## **Governor's Message**

**PHILIP D. MURPHY  
GOVERNOR OF NEW JERSEY  
TRANSMITTED TO THE SECOND ANNUAL SESSION  
OF THE TWO HUNDRED TWENTY-FIRST LEGISLATURE  
February 25, 2025**

Lieutenant Governor Way.

Senate President Scutari. Assembly Speaker Coughlin.

Majority Leaders Ruiz and Greenwald. Minority Leaders Bucco and DiMaio. Members of the 221st Legislature, with special thanks to the bipartisan escort committee that walked me into this chamber.

Chief Justice Rabner and Judge Grant.

Members of the Cabinet. Senior staff.

Former Governors McGreevey and Corzine.

First Lady Tammy Murphy and two of our four children, Josh and Sam.

Distinguished faith leaders, members of the clergy, veterans, our brothers and sisters in organized labor, special guests, friends.

And my fellow New Jerseyans.

It has been the highest honor of my life to serve as your Governor.

Over the past seven-plus years — with the help of everyone in this chamber — we have begun building a New Jersey that is stronger, fairer, and more prepared for the future.

But though we have come far in this journey, let me be absolutely clear: We have not reached the finish line yet.

Because today, at a time when working families have been pummeled by rising prices, and the noise of chaos and confusion in Washington is louder than ever, the reality is: the working people who keep our state moving cannot afford to slow down.

And neither can we.

Because we need to keep fighting — with every fiber of our being — for our children, workers, parents, senior citizens, and every New Jerseyan who is struggling to get by.

So, as I declared last month, during my State of the State Address: I'm not done yet. And we're not done yet.

## GOVERNOR'S MESSAGE

---

And as we join together, to run through the tape, over the final 329 days of our Administration, I am honored to present our budget proposal for the next fiscal year.

With this budget, we will continue making historic progress in meeting our sacred obligations to the people of New Jersey.

We will confront our state's greatest challenges — both honestly and responsibly.

We will defend the fundamental rights and freedoms of every New Jerseyan, from voting rights to LGBTQ+ rights to reproductive rights to every right in between.

And, with our Administration's final budget proposal, we will move forward in meeting our highest priority of all:

Delivering economic security and opportunity to every New Jerseyan.

And together, with the support of everyone in this chamber, we will leave our children a state that is better than we found it.

Now, to that last point, today, I also want to take the opportunity to spell out — in the clearest terms — the difference between fiscal responsibility and fiscal irresponsibility.

Because, for far too long, our state's families had been failed by the reckless and irresponsible decisions made by previous generations of leaders, on both sides of the aisle.

And those years of failed leadership have come at a big cost for our families.

So, as I take this podium — for my final Budget Address — I am going to explain exactly what the consequences of those failures are for working New Jerseyans.

And, I am also going to explain how our Administration has addressed — and will continue to address — those failures and how the next Governor can build upon the progress we have made, together.

As always, we need to level with the people of New Jersey.

Because you don't need to be a recovering banker to recognize that it costs a whole lot more to meet our obligations tomorrow than it does to face them head-on today.

And, as we all know well, right now, the single-biggest challenge facing the people of New Jersey is that the cost-of-living is way too high.

From the farms of Cumberland County to the streets of Jersey City, far too many New Jerseyans are living with deep uncertainty — and anxiety — about their economic future.

Whether it be the skyrocketing cost of eggs, or a housing market that is hotter than ever, our state's working- and middle-class families are worried — on a fundamental level — about being able to make their future in the Garden State.

And given the global economic disruptions — like inflation — that have battered the American people over the past few years, it's really no wonder that our working neighbors feel as if they have been forgotten by those of us in power.

So, to every New Jerseyan who shares these concerns, here is my message to you: Our Administration is going to spend every minute we have left fighting for you.

In every working family living paycheck-to-paycheck I see my own family.

I see my Mom and Dad, who worked themselves to the bone, every single day, to provide for our family.

Growing up, my parents earned just enough to get by and to ensure my siblings and I had a fair shot at a brighter future.

To me, that is the promise of the American Dream.

And it is the very same promise that our Administration has worked to make a reality for every family in New Jersey.

And, with our budget proposal, our Administration will continue delivering economic security and opportunity to every New Jerseyan by providing yet another round of record-high tax relief.

Over the past seven-plus years, and in partnership with Senate President Nick Scutari and Speaker of the General Assembly Craig Coughlin, we have delivered more property tax relief to the people of New Jersey than any Administration in history.

Just last year, the amount of property tax relief we provided to New Jerseyans — through the ANCHOR Program alone — was magnitudes higher than it was when I entered office.

And let me explain what this relief means in real terms.

Back in 2018, the average, eligible homeowner in New Jersey received \$246 in property tax relief.

This year, that average tax relief payment will be over \$1,500 — a more than 500% increase in just seven years.

And, in partnership with everyone in this chamber, we have also provided historic relief to our state's renters by restoring — for the first time in a very long time — property tax relief for tenants all across New Jersey.

But, beyond property taxes, we have also introduced new forms of relief, especially for our state's working parents.

## GOVERNOR'S MESSAGE

---

One of those parents is with us today: Abigail Perez.

Abigail is a single parent, living in Union County with her four-year-old son. She also works as a Township Recreational Program Aide, a role through which she provides support to our state's senior citizens every day.

Last year, Abigail was one of 237,000 parents who received, on average, more than \$950 in direct relief through the new Child Tax Credit, which we created in 2022.

That is real relief for parents, like Abigail, so they can afford everything from new clothes to a crib.

And, on the topic of lowering costs for New Jersey's working parents, today, I am proud to announce that our budget will introduce a new sales tax exemption for cribs and other critical baby supplies to make life more affordable for more families.

So, altogether, we are providing record-high relief to New Jerseyans up and down our state — from tenants, to working parents, to senior citizens.

And with our budget, we are going to provide even more relief to our state's seniors through Speaker Craig Coughlin's Stay NJ program.

This program will provide hundreds of millions of dollars in relief to seniors all across New Jersey, so they can afford to remain in their homes and stay close to their kids and grandkids.

And while all of this is important progress, let's be honest: for many families, tax relief merely serves to offset the burden of rising costs.

Today, there are far too many New Jerseyans who are unable to save any money at the end of the month, which prevents them from investing in their family's future.

For that reason, our Administration has always embraced a comprehensive approach to strengthening the economic security of every New Jerseyan.

And our budget will continue making historic investments to help our neighbors save more of what they earn so they can worry less about affording necessities, such as health care.

I have said it before, and I will say it again: in the wealthiest nation in the world, nobody should ever have to worry about affording life-saving health care.

And our budget will continue making health care more affordable for more families by providing more than \$100 million to support Cover All Kids.

This program provides free health insurance to tens of thousands of children — so they can receive the care they need, when they need it.

And, even better — with our budget, we are going to lower costs, even further, for parents caring for a newborn.

Last year — as part of First Lady Tammy Murphy's Nurture NJ Initiative — we launched Family Connects NJ, the nation's most robust, free nurse home visitation program for new mothers and babies. No other state, in the nation, has a program like this.

And we have already provided thousands of in-home nurse visitations to families across our state, so we can catch complications early, and in the process, literally save lives.

And with our budget, we are going to invest many more millions into expanding Family Connects NJ, with the goal of helping every new parent receive in-home care, from a trained nurse, free of charge.

Taking this step is essential to ensuring that New Jersey remains the best place, anywhere in America, to raise a family.

And, as we work to retain that proud reputation, we are also moving forward in addressing one of the biggest drains on any family's budget: the skyrocketing cost of housing.

Just last year — with the help of Senator Troy Singleton, Assemblywoman Yvonne Lopez, and many of you in this chamber — I signed the most important affordable housing law that New Jersey has seen in more than 40 years.

And this year, we are going to build upon that accomplishment by reforming New Jersey's zoning and permitting laws, so we can make it easier to build new, affordable housing where it is needed most.

These legislative reforms are crucial to stabilizing the cost of housing in the years to come.

And, over the next year, our budget will help families save money on housing by, for instance, offering down payment assistance to first-generation homebuyers and building upon the tens of millions of dollars we've invested — through the Affordable Housing Trust Fund — into housing New Jerseyans up and down our state. From our elderly neighbors to our veterans.

With us today is Jim Sawn — who served our nation, in the Army, during the 1980s, and received numerous medals and ribbons for his courageous service.

Last year, Mr. Sawn moved into a new, affordable housing complex in Mountain Lakes, which was built — in part — through funding provided by the Department of Community Affairs.

We owe New Jerseyans like Mr. Sawn a debt of gratitude that we can never fully repay.

And, at bare minimum, we must ensure every veteran like him can keep a roof over their head, food on the table, and find a good-paying job to support their family.

One of our Administration's proudest accomplishments — over the past seven-plus years — has been creating a new generation of jobs for New Jerseyans.

## GOVERNOR'S MESSAGE

---

I have always believed that every worker — no matter their prior experience or educational background — is entitled to a good-paying job that can support their family.

And that is an ideal we have not only supported with our words — but with our actions.

In fact — under the leadership of the Department of Labor and Workforce Development Commissioner Rob Asaro-Angelo — by the end of this year, our Administration will have invested nearly \$100 million into expanding apprenticeship, pre-apprenticeship, and other vocational programs all across New Jersey.

These programs are crucial to cultivating a new generation of trained professionals who can help grow our economy in the decades to come — from welders to mechanics to carpenters.

And, with us today is one of those professionals: Tina Pastorella, who lives in Hamilton, New Jersey.

Back in 2022, Tina enrolled in the Carpenters' Apprentice Ready Program, which helps aspiring carpenters — especially those from underrepresented backgrounds — to launch their careers.

And today, just a few years later, Tina now works in the field — every single day — as a member of Carpenters Local 254.

She even worked on the renovation of the rotunda, here in the State Capitol.

Workers like Tina are literally building the future of New Jersey.

And, it goes without saying: one of the most important investments we can make into New Jersey's future is supporting our children.

That is exactly why our Administration has made monumental investments into strengthening our best-in-the-nation public education system.

With every budget we have introduced, we have provided record-high funding for our K-12 schools.

And with our final budget, we will once again fully fund New Jersey's public education system.

And we are also going to reduce volatility in the school funding process by ensuring that no school district sees a steep reduction in state aid from one year to the next.

Altogether, our budget will provide the single-largest investment into New Jersey's public schools in history.

And, with this funding, we are not merely investing in the success of our state's students.

We are also helping every working parent save more of their money.

Because every additional dollar the state spends on public education is a dollar our families get to save in property taxes.

And our budget will help parents with young children save even more money by providing new funding to make free, full-day pre-K a reality in communities all across the Garden State.

Under our Administration, we have already created nearly 20,000 new classroom seats for our state's youngest learners.

This is our North Star. Because every child should be positioned for academic success, especially at the earliest stages of life.

And now, in our continued efforts to support the academic success — and the mental well-being — of our students, our budget will help support a new priority: working with districts across New Jersey to ban cellphones from our K-12 schools.

We are going to provide several million dollars to a group of school districts that are interested in making the switch to phone-free schools, so our students can remain focused on their studies, and our educators don't have to compete with TikTok for their attention.

We are joined, today, by a New Jerseyan who has been leading the charge for phone-free schools: Andrew Bell, the Superintendent of Woodbury City public schools, in Gloucester County.

Last year, Andrew and his colleagues decided to create a phone-free environment in Woodbury City Junior-Senior High School. And the benefits have been both swift and significant.

In Andrew's words: "teachers are ecstatic to have control of the classrooms back."

This is a win-win-win.

Getting cell phones out of schools helps educators, it helps parents, and most of all, it helps our kids.

So, from nurturing the growth and development of our students, to helping our senior citizens remain in their homes, our entire budget is centered around supporting New Jerseyans at every stage of life.

And, as part of this mission, our budget will also help strengthen the literal foundation on which every New Jerseyan relies: our infrastructure.

Since day one, our Administration has set out to build a world-class transportation system.

One that not only stands as the backbone of our nation's economy but, even more importantly, gets the people of New Jersey where they need to go — safely and on time.

But one of the biggest challenges facing our transportation system is meeting the needs of a growing population.

Last year, New Jersey emerged as the fastest-growing state in the Northeast and one of the top-10 fastest growing states in the entire country.

## GOVERNOR'S MESSAGE

---

And while that is fantastic news for our state's economy, it also means that our public transit system is as busy as ever.

That is exactly why, over the past seven-plus years, our Administration has restored and dramatically increased funding for NJ TRANSIT.

Just last year, with the help of our federal partners, the amount of funding we provided to NJ TRANSIT for new capital projects was nearly double what it was when I first entered office.

This funding supports everything from building new bridges — like the Portal North Bridge, which will be a game-changer for tens of thousands of commuters — to rebuilding train stations and modernizing our fleet of rail cars and buses.

In fact, we have added more than 1,000 new buses to NJ TRANSIT's ranks in the past seven-plus years alone.

And now, with our proposed budget, we are going to move forward in fully modernizing NJ TRANSIT by providing funding to begin replacing every single outdated bus and rail car that remains in the agency's fleet.

Getting this done will make NJ TRANSIT more reliable and more accessible for every New Jerseyan.

And this investment, into strengthening the foundation of our transportation system, is just one example of how we are making it easier for New Jerseyans to live and work in our state.

Because when we talk about building a New Jersey that is brimming with opportunity, for all of our neighbors, we must always recognize our unique responsibility — as elected leaders — to strengthen New Jersey's fiscal foundation, as well.

One of my single-highest priorities, as Governor, has been restoring trust in Trenton's leadership.

And with every budget we have proposed, we have sought to make smart — and prudent — decisions today, so our taxpayers feel more economically secure tomorrow, and in the decades to come.

And our budget proposal for the next fiscal year is no different.

Thanks to the leadership of Treasurer Liz Muoio, and her entire team, we have crafted a proposal that meets all of our sacred obligations to the people of New Jersey — from providing record-high property tax relief to fully funding our public education system.

And, at the same time: we are also demonstrating restraint when it comes to spending taxpayer dollars.

In fact, our budget will largely cap all new discretionary spending.

Because if our state's working families are being forced to make hard decisions when it comes to cutting their costs, we — in state government — should hold ourselves to the same standard.

And that is exactly what our Administration has tried to do since Day One.

While we are honored to be home to the finest public sector workforce of any state in America, we have fewer state workers today than when we arrived over seven years ago.

And, in that same spirit, I am also proud to report that our budget will include a more than \$6.3 billion surplus, which will help guard us against unforeseen challenges, including the uncertainty that has swept over Washington.

When I entered office, we inherited a budget with a paltry \$400 million surplus.

But, with our final budget proposal, we are going to make sure we leave the next Governor a surplus that is more than 15 times greater.

And, just as having a large surplus is important, so, too, is narrowing New Jersey's structural deficit — which, put simply, is the gap between what we spend and what we take in.

Coming out of the pandemic — which clobbered every single state's economy, including ours — we made a conscious decision to increase spending and investments in order to jump-start our economy.

The good news is: that strategy worked. Today, New Jersey's economy is the envy of our region.

But now that the pandemic is behind us, we are fully committed to meaningfully shrinking the structural deficit.

Because, unlike Washington, which hasn't had a balanced budget since the 1990s, we cannot spend beyond our state's means indefinitely.

So, with this proposal, we are getting New Jersey's budget back on the road toward balance, so we can uphold our obligation to keep our fiscal house in the best shape possible.

Because, as always, we owe it to the people we serve to lead honestly and responsibly.

And that is precisely why, over the past seven-plus years, our Administration has been laser-focused on meeting our obligations to the people of New Jersey while also restoring trust in Trenton.

In the past three years alone, New Jersey has received seven credit rating upgrades after a generation of downgrades.

But, even more importantly: we have demonstrated that our state's leaders can meet our fiscal obligations without compromising on our moral obligations. And we are doing so once again.

Our budget will make the full payment into New Jersey's pension system for the fifth year in a row, so that every worker who has served our state can enjoy the dignified retirement they have earned.

## GOVERNOR'S MESSAGE

---

Now, I know the concept of paying into our pension system may seem obvious.

But it turns out, it's not!

In fact, we are the first Administration — in 25 years — to restore full funding for New Jersey's pension system.

For year after year, our state's leaders abandoned this obligation because, simply put: it was the easy way out.

But the truth is: you can only kick the can down the road for so long.

Because sooner or later, you end up having to pay — and pay big.

And when it comes to our state, and — in particular — this budget, we now have to pay a multi-billion-dollar annual penalty for the irresponsible decisions made by previous generations.

What do I mean by that?

Well, if the state had made the full payment into our pension system, every year, over the past quarter-century, the cost of doing so, this year, would be roughly \$1 billion.

But, because we were stuck with yesterday's bar tab, it now costs us around \$7 billion, every year, to make the full payment into our pension system.

And yes, that should make every taxpayer in New Jersey see red.

Over the past five budgets alone, we have paid, in total, a \$30 billion penalty.

Think about that: \$30 billion is enough money to waive nearly every New Jerseyan's property taxes.

With \$30 billion, you could build 13 MetLife Stadiums back-to-back.

Or provide free health care to every child in New Jersey.

That is \$30 billion that should be going back into our hospitals, our schools, our public transit system.

But instead, we are literally paying the price for decades of short-term, sloppy, and selfish decision-making.

Well, we refuse to pass the buck any longer.

Because this is not about doing the right thing for the next election. It's about doing the right thing for the next generation.

And to those of you out there, who I know are going to criticize the size of our budget proposal, I ask you this:

What would you cut?

Because I, for one, refuse to sell off our children's future just to score a cheap headline.

I refuse to raise state taxes on the firefighter in Freehold, or the teacher in Teaneck.

I refuse to rip health care coverage away from our working families and children.

Or to starve NJ TRANSIT of the funding it needs to serve our commuters.

Or to defund Planned Parenthood, like the last Administration did.

And while, yes, every responsible budget, including this one, requires hard decisions — like scaling back programs that we would rather increase funding for — we can, and we must, make those decisions while also keeping our promises, whether it be making the full payment into our pension system or fully funding our public education system.

And I challenge the next Governor of New Jersey, no matter which party, to do their part to prioritize the future of our people instead of catering to the political interests of the present.

Because we work for the people of New Jersey.

And with this budget, and with every minute our Administration has left, we are going to continue working to strengthen our economy, lift up our families, and invest in our shared future.

Now, that last point is especially important, at this very moment, when many of our neighbors are worried about what the next few years may hold.

And they are not just worried about their economic future.

They are also worried about what is unfolding in our nation's capital.

So folks, please allow me to step back for just a minute to acknowledge: these are not normal times.

I think it's safe to say that we are facing more uncertainty — at the federal level — than at any other point in modern history.

And this uncertainty has a direct impact on all of us, and most importantly, the people of New Jersey.

We cannot negotiate this budget in a bubble.

And while I sincerely hope that the situation in Washington settles down, and that we — in turn — have a normal, healthy budget season over the next few months, that is by no means a guarantee.

There is a distinct possibility that we will, instead, need to pursue a “break the glass” strategy.

What that looks like, we cannot yet say. But we must acknowledge — and adapt to — this new reality.

Now, as I said last month: I have every intention of working — in good faith — with the Trump Administration to better the lives of the people we serve.

## GOVERNOR'S MESSAGE

---

But, just as importantly, if this Administration tries to attack our most vulnerable neighbors: I will never back down from defending their rights and freedoms.

I will never back down from defending the members of our LGBTQ+ community — because their identities are not up for debate.

I will never back down from defending civil rights — or the rights of educators to teach the full truth of our history.

I will never back down from defending our immigrant families.

And by the way: I will also never back down from defending our police officers — like South River native Brian Sicknick — instead of pardoning the violent mob that assaulted them.

And I will certainly never back down from defending women — and protecting their access to reproductive health care, and especially, their right to an abortion.

Those folks in Washington can try and push their anti-choice agenda on us.

But as long as I am Governor: they will fail.

And with our budget, we are going to make the largest investment into protecting reproductive rights in our state's history by fully funding women's health care.

Since my first budget, we have quadrupled funding for reproductive health care services.

And our budget will build upon this progress by launching a new OB-GYN incentive program.

With this program, we are going to attract doctors and medical professionals from across the nation to come and join us in the Garden State.

Why?

Because, like every state in the nation, New Jersey is facing a looming shortage of reproductive health care providers.

And, with this investment, New Jersey will get ahead of that challenge by creating a new pipeline for these professionals.

But let me be clear: this is also about defending our New Jersey values.

Because if these health care heroes are going to be targeted by politicians elsewhere, we will always stand up for them and their ability to provide care.

My priority is ensuring that every woman can access the best possible health care, when they need it. Period.

And reproductive rights is just one of the fundamental rights that our budget will help protect.

We are also going to protect every New Jerseyan's fundamental right to safety by funding programs like ARRIVE Together and other initiatives that bring together members of law enforcement, health care professionals, and local leaders, so they can work hand-in-hand to keep our communities safe from threats like guns and violent crimes.

In recent years, these investments have helped save a historic number of lives from gun violence.

And now, our budget will continue supporting programs that help save lives from public safety threats as well as public health threats, like the disease of addiction.

Since 2022, as part of a series of groundbreaking legal settlements, New Jersey has received over \$1 billion from the bad actor companies that fueled the opioid crisis.

And last year, we invested over \$120 million of those settlement payments into treating substance use disorders.

And this strategy — of supporting our neighbors struggling with addiction, rather than throwing them behind bars — is working.

In fact, 2024 marked the second year in a row in which drug-related deaths in New Jersey have declined.

But we are far from declaring victory. Because any precious life lost to opioids is one too many.

That is why our budget will continue funding programs that help New Jerseyans struggling with addiction find their path to recovery.

And, in our ongoing efforts to protect the fundamental rights of every New Jerseyan, our budget will also help defend our most fundamental right as Americans: the right to vote.

Over the next year, we are going to work alongside Lieutenant Governor and Secretary of State Tahesha Way to continue protecting and expanding voting rights, with a particular focus on youth voting rights.

Our budget will provide grants to municipal leaders across New Jersey to create new opportunities for 16- and 17-year-olds to vote in local school board elections, just as they are already doing in our state's largest city, Newark.

Over the past year, I have been proud to help lead the charge for youth voting rights.

Because young Americans are the future of our country.

And, in a world as complicated as ours, they deserve the right to help shape that future.

And of course, that same ideal applies to every New Jerseyan, whether they are a high school student in Camden, a retiree in Cape May, or an immigrant small business owner in Cranford.

The fact is: We all have a role to play in building a better future for New Jersey.

## GOVERNOR'S MESSAGE

---

And rather than succumbing to the politics of division and fear, we consider it an honor that generations of immigrants have chosen to pursue their American Dream, here in the Garden State.

And embracing New Jersey's long-standing reputation — as a melting pot state — is not merely about living up to our values.

Simply put: it is also a winning economic strategy.

Today, immigrant business owners operate nearly half of all of our state's Main Street businesses, and they employ tens of thousands of New Jerseyans.

One of those business owners is Albeiro Orozco, who is here with us today, along with his daughter, Kimberly.

35 years ago, Albeiro left Colombia to pursue his American Dream in Elizabeth, New Jersey, where he opened his first business: Brisas Restaurant.

But soon enough, his homemade empanadas — which are based on a secret, family recipe — became a hit.

And today, decades later, the Orozco family's empanadas are sold all across the country.

They are even the official empanada of the Red Bulls!

There are thousands of New Jerseyans — like Albeiro and Kimberly — who contribute to our economy, and our shared future, every single day.

And with our budget, we are going to ensure that New Jersey remains the State of Opportunity — for entrepreneurs and innovators from around the world — by doubling funding for the Office of New Americans.

This office — which is part of the Department of Human Services — offers educational programming, employment services, and other resources to help new Americans find their footing in the Garden State, so they can help grow our economy, just like Albeiro.

We all benefit when workers and entrepreneurs — of all backgrounds — are given the chance to chase their dreams.

Because this is not about giving any individual group an unfair advantage.

It is about leveling the playing field, so every New Jerseyan has a fair shot at a brighter future.

Over the past seven-plus years, we have taken tremendous strides in building a stronger and fairer economy for New Jerseyans of all backgrounds, especially the members of our Black and Latino communities.

In fact, since 2018, the number of Black-owned businesses in our state has nearly doubled. And we have seen more than 5,000 new Hispanic-owned businesses open their doors.

And, again — this is real, meaningful progress that benefits every New Jerseyan.

Because, with the help of each one of these businesses, we have built the strongest economy in our entire region.

And that growth has enabled us to reach a historic milestone.

As of last year, there are more people employed in New Jersey than ever before and there are more businesses in operation than ever before.

And now, it is incumbent on all of us — as elected leaders — to seize on this economic momentum and create a new generation of economic opportunities for everyone.

Now more than ever, we need to position New Jersey's students, workers, and innovators to outcompete anyone on the planet.

And that is precisely why one of the hallmarks of our Administration has been restoring New Jersey's reputation as a bedrock for revolutionary innovation.

Under the leadership of the New Jersey Economic Development Authority's CEO, Tim Sullivan, and his entire team, we have launched a suite of programs that are putting the workers of New Jersey at the forefront of tomorrow's economy.

And altogether, we have secured more than \$250 million in funding from our partners in the private sector to launch ten strategic innovation centers in a number of emerging industries, including biotech, fintech, generative AI, and more.

The impacts are many, but especially in igniting our start-up culture.

And remember, all it takes is one Microsoft or one Apple to completely change the game for our state's economy.

And though these investments will take years to bear fruit, the truth is, we have already seen ample evidence that our strategy — for reviving New Jersey's innovation economy — is paying off in a big way.

Consider the ascent of our adult-use cannabis industry, which simply did not exist — at least legally — before I entered office.

Just last year, our adult-use cannabis market surpassed \$1 billion in sales.

And the tax revenue we have generated from this sector is providing funding, in part, to support violence intervention programs across our state.

In other words: in just five years, cannabis has gone from destroying lives — in the form of excessive criminal sentences — to helping save lives.

And by way: this simply would not have been possible without the leadership of Senate President Nick Scutari.

And we are joined, today, by one entrepreneur who has helped cultivate our adult-use cannabis industry from the ground up: Tahir Johnson, the Owner and Founder of Simply Pure, a dispensary located right here in Trenton.

## GOVERNOR'S MESSAGE

---

Today, Tahir employs a number of New Jerseyans who — like himself — were unjustly targeted in the War on Drugs.

And Tahir's story — and the story of this industry, more broadly — is a testament to our success in building a stronger and fairer New Jersey.

That success is also reflected in the fact that, in recent years, New Jersey has re-emerged as a global leader in film and television production.

And the resurgence of this industry has been both fast and astronomic.

Back in 2017, filmmaking and television production in New Jersey generated \$67 million in economic activity.

Now, that may sound good, but just six years later — in 2023 — this industry had grown more than ten times, generating more than \$700 million in economic activity for our state. And since then, that number has only grown.

Just last summer, New Jersey outperformed our biggest domestic competitors, like California and Georgia. And we are now entering 2025 as a top, global destination for filmmaking and television production.

You can even see our imprint on some of the most popular movies and TV shows of the last year — like the Bob Dylan biopic *A Complete Unknown* and the Apple TV series *Severance*.

And during this same period, New Jersey has also emerged as a global leader — and innovator — in the clean energy industries that will power our future.

Just last month, the Board of Public Utilities — led by its President Christine Guhl-Sadovy — announced that we have doubled our state's solar energy output since 2017 and that we have now installed enough solar panels to power 700,000 households with clean, affordable energy.

And this month, we are taking a new step forward in accelerating New Jersey's clean energy transition — at no additional cost to our taxpayers.

How can that be?

Well, back in 2020, New Jersey rejoined the Regional Greenhouse Gas Initiative. And over the past five years, as a member of RGGI, we have received more than \$800 million from our nation's biggest power plants and polluters.

And now — in February alone — we are investing \$135 million of that revenue into making it easier for our state's businesses and local governments to expand their fleets of electric vehicles.

With each and every investment, like these, into New Jersey's clean energy future, we are not only meeting our responsibility to combat climate change.

We are also creating new, good-paying job opportunities for our workers.

And with our budget, we are going to apply this same strategy — of diversifying our state's economy — to super-charging our leadership in advanced manufacturing.

In pursuit of this goal, I look forward to working with our bipartisan legislative partners — in particular, Senators Linda Greenstein and Michael Testa — to enact a new tax credit that will incent companies around the globe, especially those facing the risk of new tariffs, to manufacture next-generation products — like cutting-edge pharmaceuticals or renewable energy components, like fuel cells — right here in the Garden State.

So, the bottom line is, from advanced manufacturing and generative AI, to clean energy and adult-use cannabis, to filmmaking and fintech, we are building the New Jersey, not just of 2025, but of 2035 — and beyond.

We are paving the way for a new era of economic opportunities that will support our families for generations to come.

And in so doing, we are living up to our most sacred responsibility of all: Leaving our children a state that is better than we found it.

Though the budget I present to you today is the final budget of our Administration, it is one that reflects our ongoing — and unrelenting — commitment to building a state that is stronger, fairer, and more prepared for the future.

A state where every child is guaranteed access to every resource they need to thrive — from our world-class health care system to the very best public schools in the nation.

A state where every worker can find their place in the economies of tomorrow — and every entrepreneur is empowered to change the world for the better.

A state where every senior citizen is entitled to a dignified retirement — and every working family has the opportunity to live out their own American Dream.

And a state that rejects the politics of division — and, instead, draws strength from diversity.

Now, we all know there is uncertainty in our midst.

But even so, I believe New Jersey's future has never been brighter.

And it is not just because we have the strongest economy in our region — though we do.

Or that we are home to the most dynamic and inclusive innovation ecosystem in the nation — though we are.

No, I am optimistic about New Jersey's future because of the people of New Jersey.

# GOVERNOR'S MESSAGE

---

Our talent. Our ingenuity. Our diversity.

And our unwavering devotion to our shared values.

And during the final year of our Administration, we are going to spend every minute we have left fighting for the people we serve.

We are going to continue delivering economic security and opportunity to every family, in every corner of the Garden State.

And above all, we are going to transform our dreams for New Jersey's future into a reality.

Because, to quote the words of the legendary Toni Morrison — whose name is emblazoned on Princeton University's "Morrison Hall" — we all bear a responsibility to "dream the world as it ought to be."

And if I have learned one lesson, during my seven-plus years as Governor, it is that we can lead our state responsibly, and pragmatically, while never letting go of our willingness to dream.

Because every decision we make in this building — no matter how small — must always be rooted in our commitment to building a brighter future for the next generation of New Jerseyans.

And as I present my final budget, as Governor, I want to tell you about my dream for New Jersey's future.

It is a future that will begin next year, when millions of soccer fanatics — from around the globe — will be drawn to our region to watch the world's greatest game, on the world's biggest stage, with the 2026 FIFA World Cup Final at MetLife Stadium.

And each one of those visitors will see — for themselves — that New Jersey is the state where big ideas come to life.

But that will just be the start.

Because, ten years from now, I see a future where one of our young innovators will follow in the footsteps of Edison or Einstein to discover new, life-saving medical treatments, or new solutions for combating climate change.

And that young woman — along with all of our state's emerging visionaries — will show the world, once again, that New Jersey is the state where big ideas come to life.

But, more than anything, I see a future, decades from now, in which New Jersey is revered as the small state that changed our entire world forever — and for the better.

And every aspect of the budget I present to you today has been crafted to make our collective dreams for New Jersey a reality.

From meeting our sacred obligations to the people we serve.

To facing our challenges honestly and responsibly.

To strengthening the economic security of every New Jerseyan.

Together, we are going to write our state's greatest chapter yet.

And we will leave our children a state that is better than we found it.

Thank you all so much.

May God bless you and your families. And may God continue to bless the great State of New Jersey and the United States of America.

## THE STATE BUDGET PROCESS

The State Budget Process is designed to produce budget decisions based on performance, with a focus on furthering agency core missions. The State budget cycle is on a fiscal year basis, extending from July 1 to June 30 of the following year.

New Jersey's budget process is comprehensive and inclusive, involving every department and agency in the Executive Branch, the Legislature, the Judicial Branch, and through a series of public hearings, the citizens of the state. The budget process begins in the summer prior to the following fiscal year with preliminary projections of revenues and expenditures, which are the basis for development of budget and performance targets for each branch, department and agency. Individual departments and agencies are required to prepare a funding plan or strategy for operating within the established preliminary budget level in the following fiscal year, which funding plan or strategy includes an analysis of the costs, benefits and priorities of every program. The funding plans and strategies are the foundations for revenue and spending decisions that are ultimately incorporated into the Governor's budget recommendations.

The New Jersey Statutes contain provisions concerning the budget and appropriations process. On or before October 1 in each year, each Department, Board, Commission, Office or other Agency of the State must file with the Director of the Office of Management and Budget (Budget Director) a request for appropriation or permission to spend specifying all expenditures proposed to be made by such spending agency during the following fiscal year. The Budget Director then examines each request and determines the necessity or advisability of the appropriation request. On or before December 31 of each year or such other time as the Governor may request, after review and examination, the Budget Director submits the requests, together with his or her findings, comments and recommendations, to the Governor. It is then the responsibility of the Governor to examine and consider all requests and formulate his or her budget recommendations.

The Governor's budget message is presented by the Governor during an appearance before a joint session of the State Legislature which, by law, is convened on or before the fourth Tuesday in February in each year. The Governor's budget includes the proposed complete financial program of the State government for the next ensuing fiscal year, and sets forth in detail each source of anticipated revenue and the purposes of recommended expenditures for each spending agency (N.J.S.A. 52:27B-20). The financial program included in the Governor's budget is then subject to a process of legislative committee review. After completion of the legislative committee review process, the budget, in the form of an appropriations bill, must be approved by the Senate and Assembly and must be submitted to the Governor for review.

Upon submission of the appropriations bill enacted by the State Legislature, the Governor may approve the bill, revise the estimate of anticipated revenues contained therein, delete or reduce appropriation items contained in the bill through the exercise of his or her line-item veto power, or veto the bill in its entirety. As with any gubernatorial veto, such action may be reversed by a two-thirds vote of each House of the State Legislature. In addition to anticipated revenues, the annual Appropriations Act also provides for the appropriation of non-budgeted revenue, including primarily federal funds, to the extent such revenue may be received and permits the corresponding increase of appropriation balances from which expenditures may be made.

During the course of the fiscal year, the Governor may take steps to reduce State expenditures if it appears that revenues have fallen below those originally anticipated. There are additional means by which the Governor may ensure that the State does not incur a deficit. Under the State Constitution, no supplemental appropriation may be enacted after adoption of an Appropriations Act except where there are sufficient revenues on hand or anticipated, as certified by the Governor, to meet such appropriation.

If a general appropriation law is not enacted prior to the July 1 deadline, under Article VIII, Section 2, para. 2 of the State Constitution, no monies can be withdrawn from the State Treasury.

### Capital Budgeting Process

The annual review process for capital spending requests and recommendations, which runs somewhat parallel to the process described above, has several stages. All State departments requesting capital funding must submit a seven-year Capital Improvement Plan to the New Jersey Commission on Capital Budgeting and Planning. Each capital project request must include an operating impact statement. The Commission schedules public hearings, analyzes the capital requests and recommends projects to the Governor. The Governor, in turn, recommends projects in the proposed budget.

## STATE FINANCIAL POLICIES

### **Basis of Budgeting**

The basis of budgeting in New Jersey is in accordance with generally-accepted accounting principles (GAAP) for governments as it applies to fund financial statements prescribed by the Governmental Accounting Standards Board (GASB). The State's budgetary basis differs from that utilized to present financial statements such as the State's audited Annual Comprehensive Financial Report (ACFR) in that encumbrances are recognized as expenditures and transactions are only for the current fiscal year. In accordance with Governmental GAAP, revenues are estimated and recognized when they can be accrued; that is, when they become both measurable and available to finance expenditures of the fiscal period for governmental funds. Appropriations are recommended at a level sufficient to recognize all accrued expenditures applicable to the fiscal period.

### **Budgetary Control**

Pursuant to Article VIII, Section II, para. 2 of the State Constitution, no money may be drawn from the State Treasury except for appropriations made by law. In addition, all monies for the support of State government and all other State purposes, as far as can be ascertained or reasonably foreseen, must be provided for in one general appropriations law covering one and the same fiscal year. No general appropriations law or other law appropriating money for any State purpose may be enacted if the amount of money appropriated therein, together with all other prior appropriations made for the same fiscal year, exceeds the total amount of revenue on hand and anticipated to be available for such fiscal year, as certified by the Governor.

Budgetary control is maintained at the item of appropriation level, meaning the spending authority associated with an organization, appropriation source and program classification. Internal transfers within programs are permitted subject to certain constraints, while transfers between programs or above designated levels require the approval of the Legislature. When appropriations are based on anticipated revenues, spending authority is reduced by the amount of any deficiency in actual revenues. Other budget changes not authorized by specific language provisions must be approved by the Legislature.

Appropriations are authorized for expenditures during the fiscal year and for a period of one month thereafter. Unencumbered appropriations lapse at year end, unless otherwise specified. Non-lapsing balances are considered automatically re-appropriated as authorized by statute or by the Appropriations Act.

### **Balanced Budget**

A balanced budget must be established at the start of the fiscal year (July 1) and be maintained at the end of the fiscal year. New Jersey's Constitution states in Article VIII, Section II, para. 2: "No general appropriation law or other law appropriating money for any State purpose shall be enacted if the appropriation contained therein, together with all prior appropriations made for the same fiscal period, shall exceed the total amount of revenue on hand and anticipated which will be available to meet such appropriations during such fiscal period, as certified by the Governor."

The determination of a balanced budget is based on the revenues and expenditures for all funds according to GAAP. The official revenue estimate for the fiscal year is established and certified by the Governor. If the Appropriations Act enacted by the Legislature exceeds the revenue estimates plus any available surplus, the Governor has the authority and the duty either to veto the entire appropriations bill or to reduce the amount of appropriations to produce a budget that is balanced against the total resources available.

The long term goal is to achieve a structural balance between ongoing operating expenditures and revenues. The rate of growth in direct services provided by the State should be constrained, both in total appropriations and in its relative portion of the State budget. The overarching goal is to identify the most efficient way to provide current services or to expand services within the current budgeted resources. Fund balances may be used to support unforeseen or unpredictable expenditures that require supplemental appropriations. If budget adjustments are necessary to maintain balance during a fiscal year, actions are typically implemented by OMB acting at the direction of the State Treasurer and the Governor.

### HOW THE BUDGET IS ORGANIZED

The budget is divided into major sections as described below:

The **Governor's Budget Message** describes in general terms the policies and new initiatives, as well as the reductions and efficiencies in the Governor's budget. The Governor's Message generally includes a description of the state's economic situation and the expected impact of projected economic trends on the state's fiscal condition. The Governor's Message may also include broad programmatic goals for each of the individual State departments or major segments of the government, as well as policy directions for the upcoming fiscal year.

The **Summaries of Appropriations** section includes a selection of tables and charts designed to summarize the Governor's recommendations.

The **Summaries of Revenues, Expenditures and Fund Balances** section provides information on the revenue and expenditure assumptions incorporated in the Governor's budget recommendations, and the resulting fund balances for all funds maintained by the State.

The **Department and Branch Recommendations** section is the largest section of the budget and includes the greatest detail on proposed appropriations. It is divided into categories based on the source and use of appropriations, which is then organized by governmental branch and sorted in alphabetical order by agencies or executive departments. The major subdivisions of this section are described in detail in the Reader's Guide to the Budget, found at [www.nj.gov/treasury/omb](http://www.nj.gov/treasury/omb).

The **Capital Construction and Debt Service** section of the budget depicts the amounts necessary to pay principal and interest due on capital projects financed by general obligation bonds of the State. The primary method for financing capital projects is through the sale of bonds. No debt can be issued by the State without approval by a majority of the legally qualified voters. This section also includes a brief description of the active bond issues financed by current debt service appropriations.

The **General and Federal Funds Language Provisions** subdivision of the budget establishes authority beyond the specificity of the detailed line-item budgets for both general and federal funds. These provisions apply to broad areas of the budget, such as entire funds or appropriations in general, and in some cases mandate additional administrative requirements related to the enactment of the budget. These Language provisions also authorize adjustments for reorganizations and corrections to the Appropriations Act after its enactment.

## **Summaries of Appropriations**

This section includes tables and charts that summarize the Governor's Budget recommendations and highlight significant changes and policy initiatives.

## **Summaries of Revenues, Expenditures and Fund Balances**

This section provides information on the revenue and expenditure assumptions incorporated in the Governor's Budget recommendations, and the resulting fund balances for all funds maintained by the State.

# REVENUES, EXPENDITURES & FUND BALANCES

## SUMMARY OF ALL FUNDS AND FUND BALANCES

The schedules and exhibits contained in this section provide both summary and detailed financial information for all funds maintained by the State. Funds are grouped into General State Funds, Other Governmental Funds and Proprietary Funds.

### GENERAL STATE FUNDS

Revenues and expenditures for General State Funds (or “State Funds”) are captured in the following Schedules 1-4. State Funds are classified as either budgeted or not budgeted. Budgeted State Funds include the five funds that comprise the State budget: General Fund, Property Tax Relief Fund, Casino Revenue Fund, Casino Control Fund and Gubernatorial Elections Fund. Revenues for budgeted State Funds are detailed in Schedule 1 and summarized herein:

- **General Fund** is the fund into which all State revenues, not otherwise restricted by statute, are deposited and from which appropriations are made. The largest part of the total financial operations of the State is accounted for in the General Fund. Revenues received from most taxes, federal revenues and certain miscellaneous revenue items are recorded in the General Fund. The major categories of anticipated revenue for the General Fund are as follows:
  - The **Major Taxes** category is composed of twenty-one taxes or fees, which are levied within the State and deposited in the General Fund. The majority of this revenue is generated from the sale and use of goods and services, general business taxes, motor vehicle fees and other excise taxes.
  - The **Miscellaneous Taxes, Fees and Revenues** category includes various revenues received by State agencies. Typical items include license and inspection fees, recreation and boating fees, institutional and patient fees, investment earnings and other similar items.
  - The **Interfund Transfers** category includes resources from Other Governmental Funds and Proprietary Funds that are transferred into the General Fund as anticipated revenue for expenditure purposes. Included in these types of revenue is the funding received by the Unclaimed Property Trust Fund, Universal Services Fund, Urban Enterprise Fund and interest earned on investment of bond funds.
- **Property Tax Relief Fund** accounts for revenues from the New Jersey Gross Income Tax and one half-cent of the Sales and Use Tax. These revenues are dedicated by the State Constitution for the purpose of reducing or offsetting property taxes. Annual appropriations are made from the fund, pursuant to formulae established by the Legislature, to individuals, counties, municipalities and school districts.
- **Casino Revenue Fund** accounts for the taxes imposed on casinos, internet gaming, sports betting and other related activities. Appropriations from this fund must be used for reductions in property taxes, utility charges and other specified expenses of eligible senior citizens and individuals with disabilities.
- **Casino Control Fund** accounts for fees from the issuance and annual renewal of casino licenses, work permit fees and other license fees. Appropriations are made to fund the operations of the Casino Control Commission and the Division of Gaming Enforcement.
- **Gubernatorial Elections Fund** is used to account for receipts from the one dollar designation on New Jersey Gross Income Tax returns. When indicated by the taxpayer, one dollar of the tax is reserved from gross income tax revenue (Property Tax Relief Fund) and credited to the Gubernatorial Elections Fund. These funds are available for appropriations pursuant to the New Jersey Campaign Contributions and Expenditures Reporting Act, as amended.

In addition to the budgeted State Funds described above, certain dedicated, federal and revolving fund revenues, which are not part of the State budget, are also considered part of General State Funds and support specific purposes. These are detailed in Schedule 2, “Other Revenues.” Schedules 3 and 4 summarize expenditures supported by resources on Schedules 1 and 2, respectively.

### OTHER GOVERNMENTAL FUNDS

Other Governmental Funds account for other resources legally restricted to expenditure for specific purposes. The funds include general obligation bond funds, non-major special revenue funds, and capital project funds.

### PROPRIETARY FUNDS

Proprietary funds are used to report any activity for which a fee is charged to external users for goods and services. Activities are required to be reported as proprietary funds if laws or regulations require that the activity’s cost of providing services be recovered with fees and charges. The Unemployment Insurance Fund is a proprietary fund.

## FUND BALANCES

Fund balance exhibits report undesignated and designated fund balances for State Funds, Other Governmental Funds and Proprietary Funds. These exhibits follow Schedules 1-4. Fund balances are reflected on a budgetary basis and thus do not include funds reserved for encumbrances in General State Funds. Also excluded are certain Other Governmental Funds and State authority balances. Undesignated fund balance is defined as fund equity that is unrestricted and available for appropriation in succeeding fiscal years. Designated fund balance is defined as unexpended and unencumbered appropriations that are authorized to continue into the subsequent fiscal year.

As can be seen in the exhibit, “Summary, Estimated Revenues, Expenditures and Undesignated Fund Balances – Budgeted State Funds,” the projected undesignated ending fund balance in General State Funds for fiscal year 2026 is estimated to be \$6.305 billion, down \$1.485 billion from the adjusted projected undesignated fund balance for fiscal year 2025 of \$7.790 billion, or a 19.1% decrease. Total resources for fiscal year 2026 are expected to decrease by \$1.6 billion or 2.4%, and total appropriations are estimated to decrease by \$70 million, or 0.1%, resulting in an overall decrease in fund balance.

Total fund balance for General State Funds, including designated fund balances, is estimated to be \$11.871 billion at the end of fiscal year 2026. Details may be found in the exhibit “Summary Revenues, Expenditures and Fund Balances – General State Funds.”

Fund balance for All Funds, including General State Funds, Governmental Funds, and the Proprietary Funds is estimated at \$27.581 billion for fiscal year 2026, a decrease of \$2.496 billion, or 8.3% less than the fiscal year 2025 estimated balance of \$30.077 billion.

Statements of revenues, expenditures, and fund balance for each individual Other Governmental Fund and Proprietary Fund may be found in the Supplementary Information to the budget, posted online at [www.state.nj.us/treasury/omb](http://www.state.nj.us/treasury/omb).

## Department and Branch Recommendations

This section of the Budget includes appropriations, expenditures, and programmatic evaluation data for the Legislature, State Departments and the Judiciary. A single unified presentation provides a comprehensive view of all of a department's operations across all fund categories (Direct State Services, Grants-In-Aid, State Aid and Capital Construction) and funds (General Fund and Dedicated Funds). The four major dedicated funds included are Property Tax Relief Fund, Casino Control Fund, Casino Revenue Fund and the Gubernatorial Election Fund.

Direct State Services support the operation of State programs. Grants-In-Aid represent funds allocated to various public, private and non-profit agencies for State-supported services. State Aid comprises recommendations for payments by the State to or on behalf of a local unit of government, including school districts, municipalities and counties. Capital Construction includes funds for various equipment, renovation and construction of facilities, and infrastructure projects such as roads, bridges and wastewater treatment systems.

OVERVIEW

**Mission and Goals**

The Legislature is the State’s highest lawmaking body. It is one of the three separate and independent branches of government that make up the system of checks and balances created by the New Jersey Constitution and is empowered to appropriate funds for the operation of State government. The 40 members of the Senate are elected for a term of four years, except after the decennial census when they are elected for a term of two years. The 80 members of the Assembly are elected for a term of two years. The Office of Legislative Services, a nonpartisan agency that provides legislators with economic and budget analyses required for making legislative decisions, is also a part of the legislative branch. Legislative commissions assist in the legislative process by providing in-depth studies, holding public hearings and making recommendations on select issues as they arise.

**Budget Highlights**

The fiscal year 2026 budget for the Legislature totals \$119.8 million, a decrease of \$7.5 million or 6% below the fiscal 2025 adjusted appropriation of \$127.3 million. It provides \$18.7 million to the Senate and \$25.2 million to the Assembly. The recommendation also provides \$55.3 million to the Office of Legislative Services and \$20.6 million to the various legislative commissions.

The proposed budget recommends line-item appropriations to five legislative commissions:

The Intergovernmental Relations Commission provides funding that

permits the State of New Jersey to participate as a member of national and regional organizations.

The Joint Committee on Public Schools provides an ongoing study of the system of free public schools, including financing, administration and operations.

