OCTOBER 2024

PREPARED BY
NJ DEPARTMENT OF THE TREASURY'S
GRANTS MANAGEMENT OFFICE

FOREWORD

The Grants Management Office is required to report annually to the Legislature, pursuant to section 2 of P.L. 1991, c. 164 (C:52:14-19.1), “a report that describes all federal funds received by State agencies in the preceding fiscal year”. In fulfillment of this statutory obligation, the New Jersey Department of the Treasury’s Grants Management Office is proud to present the inaugural edition of the *Federal Funds to New Jersey State Agencies, Fiscal Years 2022-2024* report.

This first edition provides a comprehensive guide to the federal funds received by state agencies during the preceding fiscal year. To provide a full picture of grant revenue received, the report also includes federal revenue data from FY2022 and FY2023. The report lists federal revenue on a State fiscal year basis and includes descriptive program information to provide a better understanding of the federal programs used by New Jersey State agencies, and of the levels at which those programs are funded.

It is the hope of the Grants Management Office that this report will be a useful resource for legislators in enhancing their understanding of the federal programs used by New Jersey State agencies, and of the levels at which those programs are funded.

As the first edition of what will be an annual publication, the GMO welcomes feedback to ensure the report continues to meet the needs of its audience and remains a reliable resource for understanding federal contributions to New Jersey State agencies.

Farrah Gee
Executive Director

INTRODUCTION

The Grants Management Office is required to report annually to the Legislature, pursuant to section 2 of P.L. 1991, c. 164 (C:52:14-19.1), a report that describes all federal funds received by State agencies in the preceding fiscal year.

This *Federal Funds to New Jersey State Agencies* report is designed to provide legislators and legislative staff with a comprehensive guide to federal funds that were received by State agencies. The report lists federal revenue on a State fiscal year basis and includes descriptive program information to provide a better understanding of the federal programs used by New Jersey State agencies, and of the levels at which those programs are funded. To provide a full picture of grant revenue received, the report also includes federal revenue data from FY2022 and FY2023.

