New Jersey Gross Income Tax Instructions for Form NJ-2210NR Underpayment of Estimated Tax by Nonresident Individuals 2024

Use Form NJ-2210NR to determine if you are subject to interest on the underpayment of estimated tax. Complete Part I, Figuring your Underpayment, to determine if you have not paid enough estimated tax during any of the payment periods. If you have not, complete Part II, Exceptions, to determine if an exception applies to any of the payment periods. If no exception applies, use the worksheet on the next page to calculate the interest for that period.

In General

You may owe interest if you did not make estimated payments, including withholdings (see line 6), equal to at least 80% of your 2024 tax liability (line 47, Form NJ-1040NR) or 100% of your 2023 tax liability, provided your 2023 New Jersey Gross Income Tax return covered a full 12-month period. If an underpayment does exist for any column in Part I, you should complete Part II, Exceptions, and the appropriate worksheet on page 2, NJ-2210NR to determine if any of the exceptions on Part II may apply. You **must** complete the appropriate worksheet for exceptions 2, 3, and 4 and attach all calculations for each of the exceptions claimed.

Part I

Line 3 – If line 3 is \$400 or more, complete lines 4 through 13.

Line 6 – For the purpose of determining your underpayment of estimated tax, tax withheld includes the amount of New Jersey Tax Withheld (line 50, NJ-1040NR), Tax Paid on your behalf by Partnerships (line 52, NJ-1040NR), Excess NJ UI/WF/SWF Withheld (line 53, NJ-1040NR), Excess NJ Disability Insurance Withheld (line 54, NJ-1040NR), Excess NJ Family Leave Insurance Withheld (line 55, NJ-1040NR), and Pass-Through Business Alternative Income Tax Credit (line 56, NJ-1040NR). The total amount of tax withheld is considered to have been paid evenly (one-fourth of total amount) on each payment due date, unless you can show otherwise. Include this amount with the amount of any estimated tax payments on each of the columns on Part I. The total amount of credit, if any, from your prior year tax return should be included in the amount of your payment in column B. If each column on line 6 is greater than the corresponding column on line 5, do not complete the rest of this form.

Line 7 – Complete lines 7 through 13 for one column before completing the next column.

Line 12 – If line 12 is zero for all payment periods, you are not subject to the interest and therefore do not have to file Form NJ-2210NR. If you have an underpayment in any column on line 12, complete Part II.

Part II

You will not have to pay interest if (1) you have paid your 2024 tax payments (line 14) on time; **and** (2) the amount on line 14 is equal to or more than the tax calculated under any of the exceptions available for the same payment period.

Line 14 – Based on the amounts indicated on line 6, Part I, enter the **total** amount of all estimated tax payments and taxes withheld by each of the due dates indicated on Part II.

Exceptions 1, 2, 3, and 4 – You must complete the appropriate worksheet for exemptions 2, 3, and 4 and attach all calculations for each of the exceptions claimed. If you meet exception 1 at line 15, do not file this form. These amounts will be automatically verified by the Division of Taxation.

Exception 1 – Enter your prior year tax liability (line 47, 2023 NJ-1040NR) in the space provided at line 15. Exception 1 only applies if your prior year tax return covered a full 12-month period and your current tax year payments (line 14) are at least equal to your prior year tax liability. Your prior year tax liability is zero if a return was not required to be filed. Enter the applicable percentage of your prior year tax liability in each column at line 15 as indicated.

Exception 2 – Exception 2 is calculated by subtracting the total amount of your current tax year exemptions (line 30, 2024 NJ-1040NR) from your **prior** year Gross Income from Everywhere (line 29, column A, 2023 NJ-1040NR). Tax is calculated using the current year tax rates and applying the nonresident income percentage. Enter the applicable percentage of line 6 of the worksheet in each column of line 16 as indicated. Exception 2 only applies if your current year tax payments (line 14) are at least equal to the amounts indicated at line 16.

Exception 3 – Exception 3 is calculated by multiplying the actual portion of Gross Income from Everywhere (line 29, column A, 2024 NJ-1040NR) that is applicable to each period shown, by the annualization amounts at line 2 of the worksheet. Subtract the total amount of exemptions (line 30, 2024 NJ-1040NR) from your Annualized Income on line 3. Calculate tax on this amount and apply the nonresident income percentage for the period as calculated on line 8. Enter the applicable percentage of each amount from line 9 of the worksheet on the corresponding column at line 17 as indicated. Exception 3 only applies if your current year tax payments (line 14) are at least equal to the amounts indicated at line 17.

Exception 4 – Exception 4 is calculated using the tax on the actual amount of Taxable Income that is applicable to each period and multiplying it by the nonresident income percentage. Enter 90% of each amount from line 4 of the worksheet in the corresponding column at line 18. Exception 4 only applies if your current year tax payments (line 14) are at least equal to the amounts indicated at line 18.

Calculating the Interest

Use the table in Option 1 to calculate interest on the amount of the underpayment from page 1, NJ-2210NR. If any of your estimated tax for Tax Year 2024 was not paid timely, interest must be calculated based on the Interest Rate Schedule in Option 2.

OPTION 1

QUARTER	PERIOD	A	B	C	D	E	F	G
		Amount Due (Line 5, NJ-2210NR)	Balance Due Previous Qtr. (Col. E)	Total Due (Col. A + B)	Total Paid (Line 6, NJ-2210NR)	Balance (Col. C – D)	Multiplier	Interest (Col. E x Col. F)
1.	4/15 – 6/15						.019	
2.	6/16 – 9/15						.029	
3.	9/16 – 1/15						.038	
4.	1/16 – 4/15						.027	
Total Interest								

Column A Enter the amount due per quarter (line 5, NJ-2210NR).

Column B Enter the balance due (column E) from the previous quarter.

Column C Enter the total of column A plus column B.
If column B is negative, subtract column B from column A.

Column D Enter the total estimated tax paid and withheld (line 6, NJ-2210NR).

Column E Subtract column D from column C.

Column F The multiplier is based on the interest rates in effect during each quarter.

Column G Multiply column E by the multiplier in column F. If column E is negative, enter zero in column G.

TOTAL INTEREST Add the interest for each quarter and enter this amount in the block marked Total Interest on line 19, NJ-2210NR and on line 48, NJ-1040NR.

OPTION 2

Calculate the interest on the amount of the underpayment on line 12 from the date the underpayment was incurred to the date the underpayment was satisfied or the original due date of the final tax return (Form NJ-1040NR), whichever is earlier. Interest is assessed at the annual rate of 3% above the average predominant prime rate and is imposed each month or fraction thereof the underpayment exists. The interest rate will be reviewed quarterly and will only change if there has been a cumulative change of more than 1% since it was last set.

INTEREST RATE SCHEDULE	
PERIOD	INTEREST RATE
4/16/24 – 1/15/25	11.50%
1/16/25 – 4/15/25	10.75%
