Business Allocation Schedule

General Instructions for Business Allocation Schedule

If business activities are carried on both inside and outside New Jersey, business income may be allocated to determine the amount of income from New Jersey sources. Carrying on business activities outside New Jersey means maintaining, operating or occupying a regular place of business outside New Jersey, such as an office, shop, store, warehouse, factory, agency or other place where the business affairs are systematically and regularly conducted.

The business may not allocate income if it has only an occasional or isolated business transaction outside the State. Likewise, if the business has no regular place of business outside New Jersey, it may not allocate income, even though its representatives travel outside the State for the purposes of performing duties connected with the trade or business, and make sales or perform services for persons or corporations located outside the State.

Be sure that Form NJ-NR-A is firmly attached to Form NJ-1040NR, NJ-1041, or NJ-1065, and that the name and address on the Business Allocation Schedule agree exactly with the name and address on the return to which it is attached.

If two of the fractions are missing, the remaining percentage may be used as the allocation factor. A fraction is not missing merely because its numerator is zero, but is missing if its denominator is zero.
