Key Points and Issues For February 2010

Acting Director's Note

The public equity markets recovered from the January sell off as illustrated by the gain in the S&P 1500 Index of 3.31%. The Custom International Developed Market Index return of -0.60% was weighed down due to the concerns over debt issues in Greece and a number of other countries in the European Union. Despite the volatility in the markets, domestic equities, emerging markets, fixed income (excluding TIPS), hedge funds and mortgages generated positive returns, and most portfolios exceeded their benchmarks.

We continue to see positive news for global growth even with the recent turmoil associated with Greece. Emerging Market countries' exports and imports are surging and credit spreads appear to be narrowing around the world. Domestic growth appears to be on track, with corporate profits and productivity continuing to improve. We are still concerned about the residential and commercial real estate impact on regional and larger financial institutions. However, we still hold a positive view of the economy as three of the leading employment surveys were positive again last month and unemployment claims appear to be at least stabilizing.

The pension fund returned 0.75% versus the Council benchmark return of 0.92%. Our underperformance for February is primarily attributable to the relative return of our international equity portfolio, which fell -1.15% versus a -0.60% decline for the Custom International Developed Market Index.

The market value of the fund is \$67.3 billion as of 2/28/2010, down from \$67.4 billion as of 1/31/2010. The decline is primarily attributable to corrections in the international equity markets. For the fiscal year-to-date, the fund is up 14.09% versus the Council benchmark return of 13.55%. We estimate that net benefit payments (i.e., net cash outflows) from the fund since June 30, 2009 were \$3.2 billion. Net benefit payments made in February were \$485.2 million.

In February, we were net sellers of \$398 million in domestic equities, and \$260.5 million in International Developed Markets Equities. Within domestic fixed income, we had net sales of \$67.2 million of corporate bonds in February, consisting of sales of \$193.1 million, partially offset by purchases of \$125.9 million. We also had purchases of \$83.5 million of TIPS, and \$13 million of Build America Bonds. Within Common Pension Fund E, we funded approximately \$106 million of commitments to alternative investments.

We transferred a total \$800 million out of public equities and put \$800 million into the pension fund cash balances to fund anticipated net benefit payments.

Domestic Equity

- Performance for Common Pension Fund A was positive, gaining 3.63% in February, above the 3.31% gain for the S&P 1500. For the fiscal year-to-date, Common Fund A is up 22.25% versus 22.52% for the benchmark. Relative results for February benefitted from strength in transport and materials holdings, along with the Fund's minimal exposure to the major telephone companies.
- Net sales of domestic equities were \$398 million in February. Sales were concentrated in industries outside of the industrial and financial sectors and included Wal-Mart Stores (\$38 million) and Newmont Mining (\$31 million). Major purchases included Prudential Financial (\$46 million), Cliffs Natural Resources (\$40 million), and CSX (net \$39 million).
- In February, the Fund slightly reduced its large underweight in financials and industrials, while maintaining the underweight in telecommunication services. It remains overweighted in materials, technology and utilities.

Domestic Fixed Income

- Performance for Common Pension Fund B for February was up 0.02%. Excluding the TIPS and high-yield positions contained within Common Pension Fund B, performance was 0.56% versus 0.3% for the Barclays Long Government/Credit Index. For the fiscal year-to-date period, Common Pension Fund B (excluding TIPS and high yield) returned 10.02% versus 8.07% for the Barclays Long Government/Credit Index. The duration of Common Pension Fund B (excluding TIPS and high yield) was unchanged with 10.50 years as of February 26, 2010.
- The High Yield portfolio, which now includes the long-only bank loan funds that were transferred from Common Pension Fund E, was up 0.18% for February versus 0.17% for the Barclays High Yield Index. The high yield portfolio is up 26.22% versus its benchmark return of 23.03% for the fiscal year-to-date period. The TIPS portfolio returned -2.79% compared to its benchmark return of -1.15% in February and is up 4.42% versus its benchmark return of 5.35% for the fiscal year-to-date.
- Within domestic fixed income, we had net sales of \$67.2 million of corporate bonds in February, consisting of sales of \$193.1 million, partially offset by purchases of \$125.9 million. We also had purchases of \$83.5 million of TIPS, and \$13 million of Build America Bonds. Major sales in the corporate bond portfolio included Nucor, Microsoft, Pitney Bowes Inc, Southern California Edison, and IBM. We purchased corporate bonds in Hydro Quebec, International American Developed Bank, Comcast Corp, Kraft Food, and Adobe System. We bought \$75 million in TIPS with a maturity date of January 15, 2027. Names that were purchased in the Build America Bond portfolio were Florida Atlantic University,

Cowlitz County Washington Public Utility, and Washoe County Nevada Highway.

International Equity/Fixed Income

- Performance for Common Pension Fund D for February was -1.15% versus -0.60% for the Custom International Developed Market Index, the benchmark for the international portfolio. For the first eight months of the fiscal year, Common Pension Fund D returned 16.01% versus 16.27% for the benchmark.
- An important factor for market volatility during the month of February has been the sovereign credit crisis in Greece and by contagion in Italy, Ireland, Portugal and Spain. On aggregate, we have a significant underweight in our equity portfolio to those geographies, which in total represent 6.46% of our Developed Market Portfolio. Despite this underweight, sector allocation made within these countries favoring interest-sensitive companies in the utility and infrastructure sectors negatively impacted our overall performance.
- Japan continues to be a major overweight in the portfolio that again for the month of February made a positive contribution to return.
- Stock selection has helped the consumer staple sector be the largest positive contributor to performance in February while pharmaceuticals and transport infrastructure were the most negative.
- We were net sellers of \$260.5 million of International Developed Markets equities in February. The major sales of the month were BP Plc (\$98.0 million), DNB Nor (\$45.2 million), Fortum (\$31.3 million), Toyota (\$27.5 million) and Reed Elsevier (\$16.5 million). The major names purchased this month include Vodafone (\$25.8 million), Fast Retailing (\$16.2 million) and L’Oreal (\$15.5 million).

Alternatives

- The \$300 million Infrastructure portfolio consists of 55% international and 45% domestic infrastructure-related equities. The portfolio's performance for February is -2.01% versus the Macquarie 100 Index performance of -1.45%. The portfolio had an average dividend yield of 4.9% for the month of February.
- We funded approximately \$106 million of commitments to Private Equity and Real Estate investments in February. Additionally, we received distributions of approximately \$49 million during the month. The major alternatives investment for the month was \$14.4 million to TPG VI, a Private Equity fund focused on buyout opportunities across a broad range of industries and geographies.
- The Hedge Fund portfolio returned 0.44% for February versus its benchmark return of 0.12%. Fiscal year to date the hedge fund portfolio returned 14.37%

which compares favorably with the HFRI Fund of Funds Composite Index, which returned 5.71% for fiscal year to date. We received approximately \$17.3 million in distributions from prior redemptions within this portfolio during the month of February.

Cash Management Fund

- Total assets in the Cash Management Fund were \$12.3 billion as of February 26, 2010. The current yield is 0.36% for state participants and 0.26% for “non-State” participants.

***Not Yet Funded as of February 28, 2010**

(1) Represents investments made to the underlying funds plus capitalized expenses paid, less recallable returns of capital. A portion of the funded amount may not reduce New Jersey Portfolio's remaining commitment to the underlying funds. (2) Represents remaining commitments calculated by subtracting total capital contributions for investments and inside expenses from total commitment and adding back recallable returns of capital. A portion of the funded amount may not reduce New Jersey Portfolio's remaining commitment to the underlying funds (and therefore the commitment less the funded amount may not equal the remaining commitment).
