

Interest Rate Assessed on Tax Balances for 2022

TB-21(R) – Issued: September 23, 2022

As a result of the changes in the Prime Rate and in accordance with the Taxpayers’ Bill of Rights, the interest rate for the remainder of 2022 (October 1 - December 31, 2022) has been increased to 9.25%. The rate for the first six months of 2022 (January 1 - June 30, 2022) was 6.25%. The rate for the next three months of 2022 (July 1 – September 30) was 7.75%.

The rate is calculated as follows: Prime Rate (6.25%) + 3% = 9.25%, compounded annually.

Under the Taxpayers’ Bill of Rights, interest assessed on outstanding tax balances is Prime Rate plus 3%. Prime Rate for this purpose is the average predominant Prime Rate, as determined by the Board of Governors of the Federal Reserve System that was in effect on December 1 of the year prior to the year in which the tax became due. If the Prime Rate varies by more than one percentage point from the rate previously determined, the Director of the Division of Taxation shall redetermine the rate to be the quoted Prime Rate for subsequent calendar quarters of the year in which the payments become due.

At the end of each calendar year, any unpaid tax, penalties, and interest will become part of the balance on which interest is charged.