The State Commission of Investigation probes organized crime and improprieties in the conduct of publicly-funded programs. The Commission has repeatedly demonstrated its ability to uncover and document waste, fraud and abuse at all levels of government via investigations that have recouped millions of dollars in tax revenues.

The New Jersey Law Revision Commission simplifies, clarifies and modernizes New Jersey statutes. It conducts an ongoing review of the statutes in order to identify areas that require revision and considers suggestions and recommendations from the American Law Institute, the National Conference of Commissioners on Uniform State Laws and other learned bodies as well as from judges, public officials, bar associations, members of the bar and the general public. The Commission recommends the correction of inconsistent, obsolete and redundant statutes and comprehensive modifications of select areas of the law.

The State Capitol Joint Management Commission ensures the artistic, historical and architectural integrity of any restoration or preservation project at the State House, the State House Annex and adjacent environs, and also manages the Capitol Complex, including security and janitorial services.

11. To represent the Department in a professional manner through a diverse, effectively managed, highly trained and committed staff supported by efficient use of available technology and resources in a work environment that fosters excellence.

**PROGRAM CLASSIFICATIONS**

01. **Animal Disease Control.** The Division of Animal Health is responsible for maintaining animal disease surveillance and control programs to protect the health and well-being of livestock and poultry by setting standards, issuing licenses to livestock dealers, auctions, and biologic manufacturers and distributors, and conducting epidemiological investigations of livestock and poultry diseases as well as drug residues. These efforts are supported by the Animal Health Diagnostic Laboratory, which provides valuable disease surveillance necropsy and detection capabilities for all animal species, including livestock and pets, and major diseases including zoonotic diseases in support of One Health.

In the area of emergency management, the Department responds to agricultural impacts from disasters and is a primary support agency in the care of pets and livestock. The Department is responsible for providing foods from the United States Department of Agriculture (USDA) to sheltering sites for congregate feeding and overseeing plant and/or animal diseases that may impact the state’s agricultural operations.

02. **Plant Pest and Disease Control.** The food crop, forests and other plant resources of the state are protected against injurious plant insects and diseases. Surveillance programs identify new or introduced plant pests. Significant infestations are managed with careful chemical treatment and/or biological control programs. The beneficial insect rearing laboratory mass produces and releases insects into the agricultural or forest environment which feed upon insect pests or invasive weeds. Honeybees are inspected to control the spread of disease and improve colony health. Plant nurseries are inspected to ensure plants sold are free from insects and disease. Certification programs facilitate the interstate and foreign trade of plants and plant products.
03. **Agricultural and Natural Resources.** The Division of Agricultural and Natural Resources is charged to maintain, conserve and enhance New Jersey’s rural and agricultural resources and to control erosion, sedimentation and nonpoint sources of water pollution. The primary objective is to improve agricultural productivity and viability while maintaining environmental quality. The Division administers the Food, Agriculture and Natural Resources Education/Future Farmers of America program, the Office of Aquaculture Coordination, the Farmland Assessment program in coordination with the Division of Taxation, agricultural composting/recycling and building code assistance programs related to agriculture, regulatory and land use planning issues, wildlife fencing grants, the Animal Waste Management program, the New Jersey Agricultural Statistics Service, the Soil and Water Cost Share Program and the Soil Conservation Districts through the State Soil Conservation Committee.

05. **Food and Nutrition Services.** The Division of Food and Nutrition includes Child Nutrition programs and USDA Food Distribution programs.

The Division administers federal Child Nutrition programs in public and nonpublic schools, residential and non-residential childcare institutions, day care centers, recreation centers and other agencies that are eligible to participate. Division responsibilities include developing, disseminating, evaluating

and approving pertinent program documents required for participation; providing technical assistance in the areas of implementation, facilities improvement and food service methods; on-site monitoring of programs for compliance with State and federal regulations; and providing financial assistance through a reimbursement system.

The USDA Food Distribution Program receives, handles, stores and distributes USDA foods to State, county and municipal institutions, schools and emergency feeding organizations. It also facilitates the processing of some of the USDA foods into products that meet federal meal pattern requirements. Inspections are conducted in all organizations and institutions for compliance. The Emergency Food Assistance Program (TEFAP) distributes USDA foods to needy citizens through a network of food centers, food banks and food pantries.

06. **Marketing and Development Services.** The Division of Marketing and Development provides an array of marketing and regulatory services that benefit the agricultural community and the public. The Bureau of Market Development and Product Promotion and the Economic Development section help farmers access new markets, as well as work to improve bottom-line efficiencies on the farm. The Jersey Fresh program, aimed at domestic and foreign consumers and retailers, assists New Jersey farmers in expanding their market share. Individual product promotions are also conducted by nine agricultural commodity councils.

The Division of Marketing and Development is providing technical, research and business development support for local livestock (meat) and dairy processing. Providing the resources to assist in the development of these types of facilities will help sustain and grow the agricultural infrastructure within New Jersey. The establishment of such facilities provides economic and logistical benefits for New Jersey producers while providing the residents of the state with greater food security.

Programs for the promotion of the New Jersey horse industry are conducted with funds derived from a small percentage of the pari-mutuel handle at both the thoroughbred and standardbred racetracks. Growth of the horse breeding industry is encouraged through monies awarded in the form of stakes, purses and breeders’ awards.

The Agricultural Chemistry program determines compliance with the stated contents of animal feeds, fertilizers and liming materials offered for sale for farm and non-farm use.

The dairy program is responsible for fostering a stable and competitive dairy industry, including the regulation and enforcement of the production, processing, distribution and sales of fluid dairy products. In addition, this program licenses all outlets that sell or distribute milk in New Jersey. Also, this program handles all laboratory evaluations relevant to the testing of milk for antibiotics, components, quality and bacteria to ensure that the lab is operating in accordance with Food and Drug Administration (FDA) regulations of the Pasteurized Milk Ordinance.

The voluntary Third-Party Audit program, operated in conjunction with the USDA, allows growers, packers and shippers of fresh produce to verify to buyers that they are growing, harvesting, packing and shipping their product in a safe and sanitary manner by using standardized agricultural and handling practices.

The Department coordinates with the Department of Health, the FDA and the National Association of State Departments of Agriculture to support the Food Safety Modernization Act,

# AGRICULTURE

which increases inspections at food processing facilities and requires farms to follow food safety regulations and to have food safety plans that are available for inspection as well.

As an agent of the State of New Jersey, the Department of Agriculture is responsible for registering, monitoring and maintaining a list of retailers offering certified organic agricultural products as part of the Organic Registration Program. The Department shall also provide support for organic, sustainable and regenerative farming by working with the Organic and Regenerative Farming Board.

08. **Farmland Preservation.** The State Agriculture Development Committee (SADC) administers New Jersey’s Farmland Preservation program and promotes innovative approaches to maintaining the viability of agriculture.

The SADC coordinates with participating counties, municipalities and nonprofit organizations to purchase non-agricultural development rights from farm owners in order to permanently deed restrict farms for agricultural uses. Term preservation programs offer participating farm owners certain benefits of the permanent program, but no monetary compensation for the easement. The SADC provides cost-share grants to assist owners of preserved farms in undertaking projects that conserve soil and water resources and offers other programs to promote stewardship of preserved farmland and foster long-term agricultural viability. The SADC also administers the New Jersey Right to Farm Program that protects responsible farming operations against public and private nuisance actions and local regulations that unreasonably constrain farming. Additionally, the SADC operates the Next Generation Farmer Program created to help new and beginning farmers address the challenges they face when getting started and help them establish viable farming

operations.

29. **Preserve New Jersey Farmland Preservation.** Since 1996, a portion of the revenue annually derived from the tax imposed by the Corporation Business Tax Act (P.L.1945, c.162) has been dedicated for environmental purposes. Since 2015, a portion of the dedication has provided funding for the preservation, including acquisition, development and stewardship, of lands for agricultural conservation purposes.

99. **Administration and Support Services.** The State Board of Agriculture consists of eight farmer members, and is empowered to establish programs, regulations and policies that it deems essential towards the sustainability of agriculture in the state. In addition to serving as the Secretary to the Board and Chief Executive of the Department, the Secretary of Agriculture, also a member of the Governor’s cabinet, serves as Chair of the SADC, State Soil Conservation Committee, Aquaculture Advisory Council and the Transfer of Development Rights Bank and is an ex-officio member of the Sire Stakes Board of Trustees.

The Secretary’s office provides overall planning, coordination and logistical support for the Department’s programs, policies and plan development. Department-wide general administrative services are provided, including services related to personnel and employee relations, fiscal control, information technology, management systems, facilities and other administrative functions.

P.L.2021, c.483 created the Office of the Food Security Advocate as an in-but-not-of the Department of Agriculture. The purpose of the Advocate is to coordinate outreach for food insecurity programs, including developing new initiatives and outreach campaigns and identifying best practices to increase enrollment in the State’s food insecurity programs.

**OVERVIEW**

**Mission and Goals**

The mission of the Department of Banking and Insurance is to regulate the banking, insurance and real estate industries in a professional and timely manner. Its aim is to protect and educate consumers and promote the growth, financial stability and efficiency of the industries it regulates.

The Department’s goals are to ensure the solvency of financial institutions and insurance companies through regular examinations and analysis; protect the public from unlawful practices by insurers, insurance producers, financial institutions and real estate licensees; promptly provide assistance to consumers with banking insurance and real estate inquiries; investigate complaints filed by consumers and aggressively prosecute when violations of State laws have occurred; issue licenses to qualified individuals and companies to provide banking, insurance and real estate services to New Jersey citizens; review the rates, rules and policy forms used by insurance companies; enforce the New Jersey Insurance Fraud Prevention Act; protect student loan borrowers; and provide access to quality, affordable health insurance through the State-based exchange.

The Department consists of three main divisions: The Division of Banking is responsible for supervising, regulating and monitoring the safety and soundness of the 40 State-chartered banks and 7 credit unions. Within the Division, the Office of Consumer Finance regulates over 2,600 consumer finance licensees and over 16,500 residential mortgage licensees. The Division is also responsible for licensing and regulating student loan servicers and protecting student loan borrowers. The Real Estate Commission oversees over 97,000 real estate licensees. The Division of Insurance regulates more than 297,000 insurance licensees. Within the Division, the Office of Solvency Regulation monitors 3,623 insurance companies licensed in New Jersey, including 120 domestic companies selling insurance products to New Jersey citizens and 802 self-insured licensed companies that provide third party billing services or charitable annuities. The Office of Captive Insurance regulates 18 captive insurance companies. The Offices of Life & Health and Property & Casualty oversee the rates, rules and policy forms issued by insurers

for life, health, automobile, homeowners, medical malpractice, workers compensation, and other regulated personal and commercial lines of insurance. The Office of Consumer Protection Services responds to consumer inquiries, investigates complaints of licensee misconduct, takes enforcement actions for any violations of State law, conducts market conduct exams of insurers, and issues licenses for over 292,000 insurance producers and public adjusters. The Bureau of Fraud Deterrence investigates allegations of civil insurance fraud and pursues monetary penalties against and restitution from violators of the New Jersey Insurance Fraud Prevention Act. The Bureau is also charged with implementing programs to prevent insurance fraud and abuse, and cooperating with the Attorney General in the investigation and prosecution of criminal violations. New Jersey’s Health Insurance Exchange, a third division within the Department, ensures the operation of Get Covered New Jersey, the State’s official health insurance marketplace. Get Covered New Jersey provides access to quality, affordable health insurance for New Jersey residents. It is the only place where individuals who qualify will get financial help to reduce premium costs. The Department also oversees the New Jersey Reinsurance Program to lower health insurance rates in the individual market for residents of New Jersey.

Additionally, the Individual and Small Employer Health Coverage Program Boards are independent boards created by statute that are considered in-but-not-of the Department. The Boards jointly regulate with the Division of Insurance. Further, there are independent associations, boards and commissions created by statute with which the Division of Insurance interacts, such as the Property Liability Insurance Guaranty Association (PLIGA), the Life and Health Insurance Guaranty Association (LHIGA), and the Compensation Rating and Inspection Bureau (CRIB).

**Budget Highlights**

The fiscal year 2026 budget for the Department of Banking and Insurance totals \$65.3 million, a decrease of \$10 million or 13.3% below the fiscal 2025 adjusted appropriation of \$75.3 million.

#### PROGRAM CLASSIFICATIONS

- Consumer Protection Services and Solvency Regulation.** Insurance companies, producers and public adjusters are licensed to engage in the business of insurance in the state. Companies are examined periodically for solvency and compliance with statutes and regulations relating to market conduct. In instances of serious financial problems or insolvency, domiciled firms may be placed under the Department's jurisdiction as the rehabilitator or liquidator. As a result of complaints and investigations, the Department may fine licensees, suspend or revoke licenses and order restitution.

Responsible for the licensing or registration of non-depository consumer lenders, residential mortgage lenders and brokers, servicing companies, student loan servicers, pawnbrokers, money transmitters and check cashers operating in New Jersey. Responsible for investigating complaints against these institutions and/or licensees, and taking enforcement action where appropriate. Reviews and acts on applications of these financial institutions by performing the

necessary research to determine the merits of the applications and take appropriate action. Performs examinations of these entities, issues related reports, and takes enforcement action where appropriate. Responsible for review and development of regulations.

- Actuarial Services.** Reviews rates, rules and policy forms relating to property, liability and title insurance; policy forms and other insurance forms relating to individual and group accident, health, life and annuities; ensures compliance with applicable laws and regulations; reviews premium rates and loss ratios for health insurance; and reviews and analyzes reserve calculations of domestic life and health insurers.

Authorized by P.L.2018, c.24, the New Jersey Health Insurance Premium Security Act, allowed the Department to apply for and receive approval for federal pass-through funding for the New Jersey Reinsurance Program through a 1332 Innovation Waiver. Through the Program, carriers selling plans in the individual market are reimbursed for certain high-cost claims and, as a result, lower individual health insurance rates. The Program uses a mix of federal and State funds to produce individual health insurance premiums that are an estimated 15% lower than they would be without the program. Under the law, the majority of the funding for carrier reimbursement requests under the Program will come from federal pass-through funds made available through the 1332 Innovation Waiver. After the federal funding is applied, the balance of funding will come from revenue raised by the New Jersey Health Insurance Market Preservation Act, the Health Insurance Affordability Fund, and, if necessary, the General Fund. The Program was approved for five years, from 2019 to 2023, and is operated by the Department in coordination with the New Jersey Individual Health Coverage Program board of directors. A request was made to the federal Centers for Medicare and Medicaid Services for an extension of the program for five additional years, which was approved. The program has been extended through 2028.

Authorized by P.L.2020, c.61, the Health Insurance Affordability Fund authorizes a 2.5% annual assessment on the net written premiums of certain insurers. The revenue will be deposited in the Fund for the purpose of increasing affordability in the individual market and providing greater access to health insurance to the uninsured with a primary focus on households with an income below 400 percent of the federal poverty level, expanding eligibility, or modifying the definition of affordability in the individual market, through

reinsurance, tax policies, outreach and enrollment efforts, buy-in programs, or any other efforts that can increase affordability for individual policyholders or that can reduce racial disparities in coverage for the uninsured.

- 03. **Regulation of the Real Estate Industry.** Ensures that members of the industry comply with existing statutes and regulations; investigates and resolves complaints; conducts hearings involving violations and improper practices; registers and regulates out-of-state land sales through New Jersey brokers; inspects brokers' offices; examines and licenses brokers and salespersons; and maintains a directory of licensees and publishes bulletins.
- 04. **Public Affairs, Legislative and Regulatory Services.** Pro-mulgates regulations, drafts bulletins, orders and other public notices, and legislation. Serves as the Department's liaison with the Legislature, the Governor's office, other government agencies, the press and the industry on policy matters. Monitors proposed legislation and legal issues affecting the regulation of the insurance, banking and real estate industries. Handles internal legal issues and inquiries from the public. Publishes consumer booklets on insurance, and researches policy questions and consumer issues.
- 06. **Bureau of Fraud Deterrence.** (Formerly Insurance Fraud Prosecution and Prevention) This program is funded by a dedicated assessment on the insurance industry which funds both the Bureau of Fraud Deterrence (BFD) in the Department of Banking and Insurance and the Office of the Insurance Fraud Prosecutor (OIFP) in the Department of Law and Public Safety. Both entities investigate allegations of insurance fraud in a coordinated fashion, in order to fully develop the facts and evidence, so that the State can make a reasoned decision as to how to globally address each alleged scheme and individual case by civil and/or criminal prosecution and/or administrative professional licensing sanction. Both entities coordinate with the insurance industry's Special Investigation Units and their affiliates, as well as other law enforcement and regulatory agencies to implement the statewide enforcement strategy addressing insurance fraud in its many forms. Information is collected and analyzed about persons and entities alleged to be engaging in insurance fraud-related conduct in order to assess the prosecutorial merit and to support actual criminal, civil or administrative actions.

The BFD conducts civil investigations, imposes civil penalties payable to the General Fund, and orders restitution payable to victim insurance carriers. Other activities related to fraud prevention consist of outreach with the insurance industry and its affiliates, anti-fraud education seminars and support of the civil penalties collection process related to insurance fraud.

The OIFP conducts criminal investigations and prosecutions, which can lead to prison sentences, fines payable to the General Fund and restitution payable to victim insurance companies. The OIFP also includes the State's Medicaid

Fraud Control Unit, which is separately funded. Under the New Jersey False Claims Act (N.J.S.A.2A:32C-13), a percentage of the recoveries that the Medicaid Fraud Control Unit obtains, under the Act, are to be used to fund the Medicaid Fraud Control Unit.

- 07. **Supervision and Examination of Financial Institutions.** Responsible for the supervision and examination of New Jersey State-chartered banks, savings banks, credit unions and savings and loan associations. Responsible for the supervision and examination of non-depository consumer financial institutions such as check cashers, insurance premium finance companies, pawnbrokers and money transmitters. Ensures compliance with the mortgage loan discrimination statute (C.17:16F et seq.). Regulates, supervises and examines residential mortgage lenders and brokers (C.17:11C-51 et seq.). Licenses and regulates student loan servicers (C.17:16ZZ-4 et seq.). Determines financial and legal compliance with all applicable statutes and regulations and takes appropriate regulatory action to ensure compliance with existing statutes and regulations. Responsible for examinations and enforcement action under the New Jersey bank holding company law (C.17:9A-409 et seq.); responsible for examination of savings and loan holding companies (C.17:12B-281 et seq.).
- 08. **Pinelands Development Credit Bank.** Governed by a board of directors of which the Banking and Insurance Commissioner is ex officio chair; managed by Pinelands Commission staff. Empowered to purchase and sell Pinelands development credits, in accordance with a program included in the Comprehensive Management Plan for the Pinelands; provides a mechanism to facilitate both the preservation of the resources of this area and the accommodation of regional growth influences in an orderly fashion.
- 99. **Administration and Support Services.** Directs the activities of the Department and provides administrative and support services to all of the Department's program classifications and project activities for fiscal control involving budget preparation and accounting services, personnel services and building maintenance. The Office of the Commissioner disseminates legislative and policy guidance to programs and project activities within the Department and coordinates all regulatory and legislative initiatives.

The State transitioned to a State-Based Health Exchange (SBE) from a federally-facilitated exchange. Authorized by P.L.2019, c.141, the SBE is funded by an assessment on premiums paid by carriers in accordance with State law. The operation of a SBE gives the State control over the open enrollment period and access to data that can be used to better regulate the market, conduct targeted outreach and inform policy decisions. Per law, the SBE conducts outreach and enrollment efforts in order to improve access to coverage for New Jersey residents.

OVERVIEW

**Mission and Goals**

In collaboration with State and local government agencies, and in partnership with New Jersey’s non-governmental organizations and community members, the Department of Children and Families (DCF) administers programs and services that help families to be safe, healthy and connected.

With a staff of over 6,000 employees, DCF includes public service programming within the Divisions of Child Protection and Permanency; Children’s System of Care; Family and Community Partnerships; and Women; as well as the Offices of Education; Family Voice; Resilience; Diversity, Equity and Belonging; Staff Health and Wellness; Monitoring; Housing; Training and Professional Development; and Quality; and the Centralized Child Abuse/Neglect Hotline.

DCF focuses its work and resources on strengthening communities, empowering families, and protecting women and children by promoting and utilizing best practice and evidence-based standards to achieve positive outcomes. Current priorities include: the prevention of maltreatment and maltreatment related fatalities, preserving kinship connections, facilitating the health and wellness of staff, ensuring the quality and effectiveness of contracted services, advancing race equity internally and among clients, and implementing an integrated and inclusive Children’s System of Care.

Child Protection and Permanency (CP&P), DCF’s largest operating unit, is a federally-mandated entity with a vision and mission to strengthen and empower families, to protect against child abuse and neglect and to promote permanency for children with relatives and other trusted caregivers.

Children’s System of Care (CSOC) serves children and adolescents with developmental disabilities, emotional and behavioral health challenges, and substance use conditions. This is done with the most clinically appropriate model of care available, and delivered with the

intention of keeping children in their own homes, in their own schools and in their own communities, when safely possible.

Family and Community Partnerships (FCP) is a maltreatment prevention-focused division, working to support and empower families through a statewide network of Family Success Centers, home visiting programs and school-linked youth services. The strong emphasis on primary prevention is intended to reduce the need for protective services intervention.

The Division on Women (DOW) is the state’s primary resource on issues relevant to women and provides leadership in the formulation of public policy in the development, coordination and evaluation of programs and services for women. DOW strives to reduce the incidence of domestic violence and sexual assault by empowering girls and women and promoting healthy manhood in boys and men. It also manages a statewide network of county-based agencies that provide direct support to survivors of domestic violence and sexual assault. DOW supports educational and awareness opportunities for New Jersey’s women and men through a network of displaced homemaker programs.

The Office of Education (OOE) helps children and young adults, ages 3 to 21, with disabilities or behavioral health diagnoses, as well as other at-risk students, including pregnant and parenting teens. It provides 12-month education programs and services that focus on the goal of mainstreaming and integrating children and youth in school and community life.

**Budget Highlights**

The fiscal year 2026 budget for the Department of Children and Families totals \$1.449 billion, a decrease of \$74.6 million or 4.9% under the fiscal 2025 adjusted appropriation of \$1.524 billion. The budget includes \$12.7 million in growth to continue and expand the Statewide Universal Newborn Home Nurse Visitation Program as well as \$2.6 million to further support the Domestic Violence Housing First program.

## 50. ECONOMIC PLANNING, DEVELOPMENT, AND SECURITY

### 55. SOCIAL SERVICES PROGRAMS

#### OBJECTIVES

- To administer programs and services that help all New Jersey families to be safe, healthy and connected.
- To ensure parent and youth voices are elevated, as co-designers of policy and practice, across the Department.
- To achieve permanency for children with their families using a family first philosophy of supporting and serving at-risk families as a unit, at home or in their community.
- To pursue and promote kinship placements first, for children who cannot safely reside with their parent or caregiver, and when in their best interests.
- To support and advance timely adoption of legally available children under Child Protection and Permanency's (CP&P) supervision by qualified kin or unrelated resource families.
- To ensure all young adults have a healthy, life-long connection to stable, caring adults and legal permanence, if desired.
- To sustain and support a case practice model that includes, but is not limited to, ensuring effective engagement of the family and its natural supports, partnering with families to plan together, and assessing family and child strengths and needs.
- To maintain or decrease statutorily required caseloads, allowing staff to conduct thorough and appropriate investigations, assessments and case management.
- To ensure a sufficient number of resource homes are available to provide a variety of community-based and family-like settings for children who may require out-of-home placement and for which kin are not available or appropriate.
- To sustain and support a model of coordinated health care for children in out-of-home placement. This model facilitates the children's access and connection to medical homes, timely and comprehensive health examinations, dental care, mental health assessments and, if appropriate, follow-up care to address their health needs.
- To successfully transition youth aging-out of care into adulthood by helping them to achieve economic self-sufficiency, interdependence and personal success.
- To serve children and youth with emotional, behavioral and substance use disorders, and/or intellectual or developmental disabilities, in family-centered, home and community-based environments.
- To improve outcomes for at-risk children and families by providing clinically appropriate critical mental health, substance use and intellectual/developmental disability services, such as 24/7 mobile crisis response, intensive

in-home treatment and behavioral support services, care management, out-of-home treatment and family support services.

14. To develop and utilize evidence-based clinical practices within the Children’s System of Care (CSOC) service delivery system.
15. To retain a high-quality Contracted Systems Administrator that functions as a single point of entry into CSOC and provides robust and comprehensive member service, utilization management, quality assurance, and seamless access to clinically appropriate services for youth and families.
16. To continue transforming the State’s child abuse prevention, family support, outreach and early intervention systems into an integrated network of community-based, family-centered and culturally-responsive services.
17. To demonstrate improved outcomes for children and families that have benefited from vital primary, secondary and tertiary prevention and family support services.
18. To strengthen families by providing grants and technical assistance to community groups and agencies, increasing their capacity to support and serve families, building on these families’ strengths to prevent family crises.
19. To collaborate with State departments such as Human Services, Health, Education, Corrections, Labor and Workforce Development and other State and local agencies, to leverage resources and deliver relevant services.
20. To empower girls and women across New Jersey through targeted, coordinated programs and services, and to provide planning for the development of opportunities and policies that advance women’s rights and equality.
21. To administer a statewide network of equitable and culturally specific agencies to prevent domestic violence and sexual assault, and to support survivors of both.
22. To operate 14 DCF schools that administer and deliver educational and parenting programs, case management and other services to eligible students referred by families, State agencies, school districts and the Department of Education.
23. To ensure staff receive relevant learning experiences that support cross department needs and align with the Department’s core approaches, values and transformational goals. This includes training that focuses heavily on CP&P case work, including new worker, supervisory and investigatory practice. The Department’s trainings are provided internally by staff and externally through partnerships with New Jersey’s colleges and universities as well as other non-profit agencies.

**PROGRAM CLASSIFICATIONS**

01. **Child Protection and Permanency.** CP&P investigates allegations of child abuse or neglect, responds to voluntary requests for family services and provides services to children and families involved with CP&P.

New Jersey continues to invest in and value the State Central Registry, the statewide child protection hotline that operates 24-hours a day, 7-days a week, taking calls from the public regarding concerns for child abuse and neglect. The hotline also receives calls about the well-being of families and requests for family social services.

Family Support Services provide wrap-around assistance to families and children in their own homes as well as to resource and adoptive families and children/youth in

out-of-home placement. About 90% of families served by CP&P receive services in their homes. These are provided to the children individually, to parents separately and/or to the family as a whole. Family support includes a wide variety of assistive services to preserve and strengthen families and communities or to help families in crisis. They work to reduce the need for more intensive interventions and to promote independence and self-sufficiency.

The Department of Children and Families’ (DCF) goal is to achieve safety and permanency for every child it serves. The majority of children in New Jersey who cannot remain safely in their homes can often find comfort with kin or familiar caregivers. DCF’s primary permanency goal is for families to be reunified; however, when that cannot be achieved safely, DCF facilitates permanency through kinship legal guardianship or adoptions.

Placement services is the umbrella term for the out-of-home arrangements available to children in CP&P custody. (Note: this section does not include placements for CP&P children with behavioral, intellectual or developmental disabilities who are served by CSOC.) Research consistently demonstrates that community and family-based placements produce better outcomes for most children. Family-based placements include kin and traditional resource families, and treatment homes. Residential treatment settings provide services for children with mental health, substance use, and intellectual and developmental disability needs based on medical necessity criteria. A small number of older youth live in independent situations. Children in crisis may be placed in temporary emergency settings while permanent homes are identified.

DCF is focused on facilitating the transition to adulthood for aging-out and adolescent youth by providing a comprehensive array of services and initiatives that support their personal growth and independence.

New Jersey has made substantial investments in caseworker staff to sustain reduced caseloads as a best practice and as required by New Jersey statute related to a federal class action lawsuit against the State’s child welfare system. Sufficient staffing is critical to CP&P’s ability to provide quality investigatory, protective and permanency services.

02. **Children’s System of Care.** CSOC enables any New Jersey family to access behavioral health care, substance use treatment, and intellectual and developmental disability services and supports for clinically eligible youth and their families.
03. **Family and Community Partnerships.** FCP services focus on primary prevention in key areas: early childhood services, family support services and school-linked services.

Child welfare requires a robust commitment to supporting family success and strengthening communities by creating conditions that prevent abuse and neglect and allow children to flourish. FCP funds primary and secondary child abuse prevention efforts across New Jersey, focusing resources on the unique needs of families before child maltreatment occurs. Essential programs supported by FCP include: (1) home visitation services for pregnant women and new mothers, ensuring families with the highest need can and do access programs and services that foster the parenting and coping skills necessary for successful parenthood; (2) strengthening families through early care and education; (3) family support initiatives such as community-based Family Success Centers and Kinship Navigator Services to keep children with families; to enhance local services for families in need and to divert lower-risk families from CP&P; and (4) school-linked services including New Jersey Statewide Student Support

# CHILDREN AND FAMILIES

Services (NJ4S) that connect schools, communities and students/caregivers through the provision of universal supports and brief clinical intervention with programming that can occur on school campuses or in other trusted community locations. In addition, the Teen Helpline, 2NDFLOOR, promotes healthy youth development by providing immediate interactive, empathetic and respectful services for adolescents with direct links to information and services that address the social and health needs of youth.

New Jersey Division on Women (DOW) was established in 1974 as a pioneering State agency for women’s advocacy throughout the state. DOW’s mission is to create, promote and expand the rights and opportunities for all women in the State of New Jersey. The Division supports the development, coordination and evaluation of programs and services for women and other constituents. DOW administers State and federal funding and oversees programming in the areas of domestic violence, sexual violence, prevention, economic self-sufficiency and financial empowerment, and policy and assessment. It also collaborates with public and private entities on laws, policy and program development. DOW prioritizes advancing efforts in historically marginalized communities, and in non-traditional communities such as its work to engage men and boys in learning healthy masculinity.

DCF is expanding the scope of OTPD’s training offerings to address the workforce’s cross department training needs.

OVERVIEW

**Mission and Goals**

The Department of Community Affairs’ (DCA) organizational purpose is perhaps the broadest of all the executive agencies. It functions in a variety of ways to help communities be safe, healthy and economically viable as well as attractive to residents and visitors alike. The DCA offers its resources to local officials, nonprofit community organizations, businesses and individuals. The DCA helps municipalities contend with the mandates of change that are critical to sustaining and improving the quality of life in the state. The DCA delivers administrative guidance, financial support, technical assistance and other services to address ongoing issues of public concern including fire and building safety, housing assistance, housing production, community planning and development, local government management and finance, and disaster recovery and mitigation. In addition, DCA is continuing to provide services in response to the COVID-19 pandemic.

The DCA is divided into five operating divisions and two offices designed to ensure safe, affordable housing and sustainable, environmentally conscious development to address the long-term needs of New Jersey’s residents and communities and to provide resources for local governments. The divisions within the DCA are: the Division of Codes and Standards, the Division of Fire Safety, the Division of Housing and Community Resources, the Division of Local Government Services, and the Division of Disaster Recovery and Mitigation. The Office of Local Planning Services and the Office of Information Privacy also contribute to the mission of the Department.

Organizationally, the DCA also includes the following in-but-not-of

affiliate agencies: the New Jersey Historic Trust and the Government Records Council. Other DCA affiliates include the New Jersey Housing and Mortgage Finance Agency, the New Jersey Redevelopment Authority and the Urban Enterprise Zone Authority. These authorities do not rely on any direct funding from the State Treasury to operate, administer or fund capital projects.

**Budget Highlights**

The fiscal year 2026 budget for the Department of Community Affairs totals \$976.7 million, a decrease of \$266.7 million or 21.5% under the fiscal 2025 adjusted appropriation of \$1.243 billion.

**Municipal Aid**

The fiscal 2026 budget provides over \$1.6 billion in municipal aid to New Jersey’s 564 municipalities, about \$802.2 million of which is budgeted in the DCA. In fiscal 2026, \$649.3 million is recommended for Consolidated Municipal Property Tax Relief Aid (CMPTRA), which will support municipal aid provided by the Energy Tax Receipts Property Tax Relief Aid appropriation of \$805.6 million in the Department of the Treasury. Combined, these two programs provide over \$1.4 billion to municipal governments.

This budget recommends \$161.9 million for the Transitional Aid to Localities program, \$40 million of which is supported by the Cannabis Regulatory, Enforcement Assistance, and Marketplace Modernization Fund. The DCA awards Transitional Aid through a competitive application process and requires recipient municipalities to submit to additional State fiscal oversight as well as implement cost controls and reforms that will reduce their reliance on this aid in the future.

Of the amount hereinabove appropriated for Transitional Aid to Localities and the amount appropriated from the Cannabis Regulatory, Enforcement Assistance, and Marketplace Modernization Fund for Transitional Aid to Localities, an amount may be allocated by the Director of the Division of Local Government Services to provide short-term financial assistance to a local government unit that is determined by the director to be experiencing financial distress caused by the destruction or loss of a major local business ratable. For purposes of this paragraph, a "major local business ratable" means one or more related parcels of property owned by a single business entity, classified as commercial or industrial, which comprised the largest assessed valuation of any one or more line items of taxable property in a municipality, or generated an annual PILOT payment in excess of 10% of the total municipal levy, or is otherwise determined by the director to be of such significance to a municipality that its destruction or loss has resulted in financial distress; provided, however, that notwithstanding the provisions of any law or regulation to the contrary, the Director of the Division of Local Government Services may direct that part of any such allocation be paid to an affected school district or county, or to both, in the same manner as if the award of Transitional Aid were raised as revenue from the municipal tax levy; and provided further that a local government unit determined to be experiencing financial distress because of the loss or destruction of a major local business ratable shall not be required to be subject to any additional conditions, requirements, orders, or other operational efficiency or oversight measures authorized pursuant to P.L.2011, c.144 (C.52:27D-118.42a), except as determined to be appropriate by the Director of the Division of Local Government Services.

The amount hereinabove appropriated for Transitional Aid to Localities and the amount appropriated from the Cannabis Regulatory, Enforcement Assistance, and Marketplace Modernization Fund for Transitional Aid to Localities is subject to the following condition: notwithstanding the provisions of R.S.43:21-14, or any other law or regulation to the contrary, the Commissioner of Labor and Workforce Development, in consultation with the Commissioner of Community Affairs, is authorized to enter into individualized payment plan agreements with municipalities that receive Transitional Aid for the reimbursement of unemployment benefits paid to former employees of such municipal government units, at reasonable interest rates based on current market conditions, and on such other terms and conditions as may be determined to be appropriate by the Commissioner of Labor and Workforce Development. Any municipality that enters into an individualized payment plan agreement pursuant to this section shall be required to expend all funds budgeted for this activity remaining as of the last day of its budget year for the repayment of outstanding obligations under the plan.

Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated for Transitional Aid to Localities and the amount appropriated from the Cannabis Regulatory, Enforcement Assistance, and Marketplace Modernization Fund for Transitional Aid to Localities shall be allocated to provide short-term financial assistance where needed to help a municipality that is in serious fiscal distress meet immediate budgetary needs and regain financial stability. A municipality shall be

deemed to be eligible for transitional aid if it is identified by the Director of the Division of Local Government Services as experiencing serious fiscal distress where the director determines that, despite local officials having implemented substantive cost reduction strategies, there continue to exist conditions of serious fiscal distress, which may include but shall not be limited to: substantial structural or accumulated deficits; ongoing reliance on non-recurring revenues; limited ability to raise supplemental non-property tax revenues; extraordinary demands for public safety appropriations; and other factors indicating a constrained ability to raise sufficient revenues to meet budgetary requirements that substantially jeopardizes the fiscal integrity of the municipality. Municipalities seeking transitional aid shall file an application on a form prescribed by the director, which application, among other things, shall set forth the minimum criteria that must be met in order for an application to be considered by the director for a determination of eligibility. The director shall determine whether a municipality which files an application meeting such minimum criteria is in serious fiscal distress, and, if so, what amount of transitional aid should be provided to address the municipality's serious fiscal distress. The transitional aid shall be provided to the municipality subject to the provisions of subsection a. of section 1 of P.L.2011, c.144 (C.52:27D-118.42a); provided, however, that an amount of Transitional Aid to Localities as determined by the Director of the Division of Local Government Services for a municipality may be deemed to constitute Consolidated Municipal Property Tax Relief Aid in an amount not in excess of the amount of Transitional Aid to Localities such municipality received in the previous fiscal year and shall not reduce the amount of Consolidated Municipal Property Tax Relief Aid such municipality shall receive for the current fiscal year. Provided, however, if the Director of the Division of Local Government Services deems an amount of Transitional Aid to Localities for a municipality as constituting Consolidated Municipal Property Tax Relief Aid pursuant to this provision, that municipality is not relieved from compliance with the requirements for transitional aid.

Notwithstanding the provisions of subsection d. of section 29 of P.L.1999, c.152 (C.13:8C-29) or subsection d. of section 30 of P.L.1999, c.152 (C.13:8C-30), or any law or regulation to the contrary, all payments to municipalities in lieu of taxes for lands acquired by the State and non-profit organizations for recreation and conservation purposes shall be retained by the municipality and not apportioned in the same manner as the general tax rate of the municipality.

Notwithstanding the provisions of any law or regulation to the contrary, payments to municipalities in lieu of taxes for lands acquired by the State and non-profit organizations for recreation and conservation purposes shall be provided only to the municipalities whose payments received in fiscal year 2010 exceeded \$5,000 and shall be provided at the payment amount provided in fiscal year 2025, subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of any law or regulation to the contrary, any qualifying municipality, as defined in section 1 of P.L.1978, c.14 (C.52:27D-178) for the previous fiscal year, shall continue to be a qualifying municipality thereunder during the current fiscal year.

Notwithstanding the provisions of any law or regulation to the contrary, whenever funds appropriated as State Aid and payable to any municipality, which municipality requests and receives the approval of the Local Finance Board, such funds may be pledged as a guarantee for payment of principal and interest on any bond anticipation notes issued pursuant to section 11 of P.L.2003, c.15 (C.40A:2-8.1) and any tax anticipation notes issued pursuant to N.J.S.40A:4-64 by such municipality. Such funds, if so pledged, shall be made available by the State Treasurer upon receipt of a written notification by the Director of the Division of Local Government Services that the municipality does not have sufficient funds available for prompt payment of principal and interest on such notes, and shall be paid by the State Treasurer directly to the holders of such notes at such time and in such amounts as specified by the director, notwithstanding that payment of such funds does not coincide with any date for payment otherwise fixed by law.

The State Treasurer, in consultation with the Commissioner of Community Affairs, is empowered to direct the Director of the Division of Budget and Accounting to transfer appropriations from any State department to any other State department as may be necessary to provide a loan for a term not to exceed 180 days to a local government unit faced with a fiscal crisis, including but not limited to a potential default on tax anticipation notes and on such other terms and conditions as may be required by the commissioner.

Notwithstanding the provisions of N.J.S.40A:4-39 or any other law or regulation to the contrary, a county that assumes responsibility for the provision of local police services in one or more municipalities utilizing a new or expanded county police force may display the anticipated revenues and appropriations associated with such county police force in its annual budget by annexing to that budget a statement describing the sources and amounts of anticipated dedicated revenues and appropriating those dedicated amounts for the purposes of the county police force.

## OVERVIEW

**Mission and Goals**

The New Jersey Department of Corrections' (DOC) mission is to advance public safety and promote successful reintegration in a dignified, safe, secure, gender-informed, and rehabilitative environment supported by a professional, trained and diverse workforce enhanced by community engagement. The mission is realized through ensuring the safety and security of staff and incarcerated persons, providing the highest quality rehabilitative and reintegration programs, guided by gender-informed care and trauma services with the support of community partners.

The DOC consists of eight Divisions: Operations; Programs & Reintegration Services; Women's Services; Diversity and Legal Affairs; Special Investigations; Human Resources and Labor Relations; Administration; and Training, Recruitment and Professional Development. The Department operates nine institutions: seven facilities providing custody for adult men, one for women and one for young adult males that also serves as the intake facility for all males, with a total population of approximately 14,000 incarcerated persons.

Bayside State Prison, East Jersey State Prison, Northern State Prison, New Jersey State Prison and South Woods State Prison house male incarcerated persons at various custody levels. The Edna Mahan Correctional Facility, New Jersey's only correctional institution for women, houses incarcerated persons at all security levels and offers licensed substance use disorder treatment services. The Mid-State Correctional Facility is dedicated for the treatment of male incarcerated persons with substance use disorders. The substance use disorder treatment program is licensed by the Division of Mental Health and Addiction Services within the Department of Human Services. The Adult Diagnostic and Treatment Center operates a rehabilitative program for habitual sex offenders. Additionally, the DOC is responsible for housing civilly committed sex offenders with treatment provided by the Department of Health.

The Division of Operations is responsible for the security, management and operations of all State prisons and correctional facilities. This Division also oversees the Special Operations Group and the Healthcare Compliance Unit. The Division of Programs & Reintegration Services provides institutional program opportunities for incarcerated persons, including academic and vocational educational programs (Office of Educational Services) and transitional services (Office of Programming and Supportive Services). This Division includes the Office of Community Programs which contracts with private, nonprofit providers throughout the state to provide community-based residential treatment programs for offenders under community supervision. The Office of Community Engagement and Reintegration Initiatives is responsible for administering the Locally Empowered Accountable and Determined (NJLEAD) program, Providing Access to Community Employment initiatives, Volunteer Services, and the Office of Victim Services.

The Division of Women's Services acts as a liaison to the State's incarcerated female population and is responsible for the compliance with provisions of the Department of Justice settlement agreement and management of the Prison Rape Elimination Act (PREA) Compliance Unit. The Division of Diversity and Legal Affairs oversees the Incarcerated Person and Employment Litigation Unit, the Americans with Disabilities Act Unit, the Open Public Records Act Unit and the Incarcerated Person Discipline Hearings Unit. The Division also works to expand the Department's diversity and inclusion initiatives and serves as a liaison between DOC and the New Jersey Office of the Attorney General.

The Special Investigations Division is responsible for investigations into violations of State law and DOC's administrative code by

incarcerated persons, employees and those individuals who visit DOC facilities. The Division of Training, Recruitment and Professional Development is responsible for the Correctional Staff Training Academy and ensuring all staff meet mandated training requirements.

The Division of Human Resources and Labor Relations is responsible for employing almost 6,000 staff and ensures that employees receive their salaries, benefits and human resources services in accordance with State and federal laws and regulations. The Division of Administration is responsible for managing a budget of approximately \$1.107 billion and oversees the Office of Financial Management, Office of Information Technology and DEPTCOR State Use Industries. Also, within the DOC is the Office of External Affairs, Office of Compliance and Strategic Planning, Office of Policy and Planning, Office of Employee Relations and Equal Employment Division.

The Department is also responsible for the inspection of all county correctional and municipal detention facilities, operation of specialized treatment units, and regulation of residential community reintegration programs.

**Budget Highlights**

The fiscal year 2026 budget for the Department of Corrections totals \$1.107 billion, a decrease of \$14 million or 1.2% under the fiscal 2025 adjusted appropriation of \$1.121 billion.

The fiscal 2026 budget recommendation for State prison facilities totals \$902.4 million, an increase of \$26.4 million or 3% above the fiscal 2025 adjusted appropriation of \$876 million. The growth is mostly attributable to operating costs that were supported with one-time federal resources in fiscal 2025. This growth is netted with reductions in fuel and utility costs throughout several facilities and the savings associated with the depopulation of East Jersey State Prison (EJSP) in fiscal 2026. Note, the EJSP closure assumes the adoption of Technical Parole Violation reform which is projected to reduce the incarcerated population and allow for the relocation of the remaining incarcerated persons and staff to other State correctional facilities.

The fiscal 2026 budget recommendation for System-wide Program Support totals \$182.3 million, a decrease of \$39.7 million or 17.9% below the fiscal 2025 adjusted appropriation of \$222 million. The decrease is primarily associated with the shift of the Purchase of Community Services program to the Cannabis Regulatory, Enforcement Assistance, and Marketplace Modernization Fund. Other savings include the elimination of one-time costs included in fiscal 2025 and reductions in State Aid programs that support incarcerated populations at the county level. These reductions are netted with growth for operating costs that were supported with one-time federal resources in fiscal 2025.

The fiscal 2026 budget recommendation for Central Planning, Direction and Management totals \$22.5 million, a decrease of \$750,000 or 3.2% below the fiscal 2025 adjusted appropriation of \$23.2 million. The decrease is the result of the elimination of one-time costs for the replacement of a departmental bus included in fiscal 2025.

**State Parole Board**

The State Parole Board administers parole decisions for incarcerated persons in all State prisons, youth correctional facilities and county correctional facilities. The State Parole Board's mission is to promote the effective and efficient assessment of incarcerated persons prior to parole, and to promote public safety and foster rehabilitation of persons under the supervision of the Division of Parole by implementing policies that result in effective case management and sustainable reintegration. The Division of Parole is responsible for

# CORRECTIONS

monitoring the compliance of persons under supervision with the conditions of supervision imposed by the State Parole Board.

The fiscal 2026 budget recommendation for the State Parole Board totals \$112.6 million, a decrease of \$2.7 million or 2.4% below the fiscal 2025 adjusted appropriation of \$115.3 million. The decrease reflects expected operational efficiencies and the elimination of a one-time appropriation in fiscal 2025 for a consultant to review the State Parole Board's technical parole violation policies. These

decreases are netted with growth to support temporary staff to assist with the recent clemency reforms.

Funding supports various alternative programs to incarceration including the Re-Entry Substance Abuse Program, the Stages to Enhance Parolee Success Program, and the Community Resource Center Program. Funding also supports sex offender management units and the Global Positioning System Monitoring Program.

**Notes:**

Actual payroll counts are reported for fiscal years 2023 and 2024 as of December and revised fiscal 2025 as of January. The budget estimate for fiscal 2026 reflects the number of positions funded. Position ratios and per capita costs do not include the Civilly Committed Sexual Offender Program.

Daily per capita rate calculations are based on 366 days for fiscal 2024 and 365 days for the other fiscal years.

Operational Capacity is the number of incarcerated persons that can be accommodated based on a facility's available beds, budgeted staff, programs and services. It does not include beds temporarily closed.

(a) East Jersey State Prison will be depopulated during fiscal 2026 pending statutory reforms for technical parole violations. The remaining incarcerated persons and staff will be relocated to other State correctional facilities.

(b) Participants are calculated by using the official academic census day in order to be consistent with the Department of Education's census calculations and to avoid pupil count duplication.

**OBJECTIVES**

1. To promulgate administrative rules and regulations governing the parole system.
2. To determine when adult incarcerated persons of State and county correctional facilities are eligible for parole release and to conduct parole hearings to grant parole to those eligible where it appears consistent with the safety of the community and the successful reintegration of the individual therein.
3. To receive and evaluate the input of victims of crimes and provide pre-parole information to prosecutors.
4. To carry out programs of conditional release from custody that assist institutionalized offenders in reintegrating into the community and prevent their further involvement in the formal institutionalized correctional process.
5. To consider the imposition of parole and special conditions, as well as discharges from parole supervision.
6. To provide supervision of parolees by making available the necessary assistance, guidance and controls required for community living.
7. To provide residential/community service and treatment programs for reintegrating institutionalized offenders into the community.
8. To issue parole warrants, subpoenas and certificates of good conduct and rehabilitation when necessary.
9. To provide a legal due process hearing when parole revocation or parole rescission is considered.
10. To process executive clemency petitions for the Governor.

**PROGRAM CLASSIFICATIONS**

03. **Parole.** This program provides supervision and investigates parole plans for all adult parolees from State and county institutions and those entering New Jersey from other states. It manages several unique community programs designed to support the re-entry and effective supervision of parolees and

promotes pro-social behavior for those re-entering our communities. Treatment is obtained and the progress of parolees and offenders is monitored through the general and specialized caseload officers.

05. **State Parole Board.** The Parole Board, pursuant to statutory provisions, establishes and monitors parole eligibility for adult incarcerated persons of State and county facilities. The Board also monitors cases, conducts parole hearings, approves community parole plans for the parolee, receives and evaluates the input of victims of crime, complies with court ordered procedures for parole revocation or parole rescission hearings, approves discharge from parole earlier than maximum sentences, processes executive clemency petitions, provides pre-parole information to prosecutors and conducts furlough investigations as a courtesy to the Department of Corrections. It exercises a quasi-judicial decision-making function to determine when and under what conditions incarcerated persons are released on parole. In addition, the Board hears parole revocation cases to consider alleged parole violations. Further, one Parole Board member serves on a committee convened by the Juvenile Justice Commission to conduct parole hearings for individuals under the supervision of the Commission.

