

The Portway Extensions Concept Development Study and this publication have been financed by the Federal Highway Administration (FHWA) of the U.S. Department of Transportation (US DOT). The FHWA and the US DOT assume no liability for its contents or its use. The New Jersey Department of Transportation (NJDOT) assumes full responsibility for the study and the contents of this document.

**PORTWAY EXTENSIONS CONCEPT DEVELOPMENT STUDY
FINAL REPORT**

TABLE OF CONTENTS

VOLUME 1

I.	INTRODUCTION	I-1
I.1	Portway – A Regional Mobility and Economic Perspective	I-1
I.2	Portway Phase I – Concept and Status	I-3
I.3	Portway Extensions – Study Overview	I-5
I.4	Portway Extensions –Primary Study Area	I-8
I.5	Portway Extensions – Guiding Principles in Concept Development	I-8
I.6	Portway Extensions – Improvement Concept Categories	I-9
I.7	Portway Extensions – Concept Evaluation Criteria	I-10
I.8	Portway Extensions – Stakeholder Outreach and Consensus Building	I-10
II.	ASSEMBLY OF EXISTING STUDIES AND DATA SETS	II-1
II.1	Portway Phase I	II-1
II.2	Port Inland Distribution Network (PIDN)	II-3
II.3	Comprehensive Port Improvement Plan (CPIP)	II-4
II.4	International Intermodal Transportation Center (IITC)	II-5
II.5	Union County TDD/Kapkowski Road Transportation Planning Study	II-6
II.6	NJTPA Transportation Improvement (TIP) and Long Range Plan	II-8
II.7	NJ Turnpike Authority Interchange Improvements	II-8
III.	STAKEHOLDER OUTREACH – STAGE I	III-1
III.1	Introduction	III-1
III.2	Stage I – Data Collection	III-1
III.3	Stage II – Data Refinement	III-3
III.4	Stage III – Process Continuation	III-5
III.5	Web Site	III-6
III.6	Public Documents	III-6
IV.	DEMAND MODELING FOR THE PORTWAY EXTENSIONS ANALYSIS	IV-1
IV.1	Network and Zone Enhancement	IV-2
IV.2	Integration of Existing Modeling Tools	IV-4
IV.3	Base Year Model Re-Calibration	IV-11

IV.4	Application of the Model To Future Conditions	IV-12
V.	DATA COLLECTION PROGRAM	V-1
V.1	Assembly of Existing Available Data	V-1
V.2	Study-Specific Data Collection	V-3
V.3	External Screenline Counts	V-4
VI.	EXISTING CONDITIONS	VI-1
VI.1	Significant Container-Handling Facilities	VI-1
VI.2	Existing Container Transportation Markets	VI-7
VI.2.A	Overview of Container Logistics	VI-7
VI.2.B	Existing “Over the Wharf” Container Traffic	VI-12
VI.2.C	Existing “Landbridge” Traffic	VI-18
VI.2.D	Existing Cross-Border and Domestic Container Traffic	VI-20
VI.2.E	Existing “Non-Freight” Container Traffic	VI-29
VI.3	Existing Container Movement Corridors	VI-31
VI.3.A	Definition of Corridors	VI-31
VI.3.B	Quantification of Container Flow Volumes	VI-32
VI.3.C	Other Flows on Container Movement Corridors	VI-32
VI.3.D	System-Wide Travel Characteristics and Performance Measures	VI-33
VII.	FUTURE GROWTH IN CONTAINER FLOWS	VII-1
VII.1	Overview of Methodology	VII-1
VII.2	Forecasts of “Over the Wharf” Container Traffic	VII-2
VII.3	Forecasts of Landbridge Traffic	VII-10
VII.4	Forecasts of Cross-Border and Domestic Container Traffic	VII-10
VII.5	“Non-Freight” Traffic	VII-10
VIII.	FUTURE GROWTH IN WAREHOUSE/DISTRIBUTION CENTERS	VIII-1
VIII.1	Approach and Factors	VIII-1
VIII.2	Trends in Industrial Space Development and Asking Lease Rates	VIII-1
VIII.3	General Trends in Warehouse Use and Location Decisions	VIII-2
VIII.4	Information from the Outreach Discussions	VIII-4