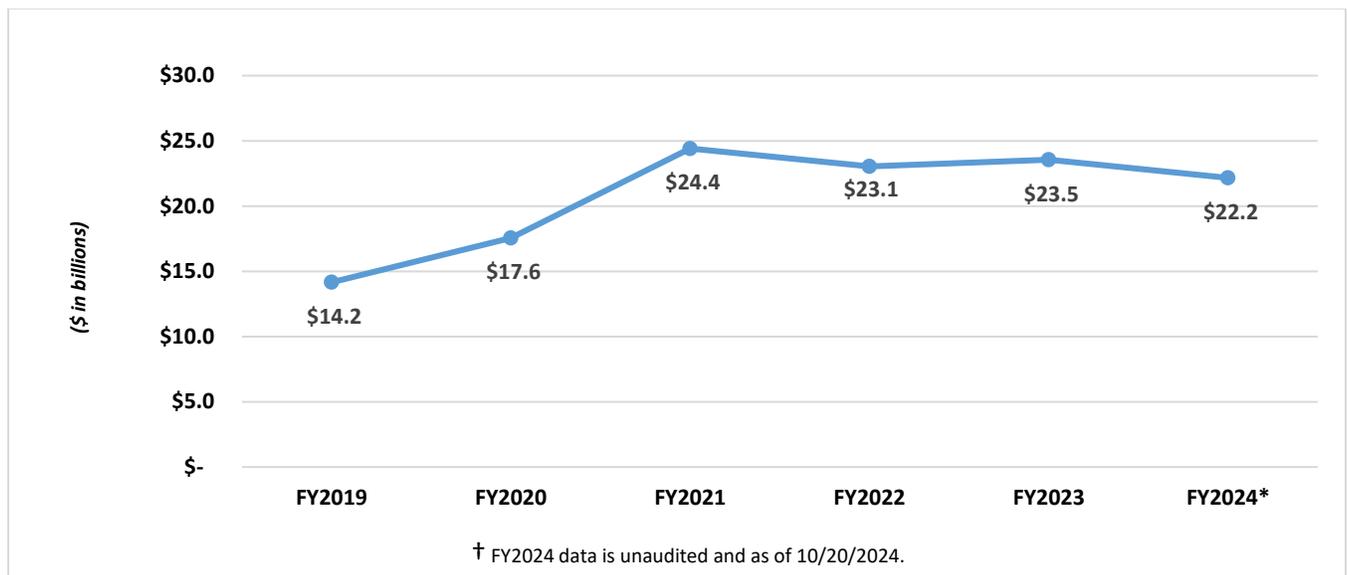

Overview

In FY 2024, New Jersey State agencies received funding from 257 federal programs, supporting 609 State-administered programs. Total federal revenue is estimated to be \$22.155 billion, as detailed in Appendix B. While FY2024 federal revenues are estimated to be down by 6% (\$1.4 billion) from FY2023, this may be attributed to the tapering of pandemic-related funding. Despite this overall decline, the State successfully secured \$121,168,908.61 in new federal funding, highlighting ongoing efforts to identify and obtain additional federal resources. (Appendix C). Table 1 and Figure 1 illustrate trends in federal funding from FY2019 to FY 2024.

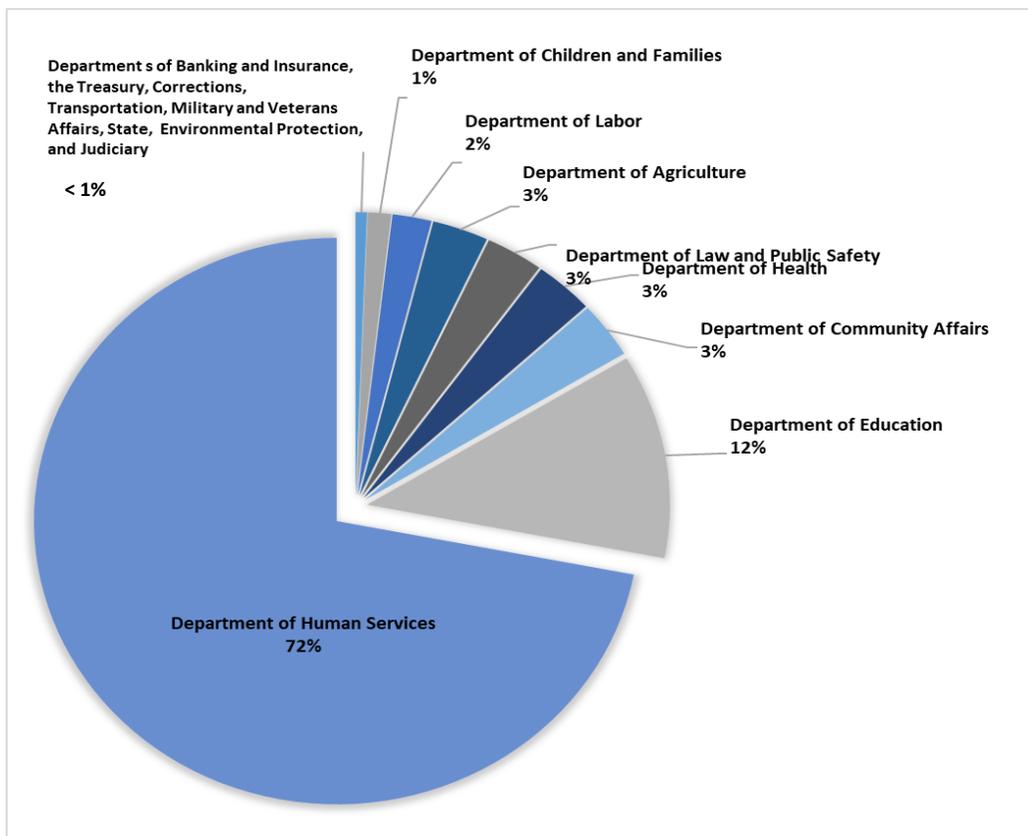

Figure 1: Federal Funds Received by New Jersey State, 2019 – 2024† (Billions of dollars)

Federal revenue changes between FY2023 and FY2024 varied significantly across State agencies. Notable increases in federal funding were observed in the Departments of Education, Labor, Environmental Protection, and Health. In contrast, agencies such as the Departments of Human Services, Law and Public Safety, Community Affairs, and the Treasury experienced substantial reductions in funding. A detailed side-by-side comparison of federal revenue changes for all State agencies can be found in Appendix A.

As shown in Figure 2, the Department of Human Services accounted for the largest share of federal revenue, receiving 72% of the total. The Department of Education followed with 12%, while all other departments, including Health, Agriculture, and Community Affairs, each received less than 3% of the total federal revenue.