99. **Administration and Support Services.** The Chairman and supporting staff are responsible for conducting all agency programs by developing and maintaining an efficient administration of programs, operations and services by identifying, defining and delegating authority where appropriate; by interpreting and enforcing statutes and administrative regulations of the agency, the Civil Service Commission and the Department of the Treasury; by seeking and providing opportunities for interested agencies, individuals and groups to receive information so as to enhance public interest, awareness and participation in the parole process; and by increasing efficiency and effectiveness by providing leadership and overall supervision of parole and community programs.

PROGRAM CLASSIFICATIONS

Note: In fiscal year 2026, certain school aid calculations described below are modified or authorized by the provisions of budgetary language.

01. **General Formula Aid.** The School Funding Reform Act (SFRA) of 2008 established the basis for the aid that ensures the provision of a thorough and efficient (T&E) system of education.
  - a. Equalization Aid - Aid is provided to a district whose adequacy budget exceeds the local fair share. The measure of fiscal capacity is determined by applying statewide multipliers to the equalized value of property and personal income in the district. The local fair share represents the local resources a district would have to appropriate in order to spend at the level of its adequacy budget. A district may spend above its adequacy budget level under a variety of circumstances, but its Equalization Aid would not increase. A district may appropriate less than its fair share without its Equalization Aid

being reduced. However, all districts are required to appropriate a minimum local levy.

b. Adjustment Aid - P.L.2018, c.67 amended the SFRA such that Adjustment Aid will no longer be recalculated for school districts (N.J.S.A.18A:7F-68 d and e).

c. Preschool Education Aid - Aid is provided to districts that are currently implementing preschool education programs that are consistent with standards established by the Commissioner or to districts that, based on preschool readiness standards, are ready to expand or start preschool programs as well as to address workforce preparation and training and other needs related to preschool expansion.

d. School Choice Aid - Aid is provided as the local fair share per pupil amount for each choice student in an approved School Choice district. For the purposes of calculating other forms of State aid, other than Transportation Aid, choice students are included in the School Choice district's resident enrollment.

e. Security Aid - Aid is provided as a base amount for every student plus an additional allocation that varies based on the district's concentration of at-risk designated students.

f. Vocational Expansion Stabilization Aid - County Vocational school districts will receive this aid in an amount necessary to ensure the district does not receive less than the aid amount it received in the 2017-2018 school year.

g. Military Impact Aid - School districts that received federal Impact Aid pursuant to 20 U.S.C. 7703 may be eligible to receive military impact aid for resident students whose parents are on active duty in the uniformed services. A district would receive additional aid if its tax levy per pupil in the prior school year exceeded its federal impact aid per pupil.

**02. Nonpublic School Aid.** Various types of assistance are available to Boards of Education in public school districts in New Jersey to reimburse such districts for expenses they are required to incur on behalf of students who are enrolled in grades K-12 in a nonpublic school within the district, which complies with compulsory school attendance requirements and with the requirements of Title VI of the Civil Rights Act of 1964. The following aid programs are included:

a. Nonpublic Textbook Aid - Supports the purchase and lending of textbooks upon individual request (N.J.S.A. 18A:58-37.1 et seq.). State aid is paid in an amount equal to the state average budgeted textbook expense per public school pupil for the prebudget year for all students enrolled in grades K-12 in a nonpublic school on the last school day prior to October 16 of the prebudget year.

b. Nonpublic Auxiliary Services Aid - Aid for compensatory education, English as a second language and home instruction (N.J.S.A.18A:46A-1 et seq.) is provided upon consent of the parent or guardian. State aid is paid for providing services to nonpublic pupils equivalent to the services provided to pupils enrolled in the public schools.

c. Nonpublic Handicapped Aid - Provides identification, examination, classification, supplemental and speech correction services (N.J.S.A.18A:46-19.1 et seq.) for each student who is enrolled full-time. State aid is paid to each school district in an amount sufficient to provide examination, classification, supplemental and speech correction services to nonpublic pupils.

d. Nonpublic Auxiliary/Handicapped Transportation Aid - Provides for transporting nonpublic pupils to public schools or neutral sites, for auxiliary/handicapped services that cannot be provided constitutionally in sectarian schools.

e. Nonpublic Nursing Services Aid - Provides funds for Boards of Education to provide nursing services for nonpublic school pupils who are enrolled full-time in nonpublic schools within the school district (N.J.S.A.18A:40-25).

f. Nonpublic Technology Initiative - Provides funds for Boards of Education to provide technology to nonpublic school students. The goal of the nonpublic technology initiative program is to provide nonpublic school pupils with computers, educational software, distance learning equipment and other technologies that can improve their education by meeting their specific educational needs and to give nonpublic school teachers the skills, resources and incentives to use educational technologies effectively to improve teaching and learning in the classroom.

g. Nonpublic Security Aid - Provides funds for Boards of Education to provide security services, equipment, or technology to ensure a safe and secure school environment for nonpublic school pupils who are enrolled full-time in nonpublic schools within the school district (N.J.S.A.18A:58-37.8 et seq.).

**03. Miscellaneous Grants-In-Aid.** The following programs are included:

a. Charter School Aid - Provides direct State aid to charter schools for first-year charter school students who attended nonpublic schools prior to enrolling in the charter school. Charter School Aid is also provided to ensure that charter schools with enrollments greater than 2007-2008 receive no less aid than the amount they received in 2007-2008, on either a total or per pupil basis. Districts with declining enrollments will receive no less than they received in 2007-2008, on a per pupil basis. In addition, Charter School Aid is provided to ensure that charter schools receive aid equal to 95% of their 2024-2025 totals on a per pupil basis.

b. Payments for Institutionalized Children-Unknown District of Residence - Provides for the payment of State aid for educational services to students in grades K-12 who are homeless or a resident in an institution of the Department of Corrections, the Department of Human Services, the Department of Children and Families or the Juvenile Justice Commission, and for whom a local school district of residence has not been identified.

**07. Special Education.** The School Funding Reform Act of 2008 supports the additional costs incurred by districts in providing individualized educational programs to students with disabilities in public and private school settings. The Act funds two-thirds of the special education cost through the Equalization Aid formula and one-third through Special Education Categorical Aid. Additional support is provided for high-cost students through Extraordinary Special Education Costs Aid.

**36. Student Transportation.** Monitors, analyzes and evaluates local districts' transportation systems and records in order to increase the safety, cost-effectiveness and accountability of transportation operations. Develops safety education programs and provides technical assistance to local Boards of Education to promote safety and to efficiently administer transportation services. The Department trains county and local district personnel to administer transportation services according to statute and code. Transportation Aid is provided to local school districts for students who are required to be transported according to N.J.S.A.18A:39-1 et seq. and N.J.S.A.18A:46-23 as amended, based on the efficient costs of transporting pupils. The costs are based on per pupil allocations for students with and without special transporta-

tion needs and adjusted for the average distance pupils reside from school and an efficiency incentive factor.

38. **Facilities Planning and School Building Aid.** Approves architectural review, master plans and site acquisitions; evaluates facilities for educational adequacy, health and safety; and periodically surveys public school buildings. Reviews and approves long-range facilities plans, as well as applications for school facilities projects. Project review includes the determination of consistency with the district's long-range plan and compliance with facilities efficiency standards and area allowances per FTE student derived from those standards. Based on that review, the preliminary eligible costs for State financing are calculated. School Building Aid provides State support for debt service on projects approved prior to the enactment of the Educational Facilities

Construction and Financing Act of 2000 (EFCFA). The School Construction and Renovation Fund provides for State debt service for school construction projects approved under the provisions of EFCFA. School Construction Debt Service Aid provides aid for local debt for EFCFA projects.

42. **School Finance.** Responsible for the calculation and distribution of Education State aid in accordance with the applicable statutes; provides leadership in the development of uniform school district accounting and administrative practices; provides support for research and consulting services for start-up requirements needed for reorganization under N.J.S.A.18A:7A-1 et seq., including an analysis of school business practices, dissemination of modern budgeting materials and further design of reporting requirements.

- Notwithstanding the provisions of any law or regulation to the contrary, in the event that an "SDA district" sells district surplus property, the proceeds from such sale shall be applied as follows, subject to the approval of the Director of the Division of Budget and Accounting: the Commissioner of Education, in his discretion, may direct that the proceeds be used by the SDA district upon a showing of financial need for a capital maintenance project or for a school facilities project if such project is consistent with the district's Long-Range Facilities Plan (LRFP) and the project cost does not exceed \$500,000. If the project cost exceeds \$500,000, the

commissioner may direct all or a portion of the proceeds to the New Jersey Schools Development Authority (SDA) for use in projects identified in that district's LRFP. In the case of capital maintenance projects, the SDA may forward the specified aid amount directly to the district for completion of the projects. If the commissioner is not satisfied that there is a sufficient showing of financial need for a capital maintenance project or for a school facilities project or if the commissioner is not satisfied that the proposed project is consistent with the district's LRFP, the proceeds shall be returned to the SDA for use by the SDA for school facilities projects in that SDA district which are consistent with the SDA district's LRFP. For the purposes of this provision, "surplus property" means property which is not being replaced by other property under a grant agreement with the SDA.

The amount hereinabove appropriated for Supplemental Wraparound Program shall be provided as State aid to "SDA districts" to reduce family cost-sharing for before-school, after-school, and summer wraparound child care.

Notwithstanding the provisions of section 1 of P.L.2021, c.283 (C.18A:7F-71) or any other rule, law, or regulation to the contrary, eligibility for, and the calculation of, Military Impact Aid shall be based on the amount of the Basic Support Payment of federal Impact Aid under section 7003 of the federal Elementary and Secondary Education Act of 1965 (20 U.S.C. s.7703) that a school district received in the budget year preceding the prebudget year.

Notwithstanding the provisions of any law or regulation to the contrary, "non-SDA" districts that received their State support for approved project costs through the New Jersey Schools Development Authority (SDA) shall be assessed an amount equal to the 2013-2014 assessment. District allocations shall be withheld from 2025-2026 formula aid payments and the assessment cannot exceed the total of those payments.

Notwithstanding the provisions of any law or regulation to the contrary, the preschool per pupil aid amounts set forth in subsection d. of section 12 of P.L.2007, c.260 (C.18A:7F-54) shall be adjusted by the geographic cost adjustment developed by the Commissioner of Education pursuant to P.L.2007, c.260 (C.18A:7F-43 et al.).

A school district that receives Preschool Education Aid for the first time in the 2025-2026 school year shall demonstrate, in its application, due diligence in establishing partnerships to provide its preschool program through a mixed-delivery system in all licensed child care providers and Head Start programs in its community or neighboring communities that are willing and able to meet all preschool program requirements. A school district that has unspent Preschool Education Aid funds from prior school years may use those funds to support transportation costs for resident students enrolled in the preschool program. The amount of Preschool Education Aid used for transportation purposes shall not exceed the total cost of providing transportation services to preschool students minus the amount of Transportation Aid attributable to preschool students, as calculated pursuant to section 15 of P.L.2007, c.260 (C.18A:7F-57).

Notwithstanding the provisions of any law or regulation to the contrary, of the amounts hereinabove appropriated for Preschool Education Aid, an amount not to exceed \$10,000,000 shall be allocated in amounts determined by the Commissioner of Education: (1) for the provision of preschool expansion grants to be allocated by the commissioner to districts in total additional preschool funding for the purpose of expanding free access to full-day preschool for resident three- and four-year old children in accordance with the preschool quality standards issued by the commissioner and based on a district's demonstration of its readiness to operate a preschool program consistent with those standards and; (2) to the Department to address workforce preparation and training and other ancillary needs related to preschool expansion. In allocating grant funds to school districts, the commissioner shall give preference to districts that demonstrate in their preschool expansion grant applications a planned preschool program that includes a mixed-delivery model of preschool education. A district applying for a grant that does not have a planned mixed-delivery model of preschool education shall demonstrate in its application due diligence to partner with all ready, willing, and able licensed child care providers and Head Start programs in their communities and neighboring communities. Notwithstanding any law, rule, or regulation to the contrary, a district receiving a grant may enter into contracts with licensed child care providers for the provision of preschool education services, which shall be stated in the Notice of Funding Opportunity for preschool expansion grants posted by the department.

The Department of Education, the Department of Children and Families, and the Department of Human Services shall maintain the following lists on the departments' Internet websites: current districts with State-funded preschool; districts eligible to apply for Preschool Education Aid and licensed child care providers and Head Start programs in each eligible district's community and in neighboring communities, including contact information for the providers and programs. The Department of Education, the Department of Children and Families, and the Department of Human Services shall update such lists each year by April 1st.

Notwithstanding the provisions of any law or regulation to the contrary, a district's 2025-2026 allocation of the amounts hereinabove appropriated for School Choice Aid shall be 90 percent of the amount calculated pursuant to the provisions of P.L.2007, c.260 (C.18A:7F-43 et al.); provided, however, in the event that School Choice enrollment reflected on the October 2024 Application for State School Aid is less than projected School Choice enrollment reflected on the 2024-2025 State Aid notice, such district's 2025-2026 School Choice Aid allocation shall be adjusted to reflect actual prebudget year enrollment as of October 2024, as set forth in the February 2025 State Aid notice issued by the Commissioner of Education. A district's 2025-2026 School Choice enrollment shall not exceed the district's maximum funded choice student enrollment as determined by the commissioner.

Notwithstanding the provisions of any law or regulation to the contrary, following notification to the Joint Budget Oversight Committee, there are appropriated to the Emergency Fund account such additional amounts as may be required to fund approved applications for emergency aid following district needs assessments conducted by the Department of Education, subject to the approval of the Director of the Division of Budget and Accounting. Provided, further, that the Commissioner of Education shall determine the repayment terms, if any, that will be assessed and may appoint a State monitor to a school district that receives an allocation from the Emergency Fund, who shall have the same powers and duties of a State monitor appointed pursuant to section 2 of P.L.2006, c.15 (C.18A:7A-55).

**30. EDUCATIONAL, CULTURAL, AND INTELLECTUAL DEVELOPMENT  
33. SUPPLEMENTAL EDUCATION AND TRAINING PROGRAMS**

**OBJECTIVES**

1. To provide quality educational programs that further develop the academic and technical skills of career and technical education students through high standards.
2. To provide quality programs to New Jersey students to assist them in clarifying career goals, exploring career possibilities, experiencing career applications of academic knowledge and skills, developing employability skills and obtaining other skills necessary to function in a technological society.
3. To facilitate the planning, implementation and expansion of transition programs, activities or services for career and technical education students to support linkages between secondary and postsecondary career and technical programs, including two-year and four-year collegiate programs.
4. To provide students strong experience in and understanding of all aspects of an industry, including the academic, technical and technological requirements for career development and lifelong learning.
5. To provide professional development and technical assistance to career and technical education educators.

**PROGRAM CLASSIFICATIONS**

20. **Career Readiness and Technical Education.** To assist the State in attaining the objectives stated above in providing individuals with the knowledge and skills to keep the U.S. competitive, the federal government provides funds to conduct State career and technical education administrative activities. To be eligible for these funds under the Strengthening Career and Technical Education for the 21st Century (Perkins V) Act, the State must match the administrative funds of this federal grant award on a dollar for dollar basis (P.L. 115-224).

In order for the State to qualify to receive federal grant money under the Strengthening Career and Technical Education for the 21st Century Act, New Jersey is required to provide a maintenance of effort equal to, or greater than, the amount of effort in the prior fiscal year. Failure to provide such maintenance of effort will reduce the amount of a State's allocation of funds in exact proportion by which the State has failed to meet the maintenance of effort requirement.

These combined funds allow the State to maintain, in cooperation with business, industry and labor, quality career and technical education programs, by providing consultation,

technical assistance and regulatory services to public and private educational agencies.

The Department also develops new and innovative career and technical education programs; supports career and technical education grant initiatives; provides in-service training for career and technical education teachers; conducts program evaluations; provides administrative services for the Office of Career Readiness Programs; maintains liaison with agencies and personnel on the local, State and federal levels; and develops the annual revisions of the State Plan for Career and

Technical Education. These activities maximize educational opportunities and minimize costly duplication of effort.

Vocational Education - Aid (N.J.S.A.18A:58-34 et seq.) is paid on the following criteria: (a) the State may grant up to 100% of approved expenditures for new and innovative projects, and (b) expenditures for the improvement of career and technical education programs conducted under Public Law 115-224, subject to federal mandates requiring that special populations be given full opportunity to participate in career and technical education programs.

# ENVIRONMENTAL PROTECTION

## OVERVIEW

### Mission and Goals

As a national leader in environmental protection, the New Jersey Department of Environmental Protection (DEP) uses the best available science to protect public health, support the state's diverse natural resources, and create vibrant and sustainable communities that provide economic opportunity.

The DEP has seven major divisions: Air, Energy, and Materials Sustainability; Community Investment and Economic Revitalization; Fish and Wildlife; Watershed and Land Management; State Parks, Forests and Historic Sites; Contaminated Site Remediation and Redevelopment; and Water Resources Management. The DEP also includes three in-but-not-of agencies that receive State appropriations: the Palisades Interstate Park Commission, the Highlands Water Protection and Planning Council, and the Pinelands Commission.

The DEP has five priorities: reduce and respond to climate change, protect New Jersey's water, revitalize our communities and protect public health, manage and promote thriving natural and historic resources, and strengthen the DEP.

It operates on five principles for achieving its mission and priorities: follow the law, use the best available science, listen to all sides, find the best balance, and be transparent and honest with the public.

The DEP was founded on the first Earth Day in 1970, making New Jersey the third state to consolidate its various environmental protection and conservation agencies into a unified agency.

### Budget Highlights

The fiscal year 2026 budget for the DEP, excluding Debt Service, totals \$485.2 million, a decrease of \$305.4 million or 38.6% under the fiscal 2025 adjusted appropriation of \$790.6 million.

## 40. COMMUNITY DEVELOPMENT AND ENVIRONMENTAL MANAGEMENT

### 42. NATURAL RESOURCE MANAGEMENT

#### OBJECTIVES

1. To provide recreational, historic, natural and interpretive facilities.
2. To develop recreational lands and facilities, located in balance with population distribution.
3. To regulate the recreational use of public lands and minimize natural resource damage.
4. To provide navigational aids and other services to the boating public.
5. To provide the financial assistance and engineering technology that minimizes potential loss of life and property damage due to flooding.
6. To manage and protect the state's forest resources. To minimize forest damage from wildfire, insects and disease and to enhance the public's understanding of sustainable forest resource management.
7. To manage fish, shellfish, wildlife and water resources of the state for long-term biological, economic and recreational viability while maintaining public health and safety.
8. To provide for the development of shore protection projects, and to minimize public and private property and infrastructure damage resulting from coastal storms and sea level rise.
9. To protect public safety and the environment by relocating residents whose homes are subject to repeated flooding and acquiring property for use as natural flood storage, parks and community open space.
10. To preserve open space and support development of parks.
11. To provide technical assistance and implement statutory provisions that prevent, minimize or mitigate damage to historic resources.
12. To provide a system of highways, parkway roads and bridges for the Palisades Interstate Park to facilitate travel through and within the park and ensure safe and efficient movement of traffic.
13. To plan and manage for inclusivity, equity and accessibility in existing and future programs, facilities and opportunities.

#### PROGRAM CLASSIFICATIONS

11. **Forest Resource Management.** The New Jersey Forest Service works with public and private landowners to maintain and establish healthy forests statewide. Despite being the most densely populated state, forests cover 40% of New Jersey; 48% of all New Jersey forested land is privately owned. The state's forests contribute tangible and intangible benefits to New Jersey, including cleaner air and water, reduction of atmospheric carbon dioxide, recreation and the opportunity to enjoy the beauty of New Jersey's natural environment. The State Forest Fire Service prevents and suppresses wildfires to protect both the forest resources as well as residents living near the forest. Both New Jersey Forest Services provide technical support and educational materials to municipalities, landowners and homeowners through private, non-industrial lands stewardship, insect and disease control, and urban and community forestry resource programs. They also provide educational programs. Additionally, the New Jersey Forest Service grows seedlings for reforestation and identifies and protects threatened and endangered plants and habitats.

12. **Parks Management.** Oversees, operates, maintains and provides stewardship for 40 individual State parks, 11 forests and 5 recreation areas, totaling nearly 454,000 acres; 6 marinas, 3 of which are operated under lease agreements with private firms; 4 public golf courses, operated under management agreements with private firms; and more than 50 State historic sites and districts, some of which are located within the State Park areas, which are staffed for public interpretive programs and other recreational, natural and interpretive facilities in a clean, safe, inclusive and equitable manner; staffs facilities with maintenance, administrative, park police and seasonal personnel to provide assistance, information, education and interpretive and protective services to the public; manages properties to ensure the preservation of natural and historic resources while maintaining high quality recreational opportunities; plans for the development and improvement of new facilities and reviews and approves all new construction; provides literature regarding recreational facilities and natural area and historic preservation; and operates and maintains State marinas in a clean, safe and non-discriminatory manner for all boat owners and visitors. Administers the Green Acres/Open Space preservation program and the Blue Acres flood-prone property acquisition program.

13. **Hunters' and Anglers' License Fund.** Manages the wildlife resources of the state through programs of research, regulation, habitat development, land acquisition, law enforcement and public education. Trout and other species of fish are reared at State hatcheries; fish and pheasants are released throughout the state; public lands are acquired and maintained for use as wildlife management areas. Regulations regarding hunting and fishing seasons and fish and wildlife possession are developed, and licenses, stamps and permits are sold to provide a source of revenue to manage the state's wildlife resources. Farmers and residents are assisted with wildlife damage control issues through direct response to matters of public safety or by issuing special permits to allow citizens to mitigate damage.

14. **Shellfish and Marine Fisheries Management.** Manages the marine shellfish and finfish resources of the state through research, monitoring, habitat protection, licensing, regulatory programs and law enforcement. Clam and oyster grounds are leased to commercial shellfishermen for aquaculture activities. Protects the health, safety and welfare of the public from the risks associated with the consumption of shellfish by classifying shellfish growing waters and establishing requirements for shellfish license holders for the harvest, handling and transport of shellfish. Manages a permit program for the harvest of shellfish from waters classified other than approved, for shellfish research, for shellfish restoration and enhancement, for toxins monitoring in shellfish, and for shellfish aquaculture. Marine fisheries programs support the effective management of numerous migratory species on a coastwide basis. An artificial reef program constructs fisheries habitats in ocean areas to enhance productivity, thus providing additional fishing and diving opportunities.

20. **Wildlife Management.** Conducts wildlife research and monitors wildlife populations of the state's non-game and endangered wildlife species. Plans and executes programs to restore and recover imperiled wildlife species of greatest conservation need. Conducts sewer service area planning and Category One designations to protect threatened and

# ENVIRONMENTAL PROTECTION

endangered species habitats. Provides technical and financial assistance to address human-wildlife conflict situations. Additional responsibilities include permit review for wildlife possession, bird banding, scientific collection and public information.

21. **Natural Resources Engineering.** Provides financial and technical assistance and coordination to local governments for the construction of shore protection, resilience and flood engineering projects including sea walls and beach replenishment. Performs dam safety inspections and dam construction and reconstruction permit reviews. Manages the dam safety and dam loan program to achieve compliance with safe dam regulations. Provides financial and technical assistance to the U.S. Army Corps of Engineers for shore protection and flood control projects, including beachfill, flood walls, and property buy-outs. Operates and maintains the Bayshore, Pompton Lake Dam, Port Monmouth and Union Beach floodgates. Marks 200 miles of navigation channels in tidal inland waterways and large State-controlled lakes for boating safety.
24. **Palisades Interstate Park Commission.** Operates and

maintains existing parks and historic sites in a clean, safe and non-discriminatory manner for all visitors; plans for the improvement and development of new facilities; maintains highways, bridges, landscaped areas, signs and traffic lines to ensure the safety of the motoring public. Enforces traffic laws on the Palisades Parkway and all other roads within the Commission's boundaries; polices Commission lands to ensure that park facilities are utilized in accordance with laws, statutes and Commission regulations; maintains a police court with the powers and jurisdiction of a municipal court with respect to crimes, disorderly conduct and violations of the motor vehicle and traffic or other laws of the State or of any of the rules and regulations of the Commission.

29. **Environmental Management and Preservation - Constitutional Dedication.** Since 1996, a portion of the revenue annually derived from the tax imposed by the Corporation Business Tax Act (P.L.1945, c.162) has been dedicated for environmental purposes. Part of this dedication provides funding for the preservation, including acquisition, development and stewardship of lands for recreation and conservation purposes.

## 40. COMMUNITY DEVELOPMENT AND ENVIRONMENTAL MANAGEMENT

### 43. SCIENCE AND TECHNICAL PROGRAMS

#### OBJECTIVES

1. To assure a safe and dependable supply of water while protecting public health and the environment.
2. To undertake technical activities, applied scientific research, policy analysis and technology evaluation associated with clean and renewable energy, sustainability, post-disaster resilience strategies, climate change and other critical environmental issues identified by the Department of Environmental Protection (DEP). To coordinate programs that reduce greenhouse gas emissions.
3. To map, research and interpret scientific information on the state's geology and groundwater resources. This information supports the Department's and other government agencies' regulatory and planning activities and provides the business community and the public with the geologic and hydrologic information needed to address environmental concerns and make economic decisions.
4. To develop and coordinate implementation of watershed management programs, groundwater protection programs, water quality monitoring, and water supply management, development, conservation and protection plans.
5. To coordinate and implement the State's Coastal Management Program, with emphasis on climate change resilience, to achieve the goals of healthy, resilient coastal ecosystems and communities through the effective management of ocean and estuarine resources; meaningful public access to and use of tidal waterways and their shores; sustained and revitalized water dependent uses; coastal open space; providing effective management tools for the support of healthy, well-planned coastal communities and regions; coordinated coastal

decision-making, comprehensive planning and research, including stakeholders comprised of state, local and regional entities; and coordinated public education and outreach.

6. To develop and coordinate water quality management planning functions, including wastewater management, point and nonpoint source pollution control, and to implement watershed restoration in order to restore the integrity of New Jersey's water resources by preventing, abating and controlling water pollution to achieve the goal of fishable and swimmable water statewide.
7. To coordinate the sustainable growth and capacity-based planning policies of the Department and to incorporate these policies into all levels of planning.
8. To collect and analyze ambient water data and develop water quality standards to assess water quality status and trends, to develop Total Maximum Daily Load (TMDL) standards where needed, to evaluate water-related ecological and public health risks, to classify coastal waters for safe harvest of molluscan shellfish, and for existing/emerging problem identification.
9. To develop climate change resilience strategies for New Jersey to adapt to projected climate change effects.

#### PROGRAM CLASSIFICATIONS

Also administers the Drought Management program. As part of the Safe Drinking Water program, administers the Drinking Water State

Revolving Fund, which includes a financing program for water supply projects, along with set-asides for capacity development, training for licensed operators and source water assessment and delineation activities.

- 07. **Water Monitoring and Resource Management.** Conducts ambient monitoring of freshwater (i.e., rivers and streams, lake and ground water) and marine surface water (i.e., bays and ocean waters) quality on a statewide basis, as well as biological monitoring and targeted assessments in support of TMDL development. Responsible for developing and implementing New Jersey’s Harmful Algal Bloom Recreational Response Strategy. Develops New Jersey’s Integrated Water Quality Assessment Report, including the Integrated Waterbodies List. Develops drinking water, surface water and ground water standards which support the New Jersey Pollutant Discharge Elimination System, Water Supply and the Site Remediation programs. Coordinates the development and integration of biological and other criteria. Classifies shellfish growing area waters for shellfish harvesting, and conducts bacteriological and chemical analysis of shellfish for public health protection. Oversees Community Water Monitoring, Cooperative Coastal Monitoring, Clean Shores and AmeriCorps New Jersey Watershed Ambassadors programs. Develops, operates and maintains water quality, including drinking water quality, and database systems for both government and public data dissemination. Conducts planning on watershed management, drinking water and other water quality, water supply, nonpoint source pollution control, stormwater management and other planning requirements associated with the federal Clean Water Act and the New Jersey Water Quality Planning Act. In addition to the resource protection mandates of these statutes, these programs protect lives and property from storm and flood damages. Administers the allocation of state riparian rights.
- 18. **Science and Research.** Science and Research helps ensure that the Department’s decision-making is based upon the most recent and best possible scientific and technical information. It identifies and develops human-health-based criteria for contaminants that the Department can use toward the development of program-specific standards, provides multi-disciplinary technical support to DEP programs and manages/conducts research projects that are highly scientific in nature. The Science Advisory Board is administered by the

Division and provides independent peer review and advice to the Commissioner on scientific and technical issues relevant to the Department’s mission. This includes reviewing the quality and relevance of the scientific and technical information being used or proposed as the basis for Department regulations.

- 22. **New Jersey Geological Survey.** Maps the geology and topography of the state, assesses offshore beach nourishment sands and dredging, maintains a cooperative water monitoring program with the United States Geological Service and reviews plans for underground storage of carbon dioxide, gas, oil and chemical disposal wells. The program evaluates the supply potential and water quality of the state’s aquifers; maintains a statewide geohydrologic database; maps aquifer recharge and wellhead protection areas, earthquakes, and historic fill; investigates groundwater pollution problems; creates reports and maps to disseminate information to the public; and supports State permitting and municipal programs through geophysical studies, groundwater investigations and the use of Geographic Information Systems technology.
- 29. **Environmental Management and Preservation - Constitutional Dedication.** Since 1996, a portion of the revenue annually derived from the tax imposed by the Corporation Business Tax Act (P.L.1945, c.162) has been dedicated for environmental purposes. Part of this dedication provides funding for the following purposes: watershed-based water resource planning and management, financing the cost of water quality point and nonpoint source pollution monitoring, nonpoint source pollution prevention projects, and TMDL development and implementation.
- 80. **Drinking Water State Revolving Fund.** Set-asides provided by the Drinking Water State Revolving Fund, including program administration, small system technical assistance, capacity development, operator certification and source water protection activities. See related program classification 05 for further details.
- 90. **Environmental Policy and Planning.** Provides professional and environmental planning assistance to internal and external entities, coordinates the sustainable growth and capacity-based planning policies of the Department and works with internal programs, regional entities and municipalities to incorporate these policies into all levels of planning. Also offers technical assistance to communities to respond to sea level rise and coastal hazards. Acts as DEP’s liaison to the New Jersey Board of Public Utilities in support of the New Jersey Energy Master Plan, specifically relating to the promotion of clean and renewable energy, energy conservation and energy efficiency, alternative fuels for transportation and evaluating the practicalities of developing new technologies. Administers the Department’s responsibilities under the Global Warming Solutions Act and provides guidance on the use of Regional Greenhouse Gas Initiative (RGGI) auction proceeds through the State’s RGGI Strategic Funding Plan. Promotes sustainable business, industry and community initiatives.

## 40. COMMUNITY DEVELOPMENT AND ENVIRONMENTAL MANAGEMENT

### 44. SITE REMEDIATION AND WASTE MANAGEMENT

#### OBJECTIVES

1. To implement the requirements of the Site Remediation Reform Act, which requires site remediations be performed by Licensed Site Remediation Professionals (LSRPs) with department inspections and reviews of the work performed.
2. To remediate sites contaminated by hazardous substances and pollutants to protect public health and safety and the environment and to restore contaminated areas of the state for beneficial use.
3. To address known discharge sites, regulated underground storage tank sites, unregulated heating oil tanks, industrial establishments as defined by the Industrial Site Recovery Act, non-operating landfills with development potential, Resource Conservation and Recovery Act of 1976 facilities, Comprehensive Environmental Response, Compensation & Liability Act of 1980 sites, and federal facilities for cleanup and closure in accordance with applicable regulations.
4. To determine the imminent risk of sites to public health and safety and the environment consistent with legislated mandates and, in those cases when the responsible party is either unknown or unable to perform the cleanup, utilize public funds to remediate the most contaminated sites representing the greatest risk to public health and safety and the environment first.
5. To coordinate responses and take immediate action when discharges of hazardous substances and pollutants endanger public health and safety and the environment, especially water supplies and vapor intrusion.
6. To respond to emergency discharges of hazardous substances and pollutants throughout the state and enable the public to report environmental emergencies to the Department's communication center via toll-free access.
7. To maximize the use of private-party funds by requiring responsible parties to either conduct remedial work through implementation of the LSRP program or reimburse the Department for performing remedial work.
8. To develop and implement clear, consistent and predictable regulations for site remediation for use by the LSRPs, the regulated community and the Department, and ensure that technically and scientifically justified cleanup objectives are met.
9. To implement a statewide solid waste planning process that emphasizes source reduction, recycling and market development activities. To conduct comprehensive reviews of permit applications for solid waste, hazardous waste, recycling and composting facilities, and landfill closures. To implement the Electronic Waste Management Act. To propose, comment, or implement new recycling laws or regulations including Recycling Exemptions, Food Waste Reduction, Solar Panel

# ENVIRONMENTAL PROTECTION

Recycling, Food Waste Recycling, Single-Use Bag Ban, Recycling Market Development and Recycled Content.

10. To compensate persons affected by hazardous substance discharges through: (a) the Spill Compensation Fund environmental claims program, (b) the Sanitary Landfill Contingency Fund claims program, and (c) loans and grants, administered in conjunction with the New Jersey Economic Development Authority, from the Hazardous Discharge Site Remediation Fund and Underground Storage Tank Fund.

## PROGRAM CLASSIFICATIONS

19. **Publicly-Funded Site Remediation and Response.** Conducts a program to remediate sites and receptors contaminated by hazardous substances where a responsible party cannot be identified or is unable or unwilling to voluntarily participate using public funds on a priority basis. These activities are supported by federal (Superfund) funds and State funds (such as Corporation Business Tax and various limited bond funds). These funds are subject to direct billing reimbursements and cost recovery. Conducts investigations to identify sources of contamination which have impacted human ecological receptors, using public funds on a priority basis. Provides a 24/7/365 all hazards response for chemical, biological, radiological, nuclear and explosive emergencies. Also operates a 24/7/365 communication center, which is the point of initial notification for events and the key point of contact/communication for local, county, State and federal agencies. The communications center is also the dispatch center for all law enforcement and first responders within the Department. The Emergency Management Program is the lead for coordination for all Department emergency management planning, coordination and communications during emergency activation.
23. **Solid and Hazardous Waste Management.** Provides leadership, planning, education and technical assistance to the state's citizens, businesses and local government to help them manage their waste responsibly. Provides grants to municipalities and counties in accordance with the Recycling Enhancement Act. Regulates the generation, storage, collection, transportation, processing, treatment and disposal of solid and hazardous wastes and closure of facilities. Regulations and standards are implemented and monitored through on-site construction inspections, design reviews, data collection and permit issuance. Administers the federal Resource Conservation and Recovery Act. Issues, denies and revokes A-901 licenses for solid waste haulers, brokers and facility operators. Develops and implements programs, such as the Electronic Waste Recycling program, to attain statewide recycling goals and to reduce the quantities of waste generated. Monitors the solid waste collection industry to promote effective competition and to prohibit anti-competi-

tive practices. Regulates and oversees mergers, acquisitions and long-term financing arrangements of the solid waste utility industry. Promotes the reuse of closed landfills including activities such as the construction of recreation fields or installation of solar projects through landfill closure plan or disruption approvals. Supports disaster debris management by providing guidance to municipalities and counties, approving Temporary Debris Management Areas, and maintaining emergency stand-by contracts.

27. **Remediation Management.** Conducts a statewide program to review the remediation of sites by private parties under the State's LSRP cleanup program to ensure that appropriate standards and technical requirements are met. The Site Remediation Reform Act, State Spill Compensation and Control Act, Industrial Site Recovery Act, Underground Storage of Hazardous Substances Act, Water Pollution Control Act, and Brownfield and Contaminated Site Remediation Act authorize the Department to oversee these projects. Provides management assistance, oversight and coordination of remedial activities at National Priorities List Site Cleanups where the projects are led by the federal Environmental Protection Agency (EPA), Department of Defense or Department of Energy. Under the Performance Partnership Agreement with the EPA, the Department coordinates with the EPA and conducts oversight of closure/post-closure activities and conducts remediation oversight at designated sites. Many of the above activities have been modified to meet the criteria of the Site Remediation Reform Act, which established a LSRP Program, with the Department's role shifting to include inspection, review and field review responsibility coupled with less direct case management as mandated under the Site Remediation Reform Act. The program also conducts environmental reviews of proposed child care/educational facilities for licensing purposes as required under N.J.S.A. 52:27D-130.4 and oversees unregulated heating oil tank remediations performed by properly certified environmental professionals. The support programs perform all necessary scientific assistance for successful implementation of the cleanup program, as well as tracking and case processing, enforcement, information system development and maintenance, contracting, fund management, billing, cost recovery and financial support.
29. **Environmental Management and Preservation - Constitutional Dedication.** Since 1996, a portion of the revenue annually derived from the tax imposed by the Corporation Business Tax Act (P.L.1945, c.162) has been for environmental purposes. Part of this dedication provides funding for underground storage tank programs, for hazardous substance discharge remediation programs including redevelopment of brownfields, and for publicly-funded remediation.

Certifies and inspects businesses and individuals that conduct radon testing and mitigation. Inspects mammography facilities under contract with the Food and Drug Administration. Licenses x-ray technologists, nuclear medicine technologists and radon testers and mitigators. Determines exposure pathways and environmental or health impact of sources of radiation and provides direction on compliance with radiological remediation standards. Provides

emergency planning, response and monitoring around nuclear power plant sites under the Radiation Accident Response Act. Tracks shipments of large quantities of radioactive materials through New Jersey. Registers certain sources of non-ionizing radiation. Conducts investigations to determine compliance with the Radiation Protection Act at regulated facilities. Conducts investigations of allegations of improper possession, use or storage of radiation sources. Issues enforcement documents and tracks, records and reports on associated administrative activities to ensure compliance. Develops enforcement actions, processes violations, negotiates compliance settlements, and provides testimony in contested cases. 08. **Water Pollution Control.** Administers the New Jersey Pollutant Discharge Elimination System program to protect

# ENVIRONMENTAL PROTECTION

New Jersey's surface and ground water by assuring proper treatment and disposal of wastewater (and its residuals) and stormwater from various types of facilities and activities, including the generation, pretreatment monitoring and beneficial management of sludge and sludge-derived products. To accomplish this, the program issues permits and establishes standards which impose requirements to limit and/or prevent the discharge of pollutants into waters of the state. The regulated facilities vary widely in size, from small uses such as campgrounds, schools and shopping centers to larger industrial and municipal wastewater discharges. Implements the Treatment Works Approval program to regulate the construction of wastewater collection, conveyance and treatment facilities.

09. **Public Wastewater Facilities.** Administers the New Jersey Environmental Infrastructure Financing Program (Water Bank) along with the New Jersey Infrastructure Bank, an independent State financing authority. The Program provides loans to local government units for the construction of environmental infrastructure facilities through the Clean

Water State Revolving Fund, with funds made available under the federal Clean Water Act and various State bond acts. The projects eligible for financial assistance include water and wastewater treatment plant upgrades or improvements, facilities for the beneficial reuse and treatment of sewage sludge, collection and conveyance facilities, on-site system rehabilitation, infiltration/inflow correction, combined sewer overflow and interconnection/cross-connection abatement, and nonpoint source projects such as land acquisition, brownfield remediation, well sealing and landfills.

16. **Water Monitoring and Planning.** Uses federal funds to regulate the discharge of contaminants/toxins from wastewater treatment facilities, the management of residuals, the management of sludge and the issuance of stormwater permits.

70. **Clean Waters.** Administrative costs provided by the Clean Water State Revolving Fund, which provides loans to local government units for the construction of environmental infrastructure treatment facilities. See related program classification 09 for further details.

Registers all pesticide products sold in the state. Certifies and licenses pesticide applicators and dealers. Issues permits for mosquito/fly control and aquatic pesticide use. Monitors and evaluates pesticide hazards and conducts laboratory analysis of pesticide samples.
08. **Water Pollution Control.** Responsible for providing compliance assistance, conducting monitoring and investigations

and issuing enforcement actions in support of the water programs. A particular focus is placed on inspections of wastewater dischargers and community drinking water supply facilities; prevention and correction of non-compliance conditions through a multifaceted compliance assistance program, including outreach, education and a Discharge Monitoring Report guidance manual; issuance of administrative and judicial enforcement actions for chronic or significant violations; and investigation of complaints relating to water resources. Monitors compliance with all permits issued under the New Jersey Pollutant Discharge Elimination System for surface water, ground water and indirect discharges to Publicly Owned Treatment Works. Formal enforcement actions are also issued for violations in the Water Allocation Program and against State-certified laboratories that fail to comply with the laboratory certification program requirements.

15. **Land Use Regulation and Management.** Conducts investigations and site inspections required for compliance with State regulations and permits issued pursuant to the Highlands Water Protection and Planning Act, Freshwater Wetlands Protection Act, the Flood Hazard Area Control Act, the Coastal Area Facility Review Act, the Wetlands Act of 1970, the Dam Safety Act and the Waterfront Development and Riparian Lands statutes. Responding to reports of alleged violations of the above statutes, the program advises individuals how to achieve and/or maintain compliance.
23. **Solid and Hazardous Waste Management.** Assures compliance with federal Resource Conservation and Recovery Act regulations, the New Jersey Solid Waste Management Act and the Solid Waste Utility Control Act. Manages and conducts compliance and enforcement activities to ensure that solid waste, hazardous waste, regulated medical waste and used oil are collected, stored, transported, recycled and disposed of in an environmentally acceptable manner. Monitors the solid waste industry to ensure only financially sound companies and individuals of good repute are engaged in waste transport and disposal activities and that waste customers are treated fairly by the industry. Activities include such compliance assistance functions as environmental audits, grace periods and supplemental environmental projects as well as conventional inspections, investigations, transporter and regulated medical waste generator licensing, and, when necessary, formal enforcement actions. Also performs regular comprehensive underground storage tank inspections in order to protect ground water resources from gasoline and other contamination.
29. **Environmental Management and Preservation - Constitutional Dedication.** Since 1996, a portion of the revenue annually derived from the tax imposed by the Corporation Business Tax Act (P.L.1945, c.162) has been dedicated to the Department. Part of this dedication provides funding for the Underground Storage Tank Inspection Program.

## OVERVIEW

### Mission and Goals

The mission of the Department of Health is to improve public health. The Department has three major branches: Public Health Services, which represents traditional public health programs; Health Systems, where the emphasis is on improving the quality of health care through oversight efforts, such as the licensure and inspection of various health care facilities as well as analysis and monitoring of indicators of financial stability; and Integrated Health Services, designed to increase efficiency, coordination, and integration of the State's psychiatric hospitals, support and strengthen long term care facilities, and oversee delivery of integrated primary and preventative health care.

The Department seeks to:

Improve the health of all New Jersey residents by strengthening our health care ecosystem, which includes healthcare delivery, prevention, wellness, and equity. Core activities include using public health surveillance data to drive measurable health improvements; identifying vulnerable populations for targeted interventions; establishing health policies, including policies impacting social drivers of health, to promote equity; collaborating across sectors; educating residents on making informed health care decisions; and increasing the under/uninsured populations' access to health care.

Eliminate disparities in access to health care, treatment and clinical outcomes between racial, ethnic and socioeconomic populations. Strengthen public health engagement through cultural competency, education and partnerships with minority-oriented health organizations.

Prevent and control communicable and chronic diseases, reduce the risk of transmission of sexually transmitted diseases (STDs), increase access to services for persons living with hepatitis, HIV and STDs, and reduce overall overdose deaths as well as the social and economic consequences of the overdose epidemic on the State. Implement scientific, evidence-based primary and secondary prevention programs designed to decrease mortality and morbidity from health conditions such as heart disease, cancer, obesity, stroke, HIV, STDs and tuberculosis and to identify and mitigate newborn metabolic deficiencies.

Foster and support services to improve maternal, child, and family health including reproductive healthcare access, running the State's early intervention program, and running the Women, Infant, and Children (WIC) food program.

Provide comprehensive, person-centered care to residents and individuals served at the State-operated psychiatric hospitals, with the goal of helping all individuals achieve their greatest personal potential and return to the most integrated setting in the community.

Strengthen New Jersey's local public health system and improve the performance and practice of local health departments through the Department's Division of Local Public Health.

Partner with and provide grants to community-based health care organizations and health care providers to promote wellness and activities related to the prevention of illness and the management of chronic diseases including conducting outreach, education, screening, referrals and follow-up.

Strengthen New Jersey's health care infrastructure by adopting best practices, inspecting and monitoring licensed health care facilities and services, and funding our safety net programs.

Create a comprehensive communications system that links health care providers and institutions statewide, form a coordinated disease surveillance and response network and provide quality and

comprehensive public health and environmental laboratory diagnostic testing services.

Prepare New Jersey first responders and medical providers to rapidly detect, identify and respond to health-related aspects of biological, chemical, radiological, nuclear, explosive and incendiary acts of terrorism, as well as natural disasters and disease outbreaks.

Maintain the certification of more than 21,200 Emergency Medical Technicians, as well as provide licensure of more than 3,700 mobility assistance vehicles, ambulances, mobile intensive care units, specialty care transport units and air medical units that will respond to nearly 1.4 million emergencies.

### Budget Highlights

The fiscal year 2026 budget for the Department of Health totals \$1.390 billion, a decrease of \$27.7 million or 2% below the fiscal 2025 adjusted appropriation of \$1.418 billion.

### Health Planning and Evaluation

The Office of Health Care Financing (OHCF) has a portfolio that includes, but is not limited to, health care facility financial monitoring and reporting, health care facility assessments, health care programs and subsidies including Charity Care, Graduate Medical Education (GME), GME Supplemental (GME-S) and Graduate Medical Education - Trauma Center (GME-T), and a performance-based initiative called the Quality Improvement Program - New Jersey (QIP-NJ). In total, the Department expects to oversee hospital funding between Charity Care, GME, GME-S, GME-T and QIP-NJ totaling \$607.7 million (both in State and federal resources).

The fiscal 2026 budget recommends a Charity Care allocation of \$61.2 million. The Charity Care distribution formula is transparent to the hospital industry and creates incentives for hospitals by recognizing fluctuations in Documented Charity Care (DCC). The fiscal 2026 budget recommends a GME allocation of \$218 million, a GME-S allocation of \$34 million, a GME-T allocation of \$84.5 million, and a QIP-NJ allocation of \$210 million.

The Divisions of Health Care Facility Survey and Field Operations (HFS&FO) and Certificate of Need and Licensing (CN&L) oversee on-site inspections, compliance enforcement, certificate of need review, and licensure for over 2,400 health care facilities and 3,000 Mental Health (MH) and Substance Use Disorder (SUD) programs. They also investigate complaints from consumers and government agencies. Within CN&L, the Behavioral Health Team manages licensing and regulatory oversight for MH and SUD facilities, processing applications and conducting routine audits to ensure compliance with all regulations and statutes.

HFS&FO's Office of Investigations (OI) is tasked with conducting thorough, independent, objective and timely investigations of incidents/allegations of abuse, neglect or exploitation of patients being treated and residing at NJ Psychiatric Hospitals. As part of its investigative and quality assurance activities, OI issues individual case findings and identifies systemic concerns to help ensure the continued health, safety and well-being of all NJ Psychiatric Hospital patients.

CN&L also oversees the Nursing Home Administrators Licensing Board which is responsible for developing and enforcing standards for individuals seeking licensure and investigates any complaint(s) filed against an administrator. There are currently approximately 1,000 active Licensed Nursing Home Administrators.

Additionally, CN&L is responsible for updating over 50 sets of healthcare facility-related regulations, writing regulations for new statutes, performing legal research, and interpreting State/federal statutes and regulations, providing legal guidance to other programs,

# HEALTH

and responding to petitions for rulemaking from the general public and requests from facilities for waivers of the licensing standards and American Institute of Architecture guidelines.

CN&L also regulates Certified Nurse Aide (CNA) instructors, evaluators, and schools to ensure the training, education and certification of individuals providing service to residents in long-term care facilities promotes the dignity, privacy and individuality of the elderly. This includes oversight of over 180 Nurse Aide Training and Competency Evaluation programs in the state which have certified over 26,000 active CNAs.

