MEMORANDUM

TO: Donna Rendeiro
FROM: Meghan Wren
RE: Upper Township Plan Endorsement Waiver Request/Renewal
DATE: September 8, 2021

Background

The Township of Upper was first endorsed on February 21, 2007 (the very first NJ municipality to achieve Plan Endorsement) and received extensions for its re-endorsement through January 11, 2022. It is currently working through the Plan Endorsement Process as if they have never been endorsed. In the meantime, OPA works to amend the State Planning Rules to allow for an Endorsement Renewal Process that would acknowledge the past and current work of municipalities following a path of comprehensive planning consistent with the State Plan.

Waiver Requests

Mayor Richard Palombo of Upper Township submitted a waiver request August 23, 2021 asking for relief from the requirements for Step 4 of the Plan Endorsement Process; the Opportunities and Constraints Report (N.J.A.C. 5:85-7.1) The Mayor also asked for a waiver for Step 2 & 5, Advisory Committee and Visioning that will be reviewed in a separate action by the Executive Director. OPA has reviewed these waiver requests and is adding a request for relief for the formal Consistency review process, Step 6.

Justification

A waiver for Step 4, Plan Endorsement State agency opportunities and constraints assessment and report, is requested/justified because: "We would request a waiver from Step 4 because there have not been significant changes to Upper Township's status and trends since our original PE in 2007. The current build-out analysis prepared in 2019 as part of the wastewater management plan was

done with more detail than OPA's typical build out analysis. Upper Township has made significant and meaningful progress on our PIA and are prepared to adopt the new priorities of the state in the way of a revised PIA reflecting key State priorities.

Upper Township has have been a good partner/participant in resiliency planning, affordable housing, and other key interests of the state, implementing center-based development through municipal planning and zoning, incorporating CAFRA requirements into our zoning, adopting relevant ordinances for cluster development, resource protection and other key land use issues; working closely with Cape May County and other regional efforts; and taking a leadership role in resiliency through Coastal Coalition and other collaborations. Upper Township is also a Class 5 Community in the FEMA's Community Rating System (CRS) and after adoption a watershed management plan later in 2021 we will become a Class 4 Community. The Township has also adopted numerous ordinances that enhance resiliency in our Special Flood Hazard Area including a mandatory bulkhead height of Elevation 8, minimum ground floor/ garage elevation of Elevation 7, and a freeboard requirement of 3-feet above the base flood elevation."

A waiver for Step 6, Plan Endorsement Consistency review, is requested/justified because: Upper Township went through Plan Endorsement once before and aligned their planning documents and efforts with the State Development and Redevelopment Plan – which has not changed since their endorsement. The Township has only moved closer to sustainability in the ensuing years; implementing a significant number of their Plan Implementation Agreement actions, leading the state in resiliency efforts, achieving Category 5 (and soon 4) in NFIP's Community Rating System and Bronze Certification through Sustainable Jersey while adding land use plans and ordinances that support center-based communities.

NJ State Planning Rules for Waivers

According to N.J.A.C. 5:85-7.6 (b) "A waiver may be granted ... provided the Executive Director, determines that a petitioner has previously satisfactorily completed the requirement, or has **substantially complied with the intent of the requirement**. The determination will be based on a consideration of whether standards for plan endorsement ... have been met."

Step 4 PE State agency opportunities and constraints assessment and report – Intent: NJAC 5:85-7.1

...relevant State agencies shall compare the findings and conclusions of the petitioner's Self-Assessment Report with the most up-to-date regional and Statewide data, evaluate the report with regard to development, infrastructure, natural resources, social equity and resiliency to climate change, and make an assessment as to whether trend growth apparent in petitioner's report is sustainable based on the resources and infrastructure available in the municipality, region and State...

Step 6 PE State agency Consistency Review – Intent: NJAC 5:85-7.12

...the Office of Planning Advocacy, in consultation with the relevant Federal, State and regional agencies, shall conduct a review of the plan for consistency with the goals, policies and strategies of the State Plan, which shall conclude with issuance of a consistency review report to the petitioner.