Using This Report

Federal program profiles for each State Agency make up the bulk of this Annual Report. These profiles provide detailed descriptions of each program, the FY2024 State programs they supported, and the funding levels they received in FYs 2022-2024. The federal programs in this report were included if the federal funds were received directly from the federal government. Programs in which a State agency received funds from another State agency (subgrants) have been excluded to avoid “double counting,” or falsely inflating the dollar totals.

Negative amounts include, but are not limited to, a combination of refunds or reimbursements back to the State from vendors for costs under the relevant federal grant. These amounts represent the subsequent return of those funds back to the federal government.

Throughout the report, new or first-time federal awards are marked with an asterisk (*), making them easy to identify. The Table of Contents provides an overview of the federal programs utilized by State agencies from FY2022 through FY2024. This table also indicates where each program's description can be found and lists the federal programs used by each State agency. For an agency-level summary, Appendix A presents federal revenue totals by State agency.

The federal programs, with few exceptions, are listed by their Assistance Listing number. Each program profile include the following:

- The administering federal agency
- A description of the federal program
- The types of assistance
- The intended use of the assistance
- Formula and matching requirements
- The federal account identification number
- A table showing federal revenue received by the state agency in FY2022, FY2023 and estimated revenue for FY 2024
- The State programs supported by FY 2024 funding

The report includes the following appendices:

Appendix A: Direct Federal Aid to New Jersey State Agencies, FYs 2022–2024, presents a side-by-side comparison of total federal revenue received by New Jersey State agencies for fiscal years 2022 through 2024. It highlights changes in revenue between FY2023 and FY 2024, offering insights into trends across State agencies over time.

Appendix B: Direct Federal Aid to New Jersey State Agencies by Federal Program, FYs 2022–2024, provides a program-level analysis of federal aid received by New Jersey State agencies. It compares revenue from federal programs for fiscal years 2022 through 2024, with a focus on changes in funding levels between FY2023 and FY 2024.

Appendix C: New, First-Time State Programs in FY 2024, highlights new and first-time agency programs or initiatives created from FY2024 federal funding. Programs are considered new or first-time if they were not funded within the same agency during the previous five fiscal years.

Appendix D: Related Federal Assistance Programs, includes related federal assistance programs for FY2024 to help identify additional opportunities. These listings highlight other federal programs that serve similar purposes or populations, offering potential pathways for further funding or collaboration.

Appendix E: Assistance Listing, provides a comprehensive directory of federal assistance programs. The Assistance Listing numbers serve as a reference tool, ensuring clarity and consistency in identifying and tracking federal funding sources.

Information Sources

The source for the fiscal data included in *the Federal Funds to New Jersey State Agencies* report were provided by the New Jersey Department of the Treasury's Office of Management and Budget. The data reflects all federal revenue received by the State of New Jersey between Fiscal Years 2019-2024. The Fiscal Year 2024 data is as of October 20,

