The agency proposal follows:

Summary

The proposed amendments clarify the eligibility requirements of a charitable organization to participate in the Local Unit of Government Charitable Fund-Raising Campaign (Campaign) or Campaign Steering Committee of the Campaign. When the existing rules address eligibility, they refer to the relevant section of the Public Employee Charitable Fund-Raising Act, at N.J.S.A. 52:14-15.9c7d. That 1985 statute in turn requires a charity to be subject to the Charitable Fund Raising Act of 1971, P.L. 1971, c. 469. However, the 1971 cross-referenced law was repealed and superseded by the Charitable Registration and Investigation Act, P.L. 1994, c. 16 (CRI), which has since been amended by P.L. 2005, c. 283, effective July 9, 2006. Before these amendments, the CRI provided disclosure, recordkeeping requirements and enforcement authority not found in the repealed law, and after the recent amendments, the CRI provides enhanced disclosure requirements (for example, annual disclosure of organizational information, rather than at the initial registration), prohibitions against misleading prospective donors, and enhanced enforcement authority by the Attorney General. With these statutory changes, it is necessary to clarify to charitable organizations that to be eligible to participate in the Campaign or the Campaign Steering Committee requires compliance with a statute, the CRI, which requires much more than the initial registration of a charitable organization with the Attorney General. The proposed amendments address CRI compliance at N.J.A.C. 17:29-2.4 (eligibility of charitable fund-raising organizations to participate in Steering Committee), 2.7 (statement of compliance added to application requirements), 3.1 (eligibility of charitable agency to participate in Campaign) and 3.4 (statement of compliance added to application requirements).

The State Treasurer has provided a 60-day comment period for this notice of proposal. Therefore, this notice is excepted from the rulemaking calendar requirement pursuant to N.J.A.C. 1:30-3.3(a)5.

Social Impact

The proposed amendments to N.J.A.C. 17:29 affect all charitable organizations seeking to participate in the Campaign or become a member of the Campaign Steering Committee, the operational unit of the Campaign. The changes clarifying that eligibility for participation in the Campaign or membership in the Campaign Steering Committee requires compliance with the CRI will benefit the public and the local unit employees through the increased organizational and financial disclosures and safeguards against fraud. In the event that charitable organizations do not understand the link between the Campaign and full compliance with the CRI, the amendments offer the positive social impact of clear guidance.

Economic Impact

The proposed amendments may have a positive economic impact of stimulating increased confidence and, consequently, contributions, by the employees of local units of government in the charities participating in the Campaign. Charities applying to participate in the Campaign or the Campaign Steering Committee are not expected to incur administrative or other costs resulting from these amendments that they would not otherwise incur in complying with the CRI and completing an application to participate in the Campaign or Campaign Steering Committee. It is possible, but not known, that the clarification of the requirement to comply with the CRI will lead fewer charities to seek participation. It is also possible that through the contractor administering the Campaign for the

local unit of government, the local government may incur some small increase in cost for the monitoring of full compliance with the CRI.

Federal Standards Statement

A Federal standards analysis is not required because there are no Federal laws or standards applicable to the proposed amendments.

Jobs Impact

The State Treasurer believes that the proposed amendments will neither increase nor decrease the number of jobs in the State.

Agriculture Industry Impact

The proposed amendments will not have any impact on the agriculture industry in the State.

Regulatory Flexibility Analysis

As defined under the Regulatory Flexibility Act, N.J.S.A. 52:14B-16 et seq., the term “small business” may apply to some charitable agencies wishing to participate in the Campaign. However, the proposed amendments impose no recordkeeping, recording or compliance requirements on such entities not already imposed by compliance with the CRI. The only requirements imposed on such agencies related to the application process, the documentation for which should be maintained by the agency in the normal course of operation. Besides the minor administrative costs of application, the State Treasurer anticipates no cost need be expended or professional services engaged by small businesses to comply with these amendments. Although the rules may be somewhat burdensome to

small businesses, it is essential that the rules be in full compliance with the Charitable Registration and Investigation Act in order to protect the public from fraud and deceptive practices by making available information concerning charitable fund raising activities of charitable organizations, professional fund raisers, commercial co-venturers and solicitors. Therefore, no lesser or differing standards are possible for small businesses.

Smart Growth Impact

The State Treasurer does not believe that the proposed amendments will have an impact on the achievement of smart growth or the implementation of the State Development and Redevelopment Plan.