... (c) In conducting the consistency review, consideration will be given to the ability .. to achieve the targets and indicators contained in the State Plan ...; the extent to which the activities listed to be undertaken in each planning area can or will achieve consistency with the State Plan goals and implement Statewide sound planning policies, taking into account relevant State agency policies, rules and regulations, and whether the plan is based on current information and data.

Consistency will be evaluated ...with particular emphasis on the following provisions:

1. The Statewide goals, policies and strategies;
2. The policies that apply to all planning areas;
3. The intentions for each relevant planning area;
4. The policy objectives for each relevant planning area;
5. If any change to a planning area boundary is proposed, the delineation criteria, intent and policy objectives for each planning area impacted by any boundary change;
6. The delineation criteria and intent for critical environmental sites and historic and cultural sites, areas vulnerable to flooding and climate change-related hazards, and with special consideration of equity/environmental justice issues;
7. If there is a designated center or a center is proposed for designation, the policies for centers, including the center design policies, and environs; and
8. If a center is proposed to be designated or a change to the boundary of a designated center is proposed, the criteria for designating the type of center that is proposed to be designated or modified.

(d) A consistent municipal plan shall contain... the following mandatory planning documents:

- i. A sustainability statement;
- ii. A land use element;
- iii. A land use inventory or map;
- iv. A zoning ordinance, schedule or map;
- v. Documents detailing recent or upcoming major developments as defined by the MLUL;
- vi. A circulation element and complete and green streets policy and implementation ordinance;
- vii. A municipal stormwater management plan and ordinance;
- viii. A wastewater management plan;
- ix. A housing element;
- x. A petition for substantive certification filed with the Court, compliance with a court-ordered housing plan, or evidence of adequate affordable housing accommodations;
 - i. A fair share plan and implementing documents/ordinances;
 - ii. A community facilities plan, inventory and map;
 - iii. A board of education five-year facilities plan if one exists;
 - iv. An open space and recreation plan;
 - v. A natural resource inventory;
 - vi. A conservation plan and implementing ordinances;
 - vii. An environmental justice and social equity action plan;
 - viii. A climate action plan that addresses: a. climate adaptation and resiliency, and b. Greenhouse Gas emissions reduction
- ix. A recycling statement of consistency;
- x. A municipal recycling ordinance;
- xi. A hazard mitigation plan or local annex in a county HMP; xix. New Jersey State Police letter approving the local emergency operating plan; and

xx. A capital improvement program

The following conditional items as outlined in the plan endorsement guidelines, which may be required depending on local circumstances;

- i. A utility service plan;
 - ii. floodplain ordinance; A water supply plan
 - iii. A recreation and open space inventory;
 - iv. An economic development plan;
 - v. An agricultural retention plan/farmland preservation plan, agricultural advisory committee, right-to-farm ordinance, and implementation program;
 - vi. A historic and cultural resources inventory, historic preservation plan, and implementation documents and mechanisms;
 - vii. Incorporation of hazard mitigation measures into relevant planning documents;
 - viii. A sustainability element; ix. A historic and cultural resources inventory and historic preservation plan; and
- (f) Any additional requirements that are agreed upon between petitioner and the Executive Director, in consultation with the relevant State agencies...

Review of Requirement and Intent

Step 4 Opportunities & Constraints Report: OPA and Upper Township have met the intent of the Opportunities and Constraints requirement for Upper Township because a build out analysis, which OPA typically prepares as the backbone of an Opportunities and Constraints report, was conducted by the Maser Consulting as part of the township's wastewater management plan. The data presented offers a clear picture from which state agencies can make consistency evaluations. Additionally, the data and analysis in the other issue areas mandated in an O&C Report are readily available as follows:

- **Development** has been minimal since the last Opportunities and Constraints Report was prepared;
- **Infrastructure** needs and issues are assessed in Upper Township's own reports;
- **Natural resources** – Upper Township has a Natural Resource Inventory that has been kept up to date and a current complete ROSI;
- **Social equity** - there are no identified social equity issues in Upper township though the community is prepared to address any concerns should they arise;
- **Resiliency to climate change** – Upper Township has completed the 'Getting to Resiliency' report, achieved CRS Level 5 (soon to be 4); incorporated climate change impacts in its 2021 Hazard Mitigation Plan Annex and is prepared to adopt the actions identified in the 2020 PE Guidelines as part of its new PIA to address additional resiliency concerns.