IX.	FUTURE NO BUILD CONDITIONS	IX-1
	IX.1 Future Dominant Container Related Truck Corridors	IX-1
	IX.2 Quantification of Container Related Truck Volumes	IX-1
	IX.3 Container Related Truck vs. Other Flows on Container Movement Corridors	IX-2
	IX.4 System-Wide Travel Characteristics and Performance Measures	IX-2
X.	IMPROVEMENT CONCEPTS	X-1
	X.1 Guiding Principles in Concept Development	X-1
	X.2 Improvement Concept Categories	X-1
	X.2.A Systems/Operations	X-2
	X.2.B Short Haul Rail Spine	X-13
	X.2.C Roadway Infrastructure Improvements	X-21
XI.	FUTURE CONDITIONS WITH IMPROVEMENTS	XI-1
	XI.1 Portway Model – System-Wide Evaluation of Improvements	XI-1
XII.	PRIORITIZATION OF IMPROVEMENTS	XII-1
	XII.1 Near Term Improvements	XII-1
	XII.2 Mid-Term Improvement Concepts	XII-3
	XII.3 Long-Term Improvement Concepts	XII-5
XIII.	CONCLUSIONS AND RECOMMENDATIONS	XIII-1
	XIII.1 Programs Goals and Objectives	XIII-1
	XIII.2 Improvement Recommendations	XIII-2
	XIII.2A Tier I: Systems/Operational Improvements	XIII-2
	XIII.2B Tier II: Non-Roadway Infrastructure	XIII-3
	XIII.2.C Tier III: Selected Roadway Enhancements	XIII-4
	XIII.3 Next Steps – Advancement of Improvement Concepts	XIII-5
	XIII.3.A Economic Impact Analysis	XIII-5
	XIII.3.B Feasibility Assessment	XIII-6

VOLUME 2

- Appendix A – Traffic Volume Data**
- Appendix B – Stakeholder Outreach**
- Appendix C (Part 1) – Comments / Responses**

VOLUME 3

- Appendix C (Part 2) – Comments / Responses**
- Appendix D – Roadway Network Performance Measures**
- Appendix E – Environmental Screening**
- Appendix F – Preliminary Construction Cost Estimates**
- Appendix G – Strategy Evaluations**

**PORTWAY EXTENSIONS CONCEPT DEVELOPMENT STUDY
FINAL REPORT**

LIST OF FIGURES

I.1	Portway Phase I Alignment	I-4
I.2	Primary Study Area	I-8
II.1	Intersection of Kapkowski Road and North Avenue	II-6
IV.1	Network Enhancements North and West of Lincoln Tunnel	IV-3
IV.2	Network Enhancements On the Bayonne Peninsula	IV-3
IV.3	Network Enhancements South of the Portway Phase I Study Area	IV-4
IV.4	Subdivision of Vehicle Trip Tables	IV-7
VI.1	Existing International Container Terminals	VI-2
VI.2	Loading of the First Containership	VI-8
VI.3	Functional Flow Diagram, “Over the Wharf” Container Traffic	VI-10
VI.4	Functional Flow Diagram, “Landbridge” Traffic	VI-11
VI.5	Functional Flow Diagram, Cross-Border and Domestic Container Traffic	VI-11
VI.6	Functional Flow Diagram, “Non-Freight” Container Traffic	VI-12
VI.7	Distribution of Containers Moving Through the PONYNJ, 17 State Level	VI-16
VI.8	Distribution of Containers Moving Through the PONYNJ, Study Area Level	VI-17
VI.9	Distribution of Containers to/from North Jersey via Non-PONYNJ Ports	VI-19
VI.10	Intermodal Rail Traffic to/from the Study Area, 2001	VI-26
VI.11	Container Truck Traffic to/from/within the Study Area, 2001	VI-26
VI.12	Container Truck Traffic Moving Through the Study Area, 2001	VI-27
VI.13	Origins/Destinations for Container Trucks Moving to/from the Study Area, 2001	VI-27
VI.14	Origins/Destinations for Container Trucks, Warehouse and Distribution, 2001	VI-28
VI.15	Origins/Destinations for All Trucks, Warehouse and Distribution, 2001	VI-29
VI.16	AM Peak Hour Container Traffic – Existing Conditions	VI-34
VI.17	PM Peak Hour Container Traffic – Existing Conditions	VI-35
VI.18	AM Peak Hour Container Traffic and V/C Ratio – Existing Conditions	VI-36
VI.19	PM Peak Hour Container Traffic and V/C Ratio – Existing Conditions	VI-37
VIII.1	The Role of Warehouses	VIII-2
IX.1	AM Peak Hour Container Traffic – 2025 High Growth with no PIDN	IX-4
IX.2	PM Peak Hour Container Traffic – 2025 High Growth with no PIDN	IX-5
IX.3	AM Peak Hour Container Traffic – 2025 Low Growth with no PIDN	IX-6
IX.4	PM Peak Hour Container Traffic – 2025 Low Growth with no PIDN	IX-7
IX.5	AM Peak Hour Container Traffic and V/C Ratio – 2025 High Growth with no PIDN	IX-8
IX.6	PM Peak Hour Container Traffic and V/C Ratio – 2025 High Growth with no PIDN	IX-9

