Baseline Document Change Announcement

ANNOUNCEMENT: BDC24S-11

DATE: July 09, 2024

SUBJECT: Tracking Costs
- Revision to the 2019 Standard Specifications for Road and Bridge Construction, Subpart 104.03.07

The 2019 Standard Specifications for Road and Bridge Construction, Subpart 104.03.07 has been revised to clarify the distinction between tracking for contract work and changed condition work.

The following revisions have been incorporated into the 2019 Standard Specifications via 2019 Standard Inputs, SI2019:

104.03.07 Tracking Costs

THE FIRST SENTENCE OF THE FIRST PARAGRAPH IS CHANGED TO:

For all work directed to be paid for by force account, track and maintain complete records to provide a clear distinction between the costs for the Force Account work and the costs for other operations. For costs which the Contractor will pursue reimbursement through a Notice or Claim, track and maintain complete records in Force Account style making a clear distinction between Contract work and the work related to the alleged changed condition.

Implementation Code R (ROUTINE)

Changes must be implemented in all applicable Department projects scheduled for Final Design Submission at least one month after the date of the BDC announcement. This will allow designers to make necessary plan, specifications, and estimate/proposal changes without requiring the need for addenda or postponement of advertisement or receipt of bids.