## Health Services

The fiscal 2026 budget continues funding for the Early Childhood Intervention program. Funding of \$118.4 million is recommended to address the needs of children with developmental disabilities under three years of age. Eligibility standards and co-payment requirements will remain unchanged.

The fiscal 2026 budget recommends \$500,000 to support a Legionnaires' Disease Prevention and Response Team, which takes action to prevent and control cases of legionnaires' disease.

This year's budget includes \$52 million for reproductive health programs, and launches a new incentive program for OB/GYNs who want to move to New Jersey so they can provide health care without oppressive government restrictions.

To increase availability and accessibility to vaccinations, the fiscal 2026 budget recommends \$1 million in funding for an Adult Vaccine Program, allowing the Department of Health to expand vaccine procurement capabilities and provide care to uninsured and underinsured individuals throughout the State.

The fiscal 2026 budget restores over \$12 million of State support for the AIDS Drug Distribution Program (ADDP). ADDP provides life-supporting and life-sustaining medications for individuals living with HIV who have no other source of payment for these drugs. The program serves as a safety net for those who are ineligible for other public programs, including NJ FamilyCare, Medicare, Pharmaceutical Assistance to the Aged and Disabled (PAAD) and Senior Gold. Adherence to pharmaceutical treatment for HIV greatly reduces the risk of transmission.

## Integrated Health Services

The New Jersey Cancer Education and Early Detection (NJCEED) program provides comprehensive breast, cervical, colorectal and prostate cancer screening and diagnostic services to uninsured/underinsured residents of New Jersey who meet income guidelines with special emphasis on the recruitment and screening of high-risk populations including racial and ethnic minorities. Total State and federal funding for the NJCEED program is approximately \$14.01 million.

The fiscal 2026 budget continues funding for Federally Qualified Health Centers (FQHCs). There are now 117 licensed sites throughout the state. Projected reimbursement for uninsured FQHC visits is \$32 million.

The Department of Health operates the State psychiatric hospitals to serve individuals with mental illness who have been legally committed to a State facility for treatment. These facilities include Ancora, Greystone and Trenton adult psychiatric hospitals, as well as the Ann Klein Forensic Center in Mercer County, which provides adult forensic psychiatric services. Combined, the hospitals serve on average 1,182 people daily.

The Department remains committed to advancing community placement for individuals who no longer require inpatient psychiatric hospitalization, and those who are at risk for hospitalization, in accordance with the U.S. Supreme Court's Olmstead decision.

The Office of Long-Term Care Resiliency was created to support and strengthen the long term care facilities by sharing industry best practices, allocation of resources, and identifying barriers to quality of care, including the Mission Critical Team to support and strengthen nursing homes identified with quality-related issues.

## Office of the Chief State Medical Examiner

This Office oversees the investigation of all violent or suspicious deaths and those that constitute a threat to public health within the state. Investigations involve conducting postmortem examinations and providing forensic laboratory analyses of body fluids and organs. This Office also provides general supervision over county medical examiners and, by court order, may supersede the medical examiner of any county. In addition, the Office operates the State Toxicology Laboratory that performs urine drug analysis on all sworn law enforcement officers in New Jersey for illegal drug use.

Actual payroll counts are reported for fiscal years 2023 and 2024 as of December and revised fiscal 2025 as of January. The budget estimate for fiscal 2026 reflects the number of positions funded.

Prior year position and program data have been adjusted to reflect the reorganization of certain programs within the Department of Health in order to create the Division of Disaster Preparedness, Resiliency and Emergency Medical Services and the Division of Local Public Health in fiscal year 2026.

Portions of the evaluation data reflect the impact of the COVID-19 pandemic.

(a) The fiscal year 2025 projected increase is the result of changes by the Center for Disease Control and Prevention, which lowered the blood lead reference value.

There are appropriated from the New Jersey Emergency Medical Service Helicopter Response Program Fund, established pursuant to section 2 of P.L.1992, c.87 (C.26:2K-36.1), such amounts as are necessary to pay the reasonable and necessary expenses of the operation of the New Jersey Emergency Medical Service Helicopter Response Program, established pursuant to P.L.1986, c.106 (C.26:2K-35 et seq.), subject to the approval of the Director of the Division of Budget and Accounting.

- No funds hereinabove appropriated to the Department of Health shall be used for the Medical Waste Management Program. The Department of Health and the Department of Environmental Protection shall establish a transition plan to ensure provisions of the "Comprehensive Regulated Medical Waste Management Act," P.L.1989, c.34 (C.13:1E-48.1 et al.) are met.
- In order to permit flexibility in the handling of appropriations, amounts may be transferred between Direct State Services and Grants-In-Aid accounts within the HIV, STD, and TB Services program classification in the Department of Health, subject to the approval of the Director of the Division of Budget and Accounting. Notice thereof shall be provided to the Legislative Budget and Finance Officer on the effective date of the approved transfer.

ADDP is authorized to represent program beneficiaries in the pursuit of such coverage. ADDP representation shall not result in any additional financial liability on behalf of such program beneficiaries and shall include, but need not be limited to, the following actions: application for the premium and cost-sharing subsidies on behalf of eligible program beneficiaries; pursuit of appeals, grievances, or coverage determinations; and facilitated enrollment in a prescription drug plan or Medicare Advantage Prescription Drug plan. If any beneficiary declines enrollment in any Medicare Part D plan, that beneficiary shall be barred from all benefits of the ADDP Program.
- Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated to the AIDS Drug Distribution Program (ADDP) is conditioned upon the Department of Health coordinating the benefits of ADDP with the prescription drug benefits of the Medicare Part D program, established pursuant to the federal "Medicare Prescription Drug, Improvement, and Modernization Act of 2003," as the primary payer. The ADDP benefit and reimbursement shall only be available to cover the beneficiary cost share to in-network pharmacies and for deductible and coverage gap costs, as determined by the Commissioner of Health, associated with enrollment in Medicare Part D for ADDP beneficiaries, and for Medicare Part D premium costs for ADDP beneficiaries.
- Notwithstanding the provisions of any law or regulation to the contrary, no funds appropriated in the AIDS Drug Distribution Program (ADDP) account shall be available as payment as an ADDP benefit to any pharmacy that is not enrolled as a participating pharmacy in a pharmacy network under the Medicare Part D program established pursuant to the federal "Medicare Prescription Drug, Improvement, and Modernization Act of 2003."
- Commencing with the start of the fiscal year, and consistent with the requirements of the federal "Medicare Prescription Drug, Improvement, and Modernization Act of 2003" (MMA), no funds hereinabove appropriated from the AIDS Drug Distribution Program (ADDP) account shall be expended for any individual enrolled in the ADDP program unless the individual provides all data necessary to enroll the individual in the Medicare Part D program established pursuant to the MMA, including data required for the subsidy assistance, as outlined by the Centers for Medicare and Medicaid Services.
- Notwithstanding the provisions of any law or regulation to the contrary, no amounts hereinabove appropriated for the AIDS Drug Distribution Program shall be expended for drugs used for the treatment of erectile dysfunction, or cosmetic drugs, including but not limited to drugs used for baldness and weight loss.
- Upon a determination by the Commissioner of Health, made in consultation with the State Treasurer, that additional State funding is necessary to reimburse centers for services to uninsured clients, the Director of the Division of Budget and Accounting shall authorize the appropriation of such sums as the commissioner determines are necessary for grants to federally qualified health centers.
- In addition to the amount hereinabove appropriated for the AIDS Drug Distribution Program, such amounts as may be required, as determined by the Commissioner of Health, are appropriated to cover the costs of the program, subject to the approval of the Director of the Division of Budget and Accounting.
- Of the amounts hereinabove appropriated for South Jersey Cancer Program - Cooper University Healthcare, amounts may be transferred to the Division of Medical Assistance and Health Services, consistent with Centers for Medicare & Medicaid Services guidelines, solely to maximize federal Medicaid payments to faculty physicians and non-physician professionals who are affiliated with Cooper University Healthcare, subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of any law or regulation to the contrary, any revenues collected from the tax on cosmetic medical procedures pursuant to P.L.2004, c.53 (C.54:32E-1) shall be deposited into the Health Care Subsidy Fund established pursuant to section 8 of P.L.1992, c.160 (C.26:2H-18.58) for the support of payments to federally qualified health centers.

Notwithstanding the provisions of any law or regulation to the contrary, as a condition of the receipt of any monies hereunder by an acute care hospital that is requesting an advance of charity care/NJ FamilyCare or payments from the "Health Care Facilities Improvement Fund" or any payments over and above this act, the hospital shall comply with a request by the Commissioner of Health for a review of its finances and operations to ensure that access to health care is maintained and public funds are utilized for their intended purposes. The cost of such review shall be borne by the acute care hospital and shall comply with any financial and operational performance requirements imposed by the commissioner as deemed necessary as a result of the review.

The amounts hereinabove appropriated for Health Care Subsidy Fund Payments are conditioned upon the following provision: the Department of Health shall review, examine, or audit any and all financial information maintained by an acute care hospital to ensure appropriate use of public funds.

Notwithstanding the provisions of any law or regulation to the contrary, the amounts hereinabove appropriated from Health Care Subsidy Fund Payments, including but not limited to those disproportionate share hospital (DSH) components contained in prospective annual

Reports on DSH Verifications as required by 42 CFR 455.301 and 455.304(d) completed subsequent to the effective date of this act, are subject to the following conditions: a disproportionate share hospital eligible for funding through the Charity Care program may decline Charity Care payments for the fiscal year by notifying the Commissioner of Health on a form designated by the Department of Health on or before the fifteenth day following enactment. In the event that a disproportionate share hospital declines Charity Care funding as authorized by this paragraph or is determined to have received excess Charity Care payments pursuant to any required audit, the amount of declined or excess Charity Care payments, or both, shall be redistributed in the following manner: If the hospital is affiliated with a multiple-hospital health system, declined and excess Charity Care payments shall be redistributed to other hospitals within the state that are affiliated with the same hospital's multiple-hospital health system on the date the redistribution, as a percentage of the individual hospital's Documented Charity Care affiliated with the payment year, to the total multi-hospital health system's Documented Charity Care affiliated with the same payment year. This redistribution calculation within the multi-hospital health system shall be recursive as necessary to the hospitals to which the Charity Care payments shall be redistributed do not receive excess Charity Care payments per the audits in accordance with 42 CFR 447.299. If the hospital that is declining or receiving excess Charity Care payments, or both, is not affiliated with a multiple-hospital health system, or if the hospital is affiliated with a multiple-hospital health system but cannot redistribute Charity Care payments to hospitals within its affiliated health system because it will result in excess Charity Care payments per the audits in accordance with 42 CFR 447.299, the declined and excess Charity Care payments shall be redistributed in accordance with the provisions of section 3 of P.L.2004, c.113(C.26:2H-18.59i).

Notwithstanding the provisions of any law or regulation to the contrary, the amounts hereinabove appropriated from the Health Care Subsidy Fund for Charity Care payments are subject to the following condition: In a manner determined by the Commissioner of Health and subject to the approval of the Director of the Division of Budget and Accounting, eligible hospitals shall receive their charity care subsidy payments in two, equal lump sum payments, the first of which will occur in August covering the six-month period beginning July 1st through and including December 31st, and the second of which will occur in January covering the six-month period beginning January 1st through and including June 30th. If an eligible hospital closes before June 30th, the hospital shall reimburse to the State upon closure any subsidy payments attributed on the normal monthly payment basis to after the hospital's date of closure.

Notwithstanding the provisions of any law or regulation to the contrary, the appropriation for the Health Care Subsidy Fund Payments is subject to the following condition: the distribution of charity care subsidy payments to acute care hospitals that are licensed and operational as of July 1, 2025, shall be calculated using the following methodology: (1) each hospital shall be ranked in order of its hospital-specific, relative charity care percentage, or RCCP, based on the audited 2023 Acute Care Hospital (ACH) Cost Reports, by dividing the amount of hospital-specific gross revenue for charity care patients by the hospital's total gross revenue for all patients; (2) the nine privately-owned hospitals with the highest RCCP shall receive a charity care payment equal to 20 percent of each hospital's hospital-specific calendar year 2023 documented charity care; (3) publicly-owned hospitals with an operating margin less than or equal to negative 15 percent shall receive a Charity Care subsidy equal to 40 percent of their hospital-specific calendar year 2023 documented Charity Care, with operating margins being calculated using 2023 audited ACH cost reports with a numerator of Form L3, Line 34 minus Line 12, and a denominator of Form L3, Line 15 minus Line 12 minus Line 31; (4) all other hospitals shall receive a charity care payment equal to 0.5 percent of its hospital-specific calendar year 2023 documented charity care.

There are appropriated such additional sums as are required to pay all amounts due from the State pursuant to any contract entered into between the State Treasurer and the New Jersey Health Care Facilities Financing Authority pursuant to section 6 of P.L.2000, c.98 (C.26:2I-7.1) in connection with the Hospital Asset Transformation Program.

Of the amounts hereinabove appropriated to Robert Wood Johnson Barnabas Health - Community Health Projects and City of Newark Access to Health Care Partnership, amounts may be transferred to the Division of Medical Assistance and Health Services, consistent with CMS guidelines, solely to maximize federal Medicaid payments to faculty physicians and non-physician professionals who are affiliated with Robert Wood Johnson Barnabas Health, subject to the approval of the Director of the Division of Budget and Accounting.

The amount appropriated for City of Newark Access to Health Care Partnership shall support a program administered by Newark Beth Israel Medical Center, in partnership with University Hospital, to improve access to health care for the residents of the City of Newark. The partnership shall present a report on the implementation and results of the program to the Commissioner of Health no later than May 30.

Notwithstanding the provisions of any law or regulation to the contrary, and except as otherwise provided and subject to such modifications as may be required by the Centers for Medicare and Medicaid Services in order to achieve any required federal approval and full Federal Financial Participation, \$34,000,000 from the amounts hereinabove appropriated from Graduate Medical Education (GME) shall be designated as Supplemental Graduate Medical Education Subsidy (GME-S), and shall be available to hospitals that meet the following eligibility criteria: (a) an eligible hospital has a Relative Medicaid Percentage (RMP) that is among the top fourteen acute care hospitals with a residency program; (b) the RMP is a ratio calculated using the 2023 Audited Acute Care Hospital (ACH) Cost Reports; (c) the RMP numerator equals a hospital's gross revenue from patient care for Medicaid and Medicaid HMO payers as reported on Forms E5 and E6, Line 1, Column D & Column H; (d) the RMP denominator equals a hospital's gross revenue from patient care as reported on Form E4, Line 1, Column E; (e) for instances where hospitals that have a single Medicaid identification number submit a separate ACH Cost Report for each individually licensed hospital, the ACH Cost Report data for those hospitals shall be consolidated to the single Medicaid identification number; (f) the GME-S Subsidy shall be calculated using the same methodology as the GME Subsidy is calculated in this act, except the total amount of the GME-S Subsidy payments shall not exceed \$34,000,000.

Notwithstanding the provisions of any law or regulation to the contrary, and except as otherwise provided and subject to such modifications as may be required by the Centers for Medicare and Medicaid Services in order to achieve any required federal approval and full Federal Financial Participation, \$218,000,000 from amounts hereinabove appropriated for Graduate Medical Education (GME) shall be designated the GME Subsidy, and shall be calculated as follows: (a) the subsidy payment shall be split into a Direct Medical Education (DME) portion and an Indirect Medical Education (IME) portion; (b) source data used for the GME

calculation shall come from the Medicaid cost report for calendar year (CY) 2023 submitted by each acute care hospital by February 14, 2025 and Medicaid Managed Care encounter payments data for Medicaid and NJ FamilyCare clients as reported by insurers to the State for the following reporting period: services dates between January 1, 2023 and December 31, 2023; payment dates between January 1, 2023 and December 31, 2024; and a run-date of not later than February 15, 2025; (c) in the event that a hospital reported less than 12 months of 2023 Medicaid costs, the number of reported months of data regarding days, costs, or payments shall be annualized. In the event the hospital completed a merger, acquisition, or business combination resulting in two cost reports filed during the calendar year, two cost reports will be combined into one or a supplemental cost report for the calendar year 2023 submitted by the affected acute care hospital by January 31, 2025 shall be used. In the event that a hospital did not report its Medicaid managed care days on the cost report utilized in this calculation, the Department of Health (DOH) shall ascertain Medicaid managed care encounter days for Medicaid and NJ FamilyCare clients as reported by insurers to the State as per source data defined in (b) above; (d) Medicaid managed care DME cost begins with the intern and residency program costs using the 2023 submitted Medicaid cost report total residency costs, reported on Worksheet B Pt I Column 21 Line 21 plus Worksheet B Pt I Column 22 Line 22 divided by the 2023 resident full time equivalent employees (FTE), reported on Worksheet S-3 Pt 1 Column 9 line 14 to develop an average cost per resident FTE for each hospital; (e) median cost per resident FTE is calculated based on the average cost per resident FTE for each hospital; (f) the median cost per resident FTE is multiplied by the 2023 resident FTEs reported on Worksheet S-3 Pt 1 Column 9 Line 14 to develop total median residency program cost for each hospital; (g) median residency costs are multiplied by the ratio of Medicaid managed care days, reported on Worksheet S-3 Column 7 Line 2, divided by the difference of total days, reported on Worksheet S-3 Column 8 Line 14, less nursery days, reported on Worksheet S-3 Column 8 Line 13 to determine the Medicaid managed care DME cost of each hospital; (h) Medicaid managed care IME cost is defined as the Medicare IME factor multiplied by Medicaid managed care encounter payments as per source data defined in (b) above; (i) the IME factor is calculated using the Medicare IME formula as follows:  $1.35 * [(1 + x)^{0.405} - 1]$ , in which "x" is the ratio of submitted IME resident FTEs reported on Worksheet S-3 Pt 1 Column 9 Line 14 divided by the difference of total available beds, reported on Worksheet S-3 Column 2 Line 14, less nursery beds, reported on Worksheet S-3 Column 2 Line 13; (j) total 2023 Medicaid managed care GME costs shall equal total 2023 Medicaid managed care IME costs plus total 2023 Medicaid managed care DME costs; (k) the 2023 total Medicaid managed care DME costs is divided by the total 2023 Medicaid managed care GME costs; (l) the DME allocation portion is calculated by multiplying the total subsidy amount by the ratio in (k) above; (m) each hospital's percentage of total 2023 Medicaid managed care DME costs shall be multiplied by the DME allocation to calculate its DME payment; (n) the 2023 total Medicaid managed care IME costs are divided by the total 2023 Medicaid managed care GME costs; (o) the IME allocation portion is calculated by multiplying the total subsidy amount by the ratio in (n) above; (p) each hospital's percentage of total 2023 Medicaid managed care IME costs shall be multiplied by the IME allocation to calculate its IME payment; (q) the sum of a hospital's DME and IME payments shall equal its subsidy payment. The total GME Subsidy amount and these payments shall not exceed \$218,000,000 and shall be paid in 12 monthly payments; (r) in the event that a hospital believes that there are mathematical errors in the calculations, or data not matching the actual source documents used to calculate the subsidy as defined above, hospitals shall be permitted to file calculation appeals within 15 working days of receipt of the subsidy allocation letter. If upon review it is determined by the DOH that the error has occurred and would constitute at least a five percent change in the hospital's allocation amount, a revised industry-wide allocation shall be issued; (s) each hospital receiving a GME allocation shall, on or before May 31, 2026, provide a report to the Commissioner of Health indicating the total number of physicians who completed their training during the preceding calendar year, and the number of those physicians who plan to practice medicine within the State of New Jersey.

Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated for Graduate Medical Education (GME) is subject to the following condition: participating hospitals shall provide to residents and fellows participating in the GME program instruction concerning prevention of opioid addiction as well as diagnosis, assessment, and treatment strategies: provided, however, that such instruction may also be provided to other students and providers including, but not limited to, physicians, nurses, pharmacists, and social workers, working within the hospital or in the outpatient setting. To satisfy this condition, participating hospitals may develop an internal training program, enter into a partnership with a school or university, or provide financial support for residents and fellows to participate in independent educational programs or conferences that provide continuing medical education credits that are specifically focused in the subject area of addiction. To document compliance, participating hospitals shall complete a report to the Department of Health no later than May 31, 2026.

Notwithstanding the provisions of any law or regulation to the contrary, and except as otherwise provided and subject to such modifications as may be required by the Centers for Medicare and Medicaid Services in order to achieve any required federal approval and full Federal Financial Participation, \$84,500,000 from the amounts hereinabove appropriated from Graduate Medical Education (GME) shall be designated as Trauma Center Graduate Medical Education Subsidy (GME-T), and shall be available to hospitals that have a residency program and are designated as Level 1 or Level 2 Trauma Centers by the Department of Health. The GME-T Subsidy shall be calculated using the same methodology as the GME Subsidy is calculated in this act, except the total aggregate amount of the GME-T Subsidy payments to eligible hospitals shall not exceed \$84,500,000.

Funds appropriated to Hackensack Meridian School of Medicine are authorized to be used as necessary by the Director of the Division of Budget and Accounting and the Division of Medical Assistance and Health Services, to the extent allowed pursuant to federal law and consistent with Centers for Medicare and Medicaid Services guidelines, solely to maximize federal Medicaid payments to faculty physicians and non-physician professionals who are affiliated with the aforementioned medical school.

In order to permit flexibility in the handling of appropriations and ensure timely payments to hospitals, amounts may be transferred from the State, dedicated, and federal Quality Improvement Program - New Jersey (QIP - NJ) program accounts to the General Medical Services program classification in the Division of Medical Assistance and Health Services in the Department of Human Services, subject to the approval of the Director of the Division of Budget and Accounting.

In addition to the amount hereinabove appropriated for Health Care Systems Analysis, an amount not to exceed \$1,000,000 is appropriated from amounts assessed and collected by the Department of Banking and Insurance pursuant to section 9 of P.L.2007, c.330 (C.17:1D-2), for the purpose of funding costs associated with the development and maintenance of the New Jersey Health

Information Network, subject to a plan prepared by the Department of Health and approved by the Director of the Division of Budget and Accounting.

**OVERVIEW****Mission and Goals**

The Department of Human Services (DHS) is the largest State agency in New Jersey. It runs the State's Medicaid program and serves individuals with developmental disabilities and late-onset disabilities; people who are blind, visually impaired, deaf, hard of hearing, or deaf-blind; older residents; individuals and families with low incomes; those needing mental health and addiction services, and new Americans.

The Department uses both State and federal funding to provide services and supports designed to give eligible individuals and families the resources and assistance they need. The Department partners with county and municipal governments, as well as community-based provider agencies to administer its programs and services.

**Budget Highlights**

The fiscal year 2026 budget for the DHS totals \$10.260 billion, an increase of \$283 million or 2.8% from the fiscal 2025 adjusted appropriation of \$9.977 billion.

Since the decision to expand NJ FamilyCare in 2014, an additional 551,000 uninsured New Jersey residents have gained coverage under NJ FamilyCare. For the first time, many of these individuals now receive preventive and specialized healthcare services from local physicians, rather than in acute care settings.

The fiscal 2026 budget continues to support and strengthen the safety net for New Jersey's most vulnerable citizens. The NJ FamilyCare program includes sufficient resources to account for costs related to medical inflation and demographic changes, ensuring recipients in the program continue to have appropriate access to health care providers including physician, hospital and pharmaceutical services.

Similarly, Managed Long Term Services and Supports has resulted in increased and improved options for in-home assistance and care that enable elderly individuals and individuals with disabilities to continue living independently or with family members, while reducing reliance on institutional facilities.

The fiscal 2026 budget adds over \$5.2 million in State funding to continue supporting the New Jersey WorkAbility program expansion resulting from the recent elimination of age and income limitations.

The fiscal 2026 budget maintains funding of \$28.8 million for the 9-8-8 Mental Health Crisis and Suicide Prevention Hotline.

The Division of Family Development's (DFD) fiscal 2026 budget includes increased State funding to support Child Care subsidies for approximately 70,000 children.

The Division of Developmental Disabilities' (DDD) fiscal 2026 budget includes \$189.3 million in new State funding for the continued expansion of community-based services and supports for individuals with intellectual and developmental disabilities (I/DD). DDD's budget also includes \$9.1 million to support wage increases for Direct Support Professionals (DSPs) and supervisors.

**Division of Medical Assistance and Health Services**

Through the State's Medicaid and CHIP program, NJ FamilyCare, the Division of Medical Assistance and Health Services (DMAHS) provides approximately 1.8 million eligible residents with access to low or no cost health insurance. NJ FamilyCare's comprehensive health coverage program provides a wide-range of services including: primary and specialty care visits, hospital services, prescriptions, testing, vision care, behavioral health care, dental, long-term care and other health care services. The program covers approximately one-third of births in New Jersey.

The DMAHS also works closely with the Department of Health, the Department of Children & Families, and DHS' Divisions of Aging Services, Mental Health & Addiction Services, and Developmental Disabilities to advance initiatives that include reproductive health, Managed Long Term Services and Supports, home and community-based services, behavioral health integration, and medical care for individuals with intellectual and developmental disabilities. The DMAHS also operates programs that provide comprehensive health care coverage for undocumented children, reproductive health care for undocumented women, and life-saving free Naloxone for all New Jerseyans at pharmacy counters statewide.

**Division of Disability Services**

The Division of Disability Services (DDS) provides information and referral assistance to individuals with disabilities, their families and caregivers. DDS is also the State's lead agency for brain injury services and administering the New Jersey Traumatic Brain Injury Fund. Additionally, DDS administers the Personal Assistance Services Program and manages the NJ ABLE program, which helps individuals with disabilities save tax free for eligible expenses such as education, housing and transportation without losing eligibility for Medicaid and other benefits.

**Division of Aging Services**

The Division of Aging Services (DoAS) supports home and community-based services for older adults, individuals who have physical disabilities and caregivers. The DoAS administers a number of federal and State-funded programs and support services that make it easier for older adults to live in the community as long as possible with independence, dignity and choice.

The DoAS administers the Pharmaceutical Assistance to the Aged and Disabled (PAAD) and Senior Gold programs, which provide prescription drug benefits to eligible adults 65 years of age and older and individuals who have a disability, as defined by the federal Social Security Act. Additionally, the Division screens, refers and determines eligibility for older adults and people with disabilities for State and federal assistance programs.

The DoAS also provides technical assistance and grants to support New Jersey's 21 County Area Agencies on Aging and other local organizations that improve the quality of life for New Jersey's older residents. These programs include congregate and home delivered meals, informational assistance, outreach, personal care, legal services, transportation, telephone reassurance, housekeeping and assistance with activities of daily living, case management, respite care, Alzheimer's adult day care and adult protective services.

The Office of the Public Guardian, administratively located in DoAS, provides guardianship services for adults age 60 and older who have been deemed by the courts to be in need of a guardian or conservator. Client services are individualized and dependent on the client's personal needs. Services include legal assistance, social service plans, investigations into family/social history and financial management.

**Division of Developmental Disabilities**

The Division of Developmental Disabilities (DDD) serves eligible New Jersey adults, age 21 and older, with intellectual and developmental disabilities (I/DD). Services are primarily provided through community-based provider agencies and include day and residential programs and family support in the community. DDD serves approximately 28,000 individuals with I/DD in its two waiver programs, the Supports Program and the Community Care Program. Additionally, DDD operates five residential developmental centers serving approximately 950 individuals.

# HUMAN SERVICES

DDD strives to provide individuals with the choice and the ability to self-direct the services and supports that meet an individual’s needs. DDD is also committed to providing a variety of housing choices for clients, including appropriate placements in the community.

## Commission for the Blind and Visually Impaired

The New Jersey Commission for the Blind and Visually Impaired (CBVI) provides and promotes education, employment, independent living and eye health services for people who are blind, deaf-blind or vision impaired, as well as for their families and the community at large.

The CBVI provides specialized services to persons with vision loss such as vocational rehabilitation services, on-site, community-based eye screenings of uninsured/underinsured populations and training and education to reduce stigma.

The CBVI works to provide access to services that will enable consumers to obtain their fullest measure of self-reliance.

## Division of Family Development

The Division of Family Development (DFD) provides resources and support to residents needing food, income and child care assistance through the State’s Work First New Jersey, Supplemental Nutrition Assistance Program (SNAP), child support and child care programs.

The DFD assists people in making the transition from public assistance to work. The DFD also provides nutrition assistance, substance use referral, child care subsidies, temporary rental assistance and emergency housing assistance. These programs are administered through each county’s social services agency and the Child Care Resource and Referral Agencies.

The DFD is also charged with providing training, funding, information management and administrative support to the counties, contracted community providers and other governmental agencies responsible for administering these programs to New Jersey residents in need.

## Division of the Deaf and Hard of Hearing

The Division of the Deaf and Hard of Hearing (DDHH) serves residents who are deaf, hard of hearing, or have speech disorders. Services and programs foster independence and improve the quality of life for people with hearing loss. The DDHH provides information and referrals, delivers technical assistance workshops related to hearing loss and deaf sensitivity, assists with communication access through coordination of interpreting and captioning services and

operates assistive technology device demonstration centers. The Division also operates an Equipment Distribution Program and the New Jersey Hearing Aid Project that provides reconditioned hearing aids to residents with low incomes who are 65 years of age and older.

## Division of Mental Health and Addiction Services

The Division of Mental Health and Addiction Services (DMHAS) provides prevention, treatment and recovery services and supports for individuals with mental health and substance use disorders and their families, including opioid use disorders. The DMHAS coordinates with community-based providers to administer behavioral health services, including prevention and early intervention, behavioral health crisis screening and response services, outpatient counseling, partial and day treatment services, case management, residential and supported housing, jail diversion and reentry services, family support, self-help centers and supported employment. The State is dedicated to community-based mental health services and is advancing community supports for individuals no longer in need of hospital-based psychiatric treatment and those at risk of hospitalization. The DMHAS also funds hospital-based services for low-income individuals committed to treatment at the three county operated psychiatric facilities in Bergen, Essex, and Hudson counties.

The State continues to combat the opioid epidemic by dedicating substantial resources to coordinated efforts focused on enhanced prevention, treatment and recovery services, as well as community supports to address social risk factors that impact long-term recovery. As part of these efforts, the DMHAS directs the disbursement of federal opioid settlements through the Opioid Recovery and Remediation Fund in consultation with the Opioid Recovery and Remediation Advisory Council. The DMHAS also works with federal, State and local emergency management offices to coordinate and provide behavioral health disaster response.

## Office of New Americans

In July 2019, Governor Murphy’s Executive Order No. 74 created the Office of New Americans (ONA), housed with the Department, to promote immigrant integration and create welcoming policies within New Jersey. The ONA administers the State’s refugee resettlement services and legal services to vulnerable immigrants. The ONA is a central hub for immigrant community outreach, improving language accessibility and creating partnerships with community organizations to provide culturally-competent social services.

## 20. PHYSICAL AND MENTAL HEALTH

### 23. BEHAVIORAL HEALTH SERVICES

#### 7700. DIVISION OF MENTAL HEALTH AND ADDICTION SERVICES

The Division of Mental Health and Addiction Services (DMHAS) serves as the Single State Agency for substance use and the State Mental Health Authority as designated by the federal Substance Abuse and Mental Health Services Administration. The DMHAS oversees New Jersey's adult system of community-based behavioral health services. These agencies provide a full array of services, including: substance use prevention and early intervention, recovery supports, emergency screening, mental health outpatient, outpatient and intensive outpatient addiction services, partial care and partial hospitalization, case management, medication assisted treatment for substance use, and long- and short-term mental health and substance use residential services, in

addition to other evidence-based practices, such as the Program for Assertive Community Treatment (PACT), supported employment and education, and supportive housing. Additionally, the DMHAS coordinates funding to support the 9-8-8 Suicide & Crisis Lifeline, Mobile Crisis Response Teams (MCORTS) and Crisis Receiving and Stabilization Centers (CRSC).

In addition to providing the overall coordination and management functions described above, pursuant to N.J.S.A. 30:4-78, as amended by P.L.2009, c.68, effective January 1, 2010, the DMHAS pays 85% for the treatment of county patients and 100% for the treatment of State patients in the three county psychiatric hospitals.

#### OBJECTIVES

1. To promote and facilitate wellness, treatment and recovery for individuals impacted by mental illness, substance use

disorder, as well as co-occurring mental health and substance use disorder through a comprehensive continuum of prevention, early intervention, treatment and recovery services.

# HUMAN SERVICES

2. To provide support services for the operational program units through which the mental health and addictions programs are carried out.

## PROGRAM CLASSIFICATIONS

Through contracts with community agencies, provides psychiatric emergency screening services, 9-8-8 suicide prevention & crisis lifeline services and a wide array of mental health service programs (including prevention, early intervention, treatment and recovery support services) designed to serve clients in a setting that is the least restrictive and appropriate to their clinical needs; to increase access to community-based care; and reduce admissions to State and county psychiatric hospitals. In addition, the Division provides mental health services in response to natural and manmade disasters and acts of terrorism. The DMHAS is also responsible for managing the State Aid program in support of patients in county psychiatric hospitals and reimbursing allowable costs incurred by the counties under that program.

09. **Addiction Services.** Carries out the responsibility for the planning and support for the statewide network of community addiction services throughout all 21 counties. Through

contracts with community agencies, provides support to multi-modality substance use prevention, treatment and recovery support programs, Medication-Assisted Treatment (MAT), counseling and detoxification services, peer recovery support, prevention services and counseling programs for individuals who have an addiction to gambling. Directs the disbursement and allocation of federal opioid settlements through the Opioid Recovery and Remediation Fund in consultation with the Opioid Recovery and Remediation Advisory Council. Monitors the use of funds disbursed to counties and municipalities and coordinates with the State Comptroller and the Attorney General to ensure that funds are used in accordance with N.J.S.A.26:2G-39 et. seq. and the National Opioid Resolution Agreement.

99. **Administration and Support Services.** Provides management, fiscal and budgetary control, as well as general support services necessary for overall oversight, monitoring and supervision of the DMHAS funded mental health and addictions programs including planning, development and evaluation of mental health and addiction programming to ensure compliance with statutory requirements; ensures that operating programs are consistent with public policies and professional treatment standards and are conducted in as effective a manner as possible.

### Notes:

Actual payroll counts are reported for fiscal years 2023 and 2024 as of December and revised fiscal 2025 as of January. The budget estimate for fiscal 2026 reflects the number of positions funded.

- “Cost to State” refers only to the State portion of the costs in each program incurred by the Community Care and 9-8-8 Suicide & Crisis Lifeline accounts. Additional funds for these programs are available from other divisions and funding sources, while the mix of State and other funding sources is subject to change from year to year.
- The revised fiscal 2025 “Cost to State” represents projected expenditures based on the adjusted appropriations; however, final expenditures are subject to change.
- Total clients served excludes the contacts to the NJ Hopeline and the 9-8-8 Suicide & Crisis Lifeline.
- These funds are transferred to Health Planning and Evaluation within the Department of Health to fund Short-Term Care Facility beds and supplement appropriations from the Health Care Subsidy Fund.
- The data reported for fiscal year 2023 reflects the contacts to, and the cost of, the NJ Hopeline. Fiscal 2024, 2025 and 2026 reflect the contacts to, and the cost of, the 9-8-8 Suicide & Crisis Lifeline.
- County hospital billable average daily population figures represent the average days billable to the DMHAS under the State Aid program and exclude other patient days that the facility may bill to other payers.
- Bergen County Hospital (New Bridge Medical Center) has several acute units including a licensed Short-Term Care Facility unit (STCF) which none of the other county hospitals have. The acute units were separated from all other units in this data to allow a more accurate comparison across hospitals.
- Union County Hospital (Cornerstone) privatized in October 2024 and will no longer be eligible for reimbursement under the current State Aid program.
- Reflects admissions reported to the New Jersey Substance Abuse Monitoring System (NJSAMS). Clients receiving other forms of care such as early intervention, prevention, and recovery, or treatment provided by independent practitioners are not included.

### **Language Recommendations -- State Aid - General Fund**

The unexpended balance at the end of the preceding fiscal year in the Support of Patients in County Psychiatric Hospitals account is appropriated for the same purpose.

Notwithstanding the provisions of R.S.30:4-78, or any law or regulation to the contrary, the State share of payments from the Support of Patients in County Psychiatric Hospitals account to the several county psychiatric facilities on behalf of the reasonable cost of maintenance of patients deemed to be county indigents shall be at the rate of 125 percent of the rate established by the Commissioner of Human Services, in consultation with the Commissioner of Health, for the period July 1 to December 31 and at the rate of 45 percent of the rate established by the Commissioner of Human Services, in consultation with the Commissioner of Health, for the period January 1 to June 30 such that the total amount to be paid by the State on behalf of county indigent patients for the calendar year shall not exceed 85 percent of the total reasonable per capita cost; and further provided that the rate at which the State will reimburse the county psychiatric hospitals shall not exceed 100 percent of the per capita rate at which each county pays to the State for the reasonable cost of maintenance and clothing of each patient residing in a State psychiatric facility, excluding the depreciation, interest and carry-forward adjustment components of this rate, and including the depreciation, interest, and carry-forward adjustment components of each individual county psychiatric hospital's rate established for the period January 1 to December 31 by the Commissioner of Human Services in consultation with the Commissioner of Health. The initial determination of whether a county hospital rate exceeds the per capita rate that counties pay to the State on behalf of applicable patients residing in a State psychiatric facility will be based on a comparison of estimated cost used to set reimbursement rates for the upcoming calendar year. A second comparison of the actual per diem costs of the county psychiatric hospital and State psychiatric hospitals will be completed after actual cost reports for the period are available including an inflationary adjustment for the six-month difference in fiscal reporting periods between State and county hospitals. The county hospital carry-forward adjustment to be included in rates paid by the State will exclude costs found to exceed 100 percent of the actual cost rate of the State psychiatric facilities.

Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated for Support of Patients in County Psychiatric Hospitals is conditioned upon the following provision: payments to county psychiatric hospitals will only be made after receipt of their claims by the Division of Mental Health and Addiction Services. County psychiatric hospitals shall submit such claims no less frequently than quarterly and within 15 days of the close of each quarter.

With the exception of all past, present, and future revenues representing federal financial participation received by the State from the United States that is based on payments to hospitals that serve a disproportionate share of low-income patients, which shall be retained by the State, the sharing of revenues received to defray the State Aid appropriation for the costs of maintaining patients in State and county psychiatric hospitals shall be based on the same percent as costs are shared between the State and counties.

The amount hereinabove appropriated for State Aid reimbursement payments for maintenance of patients in county psychiatric facilities shall be limited to inpatient services only, except that such reimbursement shall be paid to a county for outpatient and partial hospitalization services as defined by the Department of Human Services, if outpatient and/or partial hospitalization services had been previously provided at the county psychiatric facility prior to January 1, 1998. These outpatient and partial hospitalization payments shall not exceed the amount of State Aid funds paid to reimburse outpatient and partial hospitalization services provided during calendar year 1997. In addition, any revision or expansion to the number of inpatient beds or inpatient services provided at such hospitals which will have a material impact on the amount of State Aid payments made for such services, must first be approved by the Department of Human Services before such change is implemented.

The amount hereinabove appropriated for the Division of Mental Health and Addiction Services for State facility operations and the amount appropriated as State Aid for the costs of county facility operations are first charged to the federal Disproportionate Share Hospital (DSH) reimbursements anticipated as Medicaid uncompensated care. Accordingly, DSH revenues earned by the State related to services provided by county psychiatric hospitals which are supported through this State Aid appropriation shall be considered as the first source supporting the State Aid appropriation.

In addition to the amounts hereinabove appropriated for the Support of Patients in County Psychiatric Hospitals, in the event that the Assistant Commissioner of the Division of Mental Health and Addiction Services determines that, in order to provide the least restrictive setting appropriate, a patient should be admitted to a county psychiatric hospital in a county other than the one in which the patient is domiciled rather than to a State psychiatric hospital, there are hereby appropriated such additional amounts as may be required, as determined by the Assistant Commissioner to reimburse a county for the extra costs, if any, which were incurred in connection with the care of such patient in a county psychiatric hospital which exceeded the cost of care which would have been incurred had the patient been placed in a State psychiatric hospital, subject to the approval of the Director of the Division of Budget and Accounting.

The amount hereinabove appropriated for Support of Patients in County Psychiatric Hospitals is conditioned upon the following provisions: County psychiatric hospitals shall: (1) enroll and continue to maintain enrollment as providers in the State's NJ FamilyCare program; (2) complete or pursue in good faith the completion of eligibility applications for patients who could be NJ FamilyCare eligible; (3) bill the NJ FamilyCare program for all applicable services; and (4) neither admit nor discharge patients based upon NJ FamilyCare eligibility.

Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated for Support of Patients in County Psychiatric Hospitals is conditioned upon the county psychiatric hospitals providing and certifying all information that is required by the State, in the form specified by the Division of Mental Health and Addiction Services, to prepare a complete, accurate, and timely claim to federal authorities for Medicaid Disproportionate Share Hospital claim revenues.

Notwithstanding the provisions of R.S.30:4-78, or any other law or regulation to the contrary, the amount hereinabove appropriated for Support of Patients in County Psychiatric Hospitals is conditioned upon the following provisions: for rates effective January 1, 2013, and any prior year rate adjustments that may be required beginning January 1, 2013, the approval of the State House Commission

shall not be required for the setting of such rates and the Commissioner of Human Services, in consultation with the Commissioner of Health, shall set: (1) the per capita cost rates to be paid by the State to the several counties on behalf of the reasonable cost of maintenance of State and county patients in any county psychiatric facility, including outpatient psychiatric services, (2) the per capita rates which each county shall pay to the Treasurer for the reasonable cost of maintenance and clothing of each patient residing in a State psychiatric facility having a legal settlement in such county ("County Patients"), (3) the rates to be paid for the reasonable cost of maintenance and clothing of the convict and criminal mentally ill in any State psychiatric facility and the cost of maintenance of County Patients residing in State developmental centers or receiving other residential functional services for the developmentally disabled. Such rates will be fixed no later than October 1 of each calendar year. Notice of such rates shall be provided by the Commissioner of Human Services to the clerk of the respective boards of chosen freeholders.

In the event that the Division of Mental Health and Addiction Services is notified that a county psychiatric hospital will cease operations for the current fiscal year, or any portion thereof, in order to assure continuity of care for patients who otherwise would have been served by the county hospital, as well as to preserve patient and public safety, the Division shall have the authority to transfer funds from the Support of Patients in County Psychiatric Hospitals account to Direct State Services and Grants-In-Aid accounts in the Division of Mental Health and Addiction Services, for the fiscal year, subject to a plan approved by the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of R.S.30:4-78, or any law or regulation to the contrary, with respect to the amount hereinabove appropriated for Support of Patients in County Psychiatric Hospitals, commencing January 1, 2010, the State shall pay to each county an amount equal to 35 percent of the total per capita costs for the reasonable cost of maintenance and clothing of county patients in State psychiatric facilities.

In addition to the amount hereinabove appropriated for the Support of Patients in County Psychiatric Hospitals (PTRF), such additional amounts as determined by the Commissioner of Human Services are appropriated for the same purpose, subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of any law or regulation to the contrary, in addition to the amount hereinabove appropriated for Support of Patients in County Psychiatric Hospitals, \$10,000,000 is appropriated to a psychiatric hospital owned by a county with a ratio of maintained beds-to-licensed beds greater than 80 percent, according to the four quarters of 2024 data from the B-2 Quarterly Inpatient Utilization Report submitted to the Department of Health pursuant to N.J.A.C.8:31B-3.3, to be allotted in equal installments on a quarterly basis, subject to the approval of the Director of the Division of Budget and Accounting.

## 20. PHYSICAL AND MENTAL HEALTH

### 24. SPECIAL HEALTH SERVICES

#### 7540. DIVISION OF MEDICAL ASSISTANCE AND HEALTH SERVICES

The Division of Medical Assistance and Health Services (DMAHS) administers the NJ FamilyCare program for over 1.8 million low-to-moderate-income adults and children. With annual Statewide expenditures of over \$23 billion (\$20 billion within the DMAHS), NJ FamilyCare plays a key role in the direction of the health care delivery system in New Jersey, and thus, has the unique ability to improve care for those who would not otherwise have access. Beneficiaries of NJ FamilyCare are New Jersey residents determined financially and categorically eligible for medical assistance including low-income individuals, pregnant and postpartum women and certain dependent children, low-income

aged, disabled or blind persons, children in foster care programs, and certain classes of immigrants. The majority of the beneficiaries are enrolled in managed care plans that provide most health care benefits in exchange for a per member, per month payment. In 2024, these plans were administered by five managed care organizations (listed in order of enrollment): Horizon NJ Health, United Healthcare Community Plan, Wellpoint, Aetna and Fidelis Care. Program costs are shared between the State and federal government at varied rates depending on beneficiary income or the services provided.

#### OBJECTIVES

1. To provide subsidized access to affordable health care coverage through the NJ FamilyCare program's traditional and innovative delivery system models in a manner that is driven by quality performance and fiscal sustainability. Beneficiaries will have a streamlined enrollment experience; access to a robust network of qualified providers; and improved quality of care.
2. To optimize State resources through improved beneficiary health outcomes; use of innovative health care delivery models; continuous Division performance monitoring and analysis; and improved use of technology to enhance operations. Beneficiaries of NJ FamilyCare include New Jersey residents determined financially and categorically eligible for medical assistance including low-income individuals, pregnant and postpartum women and certain dependent children, low-income disabled or blind persons, Supplemental Security Income recipients, children in foster care programs, persons qualifying for the State's Qualified Income Trust programs, or Medical Assistance Only, and

certain classes of refugees and immigrants. In addition, the NJ FamilyCare program provides subsidized health care coverage to eligible children, parents, caretakers and childless adults through Medicaid Title XIX or the Children's Health Insurance Program (CHIP) Title XXI.

#### PROGRAM CLASSIFICATIONS

21. **Health Services Administration and Management.** Provides payments, through a fiscal agent, for provider claims processing. Makes payments for managed care capitation, county welfare agency eligibility determination and to a Health Benefits Coordinator vendor for beneficiary eligibility determination and health plan selection. Maintains the DMAHS's network of fee-for-service providers as well as monitors the health plans contracted with the DMAHS and provides overall program policy direction and management. Principal units of the Division include: fiscal, policy and innovation, clinical operations, managed care, information systems, legal and compliance, eligibility operations, vendor accountability, member and provider services, and quality assurance.

22. **General Medical Services.** Distributes payments to providers of medical care for services rendered on behalf of recipients covered by the various programs. With approximately 95% of NJ FamilyCare recipients now enrolled in managed care, most Division expenditures are in the form of

monthly capitation payments to managed care organizations who coordinate recipient care and make payments to health care providers. Payments that remain fee-for-service include nursing home benefits for select recipients and outpatient mental health/substance use services.

**Notes:**

- Actual payroll counts are reported for fiscal years 2023 and 2024 as of December and revised fiscal 2025 as of January. The budget estimate for fiscal 2026 reflects the number of positions funded.
- Dollar figures in Evaluation Data represent gross State and federal expenditures.
- Differences in the above calculations are due to the use of rounded average enrollment and cost figures.
- (a) Amounts for nursing home and community-based residents represent all costs, including acute care services.
- (b) In alignment with the second phase of the NJ WorkAbility Program expansion (P.L.2021, c.344), some enrollees are expected to pay a monthly premium, to be applied toward NJ FamilyCare costs.
- (c) Average enrollment decreased in fiscal year 2024 and is projected to fall again in fiscal 2025. A significant number of disenrollments occurred following the end of the public health emergency (PHE) due to the return of eligibility redeterminations. By fiscal 2026, enrollment is expected to stabilize and begin gradually increasing again.
- (d) Costs for these services are included within the total expenditures by eligibility group.
- (e) All hospital services (inpatient and outpatient services) are included in costs and distinct visit counts for actual, revised, and estimated values.

(a) The fiscal year 2025 appropriation has been adjusted, where relevant, for the allocation of salary program.