Furthermore, there have been no significant land use changes in the years since its Endorsement; the township has implemented much of its original PIA, and worked through plans, programs and ordinances toward its vision of center-based, mixed use, higher density residences, affordable housing, walkability and bike/ped friendly streets in Marmora, Seaville, Petersburg and Tuckahoe while preserving and steering less dense development in its environs outside of the centers.

Step 6 Consistency Review: OPA and the relevant state agencies with Upper Township have and/or will meet the intent of the Consistency Review requirement for Upper Township through careful consideration of submitted documents, reports, current information, and data available. Upper

Township has maintained consistency since its original endorsement in 2007 as evidenced by its continuous progress in sustainable planning.

Consistency has been evaluated ...with particular emphasis on the following provisions:

1. The Statewide goals, policies, and strategies: Consistent
2. The policies that apply to all planning areas: Consistent
3. The intentions for each relevant planning area: Consistent
4. The policy objectives for each relevant planning area: Consistent
5. If any change to a planning area boundary is proposed, the delineation criteria, intent and policy objectives for each planning area impacted by any boundary change: Consistent
6. The delineation criteria and intent for critical environmental sites and historic and cultural sites, areas vulnerable to flooding and climate change-related hazards, and with special consideration of equity/environmental justice issues: Consistent
7. If there is a designated center or a center is proposed for designation, the policies for centers, including the center design policies, and environs: Consistent and
8. If a center is proposed to be designated or a change to the boundary of a designated center is proposed, the criteria for designating the type of center that is proposed to be designated or modified: Consistent

(d) A consistent municipal plan shall contain... the following mandatory planning documents:

- i. A sustainability statement;
- ii. A land use element;
- iii. A land use inventory or map;
- iv. A zoning ordinance, schedule or map;
- v. Documents detailing recent or upcoming major developments as defined by the MLUL;
- vi. A circulation element and complete and green streets policy and implementation ordinance; **(Partial – to be enhanced through PIA)**
- vii. A municipal stormwater management plan and ordinance;
- viii. A wastewater management plan; **(Awaiting DEP Approval)**
- ix. A housing element;
- x. A petition for substantive certification filed with the Court, compliance with a court-ordered housing plan, or evidence of adequate affordable housing accommodations;
- i. A fair share plan and implementing documents/ordinances;
- ii. A community facilities plan, inventory and map;
- iii. A board of education five-year facilities plan if one exists; **(To be supplied if exists)**
- iv. An open space and recreation plan;
- v. A natural resource inventory;
- vi. A conservation plan and implementing ordinances;
- vii. An environmental justice and social equity action plan;**(To be established through PIA)**
- viii. A climate action plan that addresses: a. climate adaptation and resiliency, and b. Greenhouse Gas emissions reduction ;**(To be established through PIA)**
- ix. A recycling statement of consistency;
- x. A municipal recycling ordinance;
- xi. A hazard mitigation plan or local annex in a county HMP; xix. New Jersey State Police letter approving the local emergency operating plan; and
- xx. A capital improvement program

The following **conditional** items as outlined in the plan endorsement guidelines, which may be required depending on local circumstances;

- ☑ i. A utility service plan;
 - ☑ ii. floodplain ordinance; A water supply plan
 - ☑ iii. A recreation and open space inventory;
 - iv. An economic development plan;
 - v. An agricultural retention plan/farmland preservation plan, agricultural advisory committee, right-to-farm ordinance, and implementation program; **(Through CM County)**
 - ☑vi. **A historic and cultural resources inventory**, historic preservation plan, and implementation documents and mechanisms; **(Partial)**
 - ☑vii. Incorporation of hazard mitigation measures into relevant planning documents;
viii. A sustainability element; **;(To be established through PIA)**
- (f) Any additional requirements that are agreed upon between petitioner and the Executive Director, in consultation with the relevant State agencies...