IX.7	AM Peak Hour Container Traffic and V/C Ratio – 2025 Low Growth with PIDN	IX-10
IX.8	PM Peak Hour Container Traffic and V/C Ratio – 2025 Low Growth with PIDN	IX-11
X.1	Existing and Proposed ITS System Coverage	X-3
X.2	Short Haul Rail Corridor	X-31
X.3	Northern Extensions	X-32
X.4	Interchange 15-W Area	X-33
X.5	Hackensack River Bridge	X-34
X.6	TPK 14-A Scheme 1	X-35
X.7	TPK Int 14-A Scheme 2	X-36
X.8	NJ Turnpike Interchange 14	X-37
X.9	Interim Newark Bay Bridge Improvement	X-38
X.10	Bayonne Bridge	X-39
X.11	Routes 1&9 Northbound at Delancy Street	X-40
X.12	NJ TPK Int 13-A – Kapkowski Road Area	X-41
X.13	NJ Turnpike Interchange 13	X-42
X.14	NJ Turnpike Interchange 12 Area	X-43
X.15	NJ Turnpike Interchange 10 Area	X-44
X.16	NJ Turnpike Interchange 8-A Area	X-45
X.17	NJ Turnpike Interchange 7-A Area	X-46
XI.1	Future Container Truck Traffic – 2025 High Growth – Tier I - AM Peak	XI-19
XI.2	Future Container Truck Traffic – 2025 High Growth – Tier I - PM Peak	XI-20
XI.3	Future Container Truck Traffic – 2025 Low Growth – Tier I - AM Peak	XI-21
XI.4	Future Container Truck Traffic – 2025 Low Growth – Tier I - PM Peak	XI-22
XI.5	Future Container Truck Traffic – 2025 High Growth – Tier II - AM Peak	XI-23
XI.6	Future Container Truck Traffic – 2025 High Growth – Tier II - PM Peak	XI-24
XI.7	Future Container Truck Traffic – 2025 Low Growth – Tier II - AM Peak	XI-25
XI.8	Future Container Truck Traffic – 2025 Low Growth – Tier II - PM Peak	XI-26
XI.9	Future V/C Ratios – 2025 High Growth – Tier I - AM Peak	XI-27
XI.10	Future V/C Ratios – 2025 High Growth – Tier I - PM Peak	XI-28
XI.11	Future V/C Ratios – 2025 Low Growth – Tier I - AM Peak	XI-29
XI.12	Future V/C Ratios – 2025 Low Growth – Tier I - PM Peak	XI-30
XI.13	Future V/C Ratios – 2025 High Growth – Tier II - AM Peak	XI-31
XI.14	Future V/C Ratios – 2025 High Growth – Tier II - PM Peak	XI-32
XI.15	Future V/C Ratios – 2025 Low Growth – Tier II - AM Peak	XI-33
XI.16	Future V/C Ratios – 2025 Low Growth – Tier II - PM Peak	XI-34
XI.17	2025 Build - New Road Extension – AM Peak Volumes	XI-35
XI.18	2025 Build - New Road Extension – PM Peak Volumes	XI-36
XI.19	2025 Build – Interchange 15W Connection – AM Peak Volumes	XI-37
XI.20	2025 Build - Interchange 15W Connection – PM Peak Volumes	XI-38
XI.21	2025 Build – Hackensack River Bridge – AM Peak Volumes	XI-39
XI.22	2025 Build - Hackensack River Bridge – PM Peak Volumes	XI-40