**Language Recommendations -- Direct State Services - General Fund**

The amounts hereinabove appropriated for Personal Services are conditioned upon the Department of Human Services working collaboratively with the various county corrections agencies to promote the proper enrollment in the NJ FamilyCare program of all eligible incarcerated persons requiring medical services. The department shall provide guidance to the county corrections agencies on this subject and, upon request, shall provide such additional assistance as may be necessary to support the counties in ensuring that all eligible Medicaid reimbursements are properly claimed consistent with federal law.

Such funds as are necessary from the Health Care Subsidy Fund are appropriated to the Division of Medical Assistance and Health Services for payment to disproportionate share hospitals for uncompensated care costs as defined in P.L.1991, c.187 (C.26:2H-18.24 et seq.), and for subsidized children's health insurance in the NJ FamilyCare Program established in P.L.2005, c.156 (C.30:4J-8 et al.) to maximize federal Title XXI funding, subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of any law or regulation to the contrary, all past, present, and future revenues representing federal financial participation received by the State from the United States and that are based on payments made by the State to hospitals that serve a disproportionate share of low-income patients shall be deposited into the General Fund and may be expended only upon appropriation by law.

Additional federal Title XIX revenue generated from the claiming of uncompensated care payments made to disproportionate share hospitals shall be deposited into the General Fund as anticipated revenue.

Notwithstanding the provisions of any law or regulation to the contrary, all revenues received from health maintenance organizations shall be deposited into the General Fund.

From the amounts hereinabove appropriated for Services Other Than Personal, there are appropriated such sums as are necessary for the department to contract for a comprehensive evaluation of the existing Medicaid-managed care contract and relevant Medicaid program regulations, which shall recommend opportunities to improve MCO performance and compliance.

Of the amounts hereinabove appropriated for Services Other Than Personal, an amount not to exceed \$2,750,000, subject to the approval of the Director of the Division of Budget and Accounting, is allocated for support of New Jersey's Regional Health Hubs to effectuate P.L.2019, c.517 (C.30:4D-8.16 et seq.). Payments to an individual Regional Health Hub (Hub) from this line item shall not exceed \$1,375,000 in State and matching federal funds per Hub. Consistent with P.L.2019, c.517 (C.30:4D-8.16 et seq.), a Regional Health Hub shall not receive funding until the Regional Health Hub has submitted an annual proposal. A portion of such funding shall be contingent on the Regional Health Hub's achievement of deliverables and performance metrics, as specified in the Regional Health Hub's approved proposal. In addition to funding appropriated here, State Departments shall have the discretion to support a Regional Health Hub's innovation projects that advance Medicaid priorities using other available dollars and may direct such dollars independently of the Department of Human Services.

The unexpended balances at the end of the preceding fiscal year, in the Payments to Fiscal Agents account are appropriated for the same purpose.

- Notwithstanding the provisions of any law or regulation to the contrary, all object accounts appropriated in the General Medical Services program classification shall be conditioned upon the following provision: when any action by a county welfare agency, whether alone or in combination with the Division of Medical Assistance and Health Services, results in a recovery of improperly granted medical assistance, the Division of Medical Assistance and Health Services may reimburse the county welfare agency in the amount of 25 percent of the gross recovery.
- In addition to the amounts hereinabove appropriated for payments to providers on behalf of medical assistance recipients, such additional amounts as may be required are appropriated from the General Fund to cover costs consequent to the establishment of presumptive eligibility for children, pregnant women, single adults or couples without dependent children, and parents and caretaker relatives in the NJ FamilyCare program, as established pursuant to P.L.2005, c.156 (C.30:4J-8 et al.).

- For the purposes of account balance maintenance, all object accounts appropriated in the General Medical Services program classification shall be considered as one object. #### OBJECTIVES

1. To provide a variety of medical, health and social services to individuals in their homes to avoid unnecessary institutional placement.
2. To provide prescription drugs for State residents qualifying for the Pharmaceutical Assistance to the Aged and Disabled (PAAD) and Senior Gold programs (C.30:4D-21 et seq.).
3. To promote and encourage advocacy for the aging population at the federal, State, county and municipal levels in order to ensure that seniors will not be deprived of their rights, privileges, entitlements or benefits.
4. To ensure through the 21 County-based Offices on Aging that a comprehensive, coordinated system of services including congregate and in-home nutrition services are provided on a daily basis to seniors aged 60 years and older with emphasis on those in greatest social and economic need.
5. To continue to serve as an effective and visible advocate for seniors through programs for the aging.
6. To provide assistance to senior citizens who have been found by the court to need a guardian or conservator and to administer those services in order to provide a better quality of life for each individual represented.
7. To set nursing facility NJ FamilyCare reimbursement and to incentivize continued quality improvement in nursing home care through the administration of per diem rate adjustments linked to an array of standardized performance measures.

#### PROGRAM CLASSIFICATIONS

20. **Medical Services for the Aged.** Supports medically related services to eligible seniors and individuals with disabilities including community-based services to clients who would normally be eligible for NJ FamilyCare coverage in an institution. Home care services are also provided to persons previously ineligible because of income limits.

24. **Pharmaceutical Assistance to the Aged and Disabled.** The Pharmaceutical Assistance to the Aged (PAA) program provides prescription drug benefits to persons over 65 years of age with an income of less than \$9,000 if single or \$12,000 if married. Eligible seniors above these income limits and individuals with disabilities are funded through the Pharmaceutical Assistance to the Aged and Disabled (PAAD) program, which provides prescription drug benefits to persons 65 years of age or older, or individuals over 18 years of age with disabilities as defined by the federal Social Security Act, with an income of less than \$53,446 if single or \$60,690 of combined income if married. The Senior Gold program provides prescription drug benefits to everyone 65 years of age or older or receiving Social Security Disability benefits, whose annual income is up to \$10,000 above the applicable PAAD income eligibility limits for single and married persons.

55. **Programs for the Aged.** Programs for the Aged (C.52:27D-28.1) provide for a coordinated system of community-based support programs using a "No Wrong Door" approach to improve the quality of life for New Jersey's seniors through technical assistance and grants to local entities. Funded programs include congregate and home delivered nutrition, informational assistance, outreach, caregiver support, personal care, legal services, transportation, telephone reassurance, housekeeping and chore services, and case management. These programs are financed with both State and federal funds. The 21 County Area Agencies on Aging are also supported with State Aid.

57. **Office of the Public Guardian.** The Public Guardian (C.52:27G-20 et seq.) provides guardianship services for senior adults who have been adjudicated legally incapacitated. Services include surrogate medical decision-making, legal representation, social and clinical oversight and coordination of services, as well as financial and real/personal property management.

### Notes:

Actual payroll counts are reported for fiscal years 2023 and 2024 as of December and revised fiscal 2025 as of January. The budget estimate for fiscal 2026 reflects the number of positions funded.

(a) The Pharmaceutical Assistance to the Aged and Disabled's (PAAD) income limits were increased in calendar years 2022 and 2024. The increase caused eligibles to shift from the Senior Gold Prescription Discount Program to PAAD and affected each program's average monthly eligibles in fiscal years 2023 through 2025, and is expected to have an effect in fiscal 2026.

(b) Excludes \$2,850,000 appropriated for administration.

### **Language Recommendations -- Grants-In-Aid - General Fund**

Of the amount hereinabove appropriated in the Pharmaceutical Assistance to the Aged and Disabled-Claims program, notwithstanding the provisions of section 3 of P.L.1975, c.194 (C.30:4D-22) or any law or regulation to the contrary, the copayment in the Pharmaceutical Assistance to the Aged and Disabled program shall be \$5 for generic drugs and \$7 for brand name drugs.

Notwithstanding the provisions of any law or regulation to the contrary, the amounts hereinabove appropriated for the Pharmaceutical Assistance to the Aged and Pharmaceutical Assistance to the Aged and Disabled (PAAD) programs are conditioned upon the Department of Human Services coordinating the benefits of the PAAD programs with the prescription drug benefits of the federal "Medicare Prescription Drug, Improvement, and Modernization Act of 2003," Pub.L.108-173, as the primary payer due to the current federal prohibition against State automatic enrollment of PAAD program recipients in the federal program. The PAAD program benefit and reimbursement shall only be available to cover the beneficiary cost share to in-network pharmacies and for deductible and coverage gap costs, as determined by the Commissioner of Human Services, associated with enrollment in Medicare Part D for beneficiaries of the PAAD and Senior Gold Prescription Discount programs, and for Medicare Part D premium costs for PAAD beneficiaries.

Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated for the Pharmaceutical Assistance to the Aged and Disabled program is subject to the following condition: any third party, as defined in subsection m. of section 3 of P.L.1968, c.413 (C.30:4D-3), or in 42 U.S.C. s.1396a(a)(25)(A), including, but not limited to, a pharmacy benefit manager writing health, casualty, or malpractice insurance policies in the State or covering residents of this State, shall enter into an agreement with the Department of Human Services to permit and assist the matching of the Department of Human Services' program eligibility and/or adjudication claims files against that third party's eligibility and/or adjudicated claims files for the purpose of the coordination of benefits, utilizing, if necessary, social security numbers as common identifiers.

All funds recovered pursuant to P.L.1968, c.413 (C.30:4D-1 et seq.) and P.L.1975, c.194 (C.30:4D-20 et seq.) during the preceding fiscal year are appropriated for payments to providers in the same program classification from which the recovery originated.

Notwithstanding the provisions of any law or regulation to the contrary, a sufficient portion of receipts generated or savings realized in the Medical Services for the Aged or Pharmaceutical Assistance to the Aged and Disabled Grants-In-Aid accounts from initiatives included in the current fiscal year appropriations act may be transferred to administration accounts to fund costs incurred in realizing these additional receipts or savings, subject to the approval of the Director of the Division of Budget and Accounting.

Benefits provided under the Pharmaceutical Assistance to the Aged and Disabled (PAAD) program, P.L.1975, c.194 (C.30:4D-20 et seq.), and the Senior Gold Prescription Discount Program, P.L.2001, c.96 (C.30:4D-43 et seq.), shall be the last resource benefits, notwithstanding any provisions contained in contracts, wills, agreements, or other instruments. Any provision in a contract of insurance, will, trust agreement, or other instrument which reduces or excludes coverage or payment to an individual because of that individual's eligibility for, or receipt of, PAAD or Senior Gold Prescription Discount Program benefits shall be void, and no PAAD and Senior Gold Prescription Discount Program payments shall be made as a result of any such provision.

Notwithstanding the provisions of any law or regulation to the contrary, no funds appropriated in the Pharmaceutical Assistance to the Aged and Disabled program classification and the Senior Gold Prescription Discount Program account shall be expended for fee-for-service prescription drug claims with no Medicare Part D coverage except under the following conditions: (1) the maximum allowable cost for legend and non-legend drugs shall be calculated based on Actual Acquisition Cost (AAC) defined as the lowest of (i) the National Average Drug Acquisition Cost (NADAC) Retail Price Survey, developed in accordance with subsection (f) of section 1927 of the Social Security Act; (ii) Wholesale Acquisition Cost (WAC) less a volume discount, in the absence of a NADAC price, that is consistent with the NJ FamilyCare program; (iii) the federal upper limit; or (iv) the State upper limit (SUL); and (v) cost acquisition data submitted by providers of pharmaceutical services for brand-name multi-source drugs and multi-source drugs in the absence of any alternative pricing benchmarks; (2) pharmacy reimbursement for legend and non-legend drugs shall be calculated based on (i) the lower of the AAC plus a professional fee, that is consistent with the NJ FamilyCare program; or a provider's usual and customary charge; or (ii) the lower of cost acquisition data submitted by providers of pharmaceutical services for brand-name multi-source and multi-source drugs, where an alternative pricing benchmark is not available, plus a professional fee that is consistent with the NJ FamilyCare program; or a provider's usual and customary charge. For legend drugs purchased through the 340B Drug Pricing Program, the maximum allowable cost shall be based on the 340B ceiling price. In the absence of a 340B ceiling price, the alternative benchmark used shall be the WAC minus a volume discount of 25 percent. The 340B ceiling price or the alternative benchmark shall only apply when its price is the lowest compared to the pricing formulas described by (i) through (v) above. Reimbursement for covered outpatient drugs shall be calculated based on: (i) the lower of the AAC plus a professional fee of \$10.92; or a provider's usual and customary charge; or (ii) the lower of cost acquisition data submitted by providers of pharmaceutical services for brand-name multi-source and multi-source drugs, where an alternative pricing benchmark is not available, plus a professional fee of \$10.92; or a provider's usual and customary charge. To effectuate the calculation of SUL rates and/or the calculation of single-source and brand-name multi-source legend and non-legend drug costs where an alternative pricing benchmark is not available, the Department of Human Services shall mandate ongoing submission of current drug acquisition data by providers of pharmaceutical services. No funds hereinabove appropriated shall be paid to any entity that fails to submit required data.

Notwithstanding the provisions of any law or regulation to the contrary, no funds appropriated for the Pharmaceutical Assistance to the Aged and Disabled (PAAD) program, pursuant to P.L.1975, c.194 (C.30:4D-20 et seq.), or the Senior Gold Prescription Discount Program (Senior Gold), pursuant to P.L.2001, c.96 (C.30:4D-43 et seq.), shall be expended when PAAD or Senior Gold is the primary payer, unless participating pharmaceutical manufacturing companies execute contracts with the Department of Human Services, provided, however, nothing in this paragraph shall apply to insulin products. Name brand manufacturers must provide for the

payment of rebates to the State on the same basis as provided for in subsections (a) through (c) of section 1927 of the federal Social Security Act, 42 U.S.C. s.1396r-8.

Notwithstanding the provisions of any law or regulation to the contrary, no funds appropriated for the Pharmaceutical Assistance to the Aged and Disabled (PAAD) program pursuant to P.L.1975, c.194 (C.30:4D-20 et seq.), and the Senior Gold Prescription Discount Program, pursuant to P.L.2001, c.96 (C.30:4D-43 et seq.), shall be expended unless participating pharmaceutical manufacturing companies execute contracts with the Department of Human Services, providing for the payment of rebates to the State provided, however, nothing in this paragraph shall apply to insulin products. Furthermore, rebates from pharmaceutical manufacturing companies for prescriptions purchased by the PAAD program and the Senior Gold Prescription Discount Program shall continue during the current fiscal year, provided that the manufacturer's rebates for PAAD claims paid as secondary to Medicare Part D and for the Senior Gold Prescription Discount Program shall apply only to the amount paid by the State under the PAAD and Senior Gold Prescription Discount Programs. All revenues from such rebates during the current fiscal year are appropriated for the PAAD program and the Senior Gold Prescription Discount Program.

In addition to the amount hereinabove appropriated for the Pharmaceutical Assistance to the Aged and Disabled and the Senior Gold Prescription Discount programs, there are appropriated such additional amounts from the General Fund and available federal matching funds as may be required for the payment of claims, credits, and rebates, subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of any law or regulation to the contrary, the appropriations for the Pharmaceutical Assistance to the Aged and Disabled program and the Senior Gold Prescription Discount Program are conditioned upon the Department of Human Services coordinating benefits with any voluntary prescription drug mail-order or specialty pharmacy in a Medicare Part D provider network or private third party liability plan network for beneficiaries enrolled in a Medicare Part D program or beneficiaries with primary prescription coverage that requires use of mail order. The mail-order program may waive, discount, or rebate the beneficiary copayment and mail-order pharmacy providers may dispense up to a 90-day supply on prescription refills with the voluntary participation of the beneficiary, subject to the approval of the Commissioner of Human Services and the Director of the Division of Budget and Accounting.

Consistent with the requirements of the federal "Medicare Prescription Drug, Improvement, and Modernization Act of 2003," Pub.L.108-173, and the current federal prohibition against State automatic enrollment of Pharmaceutical Assistance to the Aged and Disabled (PAAD) programs and Senior Gold Prescription Discount Program recipients, no funds hereinabove appropriated to the PAAD program or Senior Gold Prescription Discount Program accounts shall be expended for any individual unless the individual enrolled in the PAAD program or Senior Gold Prescription Discount Program provides all data necessary to enroll the individual in Medicare Part D, including data required for the subsidy assistance, as outlined by the Centers for Medicare and Medicaid Services.

Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated for the Pharmaceutical Assistance to the Aged and Disabled (PAAD) programs, and Senior Gold Prescription Discount Program shall be conditioned upon the following provision: no funds shall be appropriated for the refilling of a prescription drug when paid by PAAD or the Senior Gold Prescription Discount Program as the primary payer until such time as the original prescription is 85 percent finished.

Notwithstanding the provisions of any law or regulation to the contrary, no amounts hereinabove appropriated for the Pharmaceutical Assistance to the Aged and Disabled program or the Senior Gold Prescription Discount Program shall be expended for diabetic testing materials and supplies which are covered under the federal Medicare Part B program, or for vitamins, cough/cold medications, drugs used for the treatment of erectile dysfunction, or cosmetic drugs, including, but not limited to: drugs used for baldness, weight loss, and skin conditions.

Notwithstanding the provisions of any law or regulation to the contrary, no amounts hereinabove appropriated for the Pharmaceutical Assistance to the Aged and Disabled (PAAD) program or the Senior Gold Prescription Discount Program shall be expended to cover medications not on the formulary of a PAAD program or Senior Gold Prescription Discount Program beneficiary's Medicare Part D plan. This exclusion shall not apply to those drugs covered by the PAAD program and Senior Gold Prescription Discount Program which are specifically excluded by the federal Medicare Prescription Drug Program. In addition, this exclusion shall not impact the beneficiary's rights, guaranteed by the "Medicare Prescription Drug, Improvement, and Modernization Act of 2003", Pub.L.108-173, to appeal the medical necessity of coverage for drugs not on the formulary of a Medicare Part D plan.

The amounts hereinabove appropriated for payments for the Pharmaceutical Assistance to the Aged and Disabled program, P.L.1975, c.194 (C.30:4D-20 et seq.), the Senior Gold Prescription Discount Program, P.L.2001, c.96 (C.30:4D-43 et seq.), and Community Based Senior Programs are available for the payment of obligations applicable to prior fiscal years.

From the amount hereinabove appropriated for the Pharmaceutical Assistance to the Aged - Claims and Senior Gold Prescription Discount Program, an amount not to exceed \$2,850,000 may be transferred to various accounts as required, including Direct State Services accounts, subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of any law or regulation to the contrary, no funds appropriated in the Pharmaceutical Assistance to the Aged and Disabled (PAAD) program and Senior Gold Prescription Discount Program accounts shall be available as payment as a PAAD program or the Senior Gold Prescription Discount Program benefit to any pharmacy that is not enrolled as a participating pharmacy in a pharmacy network under Medicare Part D.

In order to permit flexibility in implementing ElderCare Initiatives hereinabove appropriated as part of Community Based Senior Programs, amounts may be transferred between Direct State Services and Grants-In-Aid accounts, subject to the approval of the Director of the Division of Budget and Accounting. Notice thereof shall be provided to the Legislative Budget and Finance Officer on the effective date of the approved transfer.

Notwithstanding the provisions of any law to the contrary, amounts hereinabove appropriated for Aging and Disability Resource Connections (ADRC) shall be conditioned upon the following: federal matching funds derived from ADRC or Area Agencies on

Aging Medicaid costs, pursuant to an approved cost allocation plan, shall be disbursed to counties solely for the expansion of long-term care services and supports for older adults and individuals seeking home and community based services.

In order to permit flexibility in the handling of appropriations and ensure the timely payment of claims to providers of prescription drugs, amounts may be transferred between accounts within the Pharmaceutical Assistance to the Aged and Disabled program classification, subject to the approval of the Director of the Division of Budget and Accounting.

The amount hereinabove appropriated for the Senior Wellness Pilot Program is subject to the following conditions: the Commissioner of Human Services shall develop a competitive grant program to fund local government units and nonprofit organizations implementing initiatives that improve socialization and support the health and wellbeing of older adults, and homebound individuals, subject to the approval of the Director of the Division of Budget and Accounting.

### **Language Recommendations -- Grants-In-Aid - Casino Revenue Fund**

In addition to the amount hereinabove appropriated for the Pharmaceutical Assistance to the Aged and Disabled program, there are appropriated such additional amounts as may be required from the Casino Revenue Fund and available federal matching funds for the payment of claims, credits, and rebates, subject to the approval of the Director of the Division of Budget and Accounting.

The amounts hereinabove appropriated for payments for the Pharmaceutical Assistance to the Aged and Disabled program, P.L.1975, c.194 (C.30:4D-20 et seq.), are available for the payment of obligations applicable to prior fiscal years.

Benefits provided under the Pharmaceutical Assistance to the Aged and Disabled (PAAD) program, P.L.1975, c.194 (C.30:4D-20 et seq.), shall be the last resource benefits, notwithstanding any provision contained in contracts, wills, agreements, or other instruments. Any provision in a contract of insurance, will, trust agreement, or other instrument which reduces or excludes coverage or payment to an individual because of that individual's eligibility for or receipt of PAAD benefits shall be void, and no PAAD payments shall be made as a result of any such provision.

Of the amount hereinabove appropriated in the Pharmaceutical Assistance to the Aged and Disabled-Claims program, notwithstanding the provisions of section 3 of P.L.1975, c.194 (C.30:4D-22) or any law or regulation to the contrary, the copayment in the Pharmaceutical Assistance to the Aged and Disabled program shall be \$5 for generic drugs and \$7 for brand name drugs.

Notwithstanding the provisions of any law or regulation to the contrary, subject to the approval of a plan by the Commissioner of Human Services no funds appropriated for the Pharmaceutical Assistance to the Aged and Disabled (PAAD) program, pursuant to P.L.1975, c.194 (C.30:4D-20 et seq.), shall be expended when PAAD is the primary payer, unless participating pharmaceutical manufacturing companies execute contracts with the Department of Human Services, provided, however, nothing in this paragraph shall apply to insulin products. Name brand manufacturers must provide for the payment of rebates to the State on the same basis as provided for in subsections (a) through (c) of section 1927 of the federal Social Security Act, 42 U.S.C. s.1396r-8.

Notwithstanding the provisions of any law or regulation to the contrary, no funds appropriated for the Pharmaceutical Assistance to the Aged and Disabled (PAAD) program, pursuant to P.L.1975, c.194 (C.30:4D-20 et seq.), shall be expended unless participating pharmaceutical manufacturing companies execute contracts with the Department of Human Services, providing for the payment of rebates to the State provided, however, nothing in this paragraph shall apply to insulin products. Furthermore, rebates from pharmaceutical manufacturing companies for prescriptions purchased by the PAAD program shall continue during the current fiscal year, provided that the manufacturers' rebates for PAAD claims paid as secondary to Medicare Part D shall apply only to the amount paid by the State under the PAAD program. All revenues from such rebates during the current fiscal year are appropriated for the PAAD program.

Notwithstanding the provisions of any law or regulation to the contrary, the appropriations for the Pharmaceutical Assistance to the Aged and Disabled program are conditioned upon the Department of Human Services coordinating benefits with any voluntary prescription drug mail-order or specialty pharmacy in a Medicare Part D provider network or private third party liability plan network for beneficiaries enrolled in a Medicare Part D program or beneficiaries with primary prescription coverage that requires use of mail-order. The mail-order program may waive, discount, or rebate the beneficiary copayment and mail-order pharmacy providers may dispense up to a 90-day supply on prescription refills with the voluntary participation of the beneficiary, subject to the approval of the Commissioner of Human Services and the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated to the Pharmaceutical Assistance to the Aged and Disabled (PAAD) program is conditioned upon the Department of Human Services coordinating the benefits of the PAAD program with the prescription drug benefits of the federal "Medicare Prescription Drug, Improvement, and Modernization Act of 2003," Pub.L.108-173, as the primary payer due to the current federal prohibition against State automatic enrollment of PAAD program recipients in the federal program. The PAAD program benefit and reimbursement shall only be available to cover the beneficiary cost share to in-network pharmacies and for deductible and coverage gap costs, as determined by the Commissioner of Human Services, associated with enrollment in Medicare Part D for beneficiaries of the PAAD and the Senior Gold Prescription Discount Program, and for Medicare Part D premium costs for PAAD program beneficiaries.

Notwithstanding the provisions of any law or regulation to the contrary, no funds appropriated in the Pharmaceutical Assistance to the Aged and Disabled (PAAD) program and the Senior Gold Prescription Discount Program accounts shall be available as payment as a PAAD program or Senior Gold Prescription Discount Program benefit to any pharmacy that is not enrolled as a participating pharmacy in a pharmacy network under Medicare Part D.

Consistent with the requirements of the federal "Medicare Prescription Drug, Improvement, and Modernization Act of 2003," Pub.L.108-173, and the current federal prohibition against State automatic enrollment of Pharmaceutical Assistance to the Aged and Disabled (PAAD) program recipients, no funds hereinabove appropriated from the PAAD account shall be expended for any individual enrolled in the PAAD program unless the individual provides all data that may be necessary to enroll the individual in Medicare Part D, including data required for the subsidy assistance, as outlined by the Centers for Medicare and Medicaid Services.

Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated for the Pharmaceutical Assistance to the Aged and Disabled (PAAD) program shall be conditioned upon the following provision: no funds shall be

appropriated for the refilling of a prescription drug paid by PAAD as a primary payer until such time as the original prescription is 85 percent finished.

Notwithstanding the provisions of any law or regulation to the contrary, no amounts hereinabove appropriated for the Pharmaceutical Assistance to the Aged and Disabled (PAAD) program shall be expended to cover medications not on the formulary of a PAAD program beneficiary's Medicare Part D plan. This exclusion shall not apply to those drugs covered by PAAD which are specifically excluded by the federal Medicare Prescription Drug Program. In addition, this exclusion shall not impact the beneficiary's rights, guaranteed by the "Medicare Prescription Drug, Improvement, and Modernization Act of 2003," Pub.L.108-173, to appeal the medical necessity of coverage for drugs not on the formulary of a Medicare Part D plan.

Notwithstanding the provisions of any law or regulation to the contrary, no amounts hereinabove appropriated for the Pharmaceutical Assistance to the Aged and Disabled (PAAD) program shall be expended for diabetic testing materials and supplies which are covered under the federal Medicare Part B program, or for vitamins, cough/cold medications, drugs used for the treatment of erectile dysfunction, or cosmetic drugs including but not limited to: drugs used for baldness, weight loss, and skin conditions.

Notwithstanding the provisions of any law or regulation to the contrary, no funds appropriated in the Pharmaceutical Assistance to the Aged and Disabled program classification and the Senior Gold Prescription Discount Program account shall be expended for fee-for-service prescription drug claims with no Medicare Part D coverage except under the following conditions: (1) the maximum allowable cost for legend and non-legend drugs shall be calculated based on Actual Acquisition Cost (AAC) defined as the lowest of (i) the National Average Drug Acquisition Cost (NADAC) Retail Price Survey, developed in accordance with subsection (f) of section 1927 of the Social Security Act; (ii) Wholesale Acquisition Cost (WAC) less a volume discount, in the absence of a NADAC price, that is consistent with the NJ FamilyCare program; (iii) the federal upper limit; or (iv) the State upper limit (SUL); and (v) cost acquisition data submitted by providers of pharmaceutical services for brand-name multi-source drugs and multi-source drugs in the absence of any alternative pricing benchmarks; (2) pharmacy reimbursement for legend and non-legend drugs shall be calculated based on (i) the lower of the AAC plus a professional fee, that is consistent with the NJ FamilyCare program; or a provider's usual and customary charge; or (ii) the lower of cost acquisition data submitted by providers of pharmaceutical services for brand-name multi-source and multi-source drugs, where an alternative pricing benchmark is not available, plus a professional fee that is consistent with the NJ FamilyCare program; or a provider's usual and customary charge. For legend drugs purchased through the 340B Drug Pricing Program, the maximum allowable cost shall be based on the 340B ceiling price. In the absence of a 340B ceiling price, the alternative benchmark used shall be the WAC minus a volume discount of 25 percent. The 340B ceiling price or the alternative benchmark shall only apply when its price is the lowest compared to the pricing formulas described by (i) through (v) above. Reimbursement for covered outpatient drugs shall be calculated based on: (i) the lower of the AAC plus a professional fee of \$10.92; or a provider's usual and customary charge; or (ii) the lower of cost acquisition data submitted by providers of pharmaceutical services for brand-name multi-source and multi-source drugs, where an alternative pricing benchmark is not available, plus a professional fee of \$10.92; or a provider's usual and customary charge. To effectuate the calculation of SUL rates and/or the calculation of single-source and brand-name multi-source legend and non-legend drug costs where an alternative pricing benchmark is not available, the Department of Human Services shall mandate ongoing submission of current drug acquisition data by providers of pharmaceutical services. No funds hereinabove appropriated shall be paid to any entity that fails to submit required data.

All funds recovered under P.L.1968, c.413 (C.30:4D-1 et seq.) and P.L.1975, c.194 (C.30:4D-20 et seq.), during the current fiscal year are appropriated for payments to providers in the same program classification from which the recovery originated.

Notwithstanding the provisions of any law or regulation to the contrary, a sufficient portion of receipts generated or savings realized in the Casino Revenue Fund or Pharmaceutical Assistance to the Aged and Disabled Grants-In-Aid accounts from initiatives included in the current fiscal year's annual appropriations act may be transferred to administration accounts to fund costs incurred in realizing these additional receipts or savings, subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of any law or regulation to the contrary, of the amount hereinabove appropriated for the Community Based Senior Programs (CRF) account, \$93,000 shall be charged to the Casino Simulcasting Fund.

In order to permit flexibility in the handling of appropriations and ensure the timely payment of claims to providers of prescription drugs, amounts may be transferred between accounts within the Pharmaceutical Assistance to the Aged and Disabled program classification, subject to the approval of the Director of the Division of Budget and Accounting.

## 30. EDUCATIONAL, CULTURAL, AND INTELLECTUAL DEVELOPMENT 32. OPERATION AND SUPPORT OF EDUCATIONAL INSTITUTIONS

The Division of Developmental Disabilities administers five residential developmental centers for individuals with intellectual and developmental disabilities. All are certified by the federal government as Intermediate Care Facilities for Individuals with Intellectual and Developmental Disabilities (ICF/IDDs) and are supported by a combination of federal funds and State appropriations. The centers provide a range of vocational, habilitative, health, psychological and social services for their residents. Many residents of the centers have moderate to profound developmental disabilities and medical and/or physical issues, and some also have a psychiatric diagnosis. The five centers are:

Green Brook Regional Center (C.30:4-165.1 et seq.), founded in 1981 in Green Brook, Somerset County, is a specialized geriatric center that serves residents over age 55. Residents of the Center range from moderately to profoundly developmentally disabled. Green Brook is a three-story building that previously housed Raritan Valley Hospital.

Vineland Developmental Center (C.30:4-165.1 et seq.), founded in 1888 in Vineland, Cumberland County, provides services for individuals with all levels of developmental disabilities. The Center's 257 acres encompass two campuses - East Campus at

Main and Landis Avenues and West Campus on Orchard Road. During fiscal year 2011, operations at the West Campus ceased and residents moved to community settings and other facilities, including the East Campus.

Woodbine Developmental Center (C.30:4-165.1 et seq.), founded in 1921 and located on 250 acres in Woodbine, Cape May County, provides care and training for individuals with all levels of capability. The Center's program is designed to encourage residents to become as self-sufficient as possible.

New Lisbon Developmental Center (C.30:4-165.1 et seq.), founded in 1914 in New Lisbon, Burlington County, is located on a 1,896 acre tract of land at the edge of the Pinelands and provides services for individuals with all levels of developmental disabilities. In fiscal 1998, the Moderate Security Unit for court-ordered individuals with developmental disabilities was moved to New Lisbon.

Hunterdon Developmental Center (C.30:4-165.1 et seq.), founded in 1969, is located in Clinton, Hunterdon County. The Center provides a broad spectrum of behavioral, medical and habilitation services to individuals with all levels of developmental disabilities.

**OBJECTIVES**

1. To enhance quality of life and community inclusion for adults with intellectual and developmental disabilities through the provision of individualized health and habilitative services, 24 hours a day, 365 days a year.
2. To continually develop and sustain a compassionate and dedicated workforce that is skilled in delivering high-quality and complex medical and behavioral care to individuals with a diverse range of capabilities and goals.
3. To provide opportunities and resources for skill development in order to maximize independence and to successfully support those individuals who choose to transition to community living.

provision of housing; food and clothing; care and supervision; development of self-help skills and personal hygiene (e.g., feeding, personal toilet habits, dressing, bathing and grooming) and social skills.

Habilitation Services encompasses the evaluation, development and implementation of active treatment programs under the direct supervision of professional staff at each facility. Treatment programs are designed to meet individual needs for emotional, physical and social development and include services such as recreation and family contact, psychological and medical services, physical therapy and vocational development.

**Notes -- Direct State Services - General Fund**

(a) The fiscal year 2025 appropriation has been adjusted, where relevant, for the allocation of salary program.

**Language Recommendations -- Direct State Services - General Fund**

The State appropriation for the State's developmental centers is based on ICF/IDD revenues of \$278,769,000, provided that if the ICF/IDD revenues exceed \$278,769,000, an amount equal to the excess ICF/IDD revenues may be deducted from the State appropriation for the developmental centers, subject to the approval of the Director of the Division of Budget and Accounting.

In order to permit flexibility in the handling of appropriations and ensure timely payments to service providers, funds may be transferred to and from the various items of appropriation in the Residential Care and Habilitation Services and Administration and Support Services program classifications within the developmental centers accounts, subject to the approval of the Director of the Division of Budget and Accounting.

In addition to the amount hereinabove appropriated for Operation and Support of Educational Institutions of the Division of Developmental Disabilities, such other amounts provided in Inter-Departmental accounts for Employee Benefits, as the Director of

the Division of Budget and Accounting shall determine, are considered as appropriated on behalf of the developmental centers and are available for matching federal funds.

**30. EDUCATIONAL, CULTURAL, AND INTELLECTUAL DEVELOPMENT**  
**32. OPERATION AND SUPPORT OF EDUCATIONAL INSTITUTIONS**  
**7601. COMMUNITY PROGRAMS**

The Division of Developmental Disabilities (DDD) coordinates public funding to support services for eligible New Jersey adults, age 21 and older, with intellectual and developmental disabilities (I/DD). Services are primarily provided through fee-for-service reimbursement to approximately 700 provider agencies and may include, but are not limited to, employment, day, residential and family support services in the community. The DDD operates in a Medicaid-based, fee-for-service (FFS) model with a limited number of contracts. This enables the State to draw down a federal match for the maximum number of services; to increase the number of adults served and the number and types of services available; and to increase opportunities for adults with I/DD to

participate meaningfully in their communities.

Currently, approximately 28,000 New Jersey residents are eligible to receive home and community-based services through the DDD's two waiver programs, the Supports Program and the Community Care Program. Additionally, the DDD operates five residential developmental centers serving approximately 950 people. The DDD is committed to providing a variety of housing choices for individuals, including appropriate placements in the community, in accordance with the U.S. Supreme Court's Olmstead decision.

**OBJECTIVES**

1. To provide executive management of the Division of Developmental Disabilities within the Department of Human Services, which includes core functions related to intake and eligibility, oversight of the delivery of services and supports to individuals, provider monitoring, housing development, family outreach, and developmental center operations.
2. To ensure adults with intellectual and developmental disabilities have access to high-quality services that enable them to live, work and participate meaningfully in their communities.
3. To educate individuals and their families about appropriate and available services and the ways in which they may choose to receive services, including self-direction, provider managed, or a combination thereof, and their right to choose services and supports from their preferred vendors approved by the Department.
4. To protect the health, safety and personal choices of individuals receiving services through partnerships with individuals, families and providers.
5. To support individuals in obtaining appropriate and available services and to evaluate the medical, psychological, social, educational, and related factors that may create barriers to accessing services.
6. To maintain a robust network of community-based, Department approved providers that are able to provide meaningful services to individuals and their families.

services to adults with developmental disabilities declared eligible for and in need of services through the Division's Community Care Program. Services are selected by the individual through a person-centered planning process and may be provided through placement in licensed residential or self-directed settings.

02. **Social Supervision and Consultation.** Provides care management services, such as Support Coordination or Case Management, designed to assist adults with developmental disabilities to continue to live and function in their home communities with prior authorized support services selected by the individual through a person-centered planning process. Services provide support to individuals living with families or independently in the community. Other funded services include activities around determination of eligibility and awareness around intellectual and developmental disabilities.
03. **Adult Activities.** Provides community-based employment/day services to adults with developmental disabilities that will allow for experience, training and opportunities in an adult atmosphere conducive to the development of personal, social and work skills. Provides the opportunity to achieve the greatest independence possible in employment and vocational areas.
08. **Community Services.** Provides administration and supervision of Division approved community services, which may include core functions related to intake and eligibility, oversight of the delivery of services and supports to the individuals the Division serves, provider monitoring, housing development and family outreach.
99. **Administration and Support Services.** Provides administration and support services. Allows for necessary leadership, control and supervision of the Division.

**PROGRAM CLASSIFICATIONS**

01. **Purchased Residential Care.** Reimburses providers and/or self-directed employees for prior authorized supports and

**30. EDUCATIONAL, CULTURAL, AND INTELLECTUAL DEVELOPMENT**  
**33. SUPPLEMENTAL EDUCATION AND TRAINING PROGRAMS**  
**7560. COMMISSION FOR THE BLIND AND VISUALLY IMPAIRED**

The New Jersey Commission for the Blind and Visually Impaired (CBVI) provides and promotes services in the areas of education, employment, independence, and eye health for people who are blind, deaf-blind or vision-impaired, as well as for their families and the community at large.

The CBVI recognizes three core priorities within its mission: (1) providing specialized services to persons with vision loss, (2) educating and working in the community to reduce the incidence of vision loss and (3) improving social attitudes concerning people

with vision loss.

The CBVI works to provide access to services that will enable consumers to obtain their fullest measure of self-reliance.

With the adoption of the Workforce Innovation and Opportunity Act (WIOA), the law that governs federal vocational rehabilitation programs, the CBVI has introduced a variety of new education and transition-age youth programs and services that are consistent with the WIOA mandates.

**OBJECTIVES**

1. To assist blind, deaf-blind and vision-impaired persons to adjust to their disability and to secure employment.
2. To provide special instruction and support services to blind, deaf-blind and vision-impaired children in the least restrictive setting.
3. To provide independent living services to all blind and vision-impaired residents of New Jersey.
4. To supervise and carry out screening activities for eye disease involving individuals from groups identified as ordinarily susceptible to eye problems.
5. To provide medical restorative treatment to prevent further loss of sight.
6. To disseminate to the public information on (1) the prevalence and prevention of vision loss, emphasizing early detection and (2) the wide array of services available to blind, deaf-blind and vision-impaired persons.

The fiscal year 2026 budget for the Department of Labor and Workforce Development totals \$214.8 million, an increase of \$3.7 million or 1.8% above the fiscal 2025 adjusted appropriation of \$211.1 million. By increasing apprenticeship and pre-apprenticeship opportunities in the state, New Jersey residents benefit by participating in an ecosystem that provides multiple years of economic support and occupational skills training, leading to

sustainable wages and upward mobility. Work-Based Learning, commonly referred to as Perkins V, is sustained interactions with industry or community professionals in real workplace settings, to the extent practicable, or simulated environments at an educational institution that foster in-depth, firsthand engagement with the tasks required in each career field, that are aligned to curriculum and instruction. ## 50. ECONOMIC PLANNING, DEVELOPMENT, AND SECURITY 53. ECONOMIC ASSISTANCE AND SECURITY

### OBJECTIVES

1. To accumulate adequate reserves for the payment of benefits to temporarily and involuntarily unemployed, disabled individuals and individuals who are unable to work due to the need to care for an ill family member or to bond with a newborn or newly adopted child.
2. To provide prompt, efficient payment of benefits to eligible individuals.
3. To ensure the integrity of trust funds by utilizing best practices to reduce improper payments and modern fraud control techniques in cooperation with other State and federal agencies.
4. To act as an agent for the federal government in payment of unemployment insurance to federal employees and recently discharged veterans.
5. To make prompt and efficient determinations of disability claims under Title II and Title XVI of the Social Security Act.
6. To provide prompt and efficient economic assistance to workers disabled by non-work related sickness or accident, as well as, workers who need to bond with a newborn or newly adopted child or workers who need to care for a seriously ill family member.
7. To assure prompt, efficient and fair resolution of claims by employees resulting from work-related accidents or occupational exposures, and to expedite the return of injured employees to the workforce.

### PROGRAM CLASSIFICATIONS

01. **Unemployment Insurance.** N.J.S.A. 43:21 et seq. establishes the State-administered, federally-funded programs of unemployment insurance covering virtually all entities employing one or more persons. Claims are filed, monetary and eligibility determinations are made, decisions are sent to

employer(s) and claimants, and benefits are paid to eligible individuals. Both claimants and employers have a right to file a departmental appeal of a determination to the appeal tribunal who will render a decision that is appealable to a review board.

All unemployment benefit claims are based upon wage information provided by employers and maintained by the Department of Labor and Workforce Development. Claimants are required to validate their identity through a third-party vendor. In addition, automated cross matches are performed to identify improperly paid unemployment benefits.

02. **Disability Determination.** The federal government fully funds the Division of Disability Determinations from the Social Security Act for the purpose of adjudicating long-term disability claims. Activities include medical, legal and qualitative review of claims.
03. **State Temporary Disability and Family Leave Insurance Plan.** Established in 1948, the State's Temporary Disability Insurance program provides direct, temporary monetary benefits to nearly all workers covered under the Unemployment Compensation Law. The program provides financial support to workers unable to work due to a non-work related illness, injury or pregnancy. It is funded through both employer and worker contributions. The Family Leave Insurance (FLI) program, administered by the Division of Temporary Disability Insurance and established in 2009, offers monetary benefits to covered individuals. These benefits are available for individuals who need to provide care for an eligible family member with a serious health condition or to bond with a newborn or newly adopted child. The FLI program is funded through worker contributions. These initiatives aim to provide financial stability to workers during critical times when they are unable to earn their regular income due to health related issues or family care responsibilities.

# LABOR AND WORKFORCE DEVELOPMENT

04. **Private Disability Insurance Plan.** Employers have the option to select coverage under a private disability insurance plan, provided they receive approval from the Director of Temporary Disability and Family Leave Insurance. If they do not choose a private plan, coverage defaults to the State Plan. These private plans are required to offer at least the same benefit amounts, eligibility requirements, and duration of payments as the State Plan. Administrative oversight costs are assessed proportionately against the private plans.
05. **Workers' Compensation.** Work-injured employees are entitled, as appropriate, to reasonable and necessary medical treatment, temporary disability benefits as wage replacement and permanent disability payments for certain injuries. Employers directly select medical providers and provide temporary disability payments. There are fifteen workers' compensation court locations in the state that resolve any disagreement over medical or temporary benefits through settlement or adjudication. Permanent disability awards are subject to statutory requirements with court approval of any settlement and court decision on disputed claims. Pursuant to legislation enacted during 1990, funding for the Workers' Compensation program is derived from the Second Injury Fund, established by the Workers' Compensation Act (N.J.S.A. 34:15-1 et seq.) through an assessment on private sector employers.
06. **Special Compensation.** Through assessments on private

sector employers, Special Compensation programs provide benefits to disabled workers through the Second Injury Fund and the Uninsured Employers' Fund, as well as enforce the compulsory insurance provisions of the Workers' Compensation Law. The Second Injury Fund provides benefits to workers totally and permanently disabled as a result of a work-related injury and pre-existing medical conditions. The worker's employer is responsible for the extent of disability related to the work accident or occupational exposure with the Second Injury Fund continuing such benefits thereafter. The Second Injury Fund also makes benefit payments to totally and permanently disabled workers and dependents of deceased workers where the date of injury or death occurred prior to 1980, under the provisions of N.J.S.A. 34:15-95.4. Additionally, supplemental benefits are paid to dependents of first responders and certain surviving dependents of employees who were considered essential, under the provisions of N.J.S.A. 34:15-95.6 and N.J.S.A. 34:15-95.8. The Uninsured Employers' Fund pays temporary disability and medical benefits to injured workers whose employer fails to maintain required workers' compensation insurance coverage and refuses to make such payments. The compliance enforcement program identifies uninsured employers and assesses penalties deposited to the Uninsured Employers' Fund.

**OVERVIEW****Mission and Goals**

The Department of Law and Public Safety (DLPS) is dedicated to protecting the safety and security of the people of New Jersey. Under the oversight of the Attorney General, the DLPS performs far-reaching and diverse duties involving law enforcement and criminal justice, legal representation, and the regulation of key industries such as casinos, horse racing and combative sports. The DLPS houses the State's consumer protection division, which includes dozens of professional boards that license activities from barbering to nursing to social work. The Department includes the State's civil rights division that enforces one of the nation's most powerful civil rights laws, the Law Against Discrimination. As head of the DLPS, the Attorney General is both the State's chief law enforcement officer, with oversight over the 21 county prosecutors and 38,000 law enforcement officers, including approximately 3,200 within the DLPS, and chief legal officer, responsible for providing legal advice and counseling to all Executive Branch agencies. The DLPS also includes the Division of State Police and the State Office of Emergency Management.

With 11 divisions and offices, as well as independent commissions and boards, the DLPS performs such critical tasks as prosecuting significant criminal actions, bringing civil actions in court on behalf of State agencies, protecting citizens' civil and consumer rights, promoting highway traffic safety, and regulating and maintaining public confidence in the casino, combative sports, alcoholic beverage, gaming and racing industries. The DLPS includes the Division of Violence Intervention and Victim Assistance, which coordinates the State's violence intervention work and oversees the Victims of Crime Compensation Office as the payer of last resort to victims of crime. The new Office of Alternative and Community Responses is coordinating the DLPS's efforts to address how the Department and New Jersey's law enforcement agencies respond to the country's continued mental health and addiction crises. The Department also includes innovative, cross-cutting units such as the Office of Justice Data, which coordinates the vast amounts of data analysis required of and conducted in the DLPS.

Other DLPS responsibilities include overseeing criminal justice policies across the State; engaging in criminal investigations and prosecutions, including corruption matters and auto thefts/carjackings; combatting gun violence; providing emergency services through the State Office of Emergency Management; supporting and providing guidance for State and local law enforcement agencies; and maintaining and operating criminal records and identification systems. In addition, the DLPS investigates violations of public trust and develops policies that rebuild faith in government institutions and the criminal justice system.

Through the Division of State Police, the DLPS provides law enforcement services throughout the state, including rural section patrols and all major state highway patrols. Other functions include investigation of violent and organized crime, racketeering, narcotics trafficking and white-collar crime. In addition, the Division remains involved with efforts to recover from the effects of the COVID-19 pandemic and major disaster events such as Hurricane Ida, as well as other federally-declared disasters that impact the State. This includes coordinating with the Federal Emergency Management Agency and other State agencies through the Governor's Disaster Recovery Office to educate the public, as well as county and local entities regarding the various categories of assistance that may be available.

Through the Division of Criminal Justice, the DLPS is charged with the responsibility to detect, enforce against and prosecute criminal activity in the State through the uniform and efficient administration of our criminal laws. In addition to its direct law enforcement

operations, the Division provides oversight and coordination over the 21 county prosecutor offices and local law enforcement agencies. The Office of Public Integrity and Accountability is dedicated to ensuring public trust in government institutions by pursuing corruption cases against public officials and implementing best practices in the area of policing. In addition, the Office of Securities Fraud and Financial Crimes Prosecutions (OSFFCP) focuses on pursuing major financial crimes, including securities fraud, and holding white collar criminals accountable for their wrongdoing. The Attorney General created this new, dedicated office within the Division of Criminal Justice to enhance and expand the State's existing efforts to prosecute financial crimes. The OSFFCP is specifically charged with investigating and prosecuting crimes that undermine the fairness and integrity of our financial systems, exploit investors and prey on vulnerable individuals across the State of New Jersey and beyond. The Office of the Insurance Fraud Prosecutor is responsible for investigating, prosecuting, and deterring insurance fraud, and serves as the statewide coordinator for all anti-insurance fraud efforts in New Jersey.

Through the Division of Gaming Enforcement, the DLPS is charged with ensuring the integrity of the casino, internet gaming and sports wagering operations in the State and protecting the public interest by maintaining a legitimate and viable industry, free from the influences of organized crime. The Division also provides programming for responsible gaming, which includes an innovative, first-in-the-nation initiative for gaming operators to proactively identify actions and trends of problematic gaming behavior to allow for early intervention. In addition, the Division is tasked with assuring the honesty, good character and integrity of casino owners, operators, employees and vendors. The Division also works cooperatively with other law enforcement agencies to ensure public safety in and around the casino district.