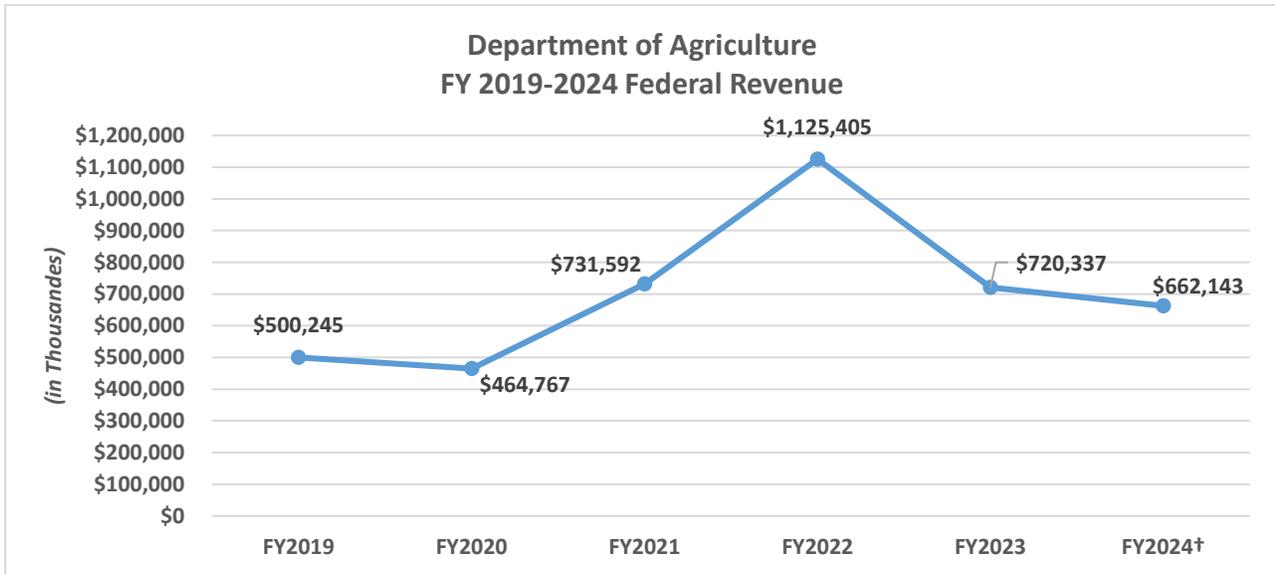

2024 and still subject to change pending the final Single Audit for Fiscal Year 2024. The data was extracted from the New Jersey Comprehensive Financial System, which is the State's accounting system. It should also be noted that the data *does not* include federal revenues awarded and provided directly to authorities or other quasi-governmental agencies that are not on the State's accounting system.

The primary source for the federal program descriptive information is the Assistance Listing (formerly and commonly referred to as Catalog of Federal Domestic Assistance (CFDA)) from SAM.gov. The federal programs, with few exceptions, are identified by Assistance Listing number. The first two digits of the number identify the federal agency from which the grant originates. The next three digits identify the specific grant within each agency. Appendix E shows the basic numbering scheme and the corresponding federal agencies.

NJ DEPARTMENT OF AGRICULTURE

In FY2024, the Department of Agriculture received a total of \$662,143,036.49 in federal funding. The department received funding from 22 different federal programs, across 2 federal agencies. These federal funds supported 44 State of New Jersey programs, including 5 new initiatives.

The table below outlines the annual federal funds received by the Department of Agriculture from 2019 to 2024.

† FY2024 data is unaudited and as of 10/20/2024.

The federal revenues for the Department of Agriculture in FY2024 showed an 8% (\$58,193,519.76) decrease from FY2023. This decline may be primarily due to the reduction in pandemic-related funding. Revenues for FY2024 are 32% higher than the pre-pandemic levels in FY2019.

FY2024 Notable Funding Changes:

- Increase:** The department observed a notable increase in funding of \$13,499,484.87 from the U.S. Department of Agriculture’s Child and Adult Care Food Program (10.558).
- Decrease:** The department observed substantial funding reductions in two programs from the U.S. Department of Agriculture. The National School Lunch Program (10.555) decreased by \$46,811,859.89 and the Summer Food Service Program for Children (10.559) decreased by \$20,584,161.03.
- New Funding:** The department received first-time funding totaling \$5,549,827.20 from the U.S. Department of Agriculture’s Local Food for Schools Cooperative Agreement Program (10.185), Pandemic Relief Activities: Local Food Purchase Agreements with States, Tribes, and Local Governments (10.182), and the Environmental Quality Incentives Program (10.912).

NJ DEPARTMENT OF COMMUNITY AFFAIRS

In FY2024, the Department of Community Affairs received a total of \$710,523,370.65 in federal funding. The department received funding from 16 different federal programs, across 4 federal agencies. These federal funds supported 28 State of New Jersey programs, including 2 new initiatives.

The table below outlines the annual federal funds received by the Department of Community Affairs from 2019 to 2024.

The federal revenues for the Department of Community Affairs in FY2024 showed a 22% (\$205,492,604.34) decrease from FY2023. This decline may be primarily due to the reduction in pandemic-related funding. Revenues for FY2024 are 4% less than the pre-pandemic levels in FY2019.

FY2024 Notable Funding Changes:

- Increase:** The department observed a notable increase in funding of \$24,393,918.87 from the U.S. Department of Housing and Urban Development’s Community Development Block Grant Program (14.228).
- Decrease:** The department observed substantial funding reductions in two Covid related programs. The U.S. Department of the Treasury’s Emergency Rental Assistance Program (21.023) decreased by \$176,566,666.72 and the U.S. Department of Health and Human Services’ Low-Income Home Energy Assistance Program (93.568) decreased by \$39,484,822.80.