XI.23	2025 Build – Newark Bay Bridge – AM Peak Volumes	XI-41
XI.24	2025 Build – Newark Bay Bridge – PM Peak Volumes	XI-42
XI.25	2025 Build – Interchange 12 – AM Peak Volumes	XI-43
XI.26	2025 Build – Interchange 12 – PM Peak Volumes	XI-44

**PORTWAY EXTENSIONS CONCEPT DEVELOPMENT STUDY
FINAL REPORT**

LIST OF TABLES

VI.1	Industrial Space Development by County	VI-4
VI.2	Industrial Space Net Lease Rate Trends by County	VI-6
VI.3	Year 2001 Marine Container Terminal Throughput	VI-13
VI.4	Year 2001 Truck and Rail Trips Generated by Marine Container Terminals	VI-15
VI.5	Distribution of Containers Moving Between PONYNJ and Dense Trade Clusters	VI-18
VI.6	Estimates of Landbridge Container Traffic	VI-20
VI.7	New Jersey Transborder Surface Trade with Canada and Mexico, Year 2000	VI-21
VI.8	TRANSEARCH Data on Freight Flows, Hudson/Bergen/Essex/Union, Year 2001	VI-23
VI.9	Combined Data on Freight Flows, Year 2001	VI-24
VI.10	Container Leasing, Rental, and Storage Businesses in Northern New Jersey	VI-30
VII.1	Major Trip Generators and Attractors Considered in Developing Container Forecasts	VII-2
VII.2	Marine Container Terminal “Over the Wharf” Throughput Forecasts (TEUs)	VII-4
VII.3	Forecasts of Daily Truck Moves (one-way) Generated by Marine Container Terminals, No PIDN	VII-5
VII.4	Forecasts of Daily Truck Moves (one-way) Generated by Marine Container Terminals, With PIDN	VII-6
VII.5	Forecasts of Daily Intermodal Rail Container Moves (one-way) Generated by Marine Container Terminals, No PIDN	VII-7
VII.6	Forecasts of Daily Intermodal Rail Container Moves (one-way) Generated by Marine Container Terminals, With PIDN	VII-8
VII.7	Container Movements to/from PIDN Dense Trade Clusters	VII-9
VII.8	Forecasts of Annual Landbridge Rail Container TEUs	VII-10
VIII.1	Warehouse/Industrial Space Projections	VIII-5
X.1	Prioritized ITS Market Packages	X-4
XI.1	Operational Performance Measures-Tier 1 2025 High Growth	XI-3
XI.2	Operational Performance Measures-Tier 1 2025 Low Growth	XI-4
XI.3	Operational Performance Measures-Tier 2 2025 High Growth	XI-5
XI.4	Operational Performance Measures-Tier 1 2025 Low Growth	XI-6
XI.5	System Performance Measures-Tier 3 2025 High Growth	XI-9
XI.6	System Performance Measures-Tier 3 2025 Low Growth	XI-10
XI.7	System Performance Measures-Tier 3 2010 High Growth	XI-11
XI.8	System Performance Measures-Tier 3 2010 Low Growth	XI-12
XI.9	Localized Interchange Improvements	XI-14
XI.10	Improvement at Selected Interchanges 2025 High Growth – AM Peak	XI-15
XI.11	Improvement at Selected Interchanges 2025 High Growth – PM Peak	XI-16