Through the Division of Law, the DLPS provides legal services to all offices, departments and entities of State government, as well as county Boards of Election and Taxation. The Division renders written legal opinions to governmental agencies, makes appearances at hearings, and represents the State in litigation and appeals in State and federal courts, administrative hearings and proceedings to protect the rights of children under the care of Child Protection and Permanency.

Through the Division of Consumer Affairs, the DLPS enforces, among other things, the Consumer Fraud Act, which regulates advertising and sales techniques to prevent fraud, deceit and misrepresentation in the sale of goods and services. The Division also regulates buyers and sellers of securities, fundraising organizations, employment agencies, Bingo games and raffles, adherence to uniform standards of weights and measures and oversees the Prescription Monitoring Program. In addition, the Division is responsible for the registration, investigation and monitoring of fantasy sports operators. The Division also oversees the various professional and occupational boards that regulate hundreds of thousands of individuals licensed as professionals or to perform services.

Through the Division on Civil Rights, the DLPS enforces the New Jersey Law Against Discrimination, which makes it illegal to discriminate in employment, contracting, housing and places of accommodation. The Division also enforces the Family Leave Act, which requires covered employers to grant time off from work to employees to care for or bond with a child within one year of the child's birth or adoption, to care for a family member or the equivalent of a family member with a serious health condition, and for certain other reasons. The Division also enforces the Fair Chance in Housing Act, which limits housing providers' ability to consider

# LAW AND PUBLIC SAFETY

a person’s criminal history in deciding whether to extend an offer or whether to rent a home after extending an offer. In addition, the Division provides training to the general public, government agencies, volunteer organizations and the business community to promote awareness of the laws it enforces, to reduce prejudice and bias and to educate members of the public about available resources if they believe their rights have been violated.

Through the Division of Violence Intervention and Victim Assistance, the DLPS advances a unified strategy for public safety by bringing together victim services, including victims of domestic violence and sexual assault, and the Department’s violence intervention and prevention programming. The Division centralizes these services under one roof and provides staffing to support these programs statewide.

The DLPS also includes the Statewide Affirmative Firearms Enforcement (SAFE) Office, which was established in response to the passage and signing of P.L.2022, c.56, and which authorizes the Attorney General to bring statutory public nuisance cause of action and investigate potential violations of the statute. The SAFE Office is a first-in-the-nation office with the mandate of bringing civil enforcement actions against firearms companies to hold them accountable for violations of the law that harm the health and safety of New Jersey residents.

### Budget Highlights

The fiscal year 2026 budget for the Department of Law and Public Safety, not including the in-but-not-of agencies, totals \$779.9 million, a decrease of \$22.6 million or 2.8% below the fiscal 2025 adjusted appropriation of \$802.5 million. The fiscal 2026 budget savings is due to the elimination of one-time supplemental funding, reduced horse racing purse subsidies, and the reallocation of the OB/GYN Clinical Training Program to a central program in the Department of Health. These reductions are netted with growth to support a new State Police recruit class, staffing for the Attorney General’s Project for Federal Accountability, and the elimination of one-time resources.

### Office of Homeland Security and Preparedness

The fiscal year 2026 budget for the Office of Homeland Security and Preparedness (OHSP) totals \$29.4 million, a decrease of \$7.4 million below the fiscal 2025 adjusted appropriation of \$36.8 million. The reduction is the result of the elimination of one-time appropriations in fiscal 2025 and the reallocation of the Reproductive Health Security Grant Program to a central program in the Department of Health. These reductions are netted with growth to support new cybersecurity software and enhancements.

The OHSP was created by executive order in 2006 and is led by a director, who is appointed by the Governor and serves as a member of the Governor’s Cabinet and as the Governor’s principal advisor on homeland security issues. The Director serves as Chair of the Domestic Security Preparedness Task Force, which was created by statute in 2001 (P.L.2001, c. 246). The mission of the OHSP is to lead

and coordinate New Jersey’s counterterrorism, counterintelligence, cybersecurity, and preparedness efforts while building resiliency throughout the state.

### Juvenile Justice Commission

The fiscal year 2026 budget for the Juvenile Justice Commission (JJC) totals \$139 million, a decrease of \$15.8 million below the fiscal 2025 adjusted appropriation of \$154.8 million. The reduction is associated with expected salary savings and the elimination of one-time supplemental funding in fiscal 2025.

The JJC was established in 1995 to serve as the single agency of State government with centralized authority for planning, policy development and provision of services in the juvenile justice system. The JJC is committed to implementing and promoting policies and practices that improve outcomes for young people involved with the juvenile justice system, their families and their communities. The JJC’s three primary responsibilities are providing care, custody and rehabilitative services to youth committed to the agency by the courts; supervising and coordinating services for youth released from custody on parole; and supporting local efforts to provide prevention and early intervention services to at-risk and court-involved youth. Across a continuum of care, which includes secure care facilities, residential community homes and community-based parole and transitional services, the JJC provides programming, support and opportunities designed to help youth grow and thrive and to become independent, productive and law-abiding citizens.

### State Ethics Commission

The fiscal year 2026 budget for the State Ethics Commission (SEC) totals \$1.6 million, the same level as the fiscal 2025 adjusted appropriation. The SEC administers and enforces the New Jersey Conflicts of Interest Law, the Uniform Ethics Code, agency specific supplemental ethics codes, several sections of the Casino Control Act, and also has administrative authority granted by various executive orders. The SEC creates and conducts ethics training, oversees statewide compliance with reporting and training, conducts confidential investigations and renders ethics opinions.

### Election Law Enforcement Commission

The fiscal year 2026 budget for the Election Law Enforcement Commission (ELEC) totals \$31.8 million, a decrease of \$4.1 million below the fiscal 2025 adjusted appropriation of \$35.9 million. This decrease reflects the net impact of the elimination of one-time funding in fiscal 2025 to comply with the requirements of Daniel’s Law and a reduction in funding from the Gubernatorial Elections Fund due to fewer candidates receiving matching funds after the primaries. The ELEC ensures the reporting of contributions and expenditures by all candidates, political parties, political committees, continuing political committees, legislative leadership committees and independent expenditure committees. Additionally, the ELEC oversees annual and quarterly reporting by lobbyists, oversees pay-to-play disclosure, and provides partial public financing of gubernatorial elections.

### PROGRAM CLASSIFICATIONS

06. **State Police Operations.** Patrols are conducted in rural, urban and highway areas primarily as a deterrent to violations of criminal and traffic laws. Patrol personnel respond to complaints and requests for police services and conduct investigations. Assistance is provided to other law enforcement agencies in matters relating to protection of persons and property and maintenance of public order. Tactical patrol units are utilized in areas of high accident or criminal frequency. Support is given by the Aviation Bureau for aerial coverage of established patrol routes. Patrol teams enforce commercial vehicle self-inspection regulations and commercial weight laws. The patrol personnel serve as initial responders to terrorism and other catastrophic events.

The Homeland Security Branch provides a comprehensive statewide land, air and sea capability for the detection of and response to possible terrorism events. Specialized entities focus on homeland security initiatives such as infrastructure security, the transportation of terrorists and terrorist materials and the integrated response to terrorism or other emergency events within the state.

The Emergency Management Section develops and maintains action plans and the operational capability to coordinate statewide emergency response of personnel and resources for potential natural and man-made disasters. Coordination of the State's emergency response activities in compliance with the Federal Emergency Management Act is also a responsibility of the Division. The State's Emergency Operating Center is maintained in a position of readiness and works as a warning system in the event of an emergency.

Around the clock emergency ambulance service to trauma victims is provided by the Medical Evacuation-Air Ambulance/Helicopter Program.

Marine police operations provide for the enforcement of criminal, marine, port safety and boating safety laws on coastal and certain inland waters of the state. Personnel and equipment are provided for quick response to marine accidents, crimes and other emergencies. The Marine Services Bureau also promotes boating safety through public education.

The Office of Governmental Security is responsible for the security of all buildings and grounds which fall within the purview of the State Capitol Complex. The Office provides for the direction of traffic, investigation of crime, and patrolling of grounds within and adjacent to the Complex. Furthermore, the security of the Governor and his or her family is provided by the Office.

Investigations are conducted in areas of organized crime, gambling, narcotics, official corruption, racing integrity, arson/bomb, cargo theft/robbery, fugitives from justice and auto theft. The Major Crime Unit assists all law enforcement agencies within the State with the investigation of homicides, kidnapping for ransom and any incident resulting in the death of, or by, an enlisted member of the Division. The Special Investigations Section investigates and provides expertise in

the area of high technology computer crimes, child exploitation crimes, and missing persons and unidentified bodies. The Special Investigations Section also offers violent criminal assessment services to all law enforcement agencies within the state.

Technical and scientific services are available in the field of chemical and physical analysis, photography, composite drawings, ballistics, latent fingerprints, and DNA analysis and database maintenance.

The Private Detective Unit conducts background character and complaint investigations of persons applying for or holding licenses. The Firearms Investigation Unit administers and enforces the New Jersey weapons and explosives laws. The Business Integrity Unit conducts investigations of corporations and individuals applying for licenses in the solid and hazardous waste industry.

Intelligence is developed, collected, collated and stored in the Statewide Intelligence Management System. Information is disseminated to law enforcement agencies concerning the involvement of organized criminal or possible terrorist activities, including street gang and counter-terrorism developments. The Electronic Surveillance Unit researches, develops and implements court authorized surveillances and investigates all reported illegal wiretaps. The Casino Gaming Bureau investigates criminal activities in and around the Atlantic City casinos. Intelligence related to the gaming industry is maintained and shared with other law enforcement agencies.

The Division provides and maintains a statewide radio communications system for the use of over 25 other State agencies and for the Division. Additionally, the Division is responsible for ensuring an efficient and expedient means of interstate and intrastate law enforcement communications, including instantaneous responses to inquiries concerning wanted persons and stolen cars or property. This information is provided on a 24-hour basis by the New Jersey Criminal Justice Information System and the National Crime Information Center.

Collection, classification and analysis of data pertaining to criminal activity are accomplished through the use of several identification and reporting systems. The Identification and Information Technology Section ensures that the State's criminal justice agencies have access to Criminal History Record Information (CHRI) as permissible by law, while numerous other governmental agencies, the Legislature, constituent groups, academic research entities and the public, are furnished with statistical information regarding crime trends in New Jersey. The State Bureau of Identification (SBI) serves as the clearinghouse and repository for all fingerprints submitted by the State's law enforcement agencies and is responsible for the appropriate dissemination of that CHRI. The Expungement Unit within SBI ensures an individual's right to privacy with the sealing and expunging of all criminal records ordered by the court. P.L.2019, c.269 expands the petition process for a "clean slate" expungement eligible within 60 days. The Criminal Justice Records Bureau maintains the State's Uniform Crime Reporting (UCR) system. Crime data from approximately 540 contributing agencies is collected and audited in accordance with uniformed FBI program requirements. Statistical data on crime trends is then provided to law enforcement executives in order to identify specific problems which aids in identifying possible solutions through informed decision making.

The Training Bureau provides training for State Police recruits, and continuous in-service programs and seminars

related to the police, traffic, criminal and social sciences, homeland security and leadership development. Many of the course offerings are fully accredited.

The Division maintains and repairs its own fleet of motor vehicles and provides this service to other State agencies.

09. **Criminal Justice.** Exercises functions pertaining to enforcement and prosecution of criminal activities in the state; bears responsibility for the effective administration of criminal justice throughout the state; initiates investigations, actions, or proceedings involving certain criminal or quasi-criminal matters; prepares cases for presentation before the State Grand Jury and prosecutes cases resulting from indictments; and handles civil antitrust proceedings, and criminal and civil antitrust matters at the appellate level. Assistance is provided and general supervision maintained over the 21 county prosecutors and periodic evaluations and audits are conducted of each office. County prosecutors may be superseded in the prosecution of all or part of the criminal activities in a particular county by intervention in any investigation, criminal action or proceeding instituted in that county. Studies and surveys are conducted of law enforcement agencies within the state concerning their organization, procedures and methods.

The Office of Public Integrity and Accountability (OPIA) fosters public confidence by holding public officials and institutions accountable. OPIA is divided into four sections: the Corruption Bureau, which detects, investigates and prosecutes criminal activities; the Integrity Bureau, which conducts independent investigations of all police custody involved fatal shootings, investigates cold case homicides and sexual offenses, and reviews claims of wrongly secured convictions; the Special Investigations Bureau, which conducts investigations of violations of State policies and departmental administrative rules; and the Office of Policing Policy, which provides oversight and development of

statewide and department-wide policies aimed to enhance procedures and standards that govern the training of law enforcement officers in New Jersey.

The Police Training Commission is responsible for improving the value of police officers' contribution to communities by supervising the administration of all basic police training programs and conducting management surveys of local police agencies.

30. **Gaming Enforcement.** Primarily responsible for the regulation of casino, internet gaming and sports wagering operations in the State of New Jersey. The Division's jurisdiction for sports wagering includes casinos and their providers and extends to current and certain former racetracks that can be licensed to conduct sports wagering. Its jurisdiction for casino and internet gaming covers entities applying for or holding casino licenses, ancillary service industries and employees of the casino facility. This Division investigates all casino, service industry and employee licensing matters, as well as performs audits and onsite compliance investigations of operating casino facilities and sportsbooks where applicable. It handles contested civil and criminal matters and violations relating to the enforcement of the Casino Control Act. In order to meet these obligations and deliver the services provided by this Division, a specialized, highly-skilled and diversified staff is required.

99. **Administration and Support Services.** Provides for State Police executive leadership, general management and public information interaction. The Office of Professional Standards conducts staff inspections and internal investigations.

The Administration Section provides management support services which include operational research and planning, fiscal control, involving budget preparation and accounting services, personnel administration, building maintenance and capital improvement, printing and supply services.

10. PUBLIC SAFETY AND CRIMINAL JUSTICE
18. JUVENILE SERVICES

The Juvenile Justice Commission was created as an "in-but-not-of" agency in the Department of Law and Public Safety pursuant to P.L.1995, c.284 to serve as the single agency of State government with centralized authority for planning, policy development, and provision of services in the juvenile justice system. The Commission is mandated to provide custody, care and treatment to youth committed to State custody or placed in a community residential program as a condition of probation. The Commission is further authorized to coordinate and distribute funding to support local continuums of youth justice services, including State/Community Partnership funding provided to County Youth Services Commissions pursuant to P.L.1995, c.283.

The Office of Community Programs provides regional coordination and on-site supervision for all community-based operations for youth in custody. A total of ten community residential programs provide services for male and female youth throughout the state who have been committed to State custody or placed into a residential program by the court as a condition of probation. Community programs provide services and opportunities for personal growth and development that encourage rehabilitation and reintegration into the community, including but not limited to education, employment, and counseling services.

Through the Office of Local Programs and Services, the Commission leads collaborative efforts to prevent young people from entering the youth justice system and supports the development of effective community-based interventions for at-risk and court-involved youth to prevent delinquency and as alternatives to out-of-home placement and incarceration. Funding is provided to counties to offer a continuum of youth justice services. Delinquency prevention is intended to provide strategies and services to increase the likelihood that youth will remain free from initial involvement in the youth justice system. Diversionary programs offer youth facing delinquency charges an opportunity to avoid arrest and/or prosecution by providing alternatives to the formal youth justice process. Detention alternative programs

provide supervision and support to youth who would otherwise be placed in a secure facility while awaiting their adjudicatory hearing. Dispositional options are community-based programs, services, and sanctions ordered by the court for youth adjudicated delinquent, and can serve as an alternative to out-of-home placement or incarceration. Community reentry programs support youth following release from a secure facility, residential program or other structured dispositional placement.

The Commission currently operates secure facilities located on two campuses: the New Jersey Training School in Monroe Township, Middlesex County; and the Juvenile Medium Secure Facility and Juvenile Female Secure Care and Intake Facility, located on the Johnstone campus in Bordentown Township, Burlington County. Secure facilities are full-care institutions providing all services on the grounds of the facility, including education, vocational programs, counseling, and medical services. All facilities provide year-round education focused on the attainment of a high school diploma, equivalency diploma, or college credit, as well as vocational programming. Religious opportunities, group and individual counseling, substance use treatment, physical education, family life and health education, and post-release planning are also provided at secure facilities. Correctional Police Officers are employed at these facilities to maintain a secure setting.

The Office of Juvenile Parole and Transitional Services ensures public safety by providing intensive community supervision and support services to youth who have completed their stay at residential programs or secure facilities, and otherwise assists youth to achieve successful reentry into their community.

Administration and Support Services provides administrative services required for the effective operation of the Commission and all of its activities. This includes, but is not limited to, fiscal, human resources, and information technology functions, as well as facilities and support services, which includes managing the operation of the physical assets of the Commission such as utilities, buildings and structures, grounds, vehicles and equipment.

OBJECTIVES

- 1. To provide care, custody, rehabilitative services, educational and job training programs, and other opportunities for personal growth and development to youth committed to the agency by the courts so that youth are prepared to return to their communities successfully.
2. To supervise, provide, and coordinate services for youth released from custody on parole, assisting youth to achieve successful reentry back to their communities through a network of support services and skill development opportunities that strengthen their levels of self-sufficiency.
3. To lead collaborative efforts to prevent young people from entering the youth justice system and support the development of effective community-based interventions for at-risk and

- court-involved youth to prevent delinquency and as alternatives to out-of-home placement and incarceration.
4. To partner with families and communities to provide youth with a continuum of rehabilitative services and learning opportunities that promote positive growth and development.

PROGRAM CLASSIFICATIONS

- 34. Juvenile Community Programs. Provides regional coordination and on-site supervision for all community-based operations for youth in custody. A total of 10 community residential programs provide services for male and female youth throughout the state who have been committed to State custody or placed into a program as a condition of probation.
35. Institutional Control and Supervision. Designed to provide the level of control necessary to protect youth in custody and

# LAW AND PUBLIC SAFETY

the community from harm by providing custodial control and supervision in all institutional areas and during transportation of youth outside of the institution.

**36. Institutional Care and Treatment.** Includes the activities of housekeeping, safety and medical care, which contribute to a safe, sanitary and healthful environment for youth and employees; and food service, which meets the nutritional needs of youth and staff. Provides suitable and adequate clothing to youth in custody to meet their needs during the custodial period. Provides medical, dental, surgical and nursing services to maintain and promote the physical health of youth in custody.

Treatment and classification services are designed to assist youth with emotional and maturational growth; make program assignments, reassignments and release recommendations and decisions for youth; and maintain accurate, up-to-date cumulative records of relevant information concerning all youth from admission to final discharge from parole. Recreational programs are provided to enhance social development and promote the constructive use of leisure time. Professional staff activities in psychology, psychiatry and social work provide guidance counseling and other diagnostics and treatments designed to enable youth to

increase their positive interaction with the staff, peers, and the community upon release.

Educational programs funded as an entitlement from the Department of Education are also provided and include basic and secondary education, library activities, high school equivalency and vocational training.

**40. Juvenile Parole and Transitional Services.** Designed to ensure public safety through intensive community supervision and support services. Provides transitional services in the community to youth who have completed their stays at residential programs or secure facilities to effect successful re-entry into the community by providing a balanced approach utilizing care, treatment, accountability, protection and enforcement.

**99. Administration and Support Services.** Provides administrative services required for the effective operation of the Commission and all of its activities. This includes, but is not limited to, fiscal, human resources, and information technology functions, as well as facilities and support services, which includes managing the operation of the physical assets of the Commission including utilities, buildings and structures, grounds, vehicles and equipment.

In addition to the amount hereinabove appropriated for Legal Services and the additional amount associated with employee fringe benefit costs, there are appropriated such amounts as may be received or receivable from any State agency, instrumentality or public authority for direct or indirect costs of legal services furnished thereto and attributable to a change in or the addition of a client agency agreement, subject to the approval of the Director of the Division of Budget and Accounting.

The Director of the Division of Budget and Accounting is empowered to credit or transfer to the General Fund from any other department, branch, or non-State fund source, out of funds appropriated thereto, such funds as may be required to cover the costs of legal services attributable to that other department, branch, or non-State fund source as the Director of the Division of Budget and Accounting shall determine. Receipts in any non-State fund are appropriated for the purpose of such transfer.

Notwithstanding the provisions of any law or regulation to the contrary, revenues derived from penalties, cost recoveries, restitution or other recoveries to the State are appropriated to offset unbudgeted, extraordinary costs of legal, investigative, administrative, expert witnesses and other services, incurred by the Division of Law related to litigation and acting on behalf of the State and State agencies and the costs of settlements and judgments as determined by the Division of Law. Such amounts first shall be charged to any revenues derived from recoveries collected by the State and are also appropriated from the General Fund, subject to the approval of the Director of the Division of Budget and Accounting.

## OVERVIEW

### Mission and Goals

The Department of Military and Veterans' Affairs (DMAVA) provides operational forces for rapid civil and military response as well as dedicated, conserate service to New Jersey's veterans, families and citizens.

The Department is committed to providing highly trained military forces poised for rapid response to preserve peace and public safety on the orders of the Governor and to respond to national security threats at the direction of the President. The Department also strives to provide comprehensive support to New Jersey veterans through a statewide network of services that run the gamut from mental health treatment to long-term care to ensuring that veterans receive all applicable State and federal entitlements.

### Budget Highlights

The fiscal year 2026 budget for the Department of Military and Veterans' Affairs totals \$129.3 million, a decrease of \$253,000 or 0.2% below the fiscal 2025 adjusted appropriation of \$129.5 million. The fiscal 2026 budget includes growth for items such as utility costs and personal protective equipment to ensure the successful operation of the Veterans' Homes.

### Homeland Security

In accordance with the New Jersey Domestic Security Preparedness Act, the Department is responsible for training and equipping emergency response teams in support of New Jersey's Homeland Security mission. These teams serve as first military responders for disaster recovery related to acts of terrorism, weapons of mass destruction incidents and other public safety emergencies.

### Support to Our Veterans

The Division of Veterans Healthcare Services operates three long-term care facilities located in Paramus, Menlo Park and Vineland that deliver high-quality long-term care and have a combined rated capacity of 948 beds.

The Division of Veterans Services (DVS), through its network of regional Veterans Service Offices, provides the state's nearly 300,000 veterans and their dependents with information and guidance in filing claims with the United States Department of Veterans Affairs (USDVA). Trained veterans service officers at each

county office also assist veterans with issues pertaining to employment, education, burial, counseling, housing, transportation, social and medical services, and other areas of concern to veterans and their families. In addition, the Division maintains the State's three major war memorials located in Holmdel, Trenton and Atlantic City. The Division is also responsible for determining veteran eligibility for State civil service for preference and pension purposes as well as administering various grants-in-aid tuition assistance and other benefits. Post-Traumatic Stress Disorder (PTSD) counseling for veterans and their families is available at no cost through a statewide network of professional providers, along with the Transportation Program and the NJ Catastrophic Program. The Division is responsible for the NJ Vet to Vet Helpline which is available 24-hours a day, 7 days a week, for veterans and their families at 1-866-VETS NJ 4U (1-866-838-7654).

The Division is also responsible for the State Approving Agency (SAA). SAA reviews, evaluates and approves the quality of education and training programs under the State and federal criteria. The SAA conducts on-site technical assistance and compliance visits to approved institutions and to those seeking approval. The SAA engages in outreach activities to encourage wider use of the GI Bill by veterans, other beneficiaries, schools and employers.

The Brigadier General William C. Doyle Veterans' Memorial Cemetery continues to be one of the nation's busiest State-operated veterans' cemeteries with over 2,600 interments conducted during fiscal 2024. Approximately 10 burials occur each business day, and the cemetery is visited by thousands of individuals each year. Military honors are accorded to all veterans interred at the cemetery and the New Jersey National Guard performs over 400 off-site honors each month.

The DVS operates two transitional housing programs located in Winslow Township and Glen Gardner. The programs provide effective rehabilitation services to homeless veterans living in the state. Funded by both the State and the USDVA, these veterans receive outstanding support from a wide variety of service organizations, community agencies and private citizens. The average combined daily population of both facilities is projected to be 226 in fiscal 2026.

## **DEPARTMENT OF MILITARY AND VETERANS' AFFAIRS**

Notwithstanding the provisions of any law or regulation to the contrary, lease or licensing payments received by the Department of Military and Veterans' Affairs in connection with the property known as the "Colgate Clock" located on Block 14502, Lot 10 on the Official Tax Map of Jersey City, New Jersey, shall be deposited in the General Fund.

## OVERVIEW

### Mission and Goals

The Department of State seeks to enhance the overall quality of life for all New Jerseyans by advancing and supporting cultural and historical programs, fostering civic engagement, and promoting economic vitality.

Through the Cultural Trust, the State Museum, the State Archives, the Historical Commission, and the Council on the Arts, the Department harnesses New Jersey's rich cultural, historical and artistic assets to foster education and collaboration among diverse stakeholders while providing a source of sustainable funding for non-profit organizations. The Department promotes civic engagement and community development through entities responsible for volunteerism; Hispanic policy, research, and development; faith-based initiatives; and other integral programs. The Division of Elections also helps to build a robust and enduring culture of civic engagement in our communities and coordinates the safe and secure conduct of elections in all 21 of New Jersey's counties. To help strengthen the state economy, the Department mobilizes the Business Action Center to support the creation and growth of New Jersey businesses while the Division of Travel and Tourism works to promote and attract tourist visitation statewide.

Appropriations for the Office of the Secretary of Higher Education (OSHE) and the Higher Education Student Assistance Authority (HESAA) are displayed within the Department of State; however, each entity operates independently and apart from the Department. Appropriations for other higher educational services are included in the Department of the Treasury.

### Budget Highlights

The fiscal year 2026 budget for the Department of State excluding Higher Education, totals \$110.5 million, a decrease of \$14.8 million or 11.8% under the fiscal 2025 adjusted appropriation of \$125.3 million. The fiscal 2026 budget reduction largely represents the elimination of one-time initiatives.

### Office of the Secretary of State

The Office of the Secretary of State develops mission-critical initiatives with statewide impact, overseeing all Department operations and communications and managing the Department's policy review and decision-making processes. The Office also strategizes, develops and carries out the implementation of any legislation, regulation or other legal action as well as maintains key relationships with the legislative branch and officials at different levels of government.

The fiscal 2026 Direct State Services recommendation for the Office of the Secretary of State is just under \$9.1 million, which will support the daily operations of the Office of the Secretary of State and the Division of Programs, including \$240,000 to support the Martin Luther King, Jr. Commemorative Commission.

Grants-In-Aid funding of nearly \$4 million is recommended, including \$1.9 million for the Center for Hispanic Policy, Research and Development and almost \$1.4 million for the Office of Programs. The Office of Programs funding supports competitive grants that enable faith-based and community-based organizations to undertake a variety of social service activities.

### Cultural Trust

The goal of the New Jersey Cultural Trust is to ensure a stable and healthy cultural industry in New Jersey, sustainable under uncertain economic conditions, through the establishment of permanent endowments to nonprofit arts, history and humanities organizations. Creation of the Trust enabled matching of private donations to non-profit organizations with State funding, further incentivizing private donation. From interest earned on donations, State matching funds, and annual State appropriations, the Trust provides grants to

qualified organizations for three purposes: building endowments, financing capital projects, and improving organizational and financial stability. The fiscal 2026 recommendation of \$720,000 to the Trust is supported by revenue derived from State hotel and motel occupancy fees.

### Museum Services

As a center of cultural, educational and scientific engagement, the New Jersey State Museum (NJSM) inspires innovation and lifelong learning through collections, exhibitions, programs, and research in archaeology and ethnography, cultural history, fine art and natural history. The NJSM engages visitors of all ages and diverse backgrounds in an exploration of New Jersey's cultural and natural history presented within a global context. Since 2011, the NJSM also administers all operations of the NJ Veterans Memorial Arts Center (VMAC). Opened in 1932, the VMAC is a rental performance venue and community center, including the Patriots Theater (a 1,833-seat auditorium), the 4,000-square-foot George Washington Ballroom, the 3,000-square-foot Delaware River Room, and several other meeting rooms. The total fiscal 2026 budget for the NJSM is recommended at nearly \$2.7 million.

### State Archives

The Division of Archives operates the State Archives, New Jersey's research center for public records of enduring historical value, providing reference and consultative services to thousands of researchers, historians and record-keepers annually. The fiscal 2026 budget for the Division of Archives is recommended at nearly \$1.3 million.

### Development of Historical Resources

The purpose of the New Jersey Historical Commission is to preserve our state's past while creating a living history of the Garden State for residents and visitors alike. To accomplish this goal, the 17-member Commission presents public programs, produces publications and media projects and provides curriculum material for students and teachers. The Commission also has a competitive grant program for museums, historical sites and other nonprofit and local government organizations, as well as for individual teachers and researchers. These grants, monitored by the Commission, contribute to the state's economy by promoting heritage tourism. The total fiscal 2026 Grants-In-Aid recommendation for these competitive agency grants is \$5.5 million and is funded with revenue derived from the State hotel and motel occupancy fee.

### Support of the Arts

Since 1966, the New Jersey State Council on the Arts (NJSCA) has been driven by its founding directive to support the arts statewide. The total fiscal 2026 Grants-In-Aid recommendation of \$35 million includes \$31.9 million for competitively-awarded Cultural Projects grants, which are funded by revenue derived from State hotel and motel occupancy fees. These grants fund the general operating support of cultural organizations, county partnerships and special cultural projects.

The NJSCA has established a rigorous, competitive and transparent process for the granting of funds appropriated by the State and federal government for the benefit of artists, arts organizations, and the diverse constituencies across New Jersey. Grant accountability is assured through grant contracts, reports, and financial audits. The Council also supports several cross-sector partnerships that touch other industries such as education, tourism, and health care; for instance, the Council actively promotes participation in the arts through a variety of robust marketing and social media initiatives through Discover Jersey Arts and State of the Arts. Council funding supports nearly 700 arts organizations throughout New Jersey, two thirds of which receive grants through the Council's longstanding

partnership with cultural and heritage organizations in all 21 counties.

### **Election Management and Coordination**

A total of \$28.7 million is recommended in fiscal 2026 for the Division of Elections. The Direct State Services recommendation of \$15.7 million for the Division's operation includes maintenance of the Statewide Voter Registration System, online voter registration, and early voting and Election Day expenses. The State Aid recommendation of \$13 million will reimburse County Election Offices for costs associated with Election Day services. It also supports a new program to encourage districts to allow 16- and 17-year-olds to vote in local school board elections.

### **Business Action Center**

The New Jersey Business Action Center (NJBAC), housed within the New Jersey Department of State, is the "one-stop shop" for businesses to access a variety of resources and support. The NJBAC offers free and confidential assistance to help businesses grow through government navigation and permitting assistance. The team helps companies of all sizes save time and money by getting answers from government agencies, directing businesses to appropriate officials and contacts, facilitating meetings and follow-ups from regulatory agencies and offering export promotion assistance. For more information, members of the business community may visit <https://business.nj.gov> or call 1-800-Jersey7.

The New Jersey Division of Travel and Tourism, in partnership with the travel industry, develops and promotes New Jersey as a diverse travel destination with a goal to increase revenues, investments and employment, thereby contributing to the state's larger economic prosperity and quality of life.

In fiscal 2026, Direct State Services funding of \$22.4 million is recommended for the NJBAC, including \$17.6 million for Travel and Tourism. Funding for Travel and Tourism comes from revenue derived from the State hotel and motel occupancy fee.

### **Higher Education**

The Office of the Secretary of Higher Education (OSHE) is the coordinating State agency responsible for postsecondary education planning, policy development, programming, and advocacy. The OSHE helps ensure that every resident, regardless of life circumstances, has the opportunity to obtain a high-quality credential that prepares them for life after college.

The OSHE's key functions include program approval and licensure, data collection and reporting, statewide policy development and coordination, and administration of State and federal grant programs. The Secretary or designee serves as a representative on the Higher Education Student Assistance Authority (HESAA) and Educational Facilities Authority (EFA) boards, as well as on several other boards, task forces and commissions. The Secretary makes recommendations on the State's higher education budget and initiatives to advance the State Plan for Higher Education.

The OSHE works to enhance postsecondary student success to fulfill the goals outlined in the State Plan for Higher Education. The OSHE is currently working to achieve 65% postsecondary attainment among working-age adults to meet New Jersey's future workforce needs. Strategies to achieve this goal include closing racial, ethnic and geographic equity gaps, improving college access, affordability and degree completion, and re-engaging greater numbers of adults in postsecondary education. The OSHE's multi-faceted Some College, No Degree re-engagement initiative provides support for adult and nontraditional students to re-enroll and complete their degree. The OSHE administers two federally-funded mental health initiatives: (1) providing free tele-mental health and wellness supports to students, and (2) the creation of community provider partnerships and professional development opportunities for faculty and staff at higher education institutions.

The OSHE administers and coordinates a number of student support programs designed to increase enrollment, persistence and completion among students from low-income and underserved backgrounds. The Educational Opportunity Fund (EOF) program is a nationally-acclaimed model with a 57-year legacy that provides financial, academic and social supports to more than 14,500 academically and economically underserved undergraduate and graduate students at public and private institutions in New Jersey. Other student success programs under the OSHE include College Readiness Now, the NJ Career Accelerator Internship Grant in partnership with the Department of Labor and Workforce Development (DOL), the Governor's School, and the federally-funded GEAR UP (Gaining Early Awareness and Readiness for Undergraduate Programs)/College Bound program, which offers specialized enrichment experiences that encourage and prepare students to continue on to postsecondary education.

The OSHE continues to advance education innovation and position New Jersey's institutions of higher education as vital economic engines through partnerships with the Economic Development Authority (EDA) via ResearchwithNJ and the Educational Facilities Authority (EFA) by administering the State-backed bond programs for capital improvement in higher education. The OSHE also works in collaboration with the DOL, the Department of Education (DOE), the HESAA and the John J. Heldrich Center for Workforce Development at Rutgers University to oversee the State's longitudinal data system.

The Secretary fulfills a number of statutory responsibilities, which include oversight over requests for licensure to operate an institution of Higher Education in the state, requests to change an institution of Higher Education's programmatic mission, requests from institutions to obtain university status, and, in limited circumstances, final decisions on new program proposals. The Secretary also maintains fiscal responsibilities with the authority to conduct comprehensive audits of finance and governance operations at public institutions of higher education, to appoint a State monitor at these institutions, and to conduct fiscal monitoring of public, independent and proprietary institutions of higher education.

The fiscal year 2026 budget recommendation for the OSHE is over \$8.1 million for Direct State Services and \$129.8 million in Grants-in-Aid. For more information about the OSHE's mission, priorities and key initiatives, please visit [www.nj.gov/highereducation](http://www.nj.gov/highereducation).

The mission of the HESAA is to help New Jersey students and their families identify postsecondary educational opportunities, and to assist them in financing the associated costs. The HESAA administers most State-funded student financial aid programs in New Jersey and conducts outreach statewide to promote college affordability and inform students and families about all forms of financial aid. Funding for the Tuition Aid Grants program in fiscal year 2026 is nearly \$485.9 million. The HESAA administers both components of New Jersey's College Promise, which offer eligible students a tuition-free pathway to a bachelor's degree: the Community College Opportunity Grant (CCOG) program provides \$32.5 million in funding and the Garden State Guarantee (GSG) program provides \$84.4 million in funding in fiscal 2026. The CCOG and the GSG each provide last-dollar financial assistance to eligible new students with annual adjusted gross incomes up to \$65,000, while previous College Promise recipients continue their eligibility based on the previous adjusted gross income levels. The HESAA administers the New Jersey Better Education Savings Trust (NJBEST), the State's 529 college savings plan, including the one-time, dollar-for-dollar matching grants of up to \$750 for New Jersey families starting a new NJBEST scholarship program for account beneficiaries attending New Jersey colleges and universities. The HESAA also administers the \$3 million Student Teacher

Stipends program, which provides scholarships to students enrolled in approved educator preparation programs at New Jersey institutions. Additionally, the HESAA oversees various State- and federally-sponsored Loan Redemption Programs including those that benefit Behavioral Healthcare Providers and Nursing Faculty. For further information on the Authority's programs, please visit [www.hesaa.org](http://www.hesaa.org).

### The State Library of New Jersey

The State Library, associated with Thomas Edison State University, collects and maintains library resources and provides information to State government and the general public. Additionally, the Library provides consulting and technical assistance to public, school, institutional and special libraries. The fiscal 2026 budget includes Direct State Services funding of \$5.9 million and State Aid funding of \$8.9 million.

### 30. EDUCATIONAL, CULTURAL, AND INTELLECTUAL DEVELOPMENT

#### 36. HIGHER EDUCATIONAL SERVICES

##### OBJECTIVES

1. To accelerate upward mobility for all New Jerseyans, especially those from underrepresented backgrounds, through equitable pathways to postsecondary and career success.
2. To focus on improving equitable and affordable access and attainment outcomes for postsecondary students, so that every New Jerseyan, regardless of life circumstances, has the opportunity to obtain a high-quality credential that prepares them for lifelong success.
3. To take an equitable approach to all policy decision-making, particularly for those who have been traditionally underserved and marginalized.
4. To build a robust talent pipeline and achieve the State's goal of 65% of New Jersey adults achieving a postsecondary degree, certificate or industry-valued credential.
5. To enhance the economy through innovation, research and workforce development.
6. To collect, analyze and publish data that will enhance our understanding of student and institutional outcomes.
7. To implement the comprehensive State Plan for Higher Education released in March 2019, "Where Opportunity Meets Innovation: A Student-Centered Vision for New Jersey Higher Education" that guides policy and planning for higher education in the State.
8. To ensure effective and efficient stewardship of State and federal funds in compliance with all applicable laws and regulations and promulgate regulations to effectuate New Jersey statutes.

##### PROGRAM CLASSIFICATIONS

80. **Statewide Planning and Coordination for Higher Education.** The Office of the Secretary of Higher Education (OSHE) develops policies designed to increase postsecondary education attainment for New Jersey residents, in alignment with the Governor's economic vision, as outlined in the State Plan for Higher Education.

The OSHE authorizes licenses for in-state and out-of-state institutions of higher education to operate in New Jersey. The office is also responsible for: setting standards for academic degree programs; reviewing and approving branch campus plans; the financial monitoring and assessments of private and public institutions of higher education; authorizing institutions to exceed or change programmatic mission; supporting institutions faced with closure and authorizing university status for eligible institutions. The OSHE also serves as a critical resource for institutions, accrediting agencies, the federal government and the public.

The OSHE has pursued a number of important initiatives as part of a comprehensive approach to the State Plan for Higher Education. In fiscal year 2020, the OSHE launched an equity-based funding rationale to begin moving toward a more equitable approach to funding higher education. In fiscal 2021, the OSHE released deliverables from five working groups that addressed specific charges in the areas of creating on-ramps to college, making college affordable, fostering student success, promoting safe and inclusive learning environments and cultivating research, innovation, and talent. In fiscal 2022, the down payment was made for the Garden State Guarantee (GSG) program and funding was provided to offset a portion of the fringe benefit costs for certain public

research institution employees. In fiscal 2023, the OSHE developed Some College, No Degree, which is a multipronged initiative to support individuals with some college credit, but no degree or credential, to navigate their return to college and persist to completion.

The OSHE works collaboratively with the Higher Education Student Assistance Authority (HESAA) to incorporate best practices in student success to support the Community College Opportunity Grant (CCOG) program and the GSG program, which together form the New Jersey College Promise. The success and sustainability of the New Jersey College Promise programs are critical in improving college affordability and expanding opportunity for more state residents. In fiscal 2024, after the first full year of implementation, the programs transitioned to be fully administered as student financial aid by HESAA.

Since its inception in 1986, the College Bound/GEAR UP (Gaining Early Awareness and Readiness for Undergraduate Programs) program has worked in collaboration with New Jersey colleges and universities to serve middle and high school students with a focus on providing academic and enrichment support services to low and middle-income students to increase college attendance and success. The OSHE was awarded a seven-year federal grant from GEAR UP in 2019, which allows the State to continue to build on its longstanding success and expansion to additional cities.

The OSHE administers the Governor's School program, two intensive summer enrichment programs for academically talented high school students who live on campus and are taught by university faculty. The Governor's School program helps foster students' interests in careers in Science, Technology, Engineering and Math (STEM).

The College Readiness Now (CRN) program, administered by the OSHE, supports collaboration between all 18 community colleges and more than 100 area high schools to identify low-income students who are not "college ready" through the use of diagnostics and feedback from local high schools. Once identified, students are provided intensive academic interventions so that they may avoid having to take remedial courses in college.

The Campus Sexual Assault Commission mandated by P.L.2020, c.104, began convening in March 2021. The Commission has focused their recent efforts on developing a technical assistance framework to assist institutions in administering campus climate surveys. This is a practice now mandated by all institutions. The Commission is also charged with furthering the work of the Task Force on Campus Sexual Assault and the Working Group on Safe and Inclusive Learning Environments. The OSHE is working closely with the Chair and the Commission to ensure all aspects of the statutes are being upheld and institutions of higher education are making meaningful and impactful progress toward creating safer and more inclusive spaces for all students on New Jersey college campuses.

To increase apprenticeship opportunities, the OSHE has launched the Career Accelerator Internship Program in collaboration with the Department of Labor and Workforce Development. The goal is to expand experiential learning opportunities for students, increase the number of employers offering these experiences, and ensure that additional students gain work-based learning experiences. This program furthers both the Governor's Jobs NJ Plan and the Higher Education

State Plan goals by ensuring experiential learning opportunities in New Jersey’s key industries are accessible to undergraduate students from New Jersey’s institutions of higher education.

The OSHE administers over \$1.7 billion allocated under both the Higher Education Capital Financing Grant Programs and the Building Our Future Bond Program, the first State-backed funding for higher education construction in 25 years. Bond projects remain underway, and requests for amendments are reviewed on a rolling basis. Projects are reviewed and administered with assistance from the New Jersey Educational Facilities Authority (NJEFA) and other State agencies. The OSHE also administers \$50 million in Career and Technical Education expansion projects at county colleges in New Jersey as part of the Securing Our Children’s Future Bond Program. In addition, the OSHE, in collaboration with the NJEFA, released \$400 million in capital facilities grant funding from four revolving State-backed bond programs. These capital improvements, supported by awards announced in July 2023, will yield stronger facilities and programming for students and institutions in New Jersey.

The OSHE is responsible to ensure strong fiscal accountability and transparency of independent and public institutions of higher education pursuant to P.L.2021, c.27 and P.L.2023, c.115 respectively, that administers the Financial Assessment and Risk Monitoring (FARM) program. This program serves as a mechanism for the review and reporting of specific financial and non-financial data, empowering informed decision-making to support the long-term financial health and stability of New Jersey higher education. The OSHE also conducts training mandated for chief financial officers at institutions of higher education, defines their duties and stresses the importance of their fiduciary responsibilities.

The New Jersey Statewide Database System (NJSDS), formerly known as the New Jersey Education to Earnings Data System (NJEEDS), is a statewide longitudinal data system administered by the OSHE in partnership with the

New Jersey Departments of Education and Labor and Workforce Development, the Motor Vehicle Commission, HESAA, and Rutgers University. The NJSDS initiative enables the State to make data-informed decisions on policies and practices from pre-K through high school, postsecondary and into the workforce while building the State’s capacity to measure the success of the education-workforce pipeline. The NJSDS allows the State to share and analyze data about the outcomes of college graduates after they enter the workforce, as well as inform K-12 schools about the success of their students in higher education, providing a critical feedback loop for educational instruction and reform.

In partnership with the New Jersey Economic Development Authority (EDA), the OSHE launched a “Research with NJ” database to promote innovation and research, as well as strengthen the collaboration between academia and industry.

**81. Educational Opportunity Fund Programs.** The New Jersey Educational Opportunity Fund (N.J.S.A.18A:71-28 et seq.) is administered by the Office of the Secretary of Higher Education. The Educational Opportunity Fund (EOF) supports educationally and economically disadvantaged students for undergraduate, graduate and professional study at public and independent higher education institutions. Opportunity Grants are awarded to students during the academic year to assist them in meeting college expenses such as fees, books, room, board and transportation. Summer program grants primarily assist incoming students who are making the transition to college. Students have the opportunity to receive grants for winter session, allowing them to take advantage of alternate semesters and shorten their time to degree. Through the Supplementary Education Program Grants, the EOF enables colleges and universities to provide a wide array of campus outreach and support services.

### **30. EDUCATIONAL, CULTURAL, AND INTELLECTUAL DEVELOPMENT**

#### **36. HIGHER EDUCATIONAL SERVICES**

##### **2405. HIGHER EDUCATION STUDENT ASSISTANCE AUTHORITY**

###### **OBJECTIVES**

1. Provide students and families with the financial and informational resources for students to pursue their education beyond high school.
2. Assist in ensuring that access to an affordable college education is maintained for all eligible New Jersey students.
3. Determine eligibility for, and provide efficient delivery of, Tuition Aid Grant (TAG) awards, scholarships and other State student financial aid to qualifying New Jersey students.
4. Issue bonds and borrow money to provide supplemental student loan assistance to New Jersey resident students and their families, as well as to non-resident students attending New Jersey institutions through the New Jersey College Loans to Assist State Students (NJCLASS) program.
5. Administer New Jersey Better Educational Savings Trust (NJBEST), the State's 529 college savings plan.
6. Administer State and federal loan redemption programs.
7. Serve as the lead State agency in providing policy leadership in the area of student financial aid.

###### **PROGRAM CLASSIFICATIONS**

45. **Student Assistance Programs.** The Higher Education Student Assistance Authority (HESAA) is charged with the development of student assistance policy, as well as administering delivery of the State's Tuition Aid Grant (TAG) programs, the New Jersey College Promise including the Community College Opportunity Grant (CCOG) and the Garden State Guarantee (GSG) program, the New Jersey Student Tuition Assistance Reward Scholarship (NJSTARS) programs and all other State grant and scholarship programs; the award and payment systems for the Educational Opportunity Fund (EOF) academic year student grants; issuance and servicing of New Jersey College Loans to Assist State Students (NJCLASS); administration of student loan redemption programs; and administration of the State's 529 college savings plan, New Jersey Better Educational Savings Trust (NJBEST). Student Assistance Programs include all student financial assistance programs for eligible residents of the state that are administered under the Executive Director of HESAA.

TAG awards are made under the New Jersey Higher Education Student Assistance Authority Law, N.J.S.A.18A:71B-18 et seq., to all eligible New Jersey residents attending New Jersey post-secondary institutions, including community colleges, State colleges and universities, independent colleges and universities, and degree-granting proprietary institutions. Award amounts vary depending on the institution attended and a family's ability to pay. Ability

to pay is determined by the New Jersey Eligibility Index (NJEI) using need analysis standards and procedures developed by HESAA and administered based on responses to the Free Application for Federal Student Aid (FAFSA) or the New Jersey Alternative Financial Aid Application for New Jersey Dreamers, as well as information HESAA collects directly from applicants. The TAG program is a broad-based State student assistance program, which coordinates with federal need-based student aid programs. As such, a TAG grant may be awarded in conjunction with a federal award, an EOF grant and/or a State scholarship award.

The Part-Time TAG program for county college students supports eligible, qualified part-time students enrolled at county colleges. Part-time grant awards are pro-rated against the full-time grant awards. The Part-Time TAG for EOF students program provides awards to students who are counseled to attend part-time.

The Community College Opportunity Grant awards made pursuant to P.L.2021, c.26, are part of New Jersey's College Promise. These financial aid grants reduce students' economic obstacles to earning an associate's degree by enabling recent high school graduates and adults who meet the eligibility requirements to attend community college. New Jersey students with annual adjusted gross incomes (AGI) between \$0 and \$65,000 who attend community college will pay a net price of \$0 for tuition and approved fees. The net price takes into account all federal, state, institution, and other grants-in-aid scholarships.

The Garden State Guarantee, part of New Jersey's College Promise, makes obtaining a Bachelor's degree more accessible and affordable by reducing the out-of-pocket costs for students and families. New Jersey residents with annual AGI between \$0 and \$65,000 who attend an in-state, public, four-year institution as a full-time student will pay a net price of \$0 for tuition and mandatory fees (charged to all students) during their third and fourth years (between 60 to 128 credits) of study. The net price takes into account all federal, state, institution, and other grants-in-aid scholarships.

