I. INTRODUCTION

This document has been prepared in accordance with Title XX of the Social Security Act, the Social Services Block Grant (SSBG). It is intended to meet the requirements of the Act, specifically a pre-expenditure report, and to serve as a policy and budget statement regarding the social service programs which are supported by federal SSBG revenues.

The program period reflected in this report will be July 1, 2015 through June 30, 2016 the State Fiscal Year 2016 (SFY'16). In SFY'16, New Jersey plans to spend its entire anticipated allotment of federal funds under the SSBG Program.

New Jersey has streamlined the administration of the federal SSBG grant by realigning the responsibility for these funds from the Department of Human Services (DHS) to the Department of Children and Families. Going forward, DCF will manage the grant reporting and administration for the entire Social Services Block Grant which will be utilized in support of Case Management and other related costs for New Jersey's child protection agency and Family Planning Services for New Jersey's Department of Health (DOH).

- Preventing or remedying neglect, preventing abuse or exploitation of children and adults unable to protect their own interests, and/or preserving, rehabilitating or reuniting families
- Preventing or reducing inappropriate institutional care by providing for community-based care, home-based care, or other forms of less intensive care
- Enabling people to secure referral or admission for institutional care when other forms of care are not appropriate, or providing services to individuals in institutions

The New Jersey Department of Health family planning services program serve:

- A. Low income, underinsured and uninsured women, men and adolescents of New Jersey

The individuals to be served and eligible for services, as indicated above, are low income, underinsured and uninsured women, men and adolescents.

3. Types of Activities to be supported

Case Management Services provide an array of social services from general case management to adoption services. These services are designed to assist individuals

and families in assessing their needs, making appropriate referrals and providing services to help manage and enhance their quality of life. This area also includes initial response services that provide a timely response and efficient management of services to those who are in need of protection, emergency services, and/or other services that may be required to restore or maintain the well being of individuals. Services may be provided to individuals who voluntarily request services; and to all those who are reported to be in need of protection as a result of abuse, neglect, abandonment, or exploitation regardless of whether the request is voluntary.

Family Planning Services include, but are not limited to, assisting/counseling patients with developing a reproductive life plan, preventative reproductive care; HIV/AIDS, sexually transmitted testing and treatment; cancer screening including cervical, prostate and breast cancer.

A. Method of Delivery and Geographic Area where Services are to be Provided:

- As part of its overall child reform efforts, New Jersey continues to invest in the State Central Registry, the statewide child protection hotline that operates 24-hours a day, 7-days a week, taking calls from the public regarding children's safety, and which represents a gateway for providing services. The hotline also receives calls expressing concern about the well-being of families and requesting family social services. Services are then coordinated by the child protection agency's local offices in each of the 21 counties throughout the State of New Jersey
- For the New Jersey Department of Health, one agency provides oversight of the entire family planning services program delivery system. The agency which receives SSBG funding from Department Of Health is the New Jersey Family Planning League. There is a well-established partnership between the Department Of Health and the New Jersey Family Planning League to ensure the clinics provide services throughout the 21 counties of New Jersey.