93.354 Public Health Emergency Response: Cooperative Agreement for Emergency Response: Public Health Crisis Response

Federal Agency: U.S. Department of Health and Human Services, Centers for Disease Control

Program Description: The program provides federal funding to fund State, local, and territorial public health departments for HHS Secretarial declared and non-declared public health emergencies having an overwhelming impact on jurisdictional resources. These emergencies require federal support to effectively respond to, manage, and address a significant public health threat. CDC seeks to enhance the Nation’s ability to rapidly mobilize and respond to specific public health crises or emergencies. In addition to immediate response activities, this program provides a mechanism to accelerate readiness for an impending infectious disease threat or other public health crises identified on the event horizon.

NJ DEPARTMENT OF MILITARY AND VETERANS' AFFAIRS

In FY2024, the Department of Military and Veterans' Affairs received a total of \$18,078,300.60 in federal funding. The department received funding from 5 different federal programs, across 3 federal agencies. These federal funds supported 29 State of New Jersey programs, including 1 new initiative.

The table below outlines the annual federal funds received by the Department of Military and Veterans' Affairs from 2019 to 2024.

† FY2024 data is unaudited and as of 10/20/2024.

The federal revenues for the Department of Military and Veterans' Affairs in FY2024 showed a 67% (\$36,594,417.42) decrease from FY2023. This decline may be primarily due to the reduction in pandemic-related funding. Revenues for FY2024 are 57% less than the pre-pandemic levels in FY2019.

FY2024 Notable Funding Changes:

- **Increase:** The department observed a notable increase in funding of \$1,112,322.69 from the U.S. Department of Defense's National Guard Challenge Program (12.404).
- **Decrease:** The department observed substantial funding reduction of \$34,298,564.10 from the U.S. Department of Defense's National Guard Military Operations and Maintenance (O&M) Projects Program (12.401).
- **New Funding:** The department received first-time funding totaling \$354,015 from the U.S. Department of Defense's Military Construction, National Guard (12.400).

Discretionary Grant

A grant (or cooperative agreement) for which the federal awarding agency generally may select the recipient from among all eligible recipients, may decide to make or not make an award based on the programmatic, technical, or scientific content of an application, and can decide the amount of funding to be awarded.

Federal Account Identification

The 11-digit budget account identification code(s) that funds the assistance listing.

Federal Agency

An “agency” as defined at 5 U.S.C. 551(1) and further clarified by 5 U.S.C. 552(f). The term generally refers to the agency that provides a Federal award directly to a recipient unless the context indicates otherwise.

Federal Assistance

The federal government provides assistance to the American public in the form of projects, services, and activities. It supports a broad range of assistance listings—in various areas such as education, health care, research, and infrastructure.

Federal Awarding Agency

The Federal agency that provides a Federal award directly to a non-Federal entity.

Formula Grant

Allocations of federal funding to states, territories, or local units of government determined by distribution formulas in the authorizing legislation and regulations. To receive a formula grant, the entity must meet all the eligibility criteria for the program, which are pre-determined and not open to discretionary funding decisions. Formula grants typically fund activities of a continuing nature and may not be confined to a specific project. Common elements in formulas include population, proportion of population below the poverty line, and other demographic information.

Formula Matching Requirements

The statutory formula and/or administrative rule reference in the Code of Federal Regulations (CFR) to include the title, chapter, part, and subpart of the public law citation.

Matching or Cost Sharing

The portion of project costs not paid by federal funds (unless otherwise authorized by federal statute). Matching funds are restricted to the same use of funds as allowed for the federal funds. If it is not allowable under the federal award, it is not allowable as match.

Mandatory Grant

A grant (or cooperative agreement) awarded under a program where the authorizing statute requires the head of the agency or designee to make an award to each eligible entity under the conditions and in the amount (or based on the formula) specified in the statute.

Maintenance of Effort (MOE) Requirement

Stipulates that the State or locality receiving a grant must maintain or contribute a certain level of financial effort in a specified area to receive federal assistance.

Types of Assistance

The form in which the federal government provides assistance to the award recipient.

Use of Assistance

The purpose for which a recipient entity is permitted to expend funds awarded under a specific assistance listing.