NJSTARS I is a merit-based scholarship, which covers the cost of tuition not otherwise covered by other State and/or federal grants and scholarships, at one of New Jersey's 18 community colleges for eligible New Jersey high school students. The NJSTARS II scholarship provides eligible NJSTARS I recipients who graduate from a county college, meet the GPA requirement, and enroll at any New Jersey TAG participating four-year college or university with an annual award of \$2,500.

The Governor's Urban Scholarship Program provides a merit award of up to \$1,000 annually to students who reside in one of 33 high-need communities in New Jersey. To qualify,

students must be a resident of New Jersey for at least 12 consecutive months prior to high school graduation and upon college enrollment and be in the top 5% of their class, have at least a 3.0 grade point average by the end of their junior year of high school and have a NJEI less than 10,500. In addition, a persistency award of \$500 is provided to students in their final term of the scholarship upon completion of their associate's or baccalaureate degree.

New Jersey World Trade Center Scholarships, which cover the costs of undergraduate education, may be awarded to dependent children or spouses of New Jersey residents who were killed or are presumed dead as a result of the September 11, 2001 terrorist attacks. In addition, the program funds the dependent children and spouses of those who died as a result of injuries received in the attacks or had direct contact with the attack sites and who died as a result of illness caused by exposure to the attack sites. Scholarship amounts are set annually by the World Trade Center Board. Currently, awards of \$6,000 per year are available for full-time study in degree-granting programs in- or out-of-state.

The NJBEST, 529 college savings program, helps families finance the cost of higher education. Interest earned on NJBEST college savings is exempt from both federal and New Jersey income tax when distributions from NJBEST accounts are used to pay tuition and other qualifying costs of college attendance. Pursuant to P.L.2021, c.128, beginning with contributions made in 2022, taxpayers with gross income of \$200,000 or less will receive a New Jersey gross income tax deduction for up to \$10,000 in annual contribution to an NJBEST account. Also pursuant to P.L.2021, c.128, a one-time grant of up to \$750 per beneficiary will be awarded to match dollar-for-dollar the initial deposit into any new NJBEST accounts opened after June 29, 2021, by an account owner with an adjusted gross income between \$0 to \$75,000. In addition, pursuant to P.L.2020, c.81, a one-time NJBEST scholarship is awarded to a student attending college in New Jersey, if the NJBEST account of which the student is the

beneficiary has been open for at least four years and has received the minimum required contribution amounts.

The NJCLASS loan program, N.J.S.A.18A:71C-2 et seq., supplements aid available for New Jersey students and out-of-state students attending a New Jersey institution. Under the NJCLASS loan program, HESAA makes student loans to eligible borrowers from the proceeds of tax-exempt bonds issued by HESAA. HESAA reviews all applications to determine the applicants' ability to repay loans and services loans after disbursement. The interest rate paid by borrowers is set with each bond issue in relation to bond market conditions. The amount borrowed may not exceed a student's estimated cost of attendance minus all other financial assistance received by the student for the academic period for which the loan is intended. In addition, the NJCLASS loan program provides refinancing and consolidation loan options to assist borrowers in managing their overall student loan debt. The NJCLASS Refi+ loan provides 10-year and 15-year fixed rate options for borrowers to refinance private educational loans, federal Parent PLUS loans, or NJCLASS loans at lower interest rates. The NJCLASS Consolidation loan enables borrowers with outstanding NJCLASS debt balances to repay over a longer term with lower monthly payments.

To address workforce shortages in targeted occupations and help professionals in New Jersey repay their student loan debt, HESAA administers several State and federal loan redemption programs.

HESAA provides public information regarding all federal, state and other higher education student assistance programs including financial literacy, FAFSA completion, State financial aid guidance, and supplemental student loan financing options via online and in-person presentations. This public outreach is presented to audiences at middle and high schools, colleges, community-based organizations, and employers throughout the state to better assist students and families in meeting the cost of post-secondary education.

The tuition aid grants shall be used to pay the tuition at a county college established pursuant to N.J.S.18A:64A-1 et seq. Within the limits of available appropriations as determined by the Higher Education Student Assistance Authority, part-time grant awards shall be pro-rated against the full-time grant award for the applicable institutional sector established pursuant to N.J.S.18A:71B-21 as follows: an eligible student enrolled with six to eight credits shall receive one-half of the value of a full-time award and an eligible student enrolled with nine to eleven credits shall receive three-quarters of a full-time award. Students shall apply first for all other forms of federal student assistance grants and scholarships; student eligibility for the Tuition Aid Grant program for part-time enrollment at a county college shall in other respects be determined by the authority in accordance with the criteria established pursuant to N.J.S.18A:71B-20, other than the criterion for full-time enrollment.
- The unexpended balances reappropriated to the Part-Time Tuition Aid Grants for County Colleges account shall be available to fund increases in the number of applicants qualifying for Part-Time Tuition Aid Grants for County Colleges awards, to fund increases in award amounts, and to fund shifts in the distribution of awards that result in an increase in program costs.
- Notwithstanding the provisions of any law or regulation to the contrary, of the amount hereinabove appropriated for Community College Opportunity Grants, the maximum individual grant amount awarded, as established by the Higher Education Student Assistance Authority pursuant to subsection c. of section 4 of P.L.2021, c.26 (C.18A:71B-114), to qualified students with an annual adjusted gross income, as such term is defined in section 1 of P.L.2021, c.26 (C.18A:71B-111). For previous grant recipients with annual adjusted gross income as such term is defined in section 1 of P.L.2021, c.26 (C.18A:71B-111) between \$65,001 and \$80,000, the maximum awards shall not exceed fifty percent of the maximum individual grant amount for students with an annual adjusted gross income between \$0 and \$65,000. For previous grant recipients with annual adjusted gross income as such term is defined in section 1 of P.L.2021, c.26 (C.18A:71B-111) between \$80,001 and \$100,000, the maximum awards shall not exceed thirty-three and one-third percent of the maximum individual grant amount for students with an annual adjusted gross income between \$0 and \$65,000.
- In addition to the amount hereinabove appropriated for Community College Opportunity Grants (CCOG), there are appropriated such amounts as are required to cover the costs of increases in the number of applicants qualifying for CCOG awards or to fund shifts in the distribution of awards that result in an increase in total program costs, subject to the approval of the Director of the Division of Budget and Accounting.
- Notwithstanding the provisions of any law or regulation to the contrary, the unexpended balances at the end of the preceding fiscal year in the Community College Opportunity Grant for County Vocational Schools Pilot account shall be available to provide grants to cover tuition of students enrolled in post-secondary career and technical education courses offered by county vocational schools in partnership with a county college provided that such post-secondary career and technical education courses are awarded credits by a county college as part of a curriculum leading to a degree, and further provided that all available grants and employer support have been exhausted. The maximum individual grant amount awarded, as established by the Higher Education Student Assistance Authority, to previous grant recipients with an annual adjusted gross income between \$65,001 and \$80,000, shall not exceed fifty percent of the maximum individual grant amount for students with an annual adjusted gross income between \$0 and \$65,000; and the maximum individual grant amount awarded, to previous grant recipients with an annual adjusted gross income between \$80,001 and \$100,000, shall not exceed thirty-three and one-third percent of the maximum individual grant amount for students with an annual adjusted gross income between \$0 and \$65,000. The per-student amount shall be reduced proportionally if the amount appropriated is insufficient to provide full funding for all eligible enrolled students.
- Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated for Garden State Guarantee awards is subject to the following conditions: \$84,412,000 is appropriated to the Higher Education Student Assistance Authority to provide grants during the fall 2025 and spring 2026 semesters to eligible New Jersey resident undergraduate students in each student's third and/or fourth year of full-time enrollment at a New Jersey senior public college or university, as full-time enrollment is defined pursuant to N.J.A.C. 9A:9-3.4 and as years three and four are defined by the Higher Education Student Assistance Authority and published on the Authority's public website; provided that (1) the amount of the Garden State Guarantee awards for qualified students with an annual adjusted gross income, as such term is defined in section 1 of P.L.2021, c.26 (C.18A:71B-111), between \$0 and \$65,000 shall ensure that each such student receives sufficient financial aid from a combination of State, federal, institutional, and other grants or scholarships to eliminate the student's net cost of tuition and mandatory fees in both the fall 2025 and spring 2026 semesters; and that (2) the amount of the Garden State Guarantee awards for previous grant recipients with an annual adjusted gross income between \$65,001 and \$80,000, as such term is defined in section 1 of P.L.2021, c.26 (C.18A:71B-111), shall ensure that each such student receives sufficient financial aid from a combination of State, federal, institutional, and other grants or scholarships to pay a remaining net price of no more than \$3,750 in tuition and mandatory fees in either the fall 2025 or spring 2026 semester; and that (3) the amount of the Garden State Guarantee awards for previous grant recipients with an annual adjusted gross income between \$80,001 and \$100,000, as such term is defined in section 1 of P.L.2021, c.26 (C.18A:71B-111), shall ensure that each such student receives sufficient financial aid from a combination of State, federal, institutional, and other grants or scholarships to pay a remaining net price of no more than \$5,000 in tuition and mandatory fees in either the fall 2025 or spring 2026 semester; and provided further that the Higher Education Student Assistance Authority shall establish criteria governing student eligibility and other necessary program elements for Fiscal Year 2026, which shall be published on the Authority's public website; and provided further that

eligibility for each senior public institution's students to receive Garden State Guarantee awards shall be contingent on the institution's maintenance of efforts (as defined below), whereby in academic years 2025–2026 the senior public institution's awards per-student for students enrolled in years three and four, with annual adjusted gross incomes ranging from \$0–\$20,000, \$20,001–\$40,000, \$40,001–\$65,000, \$65,001–\$80,000, and \$80,001–\$100,000, are each within at least five percent of the per-student average amounts of institutional financial aid the institution awarded during academic year 2020–2021 to students in corresponding years of enrollment and annual adjusted gross income ranges (“maintenance of effort”).

In addition to the amount hereinabove appropriated for Garden State Guarantee (GSG) there are appropriated such amounts as are required to cover the costs of increases in the number of applicants qualifying for GSG awards or to fund shifts in the distribution of awards that result in an increase in total program costs, subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated for the Student Teacher Stipends is subject to the following conditions and subject to available funding: (1) a student teacher attending a New Jersey institution that offers an educator preparation program approved by the New Jersey Department of Education and who agrees to complete a semester of full-time clinical field practice in compliance with the terms of the approved educator preparation program shall be eligible for a one-time award not to exceed \$4,500 for the student to use to pay for living expenses while participating in full-time student teaching; (2) the Higher Education Student Assistance Authority shall provide funding to the New Jersey institution at which the eligible student is enrolled to be applied to the student's account, subject to the approval of the Director of the Division of Budget and Accounting; provided, however, that such award shall not displace any other federal, State-, or institution-funded student financial assistance, grants, or scholarships; and (3) no more than five percent of the amount appropriated may be allocated for the administrative costs of the program.

Receipts from voluntary contributions by taxpayers on New Jersey gross income tax returns for the New Jersey World Trade Center Scholarship Fund are appropriated for the purpose of providing scholarships for eligible recipients as defined in P.L.2001, c.442 (C.18A:71B–23.1 et seq.), subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of any law or regulation to the contrary, the amount hereinabove appropriated for the New Jersey Student Tuition Assistance Reward Scholarship program is subject to the following condition: all NJ STARS II awards must be used at institutions of higher education that offer degrees through the baccalaureate level and which participate in the Tuition Aid Grant program pursuant to N.J.A.C. 9A:9–2.1.

Notwithstanding the provisions of any law or regulation to the contrary, the maximum tuition to be used in determining the amount of a NJ STARS award to a student at a county college shall be limited to the in-county tuition charged for students pursuing a full-time course of study at that county college.

Notwithstanding the provisions of subsection b. of section 5 of P.L.2004, c.59 (C.18A:71B–85), none of the funds hereinabove appropriated for the New Jersey Student Tuition Assistance Reward Scholarship program shall be used to fund summer semester NJ STARS scholarship awards.

Notwithstanding the provisions of P.L.2012, c.8 (C.18A:71B–85.6 et al.) or any other law or regulation to the contrary, the amounts hereinabove appropriated for the New Jersey Student Tuition Assistance Reward Scholarship program are subject to the following condition: the maximum New Jersey Student Tuition Assistance Reward Scholarship awards for students first enrolling in the program for academic year 2015–2016 and thereafter who attend a county college that has eliminated general education fees and increased its tuition correspondingly will be reduced by an amount to be calculated and approved by the Director of the Division of Budget and Accounting. The amount of the reduction shall be the three-year average percentage that fees comprised of total tuition and fees as reported to the Higher Education Student Assistance Authority (HESAA) on the institutional budget survey in the three immediate years prior to the elimination of the general education fees.

Notwithstanding the provisions of any law or regulation to the contrary, the amounts hereinabove appropriated for the Teachers Loan Redemption Program shall be available for the redemption of a portion of eligible participants' qualifying student loans. Qualifying student loans shall include government or commercial loans used for the actual costs paid for tuition and reasonable education and living expenses related to obtaining a degree. The Higher Education Student Assistance Authority shall select program participants from among those applicants who submit their applications within the deadlines established by the Authority and meet the eligibility criteria established pursuant to section 2 of P.L.2021, c.384 (C.18A:71C–84), subject to available funds. If appropriated funds are insufficient to provide loan redemptions to all of the applicants who meet the eligibility criteria, the Authority shall accord priority to applicants based on a district's number of unfilled teacher vacancies, an applicant's student loan burden, and an applicant's hiring date. If appropriated funds are insufficient to provide loan redemptions to all of the top-ranked qualified applicants based on the above-listed priorities, the Authority shall select program participants by means of a lottery or other form of random selection from among the highest priority applicants.

Notwithstanding the provisions of any law or regulation to the contrary, of the amount hereinabove appropriated for the Behavioral Healthcare Provider Loan Redemption Program, no more than eight percent of the amount appropriated may be allocated for the administrative costs of the program, subject to the approval of the Director of the Division of Budget and Accounting.

In order to permit and ensure the timely award of student financial aid grants, amounts may be transferred among accounts in Student Assistance Programs, including Survivor Tuition Benefits, subject to the approval of the Director of the Division of Budget and Accounting. Notice of the Director of the Division of Budget and Accounting's approval shall be provided to the Legislative Budget and Finance Officer on the effective date of the approved transfer.

The unexpended balances at the end of the preceding fiscal year in Student Assistance Programs are appropriated to such programs, subject to the approval of the Director of the Division of Budget and Accounting.

Notwithstanding the provisions of any law or regulation to the contrary, the amounts provided hereinabove in Student Assistance Programs shall be available for payment of liabilities applicable to prior fiscal years.

**37. CULTURAL AND INTELLECTUAL DEVELOPMENT SERVICES**

**OBJECTIVES**

1. To increase public participation in the arts, develop audience education in the arts, increase total artistic resources and increase the availability of professional training in the arts.
2. To collect fine art objects (paintings, sculptures, prints, drawings), decorative art objects (furniture, ceramics, metals, glass, etc.), ethnological and archaeological materials, scientific specimens with a New Jersey focus and specimens from other cultures and regions for comparative purposes.
3. To inspire public pride in New Jersey's rich historical heritage among citizens of all ages, occupations and social backgrounds.
4. To support heritage tourism and cultural programs through advertising and promotion of the state's historic and cultural sites.

in the arts; and facilitate the inclusion of art in every public building in New Jersey.

With State and federal resources, the Council's 17 member, Governor-appointed, volunteer board and professional staff carry out a dynamic roster of grant programs and public services, strategically implemented to ensure the arts are accessible to all, and that New Jersey's arts industry is stable, sustainable and of the highest quality. The Council seeks and supports partnerships with various public and private entities in order to extend the reach of resources, and ensure that policies and practices benefit and engage New Jersey's diverse constituencies.

**PROGRAM CLASSIFICATIONS**

05. **Support of the Arts.** The State Council on the Arts (N.J.S.A.52:16A-25) provides grants and services to art organizations and artists in New Jersey whose projects show professional merit, promise and positive public impact.

Since 1966, the Council has been driven by its founding directive to support the arts statewide to: support, encourage and foster public interest in the arts; enlarge public and private resources devoted to the arts; promote freedom of expression

06. **Museum Services.** The Museum's collection, the largest in the state, focuses on fine and decorative arts, cultural history, natural history, archaeology and ethnography. Objects are collected, preserved, researched, and interpreted through exhibitions and educational programs. Exhibitions are long-term (used significantly for teaching school and community groups), and short-term (changing exhibits based on the collections or from other sources and focusing on specific themes, subjects, artists, historical events, etc.). School, family, and community programs, public events, scholarly and popular publications help to interpret the museum collections and subject areas, and a state-of-the-art Planetarium facility provides educational and popular

programming on astronomy, climate change and other scientific topics.

The War Memorial, administered by the State Museum, continues to serve New Jersey’s communities as an important regional venue, hosting inaugurations, public meetings, and providing a grand rental facility with modern amenities for graduations, recitals, weddings, community events and a wide variety of performances presented by non-state organizations.

Commission implements programs to advance public knowledge of the rich and diverse history of New Jersey and the United States. The Commission (N.J.S.A.18A:73-21 et seq.) sponsors programs for the production of educational materials, and conducts conferences, lectures and seminars, including the New Jersey History Symposium, and public activities concerned with significant historical events. It also finances Grants-In-Aid programs for research in New Jersey history, local history projects, teaching projects and the Governor Alfred E. Driscoll Fellowship.

## 70. GOVERNMENT DIRECTION, MANAGEMENT, AND CONTROL

### 74. GENERAL GOVERNMENT SERVICES

#### OBJECTIVES

1. To coordinate, through the Division of Elections, the safe and secure conduct of elections in all 21 of New Jersey's counties. This important work includes building a robust and enduring culture of civic engagement in our communities.
2. To harness New Jersey's rich cultural, historical and artistic assets to foster collaboration, cooperation and cultivation amongst diverse stakeholders in such areas as culture, heritage and the arts. These efforts extend to the State Museum and State Archives.
3. To support the Governor's innovation economy agenda and fulfill its economic development mission by mobilizing the Business Action Center and the Division on Travel and Tourism to bring businesses to New Jersey and strengthen the state economy.
4. To highlight and promote other critical entities under the Department's purview, including the Office of Volunteerism, the Center for Hispanic Policy, Research and Development, and the Office of Faith Based Initiatives.

#### PROGRAM CLASSIFICATIONS

01. **Office of the Secretary of State.** State law provides for the Department of State (N.J.S.A. 52:16-1 et seq.) headed by the Secretary of State. The Office develops mission-critical initiatives with statewide impact. It exercises vital supervisory functions over Department divisions, overseeing all Department operations and communications and is responsible for managing and coordinating the Department's policy review and decision-making processes, serving as a clearinghouse for the submission of all policy documents for the Secretary's review and approval. The Office also strategizes, develops and carries out the implementation of any legislation, regulation or other legal action, and maintains key relationships with the legislative branch and officials at different levels of government.

*New Jersey Cultural Trust.* The New Jersey Cultural Trust, formed by statute in 2000, provides grants to nonprofit arts, history, and humanities organizations, supporting endowments, institutional and financial stability, and facility improvements. Grant programs are supported by the NJ Cultural Trust Fund, a permanent, interest-bearing account funded by annual State appropriation and State matching of private donations to cultural institutions.

*Office of Volunteerism.* The Office of Volunteerism works with volunteer centers, non-profit organizations, businesses, and schools and colleges to train, support and recognize New Jersey's 1.8 million volunteers. The federally-funded

AmeriCorps, Volunteer Generation Fund, and Foster Grandparent programs bring people of all ages and backgrounds together in common cause to support communities, remove barriers, and promote respect. The Office also supports several cultural commissions, including the Dr. Martin Luther King, Jr. Commemorative Commission, the NJ Commission on American Indian Affairs, NJ Hellenic American Heritage Commission, the Governor's Advisory Council on Volunteerism, and the NJ Commission on National and Community Service. The Office is designated by the NJ Office of Emergency Management to coordinate key aspects of emergency and disaster response. These include training, deployment and documentation of spontaneous volunteers serving as part of the State Donations Management Team, and supporting the Mass Care and Shelter teams during emergencies and disasters.

*Office of Faith Based Initiatives.* Within the Office of Programs, the Office of Faith Based Initiatives (OFBI) provides faith- and community-based organizations with greater access to grant opportunities, training, and technical assistance. These partnerships provide the resources needed to address issues that impact socially and economically disenfranchised individuals and families. Through its training initiative, the OFBI works with faith-based leaders in addressing homelessness by supporting their efforts in creating sustainable development projects designed to increase the affordable housing stock as well as create employment opportunity and increase community wealth.

*Center for Hispanic Policy, Research and Development.* The Center for Hispanic Policy, Research and Development (CHPRD) addresses the needs of the Hispanic population in New Jersey, providing financial support and technical assistance to community-based organizations and informing the executive and legislative branches on legislative initiatives that may affect the Hispanic community. The CHPRD promotes a model of community development focused on making real impacts on people's lives while helping community-based organizations achieve greater self-sufficiency.

02. **Business Action Center.** The New Jersey Business Action Center (BAC), is an asset to New Jersey businesses, offering a variety of resources and support to encourage their development and growth. The BAC offers free and confidential assistance to help new and existing businesses as they navigate government processes and permitting requirements. The team helps companies of all sizes save time and money by getting answers from government agencies, directing businesses to appropriate officials, facilitating meetings and follow-ups with regulatory agencies, and

assisting with export promotion. In addition to the Business Advocates, who are experts on all New Jersey state and local services available to help businesses, the BAC also includes a Business Helpline and online chat service (via the Business First Stop website), which allow New Jersey residents to interact one-on-one with customer service representatives and get answers to questions on a wide range of business issues.

For more information, members of the business community may visit <https://business.nj.gov> or call 1-800-Jersey-7.

Units of the Business Action Center include:

*Office of Business Advocacy.* The BAC's Business Advocates are the outreach team to businesses in every town in New Jersey. They maintain relationships with State agencies and stay up-to-date on the latest regulations to help New Jersey businesses understand how State regulations affect them and how to remain compliant. Business Advocates also focus on retention efforts, informing businesses of government programs to facilitate location and growth in New Jersey, including workforce development and financial assistance. Advocates assist clients with real estate site searches and provide expert guidance on State funding for businesses, including workforce recruitment and training grants, energy efficiency incentives and other programs.

*Office of Small Business Advocacy.* Advocacy services are provided for New Jersey small businesses seeking financial assistance; mentoring or technical training; regulatory assistance; emergency preparedness or access-to-recovery services; or site selection services. Financial resources are available to link small businesses and start-ups with a variety of financing options through the New Jersey Economic Development Authority (NJEDA) and community-based microlenders. Small Business Advocates also provide procurement assistance to help small businesses take advantage of important opportunities to bid on government contracts at the local, county, State and federal levels.

*Call Center.* The BAC manages a Business Helpline and accompanying online chat service, which together respond to over 60,000 business inquiries annually in both English and Spanish. The online chat service was added in March of 2020 specifically to handle the increase in questions from businesses struggling during the COVID-19 pandemic. These services provide live assistance on starting a business, incorporating, finding financing and closing a business. In addition, the Business Helpline serves as an important resource in the event of storms and other emergencies, providing crucial information and guidance to help businesses recover.

*Office of Export Promotion.* Companies interested in global business activity can tap into a number of resources available through the BAC's export promotion unit. International Business Advocates help small to mid-size businesses develop a viable export plan. Advocates offer guidance in identifying global business opportunities, helping to locate buyers and potential markets, test local demand and connect businesses with partners for joint ventures and strategic alliances. The export promotion unit can help navigate the complexities of exporting once a company has entered the

global marketplace. The Office of Export Promotion administers State Trade Expansion Program (STEP) grants that allow eligible companies to participate in overseas trade shows and trade missions. The STEP, established by the U.S. Small Business Administration in 2011, provides grants to states on a competitive basis to help increase the number of small businesses that export, and to increase the value of exports for small businesses already exporting. Advocates help locate federal resources available for obtaining payment, providing government-to-government advocacy and understanding foreign custom procedures. The team also provides assistance with regulatory compliance policies and advocates on behalf of companies regarding customs.

*Office for Planning Advocacy.* The Office for Planning Advocacy is dedicated to the promotion and coordination of sound, effective land use policies. This fosters the growth of economically-vibrant, self-sustaining communities, while protecting and preserving the environment. The Office for Planning Advocacy oversees implementation of the State Development and Redevelopment Plan and coordinates activity of the New Jersey State Planning Commission.

*New Jersey Cannabis Training Academy.* The New Jersey Cannabis Training Academy (CTA), launched in fiscal year 2024, is a unique and innovative program to guide qualified applicants seeking any category of license for adult-use recreational cannabis, as defined in statute, including social equity, diversely-owned, economically disadvantaged, and microbusiness. Qualified applicants must either live in, plan to locate their business in, or plan to hire employees from impact zones as defined by law (C. 24:6I-31 et al.). The CTA will provide a no-cost, virtual, on-demand education program with a customized curriculum to deliver business training for entrepreneurs.

*The Division of Travel and Tourism.* The Division of Travel and Tourism, in partnership with the travel industry, develops and promotes New Jersey as a diverse travel destination with a goal to increase revenues, investments and employment, thereby contributing to economic prosperity and quality of life throughout the state.

08. **State Archives.** The State Archives, New Jersey's largest repository and public research center for the study of New Jersey history and genealogy, operates New Jersey's research center for public records of enduring historical value, providing reference and consultative services to thousands of researchers, historians and public record-keepers annually.
25. **Election Management and Coordination.** The Division of Elections coordinates voter registration and is responsible for the canvassing of votes cast for State and federal offices, constitutional amendments and other public questions. Further, the Division provides assistance to county and local election officials for the execution of Vote-By-Mail and early voting initiatives. Implementation of the National Voter Registration Act of 1993, Pub.L. 103-31, which broadened the State's Motor Voter law to allow for registration when applying for unemployment or welfare benefits at State and federal offices, in addition to registration at motor vehicle offices, has increased the number of registered voters in the state to over six million.

**OVERVIEW**

**Mission and Goals**

The DOT’s mission is to provide a world class transportation system that enhances the quality of life for residents and traveling public, achieves consistent progress through focused investment to keep infrastructure in a state of good repair, stimulates and sustains smart development and economic growth, employs the latest technologies to adapt to changing conditions and environments, respects and protects the distinctive and delicate character of the state’s natural resources, and eagerly embraces its role as a customer service organization.

The DOT is a public agency that provides services to a wide variety of constituencies every day. These constituencies include Department staff as well as the general public, county and municipal governments, partner and regulatory agencies, transportation advocacy groups and the transportation industry. Embodied in the Department’s “Commitment to Communities” are core values that define the DOT as an organization. The five core values that define how the DOT will interact with all its constituent communities are: inform, innovate, collaborate, empower and evolve.

In furtherance of the Department’s “Commitment to Communities” is the effort to advance community-centered transportation projects that considers the needs of Asset Limited, Income Constrained, Employed persons (ALICE), and to carry out Department activities with the goal of planning, building, and maintaining a more safe, equitable and sustainable transportation system.

New Jersey’s highway system has the highest volume of roadway and bridge use in the nation, while the network’s size and scope make it one of the more complex systems to maintain in the country. The activity at New Jersey’s ports acts as an economic catalyst for the state, region and nation.

Managing New Jersey’s complex transportation system requires a comprehensive strategy that combines sound capital investment with maintaining a state of good repair. Balanced investments in roads, bridges, public transit, airports and pedestrian and bicycle facilities help stimulate the state’s economy. The DOT is committed to advancing capital construction projects that enhance safety, upgrade aging infrastructure and support new transportation opportunities. The DOT’s operations and maintenance programs preserve these capital investments and help to ensure public safety.

By partnering with New Jersey’s counties and municipalities, the DOT improves the condition of the local roadway networks through the use of State and federal grants. These grants fund street improvements, rehabilitation and safety projects in various New Jersey towns.

In March 2024, the “New Jersey Transportation Trust Fund Authority Act” was reauthorized (P.L.2024, c.7) to support the State’s Capital Transportation Program through fiscal year 2029. The five-year reauthorization provides a total of \$10.367 billion in capital funding for fiscal years 2025 through 2029, supported by bonding authority and anticipated pay-as-you-go appropriations. The bonding authorization was increased by \$3.6 billion, going from \$12 billion through fiscal 2024 to \$15.6 billion through fiscal 2029. The

reauthorization also included a new annual fee on zero-emission vehicles, which began at \$250 in fiscal 2025 and will increase by \$10 annually through fiscal 2029. By law, this fee is solely dedicated to transportation projects.

**Budget Highlights**

The fiscal year 2026 budget for the Department of Transportation, not including the Motor Vehicle Commission, totals \$2.582 billion, an increase of \$487.4 million or 23.3% above the fiscal 2025 adjusted appropriation of \$2.094 billion. The increase is attributable to growth for the dedication of the Corporate Transit Fee to New Jersey Transit, partially offset by decreases in funding for Transportation Trust Fund Authority debt service and various discretionary programs.

The Governor’s Budget includes a recommended capital appropriation of \$1.527 billion for debt service to be provided to the Transportation Trust Fund Authority.

The fiscal 2026 operating subsidy to New Jersey Transit totals \$902.5 million, \$757.5 million above the fiscal 2025 adjusted appropriation, which includes \$815.5 million from the Corporate Transit Fee.

**New Jersey Motor Vehicle Commission**

The fiscal 2026 budget for the New Jersey Motor Vehicle Commission (MVC) totals \$69 million, a decrease of \$16.5 million or 19.3% below the fiscal 2025 adjusted appropriation of \$85.5 million. The decrease is attributed to a \$13.5 million reduction to the Commission’s operating subsidy as a result of the projected dedicated revenue growth generated from a base registration fee increase on heavy, non-commercial passenger vehicles. Additionally, the budget assumes a \$1.5 million reduction for surcharge debt service and the elimination of a one-time \$1.5 million appropriation for mobile driver’s licenses and identification cards.

The mission of the MVC is to promote motor vehicle safety for our citizens by delivering secure, effective and professional motor vehicle services and to achieve public trust and confidence in the quality and integrity of those services.

The MVC, which was created in 2003, is responsible for providing essential motor vehicle services to over 7 million drivers in the state. The MVC focuses on improvements in three critical areas: driver and vehicle safety, customer identification and security, and financial sustainability. In order to enhance the overall experience of those motorists, the MVC has focused on providing the highest level of service in the issuance of driver licenses, vehicle registrations, titles and other related business processes while ensuring that security remains a key component of delivering those services.

The MVC has put into place a strong foundation and will continue with its efforts to review the placement of agencies, advance technological changes for improvements in the issuance of secure documents, as well as customer convenience, and move forward strategically as an organization while continuing to focus on its financial stewardship. Furthermore, the MVC will ensure the safety and security of its documents, employees and the motoring public.

The MVC’s budget will largely be revenue-supported as provided by law.

## 10. PUBLIC SAFETY AND CRIMINAL JUSTICE

### 11. VEHICULAR SAFETY

#### OBJECTIVES

1. To serve the people of New Jersey by delivering secure, effective and professional motor vehicle services and to earn public trust and confidence in the quality and integrity of those services and documents.
2. To identify and regulate drivers and motor vehicles in a manner that deters unlawful and unsafe acts; to ensure excellent service to the public; and, where provided by law and regulation, to collect revenues for the State.
3. To reduce the risk of death, injury and personal and property loss by identifying remedial action required for unsafe, incompetent and unqualified drivers by: taking corrective or remedial action according to statutes, rules, regulations and policies; reviewing violation and accident data received from New Jersey jurisdictions and other states; and reviewing medical fitness data received from individuals, physicians, police departments and the Motor Vehicle Commission (MVC) Medical Review Unit.
4. To limit the amount of vehicle-produced air pollution in accordance with State and federal regulations through the MVC's Enhanced Inspection and Maintenance Program.
5. To ensure equitable and safe transportation practices by motor carriers while providing maximum revenue to the State.

#### PROGRAM CLASSIFICATIONS

01. **Motor Vehicle Services.** The heart of the Motor Vehicle Commission is the Agency Operations group, which includes 40 agencies that provide a host of services to over 7 million

active licensed drivers and 6.7 million registered vehicles including driver's licensing, vehicle titling and registration. The MVC, through Agency Operations, allows customers to register to vote and become an organ donor when conducting a license or non-driver identification card transaction. Supporting the services at these agencies are units for road test operations, commercial mobile compliance, agency compliance and management operations services (MOS). MOS includes special title services, special plate services, government/in-house agency services and database corrections.

The Division of Compliance and Safety ensures that drivers of passenger vehicles, commercial vehicles and motorcycles meet all applicable federal and State regulations and standards. The Division plans and implements projects supporting new legislation, regulatory changes and internal initiatives. The MVC remains fully committed to supporting its driver safety related functions such as driver records, the point system, administrative due process, driver improvement programs and medical fitness.

As the primary point of contact for business and government partners, the Division of Business and Government Operations is responsible for the licensing and monitoring of more than 18,000 business entities, including new and used car dealerships, driving schools, auto body repair shops and Private Inspection Facilities. This Division also administers the International Registration Program, which registers interstate commercial vehicles and the International Fuel Tax Agreement, which standardizes fuel tax reporting for

# TRANSPORTATION

interstate commercial vehicles. The Division contains a third operations area responsible for providing MVC records as allowed under the Driver Privacy Protection Act. By centralizing all business-related functions into one unit, the MVC has improved its level of customer service.

Through the Division of Inspection Services, and in tandem with the Department of Environmental Protection, the MVC oversees a vehicle inspection program, operated by a private vendor, that enforces vehicle inspection standards and conducts emissions testing. Inspection Services personnel also perform federally mandated on-the-road inspections throughout the state. With one of the strictest school bus inspection programs in the country, the MVC performs in-terminal inspections of all New Jersey registered school buses for safety and emission standards on a semi-annual basis along with private bus companies. Finally, in concert with the New Jersey State Police, the MVC performs diesel emission inspections on in-state and out-of-state heavy-duty vehicles as part of its emission program for commercial vehicles.

The Office of Communications ensures that New Jerseyans have access to accurate and useful information on the services and activities of the MVC. In addition to communicating directly with the public and through the media about new services, changes, closures and other important news, the Office manages the “Just Drive” campaign, which educates the public about the dangers of distracted driving. Within the Office of Communications, the Customer Information and Advocacy Unit responds to complaints and inquiries from the

general public and tracks systemic issues to keep the MVC on a path of continuous improvement.

The Division of Security Investigation & Internal Audit (SI&IA) is responsible for the physical security of our employees and customers, and maintains a presence of uniformed guards and/or law enforcement personnel in all 40 agencies. The Division assists in the deterrence and interdiction of fraudulent activities occurring in the agencies, including driver’s license, title and insurance fraud; and leverages facial recognition technology to identify and interdict intra-state driver’s license fraud. Additionally, SI&IA conducts advanced fraudulent document training to key government and commercial stakeholders in validating identity documents and recognizing documented fraud schemes. SI&IA Title Records Unit also provides expert vehicle title information to all 40 agencies.

18. **Security Responsibility.** The MVC oversees the administration of the Motor Vehicle Security Responsibility Law and aids in the administration of the New Jersey Compulsory Motor Vehicle Liability Insurance Law. These laws provide financial protection against motor vehicle accidents by requiring motorists to carry liability insurance, by facilitating compensation for injury or damage caused by uninsured or financially non-compliant motorists, and by removing non-compliant motorists from the road. The cost of administering the Security Responsibility Law is assessed against insurance companies writing automobile insurance in New Jersey.

## OVERVIEW

### Mission and Goals

The mission of the Department of the Treasury is to formulate and manage the State's budget, generate and collect revenues, disburse the appropriations used to operate New Jersey State government, manage the State's physical and financial assets and provide statewide support services to State and local government agencies as well as to the citizens of New Jersey.

The Department has four core mission areas: Revenue Generation (including Cost Management), Asset Management, Services to the Public or other Local Government Entities and Statewide Support Services.

Twelve core divisions focus on achieving the major objectives of these core missions. The Divisions of State Lottery, Taxation and Revenue and Enterprise Services are organized principally for the collection and generation of revenue. The Divisions of Investment, Risk Management, Property Management and Construction, the Office of Public Finance, the Office of Management and Budget and the Unclaimed Property Administration perform the Department's asset management functions. The Division of Pensions and Benefits services specific needs of the public and local government entities. The Divisions of Administration and Purchase and Property provide specific support services on a statewide basis.

The Department of the Treasury includes a number of in-but-not-of boards and agencies that receive funding through the State budget, including: the Economic Development Authority; the Board of Public Utilities; the Office of Information Technology; the Office of Administrative Law; the Casino Control Commission; the Office of the Public Defender; the State Legal Services Office; the Office of the State Comptroller; the Division of Rate Counsel; the State Long-Term Care Ombudsman; the Corrections Ombudsman; the Ombudsman for Individuals with Intellectual or Developmental Disabilities and their Families; the Governor's Council on Substance Use Disorder; the Cannabis Regulatory Commission; the Secure Choice Savings Program; the Maternal and Infant Health Innovation Authority; and various programs funding higher education. A complete description of the goals and objectives of these programs and agencies can be found on their respective budget pages.

### Budget Highlights

The fiscal year 2026 budget for the Department of the Treasury totals \$5.875 billion, a decrease of \$150 million or 2.5% under the fiscal 2025 adjusted appropriation of \$6.025 billion.

### Property Tax Relief

The fiscal 2026 budget provides \$2.432 billion for the ANCHOR Property Tax Relief Program, which provides rebates for eligible homeowners and tenants. In fiscal 2026, homeowners with gross incomes up to \$150,000 will receive a rebate up to \$1,500, and homeowners with gross incomes above \$150,000 and up to \$250,000 will receive a rebate up to \$1,000. Tenants with gross incomes up to \$150,000 will receive a rebate up to \$450. Senior homeowners and tenants receive an additional \$250 rebate.

The Senior and Disabled Citizens' Property Tax Freeze program is funded at \$239.3 million in fiscal 2026. Under this program, eligible senior and disabled homeowners are reimbursed for increases in property taxes compared to their first year of eligibility.

The Stay NJ Property Tax Credit Program is funded at \$600 million, which includes the fiscal 2026 appropriation of \$280 million and the prior year "lockbox" funds of \$320 million, and will provide eligible seniors with a rebate up to fifty percent of the property tax billed, less the combined amount of the ANCHOR Property Tax Relief Program rebate and the Senior and Disabled Citizens' Property Tax Freeze reimbursement, up to the statutory maximum amount allowable for the tax year. The fiscal 2026 program will provide a half-year benefit

up to \$3,250, in accordance with the Stay NJ Task Force recommendations.

In-but-not-of agencies that have significant changes in the fiscal 2026 budget recommendation are described below:

### Economic Development Programs

The New Jersey Economic Development Authority (EDA) is an independent State agency that aims to strengthen New Jersey's economy by retaining and growing businesses through financial assistance, renewing communities and promoting the State's strategic advantages. The fiscal 2026 budget includes \$130.3 million for Economic Development Programs, a decrease of \$138.6 million or 51.5% under the fiscal 2025 adjusted appropriation of \$268.9 million. This decrease is due to the removal of several one-time appropriations, such as NJ Transit Property Acquisition (P.L.2024, c.25) and the CSIT Maternal & Infant Health R&D Grant Program, as well as reductions to other EDA programs, such as the Main Street Recovery Fund.

### Office of Information Technology

The mission of the Office of Information Technology (OIT) is to provide and maintain the information technology infrastructure of the Executive Branch of State government, including all ancillary departments and agencies, and to coordinate and conduct all information technology operations in the Executive Branch of State government. OIT's core mission areas include: establishing IT policy and guidance; maintaining a secure shared IT infrastructure; developing and maintaining enterprise applications; supporting State and local emergency telecommunications services; and delivering enterprise services. The fiscal 2026 budget recommends an appropriation of \$117 million for OIT, a decrease of \$16.7 million or 12.5% under the fiscal 2025 adjusted appropriation of \$133.7 million.

### Higher Education System

The Department of the Treasury budget also contains appropriations supporting certain higher educational services, including aid to independent colleges and universities, aid to county colleges and miscellaneous higher education grant and capital programs.

There are 13 independent institutions eligible to receive funding to provide educational services to New Jersey students through the Independent College and University Assistance Act and participate in other State-funded programs, including facilities bond funds, programs for special populations and student grant, scholarship and loan programs. The total fiscal year 2026 recommendation for independent institutions is \$5.9 million.

The county college system is composed of 18 institutions that provide access to higher education for a broad range of New Jersey residents, many of whom might otherwise be denied the benefit of a college education. The total recommended funding for the county colleges for operating aid, fringe benefits and debt service is \$255.9 million for fiscal 2026. Of this amount, \$115.3 million in Property Tax Relief funds and \$33.8 million in Supplemental Workforce for Basic Skills funds support direct aid to the county colleges.

County colleges are eligible to participate in the Chapter 12 bond program, a \$530 million self-renewing capital funding mechanism specifically for these institutions. Counties or eligible authorities issue bonds for new construction, acquisition, expansion or capital renewal or replacement. The State shares the debt service equally with the counties. In fiscal 2026, Chapter 12 debt service payments by the State are anticipated to be \$39.5 million.

The fiscal 2026 budget continues support for debt service costs associated with four higher education capital programs, including the \$550 million Higher Education Capital Improvement Program, the \$100 million Equipment Leasing Fund, the \$220 million Higher

# TREASURY

Education Facilities Trust Fund and the \$55 million Higher Education Technology Infrastructure Fund. Debt service for these programs in fiscal 2026 is recommended at \$84 million.

30. EDUCATIONAL, CULTURAL, AND INTELLECTUAL DEVELOPMENT

36. HIGHER EDUCATIONAL SERVICES

PROGRAM CLASSIFICATIONS

47. **Support to Independent Institutions.** The Independent College and University Assistance Act (N.J.S.A.18A:72B-15 et seq.) provides for financial assistance to 13 eligible New Jersey independent colleges and universities. This assistance, which is based on the number of New Jersey students enrolled at these institutions, helps to ensure that this valuable sector of the State's system of higher education will continue to provide educational opportunities for New Jersey citizens. Direct aid is provided in support of specific programs at selected independent institutions.

48. **Aid to County Colleges.** The New Jersey system of community colleges was established by statute in 1962 (N.J.S.A.18A:64A-1 et seq.). The first county colleges were opened four years later in Atlantic, Cumberland, Middlesex and Ocean counties. There are 18 institutions: 1 community college in each of 15 counties, a bi-county college serving Gloucester and Cumberland counties, a bi-county college serving Somerset and Hunterdon counties and a bi-county college serving Atlantic and Cape May counties. These institutions enroll approximately 176,000 full-time and part-time credit students, 39,000 non-credit students and 22,000 employees through customized training annually. These institutions provide access to higher education for a broad range of New Jersey residents who would otherwise be denied the advantages associated with a college education.

State aid is appropriated for county college operational costs and is distributed among the institutions by the State in consultation with the Council of County Colleges. The distribution is based on a formula that includes foundation aid, enrollment funding and access funding. Aid in amounts not to exceed one-half of project costs may also be provided for

capital projects under P.L.1971, Chapter 12. In addition, some fringe benefit costs of certain county college employees are paid by the State.

49. **Miscellaneous Higher Education Programs.** Includes programs that assist New Jersey's public and private institutions of higher education in keeping pace with technological changes and responding to industry and workforce needs. The Higher Education Technology Infrastructure Fund (P.L.1997, c.238) provides support for critical technology needs and complements the State's other facility and equipment bond funds. The State pays the entire cost of debt service on Higher Education Technology Infrastructure Fund bonds. The Equipment Leasing Fund Act (P.L.1993, c.136) provides funds to finance the purchase of scientific, engineering, technical, computer, communications and instructional equipment. The State pays three-quarters of the debt service on Equipment Leasing Fund bonds and the colleges pay the remaining share. The Higher Education Facilities Trust Fund Act (P.L.1993, c.375) provides funds to finance the construction, renovation or improvement of instructional, laboratory, communication and research facilities. The State pays the entire cost of debt service on Higher Education Facilities Trust Fund bonds.

The \$550 million Higher Education Capital Improvement Fund (P.L.1999, c.217) is designed to address the issues of renewal, renovation, improvement, expansion, construction and reconstruction of facilities and technology infrastructure. The State pays two-thirds of the debt service for public institutions and one-half of the debt service for independent institutions.

The Educational Facilities Authority issues bonds to finance projects under these programs, with the debt service supported by annual State appropriations.

## 50. ECONOMIC PLANNING, DEVELOPMENT, AND SECURITY

### 51. ECONOMIC PLANNING AND DEVELOPMENT

#### OBJECTIVES

1. To advance job creation and retention incentives to grow businesses in New Jersey.
2. To advance partnerships that provide training and technical assistance to small businesses and entrepreneurs.
3. To support redevelopment projects that revitalize communities and stimulate the economy.
4. To provide loans to local economic development agencies to support their lending and mentoring programs to small and entrepreneurial businesses.

#### PROGRAM CLASSIFICATIONS

38. **Economic Development.** The New Jersey Economic Development Authority (NJEDA) serves as the State's principal agency for driving economic growth. The NJEDA is committed to making New Jersey a national model for inclusive and sustainable economic development and increasing equitable access to opportunity by supporting high-quality job creation, catalyzing investment and fostering vibrant, inclusive community development.

To provide pathways to a stronger and fairer innovation economy, NJEDA administers various programs that support jobs in targeted sectors, including technology, life sciences, clean energy, offshore wind, advanced transportation and logistics, advanced manufacturing, along with film and digital media. Examples of this include the Net Operating Loss

(NOL) Program, which allows companies to monetize their New Jersey losses, and NJ Ignite, which supports rent in collaborative workspaces. NJEDA also administers the Offshore Wind Tax Credit Program and the Film and Digital Media Tax Credit Program which are industry-focused tax credit programs. The Motion Picture and Television Commission, which was transferred to the NJEDA pursuant to P.L.2023, c.97, works with production companies and New Jersey communities to coordinate film production efforts and assists production companies interested in applying for the New Jersey Film & Digital Media Tax Credit Program.

NJEDA also administers various programs that catalyze investment opportunities in the state. Among them are the New Jersey Innovation Evergreen Fund and the Angel Investor Tax Credit Program. The New Jersey Innovation Evergreen Fund is an auction incentive program where corporate partners purchase discounted tax credits that will be matched and managed by professional venture capital firms and invested in start-ups across the state. The Angel Investor Tax Credit Program establishes tax credits based on a qualified investment in a New Jersey emerging technology business.

The Economic Recovery Act, P.L.2020, c.156 as amended by P.L.2023, c.98, created a nine-year, \$14 billion package of tax incentive, financing and grant programs to address the economic impacts of COVID-19. The Economic Recovery Act created the Emerge Program, which provides per-job tax

credits to projects that invest private capital and create new good paying jobs, and the Aspire Program, which is a gap tax credit financing tool to support commercial, mixed use and residential projects, and replaced the Economic Redevelopment and Growth Grant (ERG) program. The ERG program sunset on July 1, 2019 and NJEDA is no longer accepting applications.

A stronger and fairer economy is only made possible through strong and dynamic communities. The Food Security

Planning Grant program competitively awards grants to improve food access and security by leveraging distressed assets in New Jersey’s food desert communities. The Small Business Improvement Grant offers reimbursement for costs associated with making building improvements, and the Small Business Lease Grant provides grants up to 20% of annual lease payments to small businesses and nonprofits entering new or amended market-rate.

public for gas, electric, water, sewer and telephone services. A uniform system of accounts and quarterly and annual financial statements and reports are required for disclosure and to permit intelligent public participation in the process. Filings for both rate and fuel adjustment charge changes are approved only to generate sufficient revenues to cover allowable expenses and an equitable return on investment.

The Board ensures the safety, adequacy and availability of utility services by conducting hearings that result in the promulgation of rules, regulations and orders, and ensures their enforcement through inspections and investigations. Regular tests are conducted by engineering personnel to minimize the possibility of disruptions or discontinuance of essential services. The Division of Reliability and Security was created to ensure the safety and reliability of services as a result of the increase in concerns about terrorism.

