**Reports**

- M-1 New Business At its meeting of February 21, 2018, the Board discussed the changes to the Certification of Service & Final Salary regarding question #7. The Board requested the definition of "recent" explained and an administrative review.
- At the March 27, 2018 meeting, Cheryl Chianese, Chief of the Retirement Bureau, addressed the Board and explained that this is the new PAPER cert - employers should not be using this for, they should be completing the EPIC cert. The administration has been working on this Certification for months, trying to get the best, most current information possible from the employer. In addition, the definition of "recent" is understood by the Division to mean, "not long ago, in the past days weeks months, a little while back" clearly it is the Division's intention to try and find the people who are retiring because of an impending charge coming down the road – the CO should use their judgment when completing this form and provide the information that is being requested. The Board indicated it is not comfortable using the word "recent". They believe the word is too broad and should be defined by a specific period of time (i.e. 30 days, 6 months, etc.).
