## OFFICE OF THE DIRECTOR Manual on Assessment Procedures

### Introduction

This booklet describes the forms that shall be used in the remittance of funds generated through the Liquefied Petroleum Gas Education and Safety program. The responsibilities of different parties involved in this process are also outlined. These responsibilities are in accordance with the State Statutes 21:1B and rules adopted by the Office of the Director.

### Explanation

Under State Statutes title 21:1B, Liquefied Petroleum Gases, legislation was passed by the New Jersey State Legislature. This created the Liquefied Petroleum Gas Education and Safety Board (NJ-LPGESB), which recommends to the Commissioner of Community Affairs programs and projects in some of the following areas.

- Consumer safety awareness and employee safety training
- Development of training and education programs
- Public information and education about safety and other issues associated with the use of LP-Gas
- Amendments to the LP-Gas rules and regulations

The forms included in this booklet are to be used to report assessment payments or odorization activities. It is hoped that this information will answer all the questions about this program, however if any further questions about the assessment process or the NJ-LPGESB is needed, please do not hesitate to call or write the Department of Community Affairs, Division of Codes and Standards, Office of the Director, P.O. Box 821, Trenton, NJ 08625 - 0821, Telephone No. 609-984-4257 / Fax No. 609-943-5159.

### Basic Requirements

The Liquefied Petroleum Gas law requires that "the owner of liquefied petroleum gas immediately prior to odorization shall be responsible for the payment of the assessment on the volume of liquefied petroleum gas at the time of import or odorization, whichever is earlier". In most cases, this is the producer (gas plant or refinery), who has sold odorized LP-Gas to their customers (a LP-Gas wholesale or retail marketer) and who in turn takes possession of the odorized product and markets it for sale in New Jersey. Additionally, if unodorized LP-Gas is purchased and taken possession for shipment into New Jersey or for storage and later use or resale, the odorizer is responsible for payment of the assessment at the time it is odorized.

The law created a Board consisting of 11 members: three public members, one member representative from the environmental community, one member representative from a consumer group, five members representative of the liquefied petroleum gas industry and one member of a gas public utility. The law sets the original assessment at 1/15 of 1 cent per gallon of LPG. That fee was increased: to 1/6 of 1 cent (1/15 of a cent plus 1/10 of a cent) or \$.00167 per gallon effective July 1, 2006; by 1/10 of 1 cent to 4/15 or \$.00267 per gallon effective July 1, 2007; by 1/10 of 1 cent to 11/30 or \$.00367 per gallon effective July 1, 2008; by 1/10 of 1 cent to 14/30 or \$.00467 per gallon effective July 1, 2009; and by 1/30 of 1 cent to 1/2 of 1 cent or \$.00500, effective October 6, 2014. Assessment payments are payable to Treasurer State of New Jersey, sent to the Office of the Director and are due no later than the **25<sup>th</sup> of the month following the end of the semiannual period (July 25<sup>th</sup> and January 25<sup>th</sup>).**

## Frequently Asked Questions

### **Q1. Does a marketer who buys unodorized LP-Gas have to pay when he causes it to be odorized?**

A1. Yes. The law places the obligation for payment of the assessment on the owner of the product at the time it is odorized. Thus, if you now own unodorized LP-Gas, either by yourself or by a storage cavern, terminal operator or loading rack, either for your own use or for resale to another, then you must pay the assessment to the BCS.

### **Q2. Does storage cavern, terminal, loading rack operator or exchange cabinet seller have to pay?**

A2. Unless a storage cavern, terminal or loading rack operator takes legal title to the product being stored, transported or loaded, he/she has no obligation to collect or pay the assessment. Storage cavern, terminal, loading rack, and exchange cabinet operators are asked by the OFFICE OF THE DIRECTOR to report the volumes of product which are odorized at their facility to assist the OFFICE OF THE DIRECTOR in its collection process. (See the Odorization Report, Exhibit 6, included in this Manual)

### **Q3. Does a chemical company or other end-user of unodorized LP-Gas have to pay if he sells odorized LP-Gas to someone else?**

A3. Yes. Anyone who owns unodorized LP-Gas and then sells odorized LP-Gas for shipment or resale in New Jersey is responsible for reporting and remitting the assessment on the total volume of NJ shipped LP-Gas at the time it is odorized.

### **Q4. What are the obligations of a marketer who never owns odorized LP-Gas?**

A4. If you always purchase odorized LP-Gas from your supplier, regardless of whether that supplier is a producer, broker, wholesaler or another

marketer, then you have no obligations under the law.

### **Q5. What do I do if I make a mistake and overpay or underpay?**

A5. You should immediately contact the OFFICE OF THE DIRECTOR staff and report the mistake. If the underpayment was unintentional, you will be asked to correct the report and pay the proper assessment. Underpayments are subject to penalty and interest. If you overpaid, you will be asked for an explanation and an accounting and upon verification of the overpayment, the amount will not be refunded but will be credited against future remittance payments as determined by the OFFICE OF THE DIRECTOR.

### **Q6. What are the penalties for failing to pay the assessment?**

A6. The Commissioner of Community Affairs to complete compliance will levy a penalty through the Office of the Director, under Statute 21:1B-5. A successful action for compliance under the law may also require payment by the defendant of the costs incurred by the Commissioner in bringing action.

### **Q7. What are the penalties for late penalty?**

A7. A penalty of 5 percent of the amount due is assessed on all payments received after the due date (due at the end of the semi-annual, and in no case later than the 25<sup>th</sup> of the following month). If payment is not made within 30 days after the due date, interest will accrue at an annual rate of 12 percent (1% per month).

### **Q8. What if all my company does is sell exchange cabinets with filled DOT cylinders for shipment into the state for use by resellers?**

A8. If you are a retailer marketer-buying product from a wholesaler/broker and you pick up the product at an out-of-state terminal or another type of location,

**STATE OF NEW JERSEY  
Department of Community Affairs  
Division of Codes and Standards  
Office of the Director**

at the time you cross into New Jersey, you become the title owner and must register and pay the mandatory assessment fee.

### LP-GAS ODORIZER OR IMPORTER REGISTRATION FORM

Pursuant to N.J.S.A. 21:1B, the below-named odorizer or importer of LP-Gas comes under regulation of this statute and must register annually with the Department of Community Affairs, Division of Codes and Standards, Office of the Director. (Check one of the following)

- Company is a first time odorizer or importer; or
- Company is requesting subsequent annual registration as an odorizer or importer; previously registered on \_\_\_\_\_.  
(Month/Year)

Odorizer shall complete Section I & II. Importers shall complete Section I only. Both the LP-Gas odorizer and importer shall complete this form within 30 days of a change in any of the information reported on this form.