- 55. **Regulation of Cable Television.** Assists local jurisdictions in preparing legislation, franchise and consent agreements; regulates operating and competitive practices to ensure reasonable uniformity, reliability, economy and quality of cable television services; cooperates with other states and the federal government in promoting and coordinating beneficial uses of cable television through balanced programming, including local and educational services.
- 56. **Energy Resource Management.** Develops and implements the State's energy policies and associated programs, including funding mechanisms to support efficiency and renewable energy projects, energy education and outreach, energy data

collection and analysis and evaluation of energy use and supply.

- 88. **Energy Assistance Programs.** The Lifeline Credit Program provides combined gas and electric utility credits of up to \$225 a year to New Jersey residents who are eligible for Pharmaceutical Assistance to the Aged and Disabled, Supplemental Security Income (SSI), NJ FamilyCare only, or Lifeline only. The Tenants' Assistance Rebate Program provides a cash payment of up to \$225 a year to tenants who would be eligible for the Lifeline Credit Program except that they do not pay their own utility bills. Persons receiving SSI who are eligible for this program receive monthly utility supplements totaling up to \$225 a year included in their SSI checks.
- 97. **Regulatory Support Services.** Provides economic analysis of conditions affecting regulated utilities to the Board of Public Utilities and its technical divisions, and conducts audits of regulated utilities.
- 99. **Administration and Support Services.** The Division of Administration exercises general policy and administrative control over program operations. administration and security management; content management (image storage, shares and collaboration sites); electronic mail; coordination of local area networks; as well as computer room and disaster recovery operations with the Office of Information Technology.

Finally, the Division administers the State's records management program, which consists of three distinct areas of responsibility: records and forms analysis; records storage center services; and image processing.

19. **Management of State Investments.** Pursuant to N.J.S.A. 52:18A-79 et seq., activities involve investment and reinvestment of State funds, including the various State pension funds, the State of New Jersey Cash Management Fund, and other funds provided by law, together with the control of principal proceeds and interest receipts. Detailed reports of operations are published monthly and an annual report is presented to the Governor and Legislature. Investment functions are provided to other State agencies involving investment accounts. This program is funded primarily from investment funds.
25. **Administration of Casino Gambling.** Pursuant to N.J.S.A. 5:12-1, the Casino Control Commission, along with the Division of Gaming Enforcement within the Department of Law and Public Safety, is responsible for the regulation of legalized casino gaming in New Jersey. The Commission is the independent panel charged with licensing New Jersey's casinos, internet gaming affiliates, and key employees. It oversees appeal matters with regard to decisions of or penalties imposed by the New Jersey Division of Gaming Enforcement and administers other statutory duties, including the certification of casino parking fees and coordinating with re-entry organizations to facilitate employment of re-entering individuals in casino positions as permitted by law. The Commission also reviews records to assure casino hotel room fees and surcharges are accurately reported and remitted to the Division of Taxation.
90. **Unclaimed Property Administration.** Pursuant to N.J.S.A. 46:30B-1 et seq., the Unclaimed Property Administration (UPA) recovers and records abandoned or lost intangible and tangible property. The UPA's goal is to return this property to the rightful owner and/or heirs. The New Jersey Unclaimed Property statute states that property owners never relinquish the right to this property and that the UPA acts as a custodian until the property is returned.

**75. STATE SUBSIDIES AND FINANCIAL AID**

**PROGRAM CLASSIFICATIONS**

- 27. **Other Distributed Taxes.** The State is responsible for the collection of certain insurance taxes and for distribution of a portion of these taxes to the counties in which domestic insurance companies' principal offices were situated on January 1. Amounts are determined by increasing the total amount of the franchise tax on domestic insurance companies received by the county in the prior calendar year by the percentage rate of change of all taxes paid by all insurance companies pursuant to C.54:18A-1 et seq. for the current and the immediately preceding tax year. Legislation requires that distribution be equal to at least the 1981 distribution amount.
- 28. **County Boards of Taxation.** A County Board of Taxation (R.S.54:3-1) is established in each county. Each board consists of five members, except in the counties of Bergen, Camden, Essex, Hudson, Middlesex, Monmouth, Morris, Ocean, Passaic and Union, where there are seven members. The boards hear appeals of taxpayers from local tax assessments, certify tax duplicates to the collectors, determine local tax rates, prepare county abstracts of ratables, promulgate equalization tables, supervise the activities of assessors and perform related work in the enforcement of local property tax laws.
- 29. **Locally Provided Assistance.** Locally Provided Assistance includes State funds provided for the South Jersey Port Corporation and the Highlands Protection Fund. The South Jersey Port Corporation Debt Service Reserve Funds were established to ensure the maintenance of the maximum debt service reserve requirement for any debt obligations issued by the Corporation. The South Jersey Port Corporation Property Tax Reserve Fund was established to make payments in lieu of taxes to compensate counties and municipalities for loss of tax revenue due to the Corporation's acquisition of property. The Highlands Protection Fund was created by the Highlands Water Protection and Planning Act (P.L.2004, c.120) to support new aid and planning grant programs as well as the reinstatement of prior year programs, such as Watershed Moratorium Offset Aid. The planning grant programs provide financial assistance to Highlands municipalities and counties to implement the Highlands Regional Master Plan and promote the goals of the Highlands Act.
- 33. **Homestead Exemptions.** The ANCHOR (Affordable New Jersey Communities for Homeowners and Renters) Property Tax Relief Program provides rebates of up to \$1,750 directly to eligible homeowners and rebates of up to \$700 directly to eligible tenants. To qualify for the program, residents must have owned, or rented, and occupied their principal residence on October 1 of the tax year. They must have paid property taxes on the residence, either directly from property tax assessments or indirectly from rent paid constituting property tax, including tenants of properties that make payments in lieu of taxes, and must also meet certain income and age requirements.  
 The Senior and Disabled Citizens' Property Tax Freeze program provides eligible seniors and citizens with disabilities with a property tax reimbursement to compensate for increases in property taxes. To qualify, residents must meet certain residency and income requirements.  
 The Stay NJ Property Tax Credit Program will provide eligible seniors with a rebate of up to fifty percent of the property tax billed, less the combined amount of the ANCHOR Property Tax Relief Program rebate and the Senior and Disabled Citizens' Property Tax Freeze reimbursement, up to the statutory maximum amount allowable for the tax year. To qualify, residents must meet certain residency and income requirements.
- 34. **Senior/Disabled Citizens' and Veterans' Property Tax Deductions.** The State provides each municipality a direct reimbursement for the \$250 deductions on local property tax bills provided to eligible seniors, citizens with disabilities and veterans, plus an additional 2% for local administrative costs. Payments for the total amount due are made to municipalities based on certifications made annually by the County Boards of Taxation and confirmed by the Director of the Division of Taxation.
- 35. **Police and Firemen's Retirement System.** The State provides funding on behalf of certain local members of the Police and Firemen's Retirement System (PFRS) and the remaining members of the Consolidated Police and Firemen's Pension Fund (CPFPPF). For PFRS, the State supports the additional cost of providing enhanced pension benefits to certain local police and firefighters. CPFPPF is a closed pension fund for local police and firefighters who were appointed prior to 1944. For CPFPPF, the liabilities were shared between the participating municipalities and the State. The municipalities have completed funding their share, and the State continues to satisfy the remaining liability. Funding is also provided for post-retirement medical costs of certain retired local police and fire who retired on a disability retirement or with 25 years of service. The State pays a portion of the member's health premium costs.
- 42. **Energy Tax Receipts.** The Energy Tax Receipts Property Tax Relief Act (C.52:27D-438 et seq.) replaced the previous method of distributing energy tax receipts to municipalities. Separate legislation (P.L.1997, c.162) eliminated the gross receipts and franchise taxes for energy and telecommunications utilities and replaced them with a system centered on the Corporation Business Tax and the Sales and Use Tax. Water and sewer utilities remain subject to the gross receipts and franchise taxes. Municipalities annually receive a State aid distribution from the Energy Tax Receipts Property Tax Relief Aid appropriation.

## 80. SPECIAL GOVERNMENT SERVICES 82. PROTECTION OF CITIZENS’ RIGHTS

### OBJECTIVES

1. To provide for the realization of the constitutional guarantees of counsel in criminal cases for indigent defendants (C.2A:158A-1 et seq.).
2. To provide for the realization of the constitutional guarantees of counsel in child abuse and neglect (N.J.S.A.9:6-8.21 et seq.) and termination of parental rights cases (N.J.S.A.30:4C-15 et seq.).

### PROGRAM CLASSIFICATIONS

06. **Appellate Services to Indigents.** Provides that every adult and juvenile found guilty after trial is permitted a direct appeal from that conviction or adjudication. Most of the referrals to the Appellate section come from trial regions. In addition, direct applications are received for services at the appellate level. The Appellate section files notices of appeal within a court-mandated time period, orders transcripts, and assigns an attorney who then reviews the transcript, interviews defendants, files motions and does the research necessary to identify the problems raised in the transcript. Representation is provided in both State and federal courts.
57. **Trial Services to Indigents.** Represents those indigent defendants who have been charged with indictable offenses and those indigent juveniles whose cases have been assigned to the formal calendar. Public Defender staff (attorneys, investigators and clerical) activity begins with this assignment. The court assignment is received and, after indigency review, the case is opened, interviews are scheduled and an investigation is initiated. The assigned attorney prepares the case and enters into the necessary negotiations, trial and

sentencing proceedings. The enactment of Megan’s Law requires the Public Defender to represent indigent offenders in notification hearings. The Intensive Supervision Program, operated by the Administrative Office of the Courts, is supported by Public Defender staff at probation violation hearings. Pursuant to P.L.2023, c.157, the Public Defender provides legal representation to individuals charged with violation of parole or under consideration for revocation of parole.

58. **Mental Health Advocacy.** Provides constitutionally and statutorily mandated legal representation for indigent persons in initial commitment, periodic review and placement hearings at federal, State, county, general and psychiatric hospitals.
66. **Office of Law Guardian.** Provides representation to all children who are the subject of a civil child abuse and neglect complaint filed pursuant to N.J.S.A.9:6-8.21 et seq., and in termination of parental rights proceedings filed pursuant to N.J.S.A.30:4C-15 et seq.
67. **Office of Parental Representation.** Provides representation to indigent parents charged with a civil child abuse and neglect complaint filed pursuant to N.J.S.A.9:6-8.21 et seq., and in termination of parental rights proceedings filed pursuant to N.J.S.A.30:4C-15 et seq.
99. **Administration and Support Services.** Determines, implements and manages policies and procedures, and assures programming is consistent with those policies. Provides general support and financial management services, including human resources, capital and operations support, management information systems, purchasing, and budget and finance, among others.

81. **State Long-Term Care Ombudsman.** The primary purpose of the Office of the State Long-Term Care Ombudsman (LTCO) is to receive, investigate and resolve complaints concerning long-term care facilities; to initiate actions to secure, preserve and promote the health, safety, welfare and the civil and human rights of residents; and to oversee programs within the Office (C.52:27G-1 et seq.).

The LTCO accomplishes these goals primarily by deploying paid staff and certified volunteers to visit long-term care facilities and directly advocate for residents in situations where abuse, neglect, exploitation, or any violation of resident

rights is suspected. The Office also contributes to the shaping of policy regarding the welfare of New Jersey's long-term care population by making recommendations to other State departments, the Governor and the Legislature. In addition, the LTCO partners with the Department of Human Services to help market and provide advocacy services to the I Choose Home NJ program (Money Follows the Person), which transitions individuals from nursing homes to home and community-based services. Finally, Regional Ethics Committee volunteers work with the LTCO to help residents, family and facility staff respond to ethical dilemmas, including end-of-life decisions and other difficult care issues.

# MISCELLANEOUS COMMISSIONS

## OVERVIEW

### Mission and Goals

Miscellaneous Commissions are agencies with missions that extend beyond a single department within the State. This summary of Miscellaneous Commissions concerns only those that receive State funds. In some instances, they may extend to one or more states and were created as an interstate-federal compact. Compacts take effect upon Congressional approval of identical state laws in each participating state. For example, an interstate commission operates in conjunction with executive departments in several states, with each member state exercising equal power in the decision making process. Such compacts are necessary, as an action taken by one state frequently has ramifications in another state.

While compacts are created to allow commissions to offer a variety of functions, such as the Port Authority of New York and New Jersey, the services of the Miscellaneous Commissions described here are provided in two distinct areas: science and technical programs and governmental review. The Delaware River Basin Commission and the Interstate Environmental Commission are engaged in science and technology programs and governmental review activities are conducted by the Council on Local Mandates.

### Budget Highlights

The fiscal year 2026 budget for Miscellaneous Commissions totals \$994,000, the same level as the fiscal 2025 adjusted appropriation.

### Delaware River Basin Commission

The Commission, created via the Delaware River Basin Compact, operates as a regional agency for the planning, conservation, utilization, development, management and control of water and

related natural resources of the Delaware River Basin. The Compact includes Delaware, New Jersey, New York, the Commonwealth of Pennsylvania and the federal government. More about this agency can be found at: <https://www.nj.gov/drbc/>. The fiscal 2026 recommendation of \$893,000 reflects no change from the fiscal 2025 adjusted appropriation.

### Interstate Environmental Commission

The Commission is an agency created by the states of New Jersey, New York and Connecticut through enabling legislation and a tri-state compact. The Commission plans and coordinates activities designed to enhance environmental quality in waterways common to the three states. More about this agency can be found at: <https://www.iec-nynjct.org/>. The fiscal 2026 recommendation of \$15,000 represents New Jersey's contribution to the Commission's total operating budget in line with that of other participating states, as defined in statute, and reflects no change from the fiscal 2025 adjusted appropriation.

### Council on Local Mandates

The nine-member Council was created by P.L.1996, c.24, to implement a constitutional amendment approved by New Jersey voters in the 1995 general election. The Council reviews complaints filed by counties, municipalities or school districts, or by a county executive or elected mayor, and issues written rulings on whether a statute, rule or regulation constitutes an impermissible, unfunded State mandate. More about this agency can be found at: <https://www.nj.gov/localmandates/>. The fiscal 2026 recommendation of \$86,000 reflects no change from the fiscal 2025 adjusted appropriation.

## 40. COMMUNITY DEVELOPMENT AND ENVIRONMENTAL MANAGEMENT 43. SCIENCE AND TECHNICAL PROGRAMS 9130. INTERSTATE ENVIRONMENTAL COMMISSION

### OBJECTIVES

1. To abate and control water pollution through enforcing water quality regulations.
2. To engage in the coordination of interstate air pollution problems and issues by taking the lead on region-wide air quality issues.
3. To achieve a healthy environment and a productive ecosystem.

### PROGRAM CLASSIFICATIONS

03. **Interstate Environmental Commission.** The Interstate Environmental Commission is a tri-state agency created by the states of New Jersey, New York and Connecticut through enabling legislation and a tri-state compact (N.J.S.A.32:18-1 et seq. and N.J.S.A.32:19-1 et seq.). The Interstate Environmental Commission District extends approximately from Sandy Hook on the New Jersey coast to include all of New York Harbor, north on the Hudson River to the northerly

boundaries of Westchester and Rockland counties, easterly into Long Island Sound to the New Haven, Connecticut shore, to Port Jefferson on the north shore of Long Island, and along the south shore of Long Island extending easterly to Fire Island Inlet. The Commission makes rules, regulations and orders for the abatement of water pollution and may resort to the courts for enforcement. The Commission's program plan for water pollution abatement and other environmental issues is designed to provide assistance in an effective coordinated approach to regional problems. The Commission is also the official planning and coordinating agency for the New Jersey-New York-Connecticut air quality control region, though it does not have air pollution abatement enforcement powers. The Commission conducts studies; undertakes research, testing and development; gathers and disseminates data to other public and private organizations or agencies; does sampling to track sources of air pollutants; and refers complaints to an appropriate agency or agencies of the states, along with data necessary to take corrective action.

## OVERVIEW

### Mission and Goals

The Interdepartmental Accounts provide funds for the cost of certain services that are administered centrally on behalf of all agencies of State government. The budget for Statewide Capital is discussed in the Capital and Debt Service section.

### Budget Highlights

The fiscal year 2026 budget for all Interdepartmental Accounts totals \$7.780 billion, an increase of \$329.7 million or 4.4% above the fiscal 2025 adjusted appropriation of \$7.450 billion.

### Salary Increases

The State of New Jersey currently employs approximately 63,500 full-time workers, the majority of whom are union-represented. In fiscal 2026, \$240.8 million is recommended for Salary Increases and Other Benefits for eligible Executive and Judicial Branch employees, although whether any increases are paid and to whom will be determined by the Salary Advisory Committee.

This section of the budget provides \$11 million for payment of unused accumulated sick leave in accordance with N.J.A.C. 4A:6-3.1 et seq. Employees are permitted to accumulate earned sick days. Upon retirement, retirees are paid for any unused sick days, at 50% of the normal pay rate, up to a maximum amount of \$15,000.

### Employee Contract Status

The State has reached agreements with labor groups representing approximately 99% of unionized employees in the Executive Branch. The agreements reached are for contracts which will expire on June 30, 2027.

The State has reached agreements with labor groups representing 100% of unionized employees in the Judicial Branch which will expire on June 30, 2028.

### Employee Fringe Benefits

For fiscal 2026, a total cost of \$4.970 billion is budgeted to provide fringe benefits to employees of State government, an increase of \$249.3 million, or 5.3% over fiscal 2025. The fiscal 2026 recommendation for higher education's senior public institutions is \$1.608 billion, an increase of \$110.2 million, or 7.4% compared to fiscal 2025. Growth in employee costs in fiscal 2026 is mainly due to increases in health benefit plan expenses. The fiscal 2026 recommendation for Interdepartmental is supplemented by a pension contribution of \$252.8 million of the statewide total of \$1.135 billion from the Lottery Enterprise. During the fiscal 2018 Appropriations Act, P.L.2017, Chapter 98 was enacted which dedicates the State's lottery proceeds to three of the seven defined benefit retirement systems: Public Employees' Retirement System (PERS), Teachers' Pension and Annuity Fund (TPAF), and Police and Firemen's Retirement System (PFRS). Anticipated proceeds as determined by the Lottery Enterprise Contribution Act offset the scheduled State contribution to the defined benefit pension systems in fiscal years 2018 forward.

### Employee Retirement

All State employees, and most employees of counties, municipalities and school districts, are members of one of the seven State retirement systems: Public Employees' Retirement System (PERS), Teachers' Pension and Annuity Fund (TPAF), Police and Firemen's Retirement System (PFRS), Consolidated Police and Firemen's Pension Fund (CPFPPF), State Police Retirement System (SPRS), Judicial Retirement System (JRS) and Prison Officer's Pension Fund (POPF). New Jersey law provides that all defined benefit pension plans are subject to actuarial valuation every year and actuarial experience studies every three years.

The recommended amount for State and higher education pension and retiree expenses in fiscal 2026 totals \$3.631 billion, including

\$850.6 million for post-retirement medical costs. The recommended appropriation for debt service payments on the pension obligation bonds for State and higher education employees is \$211.4 million in fiscal 2026.

### Employee Health Benefits

The projected cost for health benefits, including medical, prescription drug, dental and vision for State and higher education employees in fiscal 2026 is \$2.015 billion, an increase of \$184.8 million over fiscal 2025.

### Employer Payroll Taxes

The fiscal 2026 recommendation of \$719.5 million for employer payroll taxes represents an increase of \$31.7 million over fiscal 2025. The recommendation includes \$688.3 million of employer Social Security taxes, \$26.5 million for Temporary Disability Insurance (TDI) and \$4.7 million for Unemployment Insurance (UI) liability.

### Other Interdepartmental Accounts

The fiscal year 2026 budget totals \$183.9 million, an increase of \$132.9 million or 260% above the fiscal 2025 adjusted appropriation of \$51 million. The increase is attributable to a \$149.4 million addition for arbitrage rebates, partially offset by the elimination of \$1.5 million for employee mileage reimbursements and a one-time \$15 million appropriation for replacement vehicles.

### Aid to Independent Authorities

The fiscal 2026 budget recommends \$105.6 million for Aid to Independent Authorities, a decrease of \$61.4 million from the fiscal 2025 adjusted appropriation of \$167 million. This is primarily attributable to reductions to New Jersey Sports and Exposition Authority (NJSEA) debt service and support for international event improvements and attraction, as well as the elimination of one-time funding for Meadowlands and Monmouth Park Pension Aid. Recommended amounts for Aid to Independent Authorities support operating costs for the NJSEA, debt service on bonds issued by the NJSEA for related programs and projects, the operating costs of the New Jersey Building Authority (NJBA), and the Economic Development Authority (EDA) for the following programs and projects: Municipal Rehabilitation and Economic Recovery, Biomedical Research Bonds, New Jersey Wind Port and the Liberty Science Center.

### Property Rentals

The Property Rentals account supports existing and anticipated leases of offices and other facilities used by State agencies, payments for debt service leases, payments in lieu of property taxes on facilities occupied by State agencies, and debt service payments for fire sprinkler systems and office furnishings. This account also makes debt service payments associated with the State's lease-purchase of facilities acquired or built by the EDA. Funding for Property Rentals in the fiscal 2026 budget totals \$196.2 million, a decrease of \$16.1 million from the fiscal 2025 adjusted appropriation of \$212.3 million. This is inclusive of a \$20 million savings attributable to public notice reform cost efficiencies to be implemented across all departments.

### Insurance and Other Services

The Insurance and Other Services account includes insurance premiums for property insurance, which covers all State owned real estate, contents and boiler machinery, and specialty insurance policies including, but not limited to, volunteer accident insurance, miscellaneous bonds, cyber breach events, and marine and aviation liability/physical damage for vessels and aircraft. This account also provides funds for various claims made against the State, including tort claims for bodily injury or property damage, workers' compensation for State employees, vehicle liability claims for property damage, bodily injury resulting from the operation of State vehicles, and claims arising from the Foster Parents Program and the Medical Malpractice Self-Insurance Fund for Rutgers, Rowan and

University Hospital. Funding for Insurance and Other Services in the fiscal 2026 budget totals \$221.3 million, a decrease of \$349.6 million from the fiscal 2025 adjusted appropriation of \$570.9 million.

## Utilities and Other Services

The Utilities and Other Services account provides funding for the

heating, electrical, security and janitorial needs of various State-owned buildings, primarily in the Capitol Complex, that house the State workforce. Funding for Utilities and Other Services in the fiscal 2026 budget totals \$86.3 million, an increase of \$9.5 million from the fiscal 2025 adjusted appropriation of \$76.8 million.

## 70. GOVERNMENT DIRECTION, MANAGEMENT, AND CONTROL

### 74. GENERAL GOVERNMENT SERVICES

#### OBJECTIVES

1. To provide pooled funds for the costs of certain services that are managed centrally for or on behalf of all agencies of State government.
2. To provide pooled contingency reserve funds to cover certain emergency situations and probable cost increases for various utilities and common services which cannot be predicted with reasonable certainty.
3. To provide pooled funds for salary adjustments and other salary and compensation benefits for State employees.

#### PROGRAM CLASSIFICATIONS

01. **Property Rentals.** Provides for payment by the Department of the Treasury of rents for office space and other premises for State agencies, whose operations are financed from General Fund appropriations. This account also functions as a clearing account for payment of rents for agencies financed from sources other than the General Fund, which amounts are shown as a deduction from the gross rent recommendation.
02. **Insurance and Other Services.** Provides funds to pay all central insurance premium costs and to cover the State's tort liability and its statutory duty to indemnify its employees for adverse judgments in all instances where the State is self-insured. This account also provides the self-insurance funds to pay losses that fall within the deductible areas of property insurance coverage and other insurance claims.
03. **Employee Benefits.** Provides funds for the following classes of employees: (1) Veterans' Act pensioners (R.S. 43:4-1 et seq.); (2) Employees enrolled in the Defined Contribution Retirement Program, including appointed and elected officials, certain Public Employees' Retirement System (PERS) and Teachers' Pension and Annuity Fund (TPAF) participants with wages in excess of the Social Security wage

base limit and certain part-time public employees hired on or after May 21, 2010 (R.S. 43:15C-1 et seq.); (3) Survivors of local volunteer emergency workers (R.S. 43:12-28.1 et seq.); (4) Judicial pensioners (C.43:6-6.4 et seq.); (5) Public Employees (C.43:15A-1 et seq.), whose funds are administered by a board of nine trustees, including municipal and county representation, two appointees of the Governor and the State Treasurer; (6) State Police (C.53:5A-1 et seq.), whose funds are administered by a board of five trustees including two active members of the system, two appointees of the Governor and the State Treasurer, ex-officio; (7) State and local members of the Police and Firemen's Retirement System (C.43:16A-1 et seq.), whose funds are administered by a board of 12 trustees, including six active members, one retired member and five appointees of the Governor (P.L.2018, c.55); and (8) State members of the TPAF employed by the State Department of Education, and by the public institutions of higher education in the State. Funds are also provided for the payments for non-contributory group life insurance and long-term disability insurance covering employees of the State and other participating employers in the retirement system (C.43:15A-1 et seq.); the State's share of Social Security Tax (C.43:22-1 et seq.); Pension Adjustment Act (C.3:3B-1 et seq.) providing accrued increases in benefits from the original retirement date payable to members of State retirement systems; and the employer's share of health benefits charges for State active and retired employees enrolled in the State Health Benefits Program. Under C.52:14-17.25 et seq., the administration of this program was transferred to the Division of Pensions and Benefits.

The Alternate Benefit Program was established (N.J.S.A. 18A:64C-11.1, N.J.S.A. 18A:65-74 and C.18A:66-130) for faculty and staff members at Rutgers, The State University; University Hospital, which was created as part of the New

Jersey Medical and Health Sciences Education Restructuring Act (P.L.2012, c.45); the New Jersey Institute of Technology; the State colleges and universities; and certain professional administrative staff employed by the State. The employer contribution to this retirement program is included in this budget.

The State Employee Health Benefits Program (C.52:14-17.25 et seq.) provides health insurance for active and retired employees and their dependents, including active and retired employees of the State colleges and universities, through a preferred provider organization (PPO), health maintenance organization (HMO) or high-deductible health plans (HDHP). Employee contributions can be dependent on union status, premium cost, employee salary level and/or coverage selected. The employees' labor contract determines whether employees pay a percentage of their salary or a percentage of premium cost, which ranges from 3% to 35% of premium costs. A minimum contribution of at least 1.5% of salary is required. State employees who retire with 25 years of service or on a disability retirement are eligible for State-paid post-retirement medical benefits. Retired employees are required to contribute towards the cost of their health insurance coverage based on the terms of the labor agreement in effect at the time they attained 25 years of service credit or retired on disability. Under the reform legislation, active State employees with less than 20 years of creditable service as of June 28, 2011, will be required to pay a percentage of the premium cost of their State-paid health care coverage or a percentage of their retirement allowance to maintain health coverage after retirement.

The Division of Pensions and Benefits coordinates the funding for payment of temporary disability insurance (TDI) benefits to State employees (C.43:21-46). Temporary cash benefits are provided to eligible State employees covered under federal law to insure against loss of earnings due to non-occupational sickness or accident.

All individuals in the employ of the State of New Jersey or an instrumentality of the State, with respect to service performed after December 31, 1971, for a hospital or institution of higher education, are covered under the Unemployment Compensation Law (R.S. 43:21-1 et seq., as amended by P.L.1971, c.346). Any political subdivision of the State may elect to cover individuals employed by the subdivision in all of the hospitals and institutions of higher education operated by that political subdivision. Benefits paid based on wages earned in the employ of the State or of a political subdivision are financed by payments in lieu of employer contributions to the Unemployment Compensation Fund. All covered State employees are required to contribute each year to the Fund in accordance with the established rate. Benefits under the unemployment compensation program are payable in accordance with the provisions of the Unemployment Compensation Law.

The New Jersey State Prescription Drug Program (C.52:14-17.29) helps meet the cost of drugs prescribed for eligible active and retired employees and their dependents for use outside of hospitals, nursing homes or other institutions. Included are those drugs which, as required by federal law,

can be dispensed only upon a written prescription order by a physician. The program covers the full cost of a prescription drug dispensed by a licensed participating retail pharmacy or mail order service, less a co-payment charge for each eligible prescription and prescription refill. The co-payment charge is dependent upon whether the employee chooses a prescription which is generic, brand-named or a brand-named drug with a generic equivalent. All public employees are required to contribute towards the cost of their prescription drug coverage based on union status, employee salary level and coverage selected. Beginning January 1, 2012, prescription drug coverage for Medicare eligible retirees is through a Medicare Part D plan. The Medicare Prescription Plan provides "wrap-around" coverage or secondary coverage for costs not normally paid by Medicare Part D plans. OVERVIEW

**Mission and Goals**

As an independent branch of government, the New Jersey Judiciary is constitutionally entrusted with the full and fair resolution of disputes to preserve the rule of law and to protect the rights and liberties guaranteed by the Constitution and laws of the United States and the State of New Jersey.

The Administrative Office of the Courts serves as the Judiciary’s central office and provides oversight and administrative services to the courts. The State-level courts are the Supreme Court, the Appellate Division of the Superior Court, the trial divisions of the Superior Court, including Civil, Criminal, Family, General Equity and the Tax Court. The trial courts in the 21 counties are organized into 15 vicinages.

In the court year ending June 30, 2024, the Superior Courts resolved 699,194 cases, including 38,888 criminal cases, 452,714 civil cases and 207,592 cases involving family-related issues.

The Judiciary continues to work collaboratively with the other Branches to create cost savings and efficiencies across State government while still providing needed services and administering justice. The best, recent large-scale example of this successful interbranch partnership continues to be Criminal Justice Reform (CJR). Following the authorizing constitutional amendment and implementing legislation, CJR has now been in place for eight years. Under this effort, the criminal justice system has moved from a money-based system, where pretrial release was based primarily on a defendant’s ability to pay, to one where pretrial release is an objective, risk-based determination. CJR brought about a fundamental transformation in the system, including the elimination of most cash bail, the institution of preventive detention, pretrial release based on a scientifically validated risk assessment, the creation of a pretrial services program, and the setting of strict, speedy indictment and speedy trial dates. The result is a fairer system that allows those who commit minor, nonviolent offenses to have nonmonetary pretrial release options instead of being confined to jail simply because they are unable to afford even low bail amounts, while still ensuring the safety of our communities by detaining those defendants who present the most risk to the community, that is, by detaining those defendants who should be detained. The design and

implementation of CJR was a truly collaborative effort by everyone involved. Stakeholders in the criminal justice system, along with the Judicial, Executive and Legislative Branches, all played critical, interdependent roles in the development and implementation of this initiative. In 2023, the 26-member committee reconvened the Joint Committee on CJR, which issued a package of 31 recommendations, including more consideration of detention for repeat offenders and auto theft defendants and greater opportunities to refer eligible defendants for treatment and services. The Judiciary will continue to engage all stakeholders during the ongoing operation and refinement of CJR. Other ongoing interbranch collaborative efforts include mental health initiative and pilot programs, the Gun Violence Reduction Initiative, and the Judiciary Opportunities for Building Success (JOBS) Program.

The Judiciary is also responsible for the oversight, supervision and technical support of the State’s 500 Municipal Courts, which in fiscal year 2024 handled nearly 5.9 million cases, including over 1.9 million traffic matters, over 3.2 million parking matters, and over 713,000 criminal/quasi-criminal matters. NJMCDirect, an online payment system that allows for the immediate update of municipal court records through the statewide Automated Traffic/Complaint System, provides law enforcement officers and the Motor Vehicle Commission with instant access to current information. NJMCDirect, since its inception through November 2024, has handled over 37.9 million transactions generating \$2.516 billion in online payments. The online payment system provides convenience to the public and efficiency to the municipal courts, as online payments eliminate court handling and processing costs. In January 2022, New Jersey implemented its first regional Municipal Court in Atlantic County, after authorizing legislation was adopted through an interbranch collaborative effort. Other counties are exploring the creation of regional municipal courts. The use of regional municipal courts provide opportunities for significant savings for participating municipalities, while enhancing the delivery of timely and efficient justice.

**Budget Highlights**

The fiscal year 2026 budget for the Judiciary totals \$928.3 million, the same level as the fiscal 2025 adjusted appropriation.

## 10. PUBLIC SAFETY AND CRIMINAL JUSTICE

### 15. JUDICIAL SERVICES

#### OBJECTIVES

1. To determine cases in a fair and expeditious manner, while optimizing access and participation through the use of both in-person and virtual formats.
2. To assist the Chief Justice of the Supreme Court in carrying out the constitutional responsibility vested in that office as the administrative head of the entire New Jersey court system.
3. To ensure the safety and protection of court users, lawyers and staff.
4. To provide the services and direct support necessary for the effective operation of the Judicial system throughout the State.
5. To design interim and long-term strategies to address and resolve unprecedented backlogs brought on by the COVID-19 pandemic.

#### PROGRAM CLASSIFICATIONS

01. **Supreme Court.** The State Supreme Court consists of the Chief Justice and six Associate Justices, appointed by the Governor with the advice and consent of the Senate, and is the State court of final appeal. Pursuant to Article VI, Section V of the New Jersey Constitution, appeals may be taken to the Supreme Court in causes determined by the Appellate Division of the Superior Court involving a question arising under the Constitution of the United States or of this State; in causes in which there is a dissent in the Appellate Division of the Superior Court; in capital matters on certification by the Supreme Court itself to the Superior Court and where provided by rules of the Supreme Court, to the lower courts; and in such other causes as may be provided by law.

Pursuant to Article VI, Section II of the Constitution, the Supreme Court makes rules governing the administration of the courts in the State. The Supreme Court also administers programs that are wholly or partially reimbursable by special fees, such as the New Jersey Lawyers' Fund for Client Protection, Attorney Discipline, Trial Attorney Certification and the Bar Admissions Financial Committee.

02. **Superior Court-Appellate Division.** The Superior Court, pursuant to Article VI, Section III of the Constitution, includes an Appellate Division. The Appellate Division hears

appeals from the Law and Chancery Divisions of the Superior Court, the Tax Court and State administrative agencies.

03. **Civil Courts.** The Civil Courts include the Civil Part of the Law Division of the Superior Court, the General Equity Part of the Chancery Division and the Tax Court.

The Tax Court is a special category within Civil Courts. Pursuant to N.J.S.A.2A:4A, it has jurisdiction to hear tax appeals of taxpayers and taxing districts with regard to assessment, railroad assessments levied by the State, sales taxes, franchise taxes, gross receipts, and all other taxes levied by the State. The Court also hears appeals on homestead rebate denials issued by the Director of the Division of Taxation and appeals by taxing districts from both the equalization tables promulgated by the Director of the Division of Taxation for the distribution of school aid and the equalization tables promulgated by the various counties for the purpose of distributing costs of county government.

04. **Criminal Courts.** The Criminal Part of the Law Division of the Superior Court hears and determines all serious criminal cases following grand jury indictment. It also hears appeals from Municipal Courts.

05. **Family Courts.** The Family Courts hear and determine all matters involving the family, including those matters previously heard by the Matrimonial Part of the Superior Court and the Juvenile and Domestic Relations Courts.

06. **Municipal Courts.** The Municipal Courts are funded directly by the municipalities, but the State supports a unit within the Administrative Office of the Courts to train municipal court judges and clerks, promulgate manuals of procedures, collect data on municipal court operations, conduct studies for the improvement of municipal courts, work with other State agencies on matters involving the municipal courts, and also administer the Automated Traffic System, a program that is wholly reimbursable by special fees.

07. **Probation Services.** Probation Services supervises probation operations statewide, establishes and monitors standards, conducts research and field review of probation programs, coordinates community service programs and operates the Recovery Court program and the Intensive Supervision Program. Additionally, it oversees both the collections of all court-imposed financial obligations and the Child Support Enforcement operations statewide.

08. **Court Reporting.** Court proceedings are recorded verbatim either by court reporters or by sound recordings, as provided by Supreme Court rules.

09. **Public Affairs and Education.** Responsibilities of the units within Public Affairs and Education include coordination and provision of legislative liaison services, research and analysis, as well as Media/Public Information and the Judicial Performance Program.

Responsibilities of the units within Professional and Government Services include coordination and provision of legislative liaison services, coordination of the judicial reappointment process, provision of judicial education opportunities and the Judicial Performance Program, and examination of allegations of judicial misconduct.

The Office of Communications and Community Relations provides information to the public regarding court operations and programs and responds to information requests from the media. The Office also oversees the Judiciary’s community outreach efforts, as well as the translation of court forms.

10. **Information Services.** The Administrative Office of the Courts is responsible for the collection and maintenance of data on court operations, including statistical analysis and reporting, records management and management information systems.

The Information Technology Office (ITO) is responsible for the design and implementation of applications that collect and maintain data on court operations, including statistical analysis and reporting, records management and management

information systems. ITO provides security and network communications for 700 sites throughout the state, including the judiciary data center and cloud instances housing judicial application and data. ITO also works to provide judges and staff with the ability to operate court sessions remotely and oversees electronic filing and recordation systems that have created a virtual environment for staff to collaborate and process administrative and case-related work.

11. **Trial Court Services.** The Office of Trial Court Services provides support to all local Criminal Division judges and staff in areas such as case management and management structure. Trial court administrators serve as the administrative arm for the Assignment Judge, as well as oversee the vicinage finance, accounting, purchasing and human resources functions. The Practice Division of Trial Court Services coordinates the development and implementation of rules and court procedures to support the local civil divisions in each Superior Court.

12. **Management and Administration.** The Office of Management and Administrative Services supports the smooth and timely operation of the New Jersey Court system through the efforts of its three divisions: Human Resources (supporting all aspects of employment, including payroll, benefits, recruitment and labor relations), Financial Services (managing the statewide Judiciary budget, including funds received through federal and State grants), and Support Services (overseeing access, health and safety, facilities management and related services to many courthouses and court offices).

## **Capital Construction and Debt Service**

The Capital Construction portion of this section includes an overview and summary of appropriations and expenditures for the design, construction and repair of major capital assets such as roads, bridges, parks or other physical facilities.

# CAPITAL CONSTRUCTION

## OVERVIEW

### Capital Definition and Objectives

In New Jersey, a capital project is defined to include the acquisition of land, new structures and equipment, and other projects whose cost of land, planning, furnishing and equipment is estimated over \$50,000. Projects or acquisitions under \$50,000 are appropriated in the maintenance accounts in the Direct State Services section of the budget. New Jersey's Capital Program invests in critical short-term and long-term needs that prove to be essential to the citizens of the state. These needs include preservation of existing capital equipment and facilities; investments in the transportation system; improvements to wastewater treatment and water supply facilities; cleanup of hazardous waste sites; preservation of open space; and construction of local schools and higher education facilities. Together, these investments ensure a clean and healthy environment, provide recreational space, enhance mobility and generate economic growth and jobs for New Jersey citizens.

### Capital Planning Process

The Capital budget is largely based on the recommendations of the New

Jersey Commission on Capital Budgeting and Planning. This Commission is composed of members of the Executive Branch, Legislative Branch and the public. It prepares the State's annual Capital Improvement Plan and serves in an advisory role to the Governor and the Legislature. In addition to the Commission, the capital budgeting process includes the Governor's Office, the Office of Management and Budget, the Department of the Treasury and other State departments and agencies.

This budget recommends recurring funding for environmental, transportation and open space capital expenditures, as well as \$59.1 million within Interdepartmental Accounts to support discretionary capital projects at State-owned facilities. Additional information on capital recommendations can be found in the individual departmental detail.

In addition to the amounts budgeted from State funds, the fiscal year 2026 budget proposes the use of \$247.1 million for non-recurring capital investments from the Debt Defeasance and Prevention Fund, including \$25.1 million for projects recommended by the Commission on Capital Budgeting and Planning in February 2025.

# DEBT SERVICE

## OVERVIEW

The State finances certain capital projects through the sale of general obligation bonds that have been approved by voters in a general election. The State must present debt before the voters in a general election under the statutory debt limitations in the State Constitution. The State Constitution provides that the State Legislature shall not create, in any fiscal year, debt or liability of the State, which, together with any previous debts or liabilities, exceeds at any time 1% of total appropriations, unless authorized by law and submitted to the people at a general election for approval by the voters. Since the recommended appropriation level is approximately \$58.1 billion, the debt limit is \$581 million before voter approval must be sought. The current level of outstanding general obligation debt is \$3.8 billion. Therefore, voter approval must be sought in order to authorize additional general obligation bonds. Voter approval is not required for any law authorizing the creation of a debt for a refinancing of all or any portion of the outstanding debts or liabilities of the State, so long as the refinancing

produces a debt service savings.

The Debt Service section of the budget shows the amounts necessary to pay principal and interest due on capital projects financed via general obligation bonds. Appropriations for principal and interest payments on general obligation bonds are recommended at \$529.1 million for fiscal year 2026. This projected level of debt service provides funding for the payment of principal and interest on bonds currently outstanding and reflects the use of the New Jersey Debt Defeasance and Prevention Fund (P.L.2021, c.125) to reduce the cost of existing bonds and avoid the issuance of new bonds.

The Statement of General Long-Term Debt, which appears in the Appendix of this budget, shows the status of the State's general obligation bonded indebtedness as of June 30, 2024. The outstanding debt as of that date was \$3.8 billion, with \$368.2 million of additional long-term debt authorized but unissued.

## **Language Provisions**

This section includes the General Language provisions, which provide certain restrictions on the use of State and Federal Fund appropriations.

## FEDERAL PROVISIONS

Notwithstanding the provisions of any State law or regulation to the contrary, no State agency shall accept or expend federal funds except as appropriated by the Legislature or otherwise provided in this act.

In addition to the federal funds appropriated in this act, there are appropriated the following federal funds, subject to the approval of the Director of the Division of Budget and Accounting: emergency disaster aid funds including grants for preventive measures; pass-through grants to political subdivisions of the State over which the State is not permitted to exercise discretion in the use or distribution of the funds and for which no State matching funds are required; the first \$500,000 of unanticipated grant awards plus an additional 25 percent of any remaining award amount that is greater than \$500,000, and up to 25 percent of increases in previously anticipated grant awards for which no State matching funds are required except, for the purpose of this section, federal funds received by one executive agency that are ultimately expended by another executive agency shall not be considered pass-through grants; federal financial aid funds for students attending post-secondary educational institutions in excess of the amount specifically appropriated; and any such grants intended to prevent threats to homeland security up to 100 percent of previously anticipated or unanticipated grant award amounts for which no State matching funds are required, provided, however, that the Director of the Division of Budget and Accounting shall notify the Legislative Budget and Finance Officer of such grants.

For the purposes of federal funds appropriations, “political subdivisions of the State” means counties, municipalities, school districts, or agencies thereof, regional, county or municipal authorities, or districts other than interstate authorities or districts; “discretion” refers to any action in which an agency may determine either the amount of funds to be allocated or the recipient of the allocation; and “grants” refers to one-time, or time limited awards, which are received pursuant to submission of a grant application in competition with other grant applications.

The unexpended balances at the end of the preceding fiscal year of federal funds are appropriated for the same purposes. The Director of the Division of Budget and Accounting shall inform the Legislative Budget and Finance Officer by November 1 of the current fiscal year of any unexpended balances which are continued.

Officials from the appropriate executive agencies are hereby authorized to take such steps, if any, as may be necessary to qualify for, apply for, receive and expend such federal funds and to make such commitments, representations and other agreements as may be required by the federal government to receive federal funds under federal law authorizing the federal economic stimulus program or any other similar federal law. Furthermore, and notwithstanding the provisions of any other law or regulation to the contrary, officials from the appropriate executive agencies may encumber any of these federal funds appropriated pursuant to this provision prior to entering into any contract, grant or other agreement obligating the federal funds, subject to the approval of the Director of the Division of Budget and Accounting.

In order to permit flexibility in the handling of appropriations and ensure the timely payment of claims to providers of medical services, amounts may be transferred to and from the various items of appropriation within the General Medical Services program classification, and within the federal matching funding, in the Division of Medical Assistance and Health Services and Division of Disability Services in the Department of Human Services, and within the Medical Services for the Aged program classification, and within the federal matching funding, in the Division of Aging Services in the Department of Human Services, subject to the approval of the Director of the Division of Budget and Accounting. Notice thereof shall be provided to the Legislative Budget and Finance Officer on the effective date of the approved transfer.

Information processing services are provided to the County Social Services Agencies (CSSA), the Child Care Resource & Referral (CCR&R) agencies and the County Probation Departments (CPDs) through four major systems. The Electronic Benefits Transfer system (EBT) provides electronic transfer of Work First New Jersey (WFNJ) cash assistance (i.e., Temporary Assistance for Needy Families (TANF) and General Assistance (GA)) and Supplemental Nutrition Assistance Program (SNAP) food assistance benefits for eligible recipients. EBT operational costs are shared equally by the federal government and participating counties. The Family Assistance Management Information System (FAMIS) is the primary eligibility determination system for WFNJ

and SNAP. New Jersey Kids Deserve Support (NJKiDS) is a statewide system for the collection and distribution of child support payments and arrearages. The Online Management of Economic Growth and Achievement (OMEGA) system provides WFNJ case managers with a comprehensive tool for monitoring work activities and providing ongoing or transitional payments. In addition, it provides accessibility to all activity related to a client's background, activity enrollment, support services, cost projections, payments and other important data required to successfully guide a WFNJ participant to gainful employment. Maintenance and operations for the EBT, FAMIS, NJKiDS, and OMEGA systems are funded with State, county and federal resources. The child care

program is supported by three main systems: the NJ Child Care Information System (NJCCIS), the Child Care Automated Resource and Eligibility System (CARES) and eChildCare (eCC). NJCCIS is a portal that supports provider licensing and a provider rating system. The main purpose of CARES is to determine

eligibility and to establish client-provider agreements. The eCC is the automated time, attendance and provider payment system. Maintenance and operations of these systems are funded with State and federal resources.

## CASINO REVENUE FUND

The Casino Revenue Fund (CRF) was established in 1976 with the provision that State revenues derived from casino gambling would be applied solely for the purpose of “providing funding for reductions in property taxes, rental, telephone, gas, electric, and municipal utilities charges of eligible senior citizens and disabled residents of the State in accordance with such formulae as the Legislature shall by law provide.” The Fund’s authorized use was expanded in 1981 to include additional or expanded health services or benefits and transportation services or benefits to eligible senior and disabled residents.

Total CRF resources of \$989.9 million, including \$93,000 from the Casino Simulcasting Fund, are projected for fiscal 2026. This total also includes revenues from internet gaming and sports betting, which were launched in 2013 and 2018, respectively.

Beginning in fiscal 2026, the Governor’s budget proposes an increase in the internet gaming and online sports wagering tax rates from 15 percent and 13 percent, respectively, to 25 percent. This proposal is expected to generate an additional \$402.4 million, including \$322.6 million for the CRF.

The summary and projection table on the following page displays CRF revenues and the programs receiving Fund appropriations over the past several years. Some CRF appropriations have been shifted to the General Fund and Property Tax Relief Fund during that time (see the “General Fund/Property Tax Relief Fund Support” section of the table).

**STATE APPROPRIATIONS LIMITATION ACT  
(CAP Law)**

The State Appropriations Limitation Act (P.L.1990, c.94), commonly called the CAP Law, limits the growth of appropriations in the Direct State Services section of the budget, which encompasses the operations of State government. Exempt from the limitation are Grants-In-Aid; State Aid to counties, municipalities, local school districts and other instrumentalities; federal funds appropriations; Capital Construction; Debt Service; and monies deposited in and expended from the Property Tax Relief Fund, the Casino Control Fund, the Casino Revenue Fund and the Gubernatorial Elections Fund.

The State may exceed the maximum appropriations if a bill making an appropriation is agreed to by a two-thirds vote of all members of each legislative body.

Under the formula in the law, the maximum appropriation for fiscal year 2026 is computed by multiplying the base year appropriation (fiscal 2025) subject to the percentage limitation by the average three-year growth rate in per capita personal income calculated on a fiscal basis. The fiscal 2026 CAP is calculated using 4.14%.

The calculation results in a maximum increase of \$352 million over the fiscal 2025 Adjusted Appropriation, or a maximum appropriation of \$8.854 billion for Direct State Services for fiscal 2026. The Governor’s recommendation for fiscal 2026, for items under the CAP, is \$8.844 billion, or \$10.2 million under the CAP limit. Data used to compute the appropriation limit are presented in the accompanying tables.
