs). 	Governing body & Green Team	BPU, DEP, SJ possible \$\$	(Endorsed communities must do at least 3; EV ordinance now required by law.)	Riverside has yet to adopt the state's model ordinance for Electric Vehicles. Must meet the PE required 3 items in this action. Sustainable Jersey points and support.
I10	Energy		The Township should investigate State grant opportunities for the installation of publicly accessible electric vehicle charging stations in the downtown area	Governing body & Green Team	BPU, DEP, SJ possible \$\$	ASAP	Municipal parking lots are located behind the Riverside Public Library as well as the Township Municipal Building on Scott Street. NJ Transit's Riverside Light Rail Station would also be a logical consideration for EV charging infrastructure. The Township will work with State and regional agencies to seek funding for the development of EV charging infrastructure (per 2022 Reexam)
J1	Infrastructure	*	<p>Review and update as necessary Utilities Element of the Master Plan. Confirm the condition and capacity of the stormwater drainage system and water supply. Incorporate climate change implications.</p> <p>County should be current with its WMP with a local annex and a new FWSA map pursuant to 7:15-4.2 (c)</p>	<p>Planning Board, water purveyor, county MUA, private water companies</p> <p>County OEM, Municipal OEM</p>	DEP	3-6 years	<p>New utility lines and associated infrastructure should be planned to avoid flood prone areas and existing utility infrastructure currently in or projected to be flood prone in the future should be addressed.</p> <p>WMP submitted in 2017. Riverside should check on the local annex.</p>
J2	Infrastructure	*	Evaluate and update regularly the Stormwater Management Plan and Ordinance for consistency with the current Stormwater Management Rules. Be sure to submit MS-4 Permit reports each May.(electronic WWTP Outfall pipe map?) Be aware of local TMDLs.		NJ OEM. NJDEP		The county's SPPP will expire in 2024. Riverside should participate in it's next iteration and ensure submittal of MSA reports each May. Riverside updated its stormwater ordinance 4/2021 and would appreciate support for stormwater management improvements.
J3	Infrastructure	*					

#	Topic	Req (*)	Activity	Local Effort	Assistance	Time Frame	Comments
J4	Infrastructure		<p>Adopt an Impervious Surface Reduction Ordinance. It is recommended that Riverside incorporate expected increases in precipitation and temperature related to adverse impacts of climate change into an impervious surface reduction ordinance</p> <ul style="list-style-type: none"> o Include measures to manage stormwater on-site rather than as runoff o Future redevelopment projects shall incorporate means to minimize and/or reduce new and/or existing impervious surfaces. 	Governing body	NIDEP		
J5	Infrastructure/ Utilities		<p>Consider initiating conversations with the County and neighboring communities about a long-term plan for a regional wastewater plant, sited out of the flood hazard area and protected from climate change considerations.</p>	Engineer and governing body	DEP and BCBC technical assistance, Ibank etc	Long-term but begin discussions soon	Agencies support to the extent practicable.
K1	Economic Development		<p>Promote Riverside's economic sustainability through coordinated planning efforts with business and property owners as well as neighboring communities. Develop plans for center-based/walkability improvements and support economic development initiatives including façade and rehabilitation grant program, wayfinding signs, coordinated marketing efforts, etc.</p>			Ongoing	<p>Coordinate marketing efforts with neighboring communities. Engage NGO and business interested in discussions, event coordination and marketing campaigns.</p>
K2	Economic Development		<p>Prepare an Economic Development Plan for the downtown area to study improvements to vehicular circulation, parking and pedestrian safety. The study should incorporate the existing inventory of commercial and industrial properties to identify vacant buildings and potential properties to rehabilitate in order to attract new tenants.</p>	Governing Body/Planning Board			<p>The Plan should recommend innovative ways to attract visitors to the downtown area, maximize existing potential funding streams and promote Riverside as a destination</p>
L1	Historic Resources		<p>Prepare historic resource inventory. Historic structures should be protected with enhanced stormwater management plans and flood minimization plans.</p>	Historic reservation Commission and governing body, Riverside Historical Society, Riverside Planning Board	OPA, SHPO, BCBC, County, FEMA	Report on progress in biennial review	<p>Review the NJ Historical Commission's (NJ Department of State) grant program at http://www.nj.gov/state/divisions/historical/grants. Work with SHPO to develop planning documents some guidance is provided at :</p>
M1	Planning	*	<p>Update the Community Facilities Element</p>	Planning Board	Technical assistance	3 years	

#	Topic	Req (*)	Activity	Local Effort	Assistance	Time Frame	Comments
01	Environmental Justice	*	Follow the requirements of EO23 pursuant to NIDEF guidelines to review, identify, and update documents as necessary.		NUDEP	1-3 years after provision of guidance	Monitor for changes in municipality that may warrant more environmental justice actions in the future.