Other Considerations

This review encompasses one of the three waiver requests submitted by Upper Township which, taken together with the waiver request initiated by OPA, would essentially provide a pilot case for an expedited Plan Endorsement renewal procedure. OPA recognizes the major planning and compliance work that Upper did in the years leading up to its initial endorsement and the continuation of that planning and incremental accomplishments toward its vision since then.

Upper township is in good standing for its Affordable Housing and has conducted its own build-out analysis as part of its wastewater planning that is more comprehensive than OPA's status and trends analysis. Upper Township is a leader in resiliency planning in NJ – leading the largest Public Participation Information network in the country as part of its CRS program (soon to be Category 4) through the Coastal Coalition and it has achieved Bronze Certification through the Sustainable Jersey program evidencing its commitment to climate change adaptation and other sustainability issues.

Conclusion/Recommendation for Approval

In light of the aforementioned considerations and hard work by Upper Township, I recommend approving these requests for waivers for PE Step 4 and Step 6 as they have provided sufficient evidence that we/they have **substantially complied with the intent of the requirement** for the Opportunities and Constraints assessment and report and Consistency Review.

Additionally, OPA and the agencies will have an opportunity to add considerations to the Plan Implementation Agreement should they have additional items of concern.

As the first Endorsed community, engaged in perennial responsible planning for the past fifteen years, this community is the ideal test for the proposed expedited Renewal process.

Upper Township 2007 Planning and Implementation Agreement (PIA)

February 2021 Status Update

Adopted by the State Planning Commission on February 21, 2007

2/21/2007

9/8/2021

Topic	#	Subtopic	Activity (local action unless otherwise indicated)	State/County Assistance	Timetable	Status
General	A1	CAFRA Center Boundary, revised planning area boundaries	Submit drafts of all new and revised planning documents required by this PIA to OSG, DEP and the Pinelands Commission.	OSG, DEP and Pinelands Commission to provide technical assistance	20 days prior to adoption by township	4/9/07, complete
General	A4	CAFRA Center Boundary & revised planning area boundaries	DEP to provide the requisite notice concerning designated center and revised planning area boundaries in the NJ Register. As part of this process, the Pinelands Commission will provide general comment to DEP regarding the petition per the MOU between the two agencies.	DEP, Pinelands	5/23/2007	4/2/2008 complete
General	A5	Plan Endorsement review	By February 21, 2009 and biennially thereafter, the Township shall submit a report to OSG and the public concerning the terms of this PIA and related efforts pursuant to NJAC 5:85-7.12(c).		2/21/2009 and biennially thereafter	Ongoing
General	A7	Revised Plan Endorsement Process	Once the new Plan Endorsement process is in place, the Township will have the option to work with state agencies to outline an action plan and timetable to attain the new standard for the benefit of additional state assistance. This action plan may be merged with this PIA, due to overlapping activities.	OSG and other state agencies	90 days after new rules and guidelines are adopted	Ongoing
General	A8	Inter-governmental coordination	Coordinate with planning efforts of adjoining municipalities, the County and State and regional planning efforts particularly concerning: regional planning, transportation, economic development, tourism, natural resource protection and open space and recreation.	County Planning Board, OSG, DOT, DEP	Ongoing	Ongoing
Land Use & Zoning	B1	Land Use Regulations	Update zoning regulations to implement land use plan and support center-based development. Eliminate discrepancies between the land use plan, zoning plan and CAFRA requirements to enable planning consistency. Provide preservation of the environs through refined zoning standards, and development cluster and transfer mechanisms.	OSG, DEP, Pinelands Commission	4/22/2007	10/9/2007 complete
